This document constitutes the Final Terms of the Warrants described herein for the purposes of Article 5.4 of the Prospectus Directive (the "**Base Prospectus**") and must be read in conjunction with the Base Prospectus. Full information on the Issuer, the Guarantor and the offer of the Warrants is only available on the basis of the combination of these Final Terms and the Base Prospectus. The Base Prospectus has been published on the websites of the Irish Stock Exchange (www.ise.ie), the Central Bank of Ireland (www.centralbank.ie) and the Issuer (<http://www.aboutsantander.co.uk/investors/debt-investors/abbey-omnibus-programme/prospectus-documents.aspx>). The Base Prospectus is also available for viewing during normal business hours at the specified office of Citibank, N.A., London Branch acting as Principal Warrant Agent and copies may be obtained from the registered office of the Issuer and the Guarantor. Potential Exercise Date / Scheduled Observation Date	Autocallable Settlement Date	Autocallable Amount per Calculation Amount

If Barrier Condition Early is not satisfied, the Cash Settlement per Warrant payable following due exercise of each Warrant will be calculated in accordance with the provisions of paragraph 15 of Part A to these Final Terms. Defined terms used in the following illustrations have the meaning ascribed in Part A to these Final Terms.

The following table sets out illustrative values of the Cash Settlement Amount per Calculation Amount assuming different percentage values for Asset Final Performance.

Asset Final Performance percentage	Cash Settlement Amount per Calculation Amount
200%	£1.51
150%	£1.51
100%	£1.51
90%	£1.51
75%	£1.51

50%	£0.50
40%	£0.40
25%	£0.25
10%	£0.10

SECTION B – ISSUER AND GUARANTOR

Element	
B.1	<p>Legal and commercial name of the Issuer Abbey National Treasury Services plc</p>
B.2	<p>Domicile / legal form / legislation / country of incorporation The Issuer is a public limited company incorporated and domiciled in England and Wales, registered under the Companies Act 1985.</p>
B.4b	<p>Trend information A number of mature economies are implementing austerity measures in order to reduce their deficits and public debt. While there is some consensus that this may help to resolve the sovereign and banking crisis in the medium term, in the short term it is limiting growth, increasing unemployment and restricting taxation revenues.</p> <p>Furthermore, consumer and corporate banking activity, in particular loan demand and ancillary services, remains subdued in the current economic environment. Structural market conditions, primarily low interest rates and increased medium term funding costs, have negatively impacted operating income of financial service providers including that of the Group. Financial services providers face increasingly stringent and costly regulatory and supervisory requirements, particularly in the areas of capital and liquidity management, the conduct of business, the structure of operations and the integrity of financial services delivery. Increased government intervention and control over financial institutions, together with measures to reduce systemic risk, may significantly impact the competitive landscape.</p>
B.5	<p>Description of the Group The Issuer and its subsidiaries comprise the Issuer's immediate group (the "ANTS Group"). The Issuer is a wholly owned subsidiary of Santander UK plc (the "Guarantor") and, along with the Guarantor's other subsidiaries, forms part of the Santander UK group (the "Santander UK Group"). The Guarantor is a subsidiary of Banco Santander, S.A. which is the ultimate parent company. The Guarantor and its subsidiaries, along with the other subsidiaries of Banco Santander, S.A., form part of the Banco Santander S.A. group (the "Santander Group").</p>
B.9	<p>Profit forecast or estimate Not Applicable - No profit forecasts or estimates have been made in the Base Prospectus.</p>
B.10	<p>Audit report qualifications Not Applicable - No qualifications are contained in any audit report included in the Base Prospectus.</p>

SECTION D – RISKS

Element	
D.2	<p>Key risks regarding the issuer and the guarantor</p> <p>In purchasing Securities, investors assume the risk that the Issuer and the Guarantor may become insolvent or otherwise be unable to make all payments due in respect of the Securities. There are a wide range of factors which individually or together could result in the Issuer and the Guarantor becoming unable to make all payments due in respect of the Securities. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer and the Guarantor may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the Issuer's and the Guarantor's control. However, the Issuer and the Guarantor have identified in the Base Prospectus a number of factors which could materially adversely affect their businesses and ability to make payments due under the Securities and the Guarantee, and they consider that the risks identified in the Base Prospectus include all the principal risks of an investment in the Securities. These include:</p> <ul style="list-style-type: none"> • the Group's operating results, financial condition and prospects may be materially impacted by economic conditions in the UK as well as regulatory capital and liquidity requirements imposed on the Issuer and the Guarantor; • the Group's operating results, financial condition and prospects may be negatively affected by conditions in global financial markets; • the Group is currently operating in challenging market conditions, characterised by relatively short periods of volatility and extended periods of subdued market activity. Domestic or international market factors that reduce activity levels could significantly reduce the Group's revenues; • any reduction in the credit rating assigned to the Group, any member of the Group or to any Group debt securities would be likely to increase the Group's cost of funding, require additional collateral to be placed and adversely affect its interest margins and liquidity position; • the Group operates in a highly regulated environment that imposes costs and significant compliance requirements. Changes in regulations may increase the cost and complexity of doing business, or may disadvantage the Group relative to its competitors. The failure to comply with regulations could subject the Group to sanctions, force it to cease providing certain services, or oblige it to change the scope or nature of its operations; • customers and counterparties that owe the Group money, securities or other assets may default on their obligations to the Group due to bankruptcy, lack of liquidity, operational failure or other reasons; and • the Group's future success depends to a significant degree upon the continued contributions of its key personnel, its ability to recruit, train, retain and motivate personnel, and to ensure that employment contract terms are appropriate.
D.3	Key risks regarding the Securities

	<ul style="list-style-type: none"> • There are also risks associated with specified types of Securities and with the Securities and the markets generally, including that, unlike a bank deposit, the Securities are not protected by the Financial Services Compensation Scheme ("FSCS") or other government protection scheme. As a result, neither the FSCS nor any other government will pay compensation to an investor in the Securities upon the failure of the Issuer and/or the Guarantor. If the Issuer and/or the Guarantor go out of business or become insolvent, holders of the Securities may lose all or part of their investment in the Securities; • investors in Securities may lose up to the entire value of their investment in the Securities as a result of the occurrence of any of (a) the insolvency of either the Issuer and/or the Guarantor, (b) investors seeking to sell the Securities prior to their scheduled termination, (c) the relevant Securities being subject to certain adjustments in accordance with the terms and conditions of the Securities, and (d) amounts payable being subject to deductions for taxes and/or expenses; • the Securities represent direct, unconditional, unsecured and unsubordinated obligations of both the Issuer and the Guarantor and rank equally without any preference among themselves with all other present and future direct, unconditional, unsecured and unsubordinated obligations of the Issuer and Guarantor; • the market value and the amount payable on termination of the Securities may be adversely affected by a number of factors, and the price at which a holder of Securities may be able to sell Securities prior to termination may be at a substantial discount to the market value of such Securities on the Issue Date. A holder of such Securities may suffer a loss of some or up to all of the entire amount invested on termination; • the Securities will have no established trading market when issued, and one may never develop, or the Securities may be illiquid. In such case, investors may not be able to sell their Securities easily or at favourable prices; • the Securities will be settled by the Issuer through one or more clearing systems and agents. In addition investors may hold Securities through one or more intermediaries. As a result it may be necessary to enforce rights under the Securities through such indirect holding structure and delays and settlement risk may exist as a result. <p>Additionally, the risks relating to investment in the Securities depend on their features and may include, inter alia, risks relating to (but not limited to) operational/business risk, credit risk, liquidity risk, interest rate risk, regulatory risk, reputational risk, competition risk, unsecured obligations, market risk, hedging and potential conflicts of interest, tax liabilities, expenses and taxation, third party risk, structural risks relating to particular Securities, including with respect to certain underlyings, no claim against the reference item(s) to which the Securities relate, exchange rate risks, settlement disruption, illegality and cancellation, time lag after redemption or exercise, settlement risk, possible illiquidity of Securities, equity risk, currency risk, underlying volatility risk, fund risk, failure to deliver due to illiquidity, inflation risk, modification, meetings, market disruption, optional redemption (in the case of N&C Securities), a requirement to hold a minimum amount of Securities, factors affecting the value and trading price of Warrants, minimum exercise amount (in the case of Warrants), limitations on exercise (in the case of Warrants), transfer restrictions and exchange listing and legal regulation risk.</p>
<p>D.6</p>	<p>Risk Warning</p> <p>See D3 above. In addition:</p> <ul style="list-style-type: none"> • investors in Securities may lose up to the entire value of their investment in the Securities as a result of the terms of the relevant Securities where invested amounts are subject to the performance of variable benchmarks such as equities, indices, fixed income benchmarks and exchange traded funds; • the Issue Price of the Securities may be more than the market value of such Securities as at the Issue Date, and the price of the Securities in secondary market transactions; • if the relevant Securities include leverage, potential holders of such Securities should note that these Securities

	<p>will involve a higher level of risk, and that whenever there are losses such losses may be higher than those of a similar security which is not leveraged. Investors should therefore only invest in leveraged Securities if they fully understand the effects of leverage; and</p> <ul style="list-style-type: none"> warrants may expire worthless. In addition, where "Automatic Exercise" is not specified in the applicable Final Terms, if Warrants are not exercised by the investor on the applicable exercise date, an investor's investment in the Warrants will expire worthless.

Element	
E.2b	<p>Use of proceeds</p> <p>The net proceeds from each issue of Securities will be applied by the Issuer for its general corporate purposes.
