Total	27,932	100.00	2,642,953,083	100.00

*The FCA published guidance on the 20 March 2020 on how they expect mortgage lenders and administrators to treat customers fairly during the coronavirus pandemic. Mortgage borrowers impacted financially by the coronavirus pandemic should be offered a payment holiday for up to three months

Pursuant to Santander UK plc.'s obligations as Servicer under Principle 6 (A firm must pay due regard to the interests of its customers and treat them fairly) of the FCA Handbook and Mortgage Conduct of Business rule 2.5A.1R (A firm must act honestly, fairly and professionally in accordance with the best interests of its customer) will follow this guidance. Where borrowers have made a successful application, they will not be considered to be in a payment shortfall and therefore any such missed payments will not be considered as arrears for the purposes of investor reporting. Neither will they be reported as having been subject to any form of restructuring or forbearance.

This stratification table is being made available to disclose the successful applications for what the Servicer is referring to as an "extraordinary payment holiday"

**An account may have more than one loan part therefore the total number of accounts will not be equal to the number of loans reported in other stratification tables

TRIGGER EVENTS	
Asset Amount debited to AAA principal deficiency ledger	None
Non Asset Insolvency event occurs in relation to Seller. Sellers role as servicer terminated & new servicer is not appointed within 60 days. The then current Seller Share is less than the Minimum Seller Share for two consecutive Trust Calculation Dates.	None None None
The aggregate outstanding principal balance of loans in the Trust is less than the required loan balance on two consecutive Trust Calculation Dates.	None
Full details of all trigger events can be found within the Langton Securities (2011-2) plc offering circular	

Notes

- 1 Current value of mortgages**
Total principal amount outstanding
- 2 Funding Share**
The percentage funding share is calculated net of accrued interest.
- 3 Remaining term**
This is the remaining term of the loan at the report date in months .
- 4 Product breakdown**
Bank of England Base Rate Tracker Loans includes loans issued at a discount or premium to base rate.
All loans in the Discount category are linked to SVR.
- 5 Payment Type**
Most loans that are not fully repayment mortgages comprise an interest only portion, on which there are no scheduled principal repayments and a repayment portion for which there is a scheduled amortisation.
- 6 Loan to Value (LTV) at Last Valuation**
Prior to 2008, further advances may be made on existing loans based on the indexed LTV without carrying out a formal valuation. This occasionally gives rise to the unindexed LTV recording an unrealistically high LTV. Indexed and unindexed LTVs include all further advances on a loan - but exclude flexible drawdown reservoir
- 7 Defaults**
For the purposes of the Bank of England Market Notice dated 30th November 2010 "defaults" is defined as properties having been taken into possession.
- 8 1 month CPR**
On any trust calculation date, the total principal receipts received during the immediately preceding trust calculation period divided by the aggregate current balance of the loans comprised in the trust property calculated on the previous trust calculation date in respect of the previous trust calculation period.
- 9 1 month annualised CPR**
Calculated as $1 - ((1 - R) ^{12})$ where R is (i) total principal receipts received scheduled and unscheduled during the relevant period, divided by (ii) the aggregate outstanding principal balance of the loans in the expected portfolio as at the start of that period.
- 10 3 month average CPR**
The total principal receipts received during the immediately preceding trust calculation period for the last 3 months divided by the average aggregate current balance of the last 3 months of the loans comprised in the trust property.
- 11 3 month annualised CPR**
Calculated as $1 - ((1 - R) ^{4})$ where R is (i) total principal receipts received scheduled and unscheduled during the relevant period, divided by (ii) the average aggregate outstanding principal balance over the last 3 months of the loans in the expected portfolio as at the start of that period.
- 12 12 month average CPR**
The total principal receipts received during the immediately preceding trust calculation period for the last 12 months divided by the average aggregate current balance of the last 12 months of the loans comprised in the trust property.
- 13 Calculation of Minimum Seller Share (as per page 3)**
X = Current balance of loans in the trust property multiplied by 4.2%
Y = Flexible draw capacity (Flexible drawdown reservoir of live sub-accounts), multiplied by 8%, multiplied by 3
Z = Balance of Flexible redraws and further advances covered by CCA
- 14 Calculation of Excess Spread**
Excess spread is calculated by dividing the sum of all excess cash available for payments below each of the issuer's reserve funds in their respective waterfalls by the sum of all intercompany loans outstanding
