What types of securities does this document relate to?

Santander UK plc ("**Santander UK**" and the "**Issuer**") may from time to time issue notes (the "**Notes**") and redeemable certificates (the "**Certificates**" and, together with the Notes, the "**N&C Securities**"), denominated in any currency as agreed between the Issuer and the relevant Dealer (as defined below) under this Notes and Certificates Programme (the "**Programme**").

Who has approved this document?

This base prospectus (the "**Base Prospectus**") has been approved by the Financial Conduct Authority (the "**FCA**") as competent authority under Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**") (the "**UK Prospectus Regulation**"). The FCA only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the UK Prospectus Regulation. Such approval should not be considered as an endorsement of the Issuer or of the quality of the N&C Securities that are the subject of this Base Prospectus. Investors should make their own assessment as to the suitability of investing in the N&C Securities.

In respect of which N&C Securities has this document been approved?

This Base Prospectus comprises a base prospectus in respect of all N&C Securities other than Exempt N&C Securities (as described below) issued under the Programme for the purposes of Article 8 of the UK Prospectus Regulation.

The requirement to publish a prospectus under the Financial Services and Markets Act 2000 ("**FSMA**") only applies to N&C Securities that are to be admitted to trading on a UK regulated market as defined in Regulation (EU) No 600/2014 on markets in financial instruments as it forms part of domestic law by virtue of the EUWA ("**UK MiFIR**") and/or offered to the public in the UK other than in circumstances where an exemption is available under section 86 of the FSMA.

The Issuer may issue N&C Securities for which no prospectus is required to be published under FSMA or the UK Prospectus Regulation ("**Exempt N&C Securities**") under the Programme Memorandum contained herein on pages 245 to 284. **The FCA has neither approved nor reviewed information in the Programme Memorandum in connection with Exempt N&C Securities.**

Where may the N&C Securities issued under the Base Prospectus be listed?

Application has been made to the FCA for N&C Securities which are not Exempt N&C Securities ("**Non-Exempt N&C Securities**") issued under the Programme during the period of 12 months from the date of this Base Prospectus to be admitted to the official list of the FCA (the "**Official List**") and to the London Stock Exchange plc (the "**London Stock Exchange**") for such N&C Securities to be admitted to trading on the London Stock Exchange's Main Market.

References in this Base Prospectus to N&C Securities being "**listed**" (and all related references) shall mean that such N&C Securities have been admitted to trading on the London Stock Exchange's Main Market and have been admitted to the Official List. The London Stock Exchange's Main Market is a UK regulated market for the purposes of UK MiFIR.

For how long is this Base Prospectus valid?

This Base Prospectus (as supplemented as at the relevant time, if applicable) is valid for 12 months from its date in relation to N&C Securities which are to be admitted to trading on a regulated market in the UK and/or offered to the public in the UK other than in circumstances where an exemption is available under Section 86 of the FSMA.

The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

What information is contained in the Base Prospectus?

The Base Prospectus contains the necessary information which is material to investors for making an informed assessment of (i) the assets and liabilities, profits and losses, financial position, and prospects of the Issuer, (ii) the rights attaching to the N&C Securities, and (iii) the reasons for the issuance and its impact on the Issuer. Some of this information is incorporated by reference from other publicly available documents and some of this information is completed in the applicable issue-specific Issue Terms (as described in the sub-section immediately below). The Base Prospectus is to be read in conjunction with all documents which are deemed to be incorporated herein by reference (see "*Documents Incorporated by Reference*"), and to form part hereof, as well as the Issue Terms in respect of the relevant N&C Securities.

Other than in relation to the documents which are deemed to be incorporated by reference (see "*Documents Incorporated by Reference*"), the information on the websites to which this Base Prospectus refers does not form part of this Base Prospectus and has not been scrutinised or approved by the FCA.

The language of this Base Prospectus is English. Any foreign language text that is included with or within this document has been included for convenience purposes only and does not form part of the Base Prospectus.

What are the terms of the N&C Securities?

The contractual terms of any particular issuance of N&C Securities will be composed of the "General Terms and Conditions of the N&C Securities" set out in this document, together with the applicable Annex(es) relating to certain interest payouts, Equity Index Linked Interest N&C Securities or Inflation Index Linked N&C Securities (all as set out in this document), as completed by the terms set out in a final terms document, substantially in the form set out in this Base Prospectus and specific to that issuance of N&C Securities ("**Final Terms**"), or in respect of Exempt N&C Securities, as completed (and, if applicable, amended) by the terms set out in a pricing supplement document, substantially in the form set out in the Programme Memorandum and specific to that issuance of Exempt N&C Securities ("**Pricing Supplement**"), which are together referred to as the "**Conditions**".

Any reference in this Base Prospectus to "**Issue Terms**" means either (i) in respect of Non-Exempt N&C Securities, the applicable Final Terms or (ii) in respect of N&C Securities that are Exempt N&C Securities, the applicable Pricing Supplement, and should be construed accordingly.

What information is contained in the Issue Terms?

In the case of Non-Exempt N&C Securities, notice of the aggregate nominal amount or issue size of N&C Securities, interest (if any) payable in respect of N&C Securities, where applicable, the issue price of N&C Securities, and certain other information which is applicable to each Tranche (as defined in the Conditions) of N&C Securities will be set out in the applicable Final Terms which will be delivered to (when publicly offered or listed on a regulated market in the UK) the FCA and, where listed, the London Stock Exchange. Copies of Final Terms in relation to N&C Securities to be listed on the London Stock Exchange will be published on the website of the London Stock Exchange through a regulatory information service.

In the case of Exempt N&C Securities, notice of the aggregate nominal amount of the Exempt N&C Securities, interest (if any) payable in respect of the Exempt N&C Securities, the issue price of the Exempt N&C Securities and certain other information which is applicable to each Tranche will be set out in a Pricing Supplement.

What should I know before making an investment decision?

Prospective investors should consider carefully the risks set forth in this document under "Risk Factors" prior to making an investment decision with respect to the N&C Securities. If prospective investors are in any doubt about the risks or suitability of a particular N&C Security, they should seek professional advice.

Important information relating to the use of this Base Prospectus and offers of N&C Securities generally

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any N&C Securities in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of N&C Securities may be restricted by law in certain jurisdictions. The Issuer and the Dealers do not represent that this Base Prospectus may be lawfully distributed, or that any N&C Securities may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering, or that all actions have been taken by the Issuer or the Dealers which would permit a public offering of any N&C Securities or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. In particular, unless specifically indicated to the contrary in the applicable Issue Terms, no action has been taken by the Issuer or the Dealers which would permit a public offering of any N&C Securities or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no N&C Securities may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations.

Persons into whose possession this Base Prospectus or any N&C Securities may come must inform themselves about, and observe any such restrictions on the distribution of this Base Prospectus and the offering and sale of N&C Securities. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of N&C Securities in the United States, the United Kingdom ("**UK**") and the European Economic Area ("**EEA**"), see "*Subscription and Sale*".

Investment Considerations

The N&C Securities may not be suitable for all investors

Each potential investor in the N&C Securities must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

- has sufficient knowledge and experience to make a meaningful evaluation of the N&C Securities, the merits and risks of investing in the N&C Securities and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the N&C Securities and the impact the N&C Securities will have on its overall investment portfolio;
- has sufficient financial resources and liquidity to bear all of the risks of an investment in the N&C Securities, including N&C Securities with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;

- understands thoroughly the terms of the N&C Securities and is familiar with the behaviour of any relevant indices and financial markets; and
- is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

An investment in N&C Securities (including N&C Securities which are Equity Index Linked Redemption N&C Securities or Inflation Index Linked N&C Securities) may entail significant risks not associated with investments in conventional securities such as debt or equity securities, including, but not limited to, the risks set out in "*Risks associated with N&C Securities that are linked to one or more Reference Item(s)*" below.

In making an investment decision, investors must rely on their own examination of the Issuer and the terms of the N&C Securities being offered, including the merits and risks involved.

Certain of the Dealers and their affiliates have engaged and may in the future engage in investment banking and/or commercial banking transactions with, and may perform services for the Issuer and its respective affiliates.

Neither the Dealers nor the Issuer makes any representation to any investor in the N&C Securities regarding the legality of its investment under any applicable laws. Any investor in the N&C Securities should satisfy itself that it is able to bear the economic risk of an investment in the N&C Securities for an indefinite period of time.

Purchasers of such N&C Securities are deemed to have sufficient knowledge, experience and professional advice to make their own investment decisions and to have undertaken their own legal, financial, tax, accounting and other business evaluation of the risks and merits of investments in such N&C Securities and should ensure that they fully understand the risks associated with investments of this nature which are intended to be sold only to sophisticated investors. Purchasers of N&C Securities are solely responsible for making their own independent appraisal of an investigation into the business, financial condition, prospects, creditworthiness, status and affairs of any Reference Item and the information relating to any Reference Item and the level or fluctuation of any Reference Item(s).

IMPORTANT – EEA RETAIL INVESTORS – If the Issue Terms in respect of any N&C Securities includes a legend entitled "*Prohibition of Sales to EEA Retail Investors*", the N&C Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (the "**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive (EU) 2016/97, as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "**EU Prospectus Regulation**"). Consequently, save in relation to any jurisdiction(s) or period(s) for which the "*Prohibition of Sales to EEA Retail Investors*" is specified to be not applicable in the relevant Issue Terms, no key information document is required by Regulation (EU) No 1286/2014 (as amended, the "**EU PRIIPs Regulation**") for offering or selling the N&C Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the N&C Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS – If the Issue Terms in respect of any N&C Securities includes a legend entitled "*Prohibition of Sales to UK Retail Investors*", the N&C Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a retail investor means a person who is one (or more) of:

- (A) a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the EUWA; or
- (B) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would

not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA; or

(C) not a qualified investor as defined in Article 2 of the UK Prospectus Regulation.

Consequently, save in relation to any jurisdiction(s) or period(s) for which the "*Prohibition of Sales to UK Retail Investors*" is specified to be not applicable in the relevant Issue Terms, no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the N&C Securities or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the N&C Securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MiFID II Product Governance / Target Market - The Issue Terms may include a legend entitled "*MiFID II Product Governance*" which will outline the target market assessment in respect of the relevant N&C Securities and which channels for distribution of the relevant N&C Securities are appropriate. Any person subsequently offering, selling or recommending the N&C Securities (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the N&C Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID II Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any N&C Securities is a manufacturer in respect of such N&C Securities, but otherwise neither the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MiFIR Product Governance/ target market – The Issue Terms in respect of any N&C Securities may include a legend entitled "*UK MiFIR Product Governance*" which will outline the target market assessment in respect of the N&C Securities and which channels for distribution of the N&C Securities are appropriate. Any person subsequently offering, selling or recommending the N&C Securities (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the N&C Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any N&C Securities is a manufacturer in respect of such N&C Securities, but otherwise neither the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

Securities with offer periods continuing beyond the validity of the 2022 Base Prospectus

The Offer Period (as defined in the relevant Final Terms) of the 2022 Base Prospectus N&C Securities (as defined below) extends beyond the validity of the 2022 Base Prospectus (as defined in the section of this Base Prospectus entitled "*Documents Incorporated by Reference*"). Following the expiry of the 2022 Base Prospectus and the approval of this Base Prospectus the offering of the 2022 Base Prospectus N&C Securities will continue under this Base Prospectus. The terms and conditions of the securities from the 2022 Base Prospectus (which are incorporated by reference herein) will continue to apply to the 2022 Base Prospectus N&C Securities. The Final Terms in respect of the 2022 Base Prospectus N&C Securities are also incorporated by reference herein.

Investors who have already agreed to purchase or subscribe for the 2022 Base Prospectus N&C Securities during the validity period of the 2022 Base Prospectus and before this Base Prospectus was published, shall have a right, exercisable within two working days after the publication hereof ending on 4 October 2023, to withdraw their acceptances, unless the 2022 Base Prospectus N&C Securities have already been delivered to them. In order to exercise such withdrawal right, investors may contact the relevant Authorised Offeror.

Benchmarks Regulation

Amounts payable under the N&C Securities may be calculated by reference to one or more "benchmarks" for the purposes of Regulation (EU) No. 2016/1011 as it forms part of domestic law by virtue of the EUWA (the "**UK Benchmarks Regulation**"). In this case, a statement will be included in the applicable Issue Terms as to whether or not the relevant administrator of the "benchmark" is included in the FCA's register of administrators and benchmarks under Article 36 of the UK Benchmarks Regulation. Not every index will fall within the scope of the UK Benchmarks Regulation. The registration status of any administrator under the UK Benchmarks Regulation is a matter of public record and, save where required by applicable law, the Issuer does not intend to update the Issue Terms to reflect any change in the registration status of the administrator.

In connection with the issue of any Tranche of N&C Securities, the Dealer or Dealers (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) may over-allot N&C Securities or effect transactions with a view to supporting the market price of the N&C Securities of the Series (as defined below) of which such Tranche forms part at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of N&C Securities is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of N&C Securities and 60 days after the date of the allotment of the relevant Tranche of N&C Securities. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

RISK FACTORS

Prospective investors should note that the risks relating to the Issuer, its industry and an individual issue of N&C Securities summarised in the summary annexed to the Final Terms for that particular issue of N&C Securities are the risks that the Issuer believes to be the most essential to an assessment by a prospective investor of whether to consider an investment in such N&C Securities. However, as the risks which the Issuer faces relate to events and depend on circumstances that may or may not occur in the future, prospective investors should consider not only the information on the key risks summarised in the summary annexed to the Final Terms but also, among other things, the risks and uncertainties described below.

An investment in the N&C Securities may involve a high degree of risk. In purchasing N&C Securities, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the N&C Securities. There are a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the N&C Securities. The Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified in this Base Prospectus a number of factors which could materially adversely affect its business and ability to make payments due under the N&C Securities.

In addition, factors which are material for the purpose of assessing the market risk associated with N&C Securities issued under the Programme are detailed below. The factors discussed below regarding the risks of acquiring or holding any N&C Securities are not exhaustive, and additional risks and uncertainties that are not presently known to the Issuer or that the Issuer currently believes to be immaterial could also have a material impact on the N&C Securities.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

Words and expressions defined in the "General Terms and Conditions of the N&C Securities" below or elsewhere in this Base Prospectus have the same meanings in this section.

RISK FACTORS RELATING TO THE ISSUER AND THE GROUP

The risks set out below relating to the Issuer and the Group could have a material adverse effect on the Group's operations, financial condition and prospects. These effects in turn could have an effect on the Issuer's ability to fulfil its obligations under the Conditions of the N&C Securities including its ability to pay any interest or redemption amounts to investors.

1. Geopolitical and Macro-Economic Risks

The war in Ukraine could materially affect the Group's operations and financial position

On 24 February 2022, Russia launched a large-scale military action against Ukraine. The Russian military action has caused an ongoing humanitarian crisis in Europe. It has also significantly impacted global commodity and financial markets, leading to supply chain disruptions and increases in the prices of energy, oil, gas and raw materials. This has led to heightened inflation, which has created further challenges for monetary authorities and the Group's customers.

The Group does not have a presence in Russia and Ukraine and our direct exposure to Russian and Ukrainian markets and assets is negligible. However, the effect of Russia's military action against Ukraine on global commodity and financial markets and general macroeconomic conditions remains uncertain, and there is a risk that the economic effects of Russia's military action against Ukraine could exacerbate the current slowdown in the global economy, which would adversely affect the Group's businesses, results of operations and financial position.

Price pressures on the energy, oil and gas sectors resulting from the Russian military action against Ukraine underline the need to accelerate the decarbonisation transition and present opportunities to finance new energy solutions that can improve energy security in the medium to long term. However, historic reliance on stable and cheap energy has meant that price pressures on the energy, oil and gas sectors resulting from the Russian military action against Ukraine and the resulting increases in energy prices pose risks to economic growth and debt sustainability, contributing to the challenges customers of the Group are facing in terms of cost of living.

The continuation or escalation of the conflict between Russia and Ukraine, including the extension of the conflict to other countries in the region, could lead to further increases in energy prices (particularly gas prices, if supplies to Europe remain interrupted) and heightened inflationary pressures. This could lead to further increases in interest rates, impact financial market stability in the Eurozone and worsen the current cost of living crisis customers of the Group are facing. Such developments would negatively affect the payment capacity of some of the Group's customers, whose likely need for increased support will place additional pressures on the staff in the Group's financial support and call centres.

In response to the Russian military action against Ukraine, the United States of America ("US"), the European Union ("EU"), the United Kingdom ("UK") and other UN member states and jurisdictions, have imposed, and may further impose, severe financial and economic sanctions and export controls against Russia, Belarus, the so-called Donetsk People's Republic and the so-called Luhansk People's Republic. Such sanctions have included freezing/blocking assets, targeting major Russian banks, the Russian Central Bank, and certain Russian companies and individuals, imposing export controls against Russia and Russian interests, as well as disconnecting certain Russian banks from the SWIFT system (Society for Worldwide Interbank Financial Telecommunication). In addition, the sanctions imposed also include a ban on trading in sovereign debt and other securities. Russia has implemented certain countermeasures in response. The scale of sanctions is unprecedented, complex and rapidly evolving, and poses continuously increasing operational and compliance risks to the Group. Our corporate framework and policies are designed to ensure compliance with applicable laws, regulations and economic sanctions, including US, UK, EU and UN economic sanctions, in the countries in which we operate. Such sanctions and other measures, as well as the existing and potential further responses from Russia or other countries to such sanctions, tensions and military actions, have resulted in an increasingly fragmented macroeconomic, trade and regulatory environment. Currently, we do not have any loans, credits or contingencies affected by the recent sanctions

Risk Factors

imposed on Russia. However, we cannot predict whether any of the countries in which we operate will enact additional economic sanctions or trade restrictions in response to the Russian military action against Ukraine or the impact such additional sanctions or restrictions may have on us which may include increased costs and regulatory burdens associated with the compliance of the evolving and complex sanctions landscape. The heightened regulatory, political and media focus on our response to this crisis may also increase our exposure to conduct and reputational risks.

Furthermore, the disruption and volatility in the global financial markets caused by the Russian invasion and the potential of further tightening of financial market conditions due to the conflict could have a material adverse effect on the Group's ability to access funding, capital and liquidity on financial terms acceptable to it and result in an increase in the Group's cost of funding due to widening of credit spreads. This could have a material adverse effect on the Group's operations, financial condition and prospects.

In addition the risk of cyberattacks on companies and institutions could increase as a result of Russia's military action against Ukraine and in response to the consequent sanctions imposed by the United States, the European Union, the United Kingdom and other jurisdictions. Such attacks could adversely affect the Group's ability to maintain or enhance its cyber security and data protection measures. While the Group also continues to see increasing ransomware attacks across sectors driven by supply chain tool compromises, and expects this trend to continue, the Group has not experienced any notable information or cyber security incidents in H123. The Group continues to actively monitor this situation.

The Group's operations, financial condition and prospects are materially impacted by economic conditions in the UK and disruptions in the global economy and global financial markets

The Group's business activities are concentrated in the UK, where it offers a range of banking and financial products and services to UK retail and corporate customers. As a consequence, the Group's operations, financial condition and prospects are significantly affected by the general economic conditions in the UK.

Despite the economic recovery experienced during 2021 in the UK as measures to combat the COVID-19 pandemic were eased, pre-pandemic growth levels were not reached. There remains a risk of an extended period of economic contraction that continues through 2023 as the effects of higher bank rates, Brexit, and higher and more persistent inflation continue to affect supply chains and business and household confidence and finances. Interest rates have risen sharply over the course of 2022 and there is a risk that this trend will continue throughout 2023, putting further pressures on household finances due to a sharp rise of the costs for refinancing their mortgage for some of our customers and significantly higher costs of borrowing overall. Higher mortgage rates could dampen demand in the housing market, leading to a drop in new business or a fall in house prices, reducing the value of the collateral we hold against mortgages. These risks could create further downward pressure on the economy; for example: a large surge in business failures with knock-on effects for the labour market resulting in high rates of unemployment that affect the ability of customers to pay their debts, which could also contribute to negative multiplier effects through delayed investment and spending; and a stronger push towards protectionism as governments look to protect home industries. This could also lead to a longer-term turn in the credit cycle with a broader contraction of credit as lenders attempt to protect themselves from increased losses.

In particular, the Group may face, among others, the following risks in this period of economic uncertainty including the effect of those risks on gross domestic product, inflation, unemployment and house prices:

- Reduced demand for the Group's products and services – particularly the potential for reduced mortgage market volumes;
- Inability of the Group's borrowers to make payments on their loans in full or on time;

Risk Factors

- The degree of uncertainty concerning economic conditions may adversely affect the accuracy of the Group's estimates, which may, in turn, impact the reliability of the International Financial Reporting Standard 9 (the "IFRS 9") model and process to determine the sufficiency of the Group's loan loss allowances;
- Lower house or other asset prices reducing the value of collateral the Group holds on mortgage and other lending;
- Higher and more persistent inflation, reducing the Group's profitability and increasing the cost of living for the Group's borrowers; and
- The value and liquidity of the portfolio of investment securities that the Group holds may be adversely affected.

The Group is also exposed to:

- Broader geopolitical issues, which remain heightened with the potential for a further pushback against globalism. Further moves towards unilateralism may also cause increased tension and/or hostilities between nations, which could negatively impact the global economy and financial markets. In addition, Russia's invasion of Ukraine has impacted the UK economy, in particular by pushing up energy and oil prices increasing inflation further;
- Climate change risks which could result in material damage to the Group's customer's property or businesses or have a material impact on the Group's customers' business models under a transition to a low carbon economy; and
- Social unrest as a result of severe economic disruption.

Adverse changes in the credit quality of the Group's borrowers or counterparties or a general deterioration in UK economic conditions could reduce the recoverability and value of the Group's assets and require an increase in its level of provisions for expected credit losses. There can be no assurance that the Group will not have to increase its provisions for loan losses in the future as a result of increases in non-performing loans or for other reasons beyond its control. Material increases in the Group's provision for loan losses and write-offs or charge-offs have had and could again have a material adverse effect on the Group's operations, financial condition and prospects. Any significant reduction in the demand for the Group's products and services, a sustained downturn in the UK economy or changes in central bank interest rates could have a material adverse effect on the Group's operations, financial condition and prospects.

Inflation continued to rise in 2022, mainly driven by increasing energy and food prices. Monetary policy in the UK has been tightened significantly since the end of 2021 and there are expectations of further rate increases with a peak rate in 2023. Our own budget forecasts anticipate a gradual fall back in the inflation rate, following a peak in 2022, to meet the target rate by 2026.

Economic instability and downturns beyond the UK may also impact the UK economy as a whole. Europe's manufacturing base is heavily dependent upon natural gas, and restriction in supply and significantly increased costs are expected to have a material adverse impact on the Eurozone economy, which could lead to disruption and volatility in the global financial markets, result of debt sustainability concerns. This could have a material adverse impact on the Group, including the Group's ability to access capital and liquidity on financial terms acceptable to the Group, which could have a material adverse effect on the Group's operations, financial condition and prospects.

A recessionary economic environment could also lead to rating downgrades affecting the UK, the Group or its customers, investments and/or instruments, causing capital impacts due to increased risk-weighted assets, an increase in the volatility of wholesale markets and the cost of funding. Fiscal concerns related to the UK have already increased volatility in UK financial markets which necessitated Bank of England intervention in late September 2022.

Risk Factors

Impact of the COVID-19 pandemic on the Group

The COVID-19 pandemic has caused, and the COVID-19 pandemic (or new strains or variations thereof) or unforeseen new diseases or infections have the potential to cause, social disruption and a material economic downturn in the UK and globally. Macroeconomic expectations are that the effects of the COVID-19 pandemic will be long lasting with the level and speed of economic recovery still uncertain, with impacts being felt largely in a tight labour market, supply chain pressures and increased inflation. The COVID-19 pandemic has had a material adverse effect on the Group's operations and income, and could continue to have a material adverse effect on the Group's operations, income, financial condition and prospects. To the extent that the residual impacts of the COVID-19 pandemic continued to adversely affect the UK or global economy and/or the Group, it may also have the effect of increasing the likelihood and/or magnitude of other risks described herein or may pose other risks which are not presently known to the Group or not currently expected to be significant to the Group's business, operations or financial performance.

In 2022, certain adverse consequences of the pandemic continued to impact the macroeconomic environment, including labour shortages and disruptions of global supply chains, which contributed to rising inflationary pressures. These adverse consequences may persist for some time. If new COVID-19 waves, or the emergence of another infection of similar proportions, force countries to re-adopt measures that restrict economic activity, the macroeconomic environment could deteriorate and adversely impact our business and results of operations, which could include, but is not limited to (i) a decreased demand for our products and services; (ii) material impairment of our loans and other assets including goodwill; (iii) a decline in the value of collateral; (iv) constraints on our liquidity due to market conditions, exchange rates and customer withdrawal of deposits and continued draws on lines of credit; and (v) downgrades to our credit ratings. Any downgrade in our credit rating would likely increase our cost of funding, require us to post additional collateral or take other actions under some of our derivative and other contracts and adversely affect our interest margins and results of operations.

Moreover, our operations could still be impacted by risks from remote working, which were largely deployed as a response to the COVID-19 pandemic. While in 2022 we continued to implement a partial return to our office locations, we still maintain flexibility to work remotely, and our staff have progressively adapted a hybrid approach to working. If we become unable to successfully operate our business from remote locations including, for example, due to failures of our technology infrastructure and controls, or increased cybersecurity risks, this could result in business disruptions that could have a material and adverse effect on our business.

The UK's withdrawal from the European Union (Brexit) could have a material adverse effect on the Group's operations, financial condition and prospects

On 31 January 2020 the UK ceased to be a member of the EU and a limited trade deal was agreed between the UK and the EU with the relevant new regulations coming into force on 1 January 2021.

The trade deal, however, does not include agreements on certain areas such as financial services and data adequacy. As a result, the Group has, and will continue to have, a limited ability to provide cross-border services to EU customers and to trade with EU counterparties. The wider and continuing impact of Brexit on financial markets through market fragmentation, reduced access to finance and funding, and a lack of access to certain financial market infrastructure, may affect the Group's operations, financial condition and prospects and those of its customers.

Residual risks remain around the impact on the UK's economy. Brexit has contributed to global pandemic-related supply and labour market constraints and reduced economic output and exports as businesses attempt to adapt the new cross-border procedures and rules applicable in the UK and in the EU to their activities, products, customers and suppliers.

While the longer term effects of the UK's withdrawal from the EU are difficult to assess, this has also been hampered by overlay of and development of economic risks from the COVID-19 pandemic and the Russian invasion of Ukraine. Further, there is ongoing political and economic uncertainty, such as increased friction with the EU and EU countries and the possibility of a

Risk Factors

second referendum on Scottish independence from the UK, which could negatively affect the Group's customers and counterparties and have a material adverse effect on the Group's operations, financial condition and prospects.

The Group faces risks from the impact of climate change, which could materially affect the Group's business operations, reputation, clients and customers, as well as the creditworthiness of its counterparties

Climate risk is a risk that manifests through other principal risks, primarily enterprise risk, credit risk and operational risk. Climate change could expose the Group to financial risk either through its physical (e.g., climate or weather-related events) or transitional (e.g., changes in climate policy or in the regulation of financial institutions and corporates with respect to climate change risks) effects. Transition risks could be further accelerated by the occurrence of changes in the physical climate.

Physical risks from climate change arise from climate and weather-related events, such as heatwaves, droughts, floods, landslides, storms, sea level rise, coastal erosion and subsidence. These risks could impact our customers in the form of lower revenues due to transport problems, supply chain disruption and other impacts that strain production and lower revenues and higher costs for our customers owing to workers' health, safety, absenteeism and other workforce-related problems. These risks could also lead to damage to our customers' property or operations, which could impair asset values and the creditworthiness of customers leading to increased default rates, delinquencies, write-offs and impairment charges in the Group's portfolios. In addition, the Group's premises and resilience may also suffer physical damage due to weather-related events leading to increased costs for the Group.

Transition risks arise from the process of adjustment towards a low-carbon economy. The Group may face significant and rapid developments in stakeholder expectations, policy, law and regulation which could impact the lending activities the Group undertakes, as well as the risks associated with its lending portfolios, and the value of the Group's financial assets. Reputation risk could arise from a failure to meet changing societal, investor or regulatory demands.

Banco Santander S.A. is a founding member of the UN-convened Net Zero Banking Alliance committing Santander UK Group Holdings plc to set and disclose decarbonisation targets for most greenhouse gas intensive sectors and to becoming a net zero bank by 2050. As such, Santander UK Group Holdings plc is implementing and reporting at a group level (including Santander UK) against the TCFD recommendations and has disclosed targets to manage climate-related risks and opportunities, however, Santander UK Group Holdings plc does not believe its climate-related disclosure is fully aligned with the TCFD recommendations yet. In order to fulfil these ambitions and reach the relevant targets or any other climate related ambitions or targets the Group may commit to in future, the Group will need to incorporate climate considerations into its strategy, business model, the products and services it provides to customers and its financial and non-financial risk management processes (including processes to measure and manage the various financial and non-financial risks the Group faces as a result of climate change). Failure to adequately embed risks associated with climate change into its risk framework to appropriately measure, manage and disclose the various financial and operational risks it faces as a result of climate change, or failure to adapt the Group's strategy and business model to the changing regulatory requirements and market expectations on a timely basis may have a material and adverse impact on the Group's level of business growth, competitiveness, profitability, capital requirements, cost of funding, and financial condition. Achieving the Group's climate-related ambitions and targets will also depend on a number of factors outside its control, including (among other things) availability of data to measure and assess the climate impact on the Group's customers, advancements of low-carbon transition technologies and public policies to support the energy transition in the markets where the Group operates. If these external factors and other changes do not occur, or do not occur on a timely basis, the Group may fail to achieve its climate-related ambitions and targets and this could have a material adverse effect on the Group's business growth, competitiveness, profitability, financial condition and reputation. In 2023, we will continue to work on assessing our financed emissions and establishing interim targets. We will consider key enablers, including government policy as well as our own actions to accelerate the decarbonisation.

2. **Business Model Risks**

The Group is exposed to competition from other financial institutions, including new entrants into the financial services sector

The markets for UK financial services are very competitive and the Group has seen strong competition from banks, building societies and other established financial service providers. In addition, the Group faces competition from a number of new entrants, non-banks and other providers, including technology companies and large retail companies with strong brand recognition.

The UK government and regulators are actively supporting the emergence of new entrants into the UK financial services market. The internet and mobile technologies are also changing customer behaviour and the competitive environment. There has been a steep rise in customer use of mobile banking in recent years and the COVID-19 pandemic accelerated the strong trends towards customer digital adoption. The Group is investing in a multi-year transformation programme, including digitalisation of channels and services and automation of physical channels, to both meet customer preferences and protect its competitive position. There can be no assurance that the transformation programme will deliver the benefits sought from it.

Management expects such competition to continue or intensify as a result of customer behaviour and trends, technological changes, competitor behaviour, the growth in digital banking, new lending models and changes in regulation (including the introduction of Open Banking and changes arising from the Payment Services Directive (the "PSD2")). As a result of any restructuring or evolution in the market, there may emerge one or more new viable competitors in the UK banking market or a material strengthening of one or more of the Group's existing competitors in that market, limiting the Group's ability to increase its customer base and expand its operations, increasing competition for investment opportunities and potentially reducing the Group's market share.

Any of these factors or a combination thereof could result in a significant reduction in the profit of the Group. The Group gives consideration to the competitive position in its management actions, such as pricing, product decisions and the Group's business model. Increasing competition could mean that the Group increases rates offered on deposits or lowers the rates it charges on loans, or changes its cost base, any of which could have a material adverse effect on its operations, financial condition and prospects.

The rising rate environment and cost of living crisis may result in competitors reacting quite differently in relation to, amongst other factors, loan pricing, availability, deposit pricing, investment decisions. This has already had, and will continue to have, an impact on the competitive environment and future decisions of the Group.

The Group's ability to maintain its competitive position depends, in part, on the success of new products and services it offers its customers and its ability to continue offering products and services from third parties

The success of the Group's operations and its profitability depends, in part, on the success of new products and services it offers to customers and the way in which it offers and provides its products and services. The increasing availability of a wide range of digital or online products and services for customers requires banks like the Group to enhance their offerings in order to retain and attract customers. However, the Group cannot guarantee that its new products and services or the way in which it offers or provides its products and services will meet the needs or preferences of the Group's customers which may change over time, and such changes may render the Group's products and services obsolete, outdated or unattractive, and the Group may not be able to develop new products that meet its customers' changing needs in a timely manner. As the Group expands the range of its products and services, some of which may be at an early stage of development in the UK market, it will be exposed to known, new and potentially increasingly complex risks, including conduct risk, and development expenses. The Group's employees and risk management systems, as well as its experience and that of its partners, may not be sufficient or adequate to enable it to properly handle or manage such risks. In addition, the cost of developing products that are not launched is likely to affect its operating results.

Risk Factors

Any or all of the above factors, individually or collectively, could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group's loan portfolio is subject to risk of prepayment

The Group's loan portfolio is subject to prepayment risk resulting from the ability of a borrower or issuer to prepay a debt obligation prior to maturity.

As a result the Group could be required to amortise net premiums into income over a shorter period of time, thereby reducing the corresponding asset yield and net interest income and there is a risk that the Group is not able to accurately forecast amortisation schedules for these purposes which may affect its profitability. Prepayment risk also has a significant adverse impact on credit card and mortgage loans, since prepayments could shorten the weighted average life of these assets, which may result in a mismatch in the Group's funding obligations and reinvestment at lower yields. The risk of prepayment and its impact on the Group's ability to accurately forecast amortisation schedules is inherent in the Group's commercial activity and an increase in prepayments or a failure to accurately forecast amortisation schedules could have a material adverse effect on the Group's operations, financial condition and prospects.

Damage to the Group's reputation could cause harm to its business prospects

Maintaining a positive reputation is critical to attracting and retaining customers, investors and employees and conducting business transactions with counterparties. Damage to the reputation of the Group or Banco Santander SA (as the ultimate parent of the Group), the reputation of affiliates operating under the 'Santander' brand or any of its other brands could therefore cause significant harm to the Group's business and prospects. Harm to the Group's reputation can arise directly or indirectly from numerous sources, including, among others, employee misconduct (including the possibility of employee fraud), litigation, regulatory interventions and enforcement action, failure to deliver minimum standards of service and quality, loss or compromise of customer data, disruption to service due to a cyber-attack, wider IT failures, compliance failures, third party fraud, financial crime, breach of legal or regulatory requirements, unethical behaviour (including adopting inappropriate sales and trading practices), and the activities of customers, suppliers and counterparties and the perception of the financial services industry as a whole. Further, negative publicity regarding the Group, whether true or not, may result in harm to the Group's operations, financial condition and prospects.

If the Group is unable to manage the growth of its operations, this could have a material adverse impact on its profitability

The Group allocates management and planning resources to develop strategic plans for organic growth, and to identify possible acquisitions and disposals and areas for restructuring its businesses when necessary. From time to time, the Group evaluates acquisition, disposal, and partnership opportunities that it believes could offer additional value to its shareholders and customers, and are consistent with its business strategy. However, the Group may not be able to identify suitable acquisition or partnership candidates, and may not be able to acquire promising targets or form partnerships on favourable terms, or at all. Furthermore, preparations for acquisitions that the Group does not complete can be disruptive. The Group bases its assessment of potential acquisitions and partnerships on limited and potentially inexact information and on assumptions with respect to value, operations, profitability and other matters that may prove to be incorrect. The Group's ability to benefit from any such acquisitions and partnerships will depend in part on its successful integration of those businesses. Such integration entails significant risks such as challenges in retaining the customers and employees of the acquired businesses, unforeseen difficulties in integrating operations and systems and unexpected liabilities or contingencies relating to the acquired businesses, including legal claims and regulatory investigations. Moreover, the success of the acquisition or venture will at least in part be subject to a number of political, economic and other factors that are beyond the Group's control. The Group can give no assurances that its expectations with regard to integration and synergies will materialise.

The Group cannot provide assurance that it will, in all cases, be able to manage its growth effectively or to implement its strategic growth decisions, including its ability to:

Risk Factors

- Manage efficiently the operations and employees of expanding businesses;
- Maintain or grow its existing customer base;
- Successfully execute its strategy;
- Fully due diligence and assess the value, strengths and weaknesses of investment or acquisition candidates;
- Finance strategic opportunities, investments or acquisitions;
- Fully integrate strategic investments, or newly-established entities or acquisitions, in line with its strategy;
- Align its current information technology systems adequately with those of an enlarged group; or
- Apply its risk management policy effectively to an enlarged group.

Any or all of these factors, individually or collectively, could have a material adverse effect on the Group's operations, financial condition and prospects.

3. **Capital and Liquidity Risks**

The Group is subject to regulatory capital, liquidity and leverage requirements that could limit its operations, and changes to these requirements may further limit and could have a material adverse effect on the Group's operations, financial condition and prospects

Capital Requirements Regulation and Capital Requirements Directive IV

The Group is subject to capital adequacy requirements applicable to banks and banking groups under retained EU law and as adopted by the Prudential Regulation Authority ("**PRA**"). The Group is required to maintain a minimum ratio of Common Equity Tier 1 ("**CET1**") capital to risk-weighted assets, Tier 1 capital to risk-weighted assets, total capital to risk-weighted assets and Tier 1 capital (leverage) to total adjusted assets for leverage purposes. Any failure by the Group to maintain such ratios above prescribed regulatory minimum levels may result in administrative actions or sanctions. These could potentially include requirements on the Group to cease all or certain lines of new business, to raise new capital resources or, in certain circumstances, a requirement for the Group's existing capital instruments (potentially including the Group's debt securities) to be subjected to bail-in or write down (for more information, see the risk factor entitled 'Legal & Regulatory Risks - The Group may become subject to the provisions of the Banking Act 2009 (the "**Banking Act**"), including bail-in and write down powers').

The EU Capital Requirements Directive IV ("**CRD IV Directive**") and the Capital Requirements Regulation (the "**CRR**" and together with the CRD IV Directive, "**CRD IV**") implemented changes proposed by the Basel Committee on Banking Supervision (the "**Basel Committee**") to the capital adequacy framework, known as 'Basel III' in the EU. The CRR has been amended through a series of EU regulations, including the Capital Requirements Regulation 2 (the "**CRR 2**") and the CRD IV Directive amended by the Capital Requirements Directive V (the "**CRD V Directive**"). The EUWA converted the directly applicable elements of CRD IV into UK law on 31 December 2020 and preserved existing UK law implementing the CRD IV directive. Certain elements of the CRR which were 'onshored' in this way have now been transposed into the PRA rules.

In implementing CRD IV and the revised versions of CRD IV, the PRA has required the capital resources of UK banks to be maintained at levels which exceed the base capital requirements prescribed by CRD IV and to cover relevant risks in their business. In addition, a series of capital buffers have been established under CRD IV and PRA rules to ensure a bank can withstand a period of stress. Though the results of the PRA's 2019 stress test (the most recent exercise undertaken to set UK bank capital buffers) did not impact on the level of capital that the Group is required to hold, the PRA could, in the future, as a result of stress testing exercises and as part

Risk Factors

of the exercise of UK macro-prudential capital regulation tools, or through supervisory actions, require the Group to increase its capital resources further, which could have a material adverse effect on the Group's operations, financial condition and prospects.

Liquidity Coverage Ratio ("LCR")

The LCR is intended to ensure that a bank maintains an adequate level of unencumbered, high quality liquid assets which can be used to offset the net cash outflows the bank could encounter under a short-term significant liquidity stress scenario. The current minimum requirement for LCR is set at 100 per cent.. The Group is also required to maintain available stable funding equal to at least 100 per cent. of its required stable funding (the net stable funding ratio ("NSFR")). The Group's current liquidity position is in excess of the minimum requirements set by the PRA, however there can be no assurance that future changes to the applicable liquidity requirements would not have an adverse effect on the Group's financial performance.

Leverage ratios

The Financial Services Act 2012 (the "FS Act") also provides the Financial Policy Committee ("FPC") of the BoE with certain macro-prudential tools for the management of systemic risk including quarterly setting of the countercyclical capital buffer rate and powers of direction relating to leverage ratios. All major UK banks and banking groups (including the Group) are required to hold enough Tier 1 capital (75 per cent. of which must be CET1 capital) to satisfy a minimum leverage ratio requirement of 3.25 per cent. and enough CET1 capital to satisfy a countercyclical leverage ratio buffer of 35 per cent. of each bank's institution-specific countercyclical capital buffer rate. The PRA requires UK globally systemically important banks ("G-SIBs") and Ring Fenced Bodies to hold enough CET1 capital to meet an additional leverage ratio buffer of 35 per cent. of the institution-specific G-SIB buffer rate or Other Systemically Important Institutions ("O-SII") buffer rate following the implementation of the CRD V Directive on 28 December 2020 (previously the Systemic Risk Buffer rate) and for consolidated groups which include a Ring Fenced Body (as defined in the Financial Services and Markets Act 2000 (FSMA) to hold enough CET1 capital to meet the Additional Leverage Ratio Buffer ("ALRB"). The FPC can also direct the PRA to adjust capital requirements in relation to particular sectors through the imposition of sectoral capital requirements. Action taken in the future by the FPC in exercise of any of its powers could result in the regulatory capital requirements applied to the Group being further increased, which could have a material adverse effect on the Group's operations, financial condition and prospects.

Further regulatory changes

Regulators in the UK and worldwide have proposed that additional loss absorbency requirements should be applied to systemically important institutions to ensure that there is sufficient loss absorbing and recapitalisation capacity available in resolution. The BoE required most banks, since 1 January 2022, to be in compliance with the end-state MREL requirements, which Santander UK plc and Santander UK Group Holdings plc are.

Regulators and legislators in the UK have produced a range of proposals for future legislative and regulatory reform which could force the Group to comply with certain operational restrictions or take steps to raise further capital or increase the Group's expenses and could therefore have a material adverse effect on the Group's operations, financial condition and prospects. These changes, which could affect the Group as a whole, include the UK's implementation of the remaining Basel III standards. The Basel Committee on Banking Supervision has approved a series of significant changes to the Basel regulatory capital and liquidity framework subsequent to Basel III from 7 December 2017, colloquially known as Basel IV or Basel 3.1, including additional capital requirements, higher capital ratios, more stringent eligibility requirements for capital instruments, a new leverage ratio and liquidity requirements. On 30 November 2022, the PRA published a consultation paper (CP) 16/22 on the implementation of the Basel IV standards (which the PRA refers to as Basel 3.1) in the UK (closing on 31 March 2023). This would revise the CRD IV framework already implemented in the UK and would have consequential impacts on the UK implementation of the leverage ratio, and elements of the liquidity and large exposures frameworks. The PRA has proposed a five-year transitional period for implementation that will become effective on 1 January 2025. CRD

Risk Factors

IV requirements adopted in the UK may change further, including as a result of policy developments associated with the migration of the CRD IV framework into domestic regulatory rules, as well as changes to the way in which the PRA continues to interpret and apply these requirements to UK banks (including as regards individual model approvals).

There is a risk that changes to the UK's capital adequacy regime (including any increase to minimum leverage ratios) may result in increased minimum capital requirements, which could reduce available capital for new business purposes and adversely affect the Group's cost of funding, profitability and ability to pay dividends, or other discretionary payments on its capital instruments continued organic growth (including increased lending), or pursue acquisitions or other strategic opportunities. Alternatively, the Group could be required to restructure its balance sheet to reduce capital charges incurred pursuant to the PRA's rules or raise additional capital, but at increased cost and subject to prevailing market conditions. In addition, any changes to the eligibility criteria for Tier 1 and Tier 2 capital may affect the Group's ability to raise Tier 1 and Tier 2 capital and impact the recognition of existing Tier 1 and Tier 2 capital resources in the calculation of the Group's capital position. Furthermore, increased capital requirements may negatively affect the Group's return on equity and other financial performance indicators.

The Group's business could be affected if its capital is not managed effectively or if these measures limit the Group's ability to manage its balance sheet and capital resources effectively or to access funding on commercially acceptable terms. Effective management of the Group's capital position is important to the Group's ability to operate its business, to continue to grow organically and to pursue its business strategy. There is a risk that implementing and maintaining existing and new liquidity requirements, such as through enhanced liquidity risk management systems, may incur significant costs, and more stringent requirements to hold liquid assets may materially affect the Group's lending business as more funds may be required to acquire or maintain a liquidity buffer, thereby reducing future profitability. This could in turn adversely impact the Group's operations, financial condition and prospects.

Liquidity and funding risks are inherent in the Group's business and could have a material adverse effect on the Group's operations, financial condition and prospects

Liquidity risk is the risk that the Group either does not have available sufficient financial resources to meet its obligations as they fall due or can secure them only at excessive cost. This risk is inherent in any retail and commercial banking business and can be heightened by a number of factors such as over-reliance on a particular source of funding, changes in credit ratings, or market-wide phenomena such as market dislocation. The Group performs comprehensive internal stress testing in order to ensure that it maintains funding profiles and holds a liquid asset buffer in order to manage this risk. However, unforeseen systemic market factors like those experienced during the last financial crisis make it difficult to eliminate these risks completely. There can be no assurance that such circumstances will not reoccur or that they will occur in the same way, but past experience and comprehensive stress testing regimes help the Group to consider and manage the potential impacts on its liquidity position. Liquidity constraints may affect the Group's operations and its ability to meet regulatory liquidity requirements or may limit growth possibilities. Disruption and volatility in the global financial markets could have a material adverse effect on the Group's ability to access capital and liquidity on financial terms acceptable to it, and in addition to increased funding costs, may result in a shortening in the term of funding it raises.

The Group's cost of funding is related to prevailing interest rates and to its credit spreads. Increases in interest rates and the Group's credit spreads can significantly increase the cost of its funding. Changes in the Group's credit spreads can be market-driven or idiosyncratic in nature and may be influenced by perceptions of its creditworthiness rather than any underlying change in the Group's financial position. Changes to interest rates and the Group's credit spreads occur continuously and may be unpredictable and highly volatile. Market predictions of future central bank policy rate paths may impact the Group's cost of funding, even if central bank actions do not ultimately follow market predictions.

If wholesale markets financing ceases to be available, or becomes excessively expensive, the Group may be forced to raise the rates it pays on deposits, with a view to attracting more

Risk Factors

customers and/or to sell assets, potentially at depressed prices or to reduce growth plans. The Group's cost of funding might also be impacted by increased competition for retail and corporate deposits.

In response to the COVID-19 pandemic, the BoE introduced the Term Funding Scheme with additional incentives for Small and Medium-Sized Enterprises ("TFSME"). The Group has begun repaying drawings ahead of the 2025 contractual maturities and as at 31 December 2022, the Group had £25bn of drawings outstanding having repaid £7bn in the fourth quarter of 2022. The Group will have to replace these remaining drawings via wholesale market issuance or by raising additional deposits.

Each of the factors described above could have a material adverse effect on the Group, including its ability to access capital and liquidity on financial terms acceptable to it and, more generally, on its operations, financial condition and prospects.

Further, the Group aims for a funding structure that is consistent with its assets, avoids excessive reliance on short-term wholesale funding, attracts enduring retail and commercial deposits and provides diversification in products and tenor. The Group therefore relies, and will continue to rely, on retail and commercial deposits to fund a significant proportion of lending activities. The on-going availability of this type of funding is sensitive to a variety of factors outside the Group's control, such as general economic conditions and the confidence of depositors in the economy, in the financial services industry in general, confidence in the Group specifically, the Group's credit rating and the availability and extent of deposit guarantees, as well as competition between banks for deposits or competition with other products, such as mutual funds or, if launched, central bank digital currency. A change in any of these factors could significantly increase the amount of commercial deposit withdrawals in a short period of time, thereby reducing its ability to access deposit funding on appropriate terms, or at all, in the future, and therefore have a material adverse effect on the Group's operations, financial condition and prospects.

The Group's liquidity planning assumes that customers will continue to make a volume of deposits with the Group (particularly demand deposits and short-term time deposits), and the Group intends to maintain its emphasis on the use of deposits as a source of funds. The short-term nature of some deposits could cause liquidity problems for the Group in the future if deposits are not made in the volumes anticipated or are withdrawn at short notice or are not renewed. If a substantial number of depositors withdraw their demand deposits or do not roll over their time deposits upon maturity, there may be a material adverse effect on the Group's operations, financial condition and prospects. This might increase the Group's requirements for wholesale funding or require the execution of contingent options to raise additional liquidity, including the potential curtailing of growth plans.

An adverse movement in the Group's external credit rating would likely increase its cost of funding, require the Group to post additional collateral or take other actions under some of its derivative contracts and adversely affect the Group's operations, financial condition and prospects

Credit ratings affect the cost and other terms upon which the Group is able to obtain funding. Credit rating agencies regularly evaluate the Group, and their credit ratings of the Group and the Group's issued debt are based on a number of factors, including the Group's financial strength, the strength of the UK economy and conditions affecting the financial services industry generally.

Any downgrade in the external credit ratings assigned to the Group or any of the Group's debt securities could have an adverse impact on the Group. In particular, a downgrade in the Group's credit ratings could increase its borrowing costs and could require it to post additional collateral or take other actions under some of derivatives, loan facilities or other financial contracts, and could limit its access to capital markets and have a material adverse effect on its operations, financial condition and prospects. For example, a credit rating downgrade could have a material adverse effect on the Group's ability to sell or market certain products, engage in certain longer-term or derivatives transactions and retain its customers or investors, particularly those who need a minimum rating threshold in order to transact or invest.

Risk Factors

Any of these effects of a credit rating downgrade could, in turn, result in outflows and reduce the Group's liquidity and have an adverse effect on the Group, including its operations, financial condition and prospects. For example, the Group estimates that at 31 December 2022, if Fitch, Moody's and Standard & Poor's were concurrently to downgrade the long-term credit ratings of Santander UK plc by one notch, and thereby trigger a short-term credit rating downgrade, this could result in an outflow of £1.4bn of cash and collateral. A hypothetical two notch downgrade would result in a further outflow of £0.7bn of cash and collateral at 31 December 2022. Under the LCR the Group holds sufficient liquidity to cover these potential outflows. However, while certain potential impacts are contractual and quantifiable, the full consequences of a credit rating downgrade are inherently uncertain, as they depend upon numerous dynamic, complex and inter-related factors and assumptions, including market conditions at the time of any downgrade, whether any downgrade of a firm's long-term credit rating precipitates downgrades to its short-term credit rating, whether any downgrade precipitates changes to the way that the financial institutions sector is rated, and assumptions about the ratings of other financial institutions and the potential behaviours of various customers, investors and counterparties. Actual outflows will also depend upon certain other factors including any management or restructuring actions that could be taken to reduce cash outflows and the potential liquidity impact from a loss of unsecured funding (such as from money market funds) or loss of secured funding capacity.

There can be no assurance that the credit rating agencies will maintain the Group's current credit ratings or outlooks. A failure to maintain favourable credit ratings or outlooks could increase the Group's cost of funding, adversely affect the Group's interest margins, and reduce its ability to secure both long-term and short-term funding. If a downgrade of a Group member's long-term credit ratings were to occur, it could also impact the short-term credit ratings of other members of the Group. The occurrence of any of these events could have a material adverse effect on the Group's operations, financial condition and prospects.

Negative changes to the UK sovereign credit rating, or the perception that further negative changes may occur, could have a material adverse effect on the Group's operations, financial condition, prospects and the marketability and trading value of its securities. This might also have an impact on the Group's own credit rating, borrowing costs and ability to secure funding. Negative changes to the UK sovereign credit rating, or the perception that further negative changes may occur, could also have a material effect in depressing consumer confidence, restricting the availability, and increasing the cost, of funding for individuals and companies, further depressing economic activity, increasing unemployment and reducing asset prices, which could in turn have a material adverse effect on the Group's operations, financial condition and prospects.

Changes in the Group's pension liabilities and obligations could have a materially adverse effect on the Group's operations, financial condition and prospects

The majority of current employees are provided with pension benefits through defined contribution arrangements. Under these arrangements the Group's obligation is limited to the cash contributions paid. The Group provides retirement benefits for many of its former and current employees in the UK through a defined benefit pension scheme established under trust. Santander UK plc is the principal employer under this scheme, but it has only limited control over the rate at which it pays into the scheme. Under the UK statutory pension funding requirements employers are usually required to contribute to the schemes at the rate they agree with the scheme trustees although, if they cannot agree, the rate can be set by the Pensions Regulator. The scheme trustees may, in the course of discussions about future valuations, seek higher employer contributions. The scheme trustees' power in relation to the payment of pension contributions depends on the terms of the trust deed and rules governing the scheme, but, in some cases, the trustees may have the unilateral right to set the employer's relevant contribution.

The Pensions Regulator has the power to issue a financial support direction to companies within a group in respect of the liability of employers participating in UK defined benefit pension schemes where, amongst other things, that employer is 'insufficiently resourced' (as defined for the purposes of the relevant legislation). Such a financial support direction could require the companies to guarantee or provide security for the pension liabilities of those employers, or could require additional amounts to be paid into the relevant pension schemes in respect of them.

Risk Factors

The Pensions Regulator can also issue contribution notices if it is of the opinion that an employer has taken actions, or failed to take actions, deliberately designed to avoid meeting its pension promises or which are materially detrimental to the scheme's ability to meet its pension promises. A contribution notice can be issued to any company or individual that is connected with or an associate of such employer in circumstances where the Pensions Regulator considers it reasonable to issue it and multiple notices could be issued to connected companies or individuals for the full amount of the debt. The risk of a contribution notice being imposed may inhibit the Group's freedom to restructure or to undertake certain corporate activities. There is a risk that the Group could incur an obligation to make a contribution to the scheme by virtue of section 75 or 75A of the Pensions Act 1995 as a result of a reorganisation or disposal of the Group's businesses.

Should the value of assets to liabilities in respect of the defined benefit schemes operated by the Group record a deficit or an increased deficit (as appropriate), due to either a reduction in the value of the pension fund assets (depending on the performance of financial markets) not matched by a fall in the pension fund liabilities and/or an increase in the scheme liabilities not matched by an increase in the pension fund assets due to changes in legislation, mortality assumptions, discount rate assumptions, inflation, or other factors, or there is a change in the actual or perceived strength of the employer's covenant, this could result in the Group having to make increased contributions to reduce or satisfy the deficits which would divert resources from use in other areas of its business and reduce its capital resources. Inflation in particular poses a significant risk to the pension fund as liabilities would be adversely impacted by an increase in long-term inflation. While the Group can control a number of the above factors, there are some over which the Group has no or limited control. Although the trustee of the schemes is obliged to consult with the Group before changing the pension schemes' investment strategy, the trustee has the final say and the ultimate responsibility for investment strategy rests with the trustee.

Changes in UK legislation and regulation through the Pension Schemes Act 2021 to address perceived failings in pension protection following recent high profile company insolvencies with large pension deficits may also affect the Group's position. Specific areas where concerns have been raised are levels of dividends where there is a pension scheme with a deficit and the length of time taken to address deficits. Changes in legislation or regulation could result in the Group having to make increased contributions to reduce or satisfy the deficits which would divert resources from use in other areas of its business and reduce its capital resources.

The scheme has material investments in illiquid assets consisting primarily of unlisted credit, private equity and property. The value of these investments can only be known when they are realised. The value in the accounts is an estimate of the fair value of these investments but the final realised value could be materially different and if less than the value used in the accounts could result in the Group having to make increased contributions to reduce or satisfy resulting deficits which would also divert resources from use in other areas of the business and reduce its capital resources.

Any increase in the Group's pension liabilities and obligations as a result of the foregoing factors could have a material adverse effect on the Group's operations, financial conditions and prospects.

4. Market Risks

The Group is subject to fluctuations in interest rates and other market risks, which could have a material adverse effect on the Group's operations, financial condition and prospects.

Market risk refers to the probability of variations in the Group's net interest income or in the market value of its assets and liabilities due to volatility of interest rates, credit spreads, exchange rates or equity prices.

Changes in interest rates would affect the following areas, among others, of the Group's business:

- Net interest income.

Risk Factors

- The value of the Group's derivatives transactions.
- The value of the Group's securities holdings.
- The value of the Group's loans and deposits.
- The volume of loans originated.

Interest rates are highly sensitive to many factors beyond the Group's control, including increased regulation of the financial sector, inflation, monetary policies, domestic and international economic and political conditions. Variations in interest rates could affect the interest earned on the Group's assets and the interest paid on its borrowings, thereby affecting its net interest income, which comprises the majority of its revenue, reducing its growth rate and profitability and potentially resulting in losses. In addition, costs the Group incurs putting into place strategies to reduce interest rate exposure could increase in the future, which could have a material adverse effect on the Group's operations, financial condition and prospects.

Increases in interest rates may reduce the volume of loans originated by the Group. Sustained high interest rates have historically discouraged customers from borrowing and have resulted in increased delinquencies in outstanding loans and deterioration in the quality of assets. Increases in interest rates may also reduce the propensity of the Group's customers to prepay or refinance fixed-rate loans, reduce the value of its financial assets and reduce gains or require the Group to record losses on sales of the Group's loans or securities, which could have a material adverse effect on the Group's operations, financial condition and prospects.

Negative changes in positions recorded at fair value could have a material adverse effect on the Group's operations, financial condition and prospects

The Group has material exposures to securities, derivatives and other investments that are recorded at fair value and are therefore exposed to potential negative market changes. A widening of market credit spreads, reflecting the prevailing market conditions, would negatively impact asset valuations in future periods and may result in negative changes in the fair values of the Group's financial assets. A tightening of the Group's own credit spreads would increase the magnitude of liabilities, thereby reducing net assets.

In addition, the value ultimately realised by the Group on disposal of assets and liabilities recorded at fair value may be lower than the current fair value: for example, during the last global financial crisis, financial markets were subject to periods of significant stress resulting in steep falls in perceived or actual financial asset values, particularly due to volatility in global financial markets and the resulting widening of credit spreads. The Group is also exposed to changes in the market value of credit and funding spreads for the valuation of certain derivative contracts, the estimated value of which is negatively exposed to increases in the Credit Valuation Adjustment spread and the Funding Fair Valuation Adjustment ("FVA") spread over the lifetime of the transaction. Any of these factors could require the Group to record negative changes in fair value, which could have a material adverse effect on its operations, financial condition and prospects.

The Group is also exposed to changes in UK residential house price index levels, future index growth assumptions and house price index volatility. These impact the valuations of the portfolios of home reversion plans, lifetime mortgages and associated hedges held by the Group. In addition, the home reversion assets and mortgages are exposed to any changes in underlying mortality assumptions as maturity dates on these are not fixed and are driven by the vacation of the underlying property on a permanent basis by the plan holder. Specific property risk exists for each individual asset versus the indexed growth assumption at the point of maturity. Lifetime mortgages additionally have prepayment risk which is managed via a FVA based on historic data.

In addition, to the extent that fair values are determined using financial valuation models, such values may be inaccurate or subject to change, as the data used by such models may not be available or may become unavailable due to changes in market conditions, particularly for illiquid assets and in times of economic instability. In such circumstances, the Group's valuation

Risk Factors

methodologies require it to make assumptions, judgements and estimates in order to establish fair value.

Reliable assumptions are difficult to make and are inherently uncertain. Moreover, valuation models are complex, making them inherently imperfect predictors of actual results. Any consequential impairments or write-downs could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group invests in debt securities of the UK government largely for liquidity management purposes. At 31 December 2022, approximately 4 per cent. of the Group's total assets and 3 per cent. of the Group's securities portfolio were comprised of debt securities issued by the UK government. Any failure by the UK government to make timely payments under the terms of these securities, or a significant decrease in their market value, could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group is exposed to risks relating to the integrity and continued existence of reference rates

As previously announced by the Financial Conduct Authority ("FCA"), all sterling, euro, Swiss franc and Japanese yen LIBOR settings, and the 1-week and 2-month USD LIBOR settings, ceased to be published based on panel bank submissions after 31 December 2021, the overnight and 12-month USD LIBOR settings ceased to be published after 30 June 2023, and in April 2023, the FCA announced that the 1-month, 3-month and 6-month USD-LIBOR ceased to be representative after 30 June 2023 and will use a 'synthetic' methodology over time with the intention for these settings to cease on 30 September 2024. In September 2021, the FCA announced that it would compel the continued publication of the 1-, 3- and 6-month sterling (and Japanese yen) LIBOR settings after end-2021, using a 'synthetic' methodology for a limited time. The FCA announced in April 2023 that the 1- and 6-month sterling LIBOR 'synthetic' settings "were published for the final time on 31 March 2023. These settings have now ceased permanently", and in November 2022, the FCA announced, and affirmed in April 2023, that the 3-month sterling LIBOR 'synthetic' setting would cease to be published after 31 March 2024.

During 2021, the Group – along with its customers and counterparties – agreed the transition to alternative reference rates for the majority of agreements referencing the LIBOR settings that ceased at the end of 2021. A number of agreements referencing 'synthetic' LIBOR settings were transitioned during 2022. The Group is also continuing to finalise the transition of agreements referencing continuing USD LIBOR settings.

The transition of LIBOR based agreements has been complex and involved a range of risks (including legal, conduct, system, model, accounting and reputational risks). Changes to, or the replacement of, benchmarks may cause contracts in which they are used to perform differently than in the past or may have other consequential effects. In particular, the transition of contracts from GBP LIBOR to an alternative reference rate (such as SONIA or the BoE base rate) has typically involved an adjustment to the terms of financial contracts to which the Group is a party. Whilst the Group and its customers and counterparties, have agreed on the transition for most impacted agreements and the Group has taken steps to manage the risks outlined, there can be no assurance that these risks will not crystallise. This could have adverse effects on the Group's operations, financial condition, and prospects.

5. Credit Risks

If the level of non-performing loans increases or the credit quality of the Group's loans deteriorates in the future, or if the Group's loan loss reserves are insufficient to cover loan losses, this could have a material adverse effect on the Group's operations, financial condition and prospects

Risks arising from changes in credit quality and the recoverability of loans and amounts due from counterparties are inherent in a wide range of the Group's businesses. Non-performing or low credit quality loans have in the past, and could continue to, have a material adverse effect on the Group's operations, financial condition and prospects.

Risk Factors

In particular, the amount of the Group's reported non-performing loans may increase in the future as a result of growth in the Group's total loan portfolio, including as a result of loan portfolios that the Group may acquire in the future (the credit quality of which may turn out to be worse than the Group had anticipated), or factors beyond the Group's control, such as adverse changes in the credit quality of the Group's borrowers and counterparties, a general deterioration in the UK or global economic conditions (including, without limitation, rising interest rates), the impact of political events, events affecting certain industries or events affecting financial markets and global economies. Broader inflationary pressures that impact a customer's ability to service debt payments could also lead to increased arrears in both unsecured and secured products.

There can be no assurance that the Group will be able to effectively control the level of impaired loans in, or the credit quality of, its total loan portfolio, which could have a material adverse effect on the Group's operations, financial condition and prospects.

Interest rates payable on a significant portion of the Group's outstanding mortgage loan products fluctuate over time due to, among other factors, changes in the BoE base rate. As a result, borrowers with variable interest rate mortgage loans are exposed to increased monthly payments when the related mortgage interest rate adjusts upward. Similarly, borrowers of mortgage loans with fixed or introductory rates adjusting to variable rates after an initial period are exposed to the risk of increased monthly payments at the end of this period. Over the last few years both variable and fixed interest rates have been at historically low levels, which has benefited borrowers of new loans and those repaying existing variable rate loans regardless of special or introductory rates. Future increases in borrowers' required monthly payments may result in higher delinquency rates and losses related to non-performing loans going forward. Borrowers seeking to avoid these increased monthly payments by refinancing their mortgage loans may no longer be able to find available replacement loans at comparably low interest rates. These events, alone or in combination, may contribute to higher delinquency rates and losses for the Group, which could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group's current loan loss reserves may not be adequate to cover an increase in the amount of non-performing loans or any future deterioration in the overall credit quality of the Group's total loan portfolio. The Group's loan loss reserves are based on the Group's current assessment of various factors affecting the quality of its loan portfolio, including its borrowers' financial condition, repayment abilities, the realisable value of any collateral, the prospects for support from any guarantor, government macroeconomic policies, interest rates and the legal and regulatory environment. Many of these factors are beyond the Group's control. As a result, there is no precise method for predicting loan and credit losses, and no assurance can be provided that the Group's current or future loan loss reserves will be sufficient to cover actual losses.

If the Group's assessment of and expectations concerning the above-mentioned factors differ from actual developments the Group may need to increase its loan loss reserves, which may adversely affect the Group's operations, financial condition and prospects. Additionally, in calculating its loan loss reserves, the Group employs qualitative tools and statistical models which may not be reliable in all circumstances and which are dependent upon data that may not be complete. If the Group is unable to control or reduce the level of its non-performing or poor credit quality loans, this could have a material adverse effect on the Group's operations, financial condition and prospects.

The value of the collateral, including real estate, securing the Group's loans may not be sufficient, and the Group may be unable to realise the full value of the collateral securing the Group's loan portfolio

The value of the collateral securing the Group's loan portfolio may significantly fluctuate or decline due to factors beyond the Group's control, including macroeconomic factors affecting the UK's economy. The Group's residential mortgage loan portfolio is one of its principal assets, comprising 85 per cent. of the Group's loan portfolio at 31 December 2022. As a result, the Group is highly exposed to developments in the residential property market in the UK. House price growth was strong in the first half of 2022 with demand for housing also strong. However, in Q3 and Q4 prices started to fall and there remains a level of uncertainty in the outlook for

Risk Factors

house prices for 2023. The depth of the previous house price declines as well as the continuing uncertainty as to the extent and sustainability of the UK economic downturn and recovery will mean that losses could be incurred on loans should they go into possession.

The value of the collateral securing the Group's loan portfolio may also be adversely affected by force majeure events such as natural disasters like floods or landslides exacerbated by climate change trends. Any force majeure event may cause widespread damage and could have an adverse impact on the economy of the affected region and may therefore impair the asset quality of the Group's loan portfolio in that area.

The Group may also not have sufficiently up-to-date information on the value of collateral, which may result in an inaccurate assessment for impairment losses on loans secured by such collateral.

If any of the above events were to occur, the Group may need to make additional provisions to cover actual impairment losses of its loans, which could have a material adverse effect on the Group's operations, financial condition and prospects.

6. Legal & Regulatory Risks

The Group is subject to substantial and evolving regulation and governmental oversight

As a financial services group, the Group is subject to extensive financial services laws, regulations, administrative actions and policies in the UK, and in each other location in which the Group operates. For a discussion of the principal laws and regulations to which the Group is subject, see "Description of the Issuer - Regulation of the Group". The sector continues to face unprecedented levels of government and regulatory intervention and scrutiny, and changes to the regulations governing financial institutions and the conduct of business. In addition, regulatory and governmental authorities have continued to consider further enhanced or new legal or regulatory requirements intended to reduce the probability and impact of future crises (or otherwise assure the stability and operational resilience of institutions under their supervision), enhance consumer protection, address climate change risks, the risk of greenwashing and environmental, social and governance risks generally, and improve controls in relation to financial crime-related risks. The Group expect regulatory and government intervention in the banking sector to remain high for the foreseeable future. An intensive approach to supervision is maintained in the UK by the PRA, the FCA, the Competition and Markets Authority ("**CMA**"), the Payment Systems Regulator ("**PSR**"), the Information Commissioner's Office ("**ICO**") and the Lending Standards Board ("**LSB**").

As well as being subject to UK regulation, as part of the Santander Group, the Group is also affected by other regulators such as the Banco de España (the "**Bank of Spain**") and the European Central Bank (the "**ECB**"), as well as various legal and regulatory regimes (including the US) that have extra-territorial effect. Extensive legislation and implementing regulations affecting the financial services industry have recently been adopted in regions that directly or indirectly affect the Group's business, including Spain, the US, the EU and other jurisdictions.

The manner in which financial services laws, regulations and policies are applied to the operations of financial institutions has gone through great change which is still being implemented and reviewed. Recent proposals and measures taken by governmental, tax and regulatory authorities and further future changes in supervision and regulation (in particular in the UK), are beyond the Group's control and could materially affect the Group's business.

Changes in UK legislation and regulation applicable to the financial sector may also affect the Group's competitive position, particularly if such changes are implemented before international consensus is reached on key issues affecting the industry.

To the extent these laws, regulations and policies apply to it, the Group may face higher compliance costs and the need to carefully manage capacity to readily respond to multiple regulatory or government policy changes simultaneously. Any legislative or regulatory actions and any required changes to the Group's business operations resulting from such laws, regulations and policies as well as any deficiencies in the Group's compliance with such laws,

Risk Factors

regulations and policies could result in significant loss of revenue, could have an impact on the Group's strategy, limit its ability to pursue business opportunities in which the Group might otherwise consider engaging, limit the Group's ability to provide certain products and services and/or result in enforcement action (including the imposition of financial and other penalties). They may also affect the value of assets that the Group holds, requiring the Group to increase its prices thereby reducing demand for the Group's products or otherwise have a material adverse effect on its operations, financial condition and prospects. Accordingly, there can be no assurance that future changes in laws, regulations and policies or in their interpretation or application by the Group or by regulatory authorities will not adversely affect the Group.

Specific examples of areas where regulatory changes and increased regulatory scrutiny could have a material adverse effect on the Group's operations, financial condition and prospects include, but are not limited to, the following:

- **Competition:** Reviews and investigations by competition authorities (which in the UK include the CMA, the FCA and the PSR) into any aspect of the Group's operations or the functioning of any markets in which the Group operates.
- **Payments:** The Group has been required to make systems changes and update processes to comply with a number of new payment regulations at a European as well as domestic UK level. Within the UK, the PSR has mandated the Group build systems and processes for both Confirmation of Payee as well as the Contingent Reimbursement Model Code which both aim to reduce the level of customer fraud (particularly through the Group's customers' manipulation into making payments known as "Authorised Push Payment" fraud). Under these standards, the Group assumes responsibility for certain categories of customer losses and any inherent failing in system design may lead to fines from regulators and/or compensation being paid to customers. The Group also expects to see significant developments in the key UK payment systems architecture - with systems update of the high value CHAPS system through the Real Time Gross Settlement renewal as well as the "New Payments Architecture" for faster payments, BACS and the other lower value retail payment schemes. Transitioning to the 'New Payments Architecture' will generate short-term challenges, including in successfully adopting the ISO20022 messaging standard while ensuring payment message completeness in alignment with regulatory requirements. PSD2 has been implemented and transposed into UK legislation in the Payment Services Regulations 2017 and the UK continues to build upon the requirements within the EBA Regulatory Technical Standards via the Open Banking API industry standard and build. Open Banking and PSD2 both have shown that they have the potential to exacerbate a number of existing risks including data loss/data protection, cyber security, fraud and wider financial crime risk, which in turn could give rise to increased costs, litigation risk and risk of regulatory investigation and enforcement activity.
- **Consumer Duty:** In response to a requirement introduced into the FSMA, the FCA has published final rules and guidance on a broad consumer duty that firms undertaking regulated activities with retail clients should observe ("**Consumer Duty**"). The Consumer Duty has three elements: A consumer Principle that provides a high-level expectation of conduct, a set of overarching Cross-cutting Rules which develop and amplify the standards of conduct that the FCA expects under the consumer Principle and a suite of rules and guidance setting more detailed expectations for a firm's conduct according to the four specific outcomes that represent the key elements of the firm and its consumer relationships (products and services, price and value, consumer understanding and consumer support). The Consumer Duty also includes requirements for firms to end unfair charges and fees, make it as easy to switch or cancel products as it was to take them out in the first place, provide helpful and accessible customer support, act quickly to respond to customer queries, provide timely, clear and easily understandable information to customers regarding products and services, provide products and services that are appropriate for their customers, and focus on the real and diverse needs of their customers, including those in vulnerable circumstances, at every stage and in each interaction. Firms will also need to monitor, evidence and report against many of the requirements. Final rules and guidance were published on 27 July 2022 and from 31 July 2023, the Consumer Duty applies to all firms, banks and financial

Risk Factors

institutions that deliver new or existing products and services to retail clients. For closed products or services firms, the FCA rules come into force on 31 July 2024. The Consumer Duty requires a review of, and changes to, the Group's products, services, policies, systems and procedures against the FCA requirements. The Consumer Duty will affect elements of the Group's UK business model and strategy, the products and services it offers and the pricing or costs of those products and services, which may in turn affect the revenue and profits that the Group is able to generate. It may result in an increase in civil litigation or claims to the Financial Ombudsman Service by customers alleging a breach of the Consumer Duty or in regulatory action by the FCA.

- **Insolvency:** Changes to the UK corporate insolvency regime were introduced through the Corporate Insolvency and Governance Act 2020, including a pre insolvency moratorium process for corporates in financial difficulty to give a period of time to seek a rescue or restructure and a new restructuring plan insolvency procedure to enable debt restructures. The Finance Act 2020 re-established certain tax debts owed by corporates as secondary preferential debts, ranking ahead of debts owed to floating charge holders. The Debt Respite Scheme (Breathing Space Moratorium and Mental Health Crisis Moratorium) (England and Wales) Regulations 2020 (which came into force on 4 May 2021) give eligible individuals in England and Wales the ability to apply for a breathing space or mental health crisis moratorium during which creditors may not demand payment of interest or fees that accrue or enforce a debt owed by the applicant. The impact these changes will have in relation to the collection and recovery of loans to retail and corporate customers who are in financial difficulty or default continues to evolve.
- **Climate Change:** The UK government has announced its intention to roll out new sustainability disclosure requirements, which will expand on those required under the Taskforce on Climate-related Financial Disclosures (the "TCFD") framework, including transition plans to align to net-zero, as well as a new UK green taxonomy. Santander UK Group Holdings plc is implementing the recommendations of TCFD on a group level: further reporting will require additional gathering of data and operationalisation of reporting and there will be legal, reputational and regulatory risks should Santander UK Group Holdings plc fail to adequately report, or to demonstrate appropriate capabilities to transition and support its customers to transition to a low carbon economy.
- **Evolving Conduct and Regulatory Policy:** The CMA is seeking enhanced consumer protection powers and is considering policy issues that may impact financial services, for example 'loyalty penalties' and the impact of digitalisation on consumer outcomes. There is the potential that the CMA and FCA take different stances on certain policy issues in these spheres.
- **National Security and Investment Act:** The National Security and Investment Act 2021 came into force on 4 January 2022 in the UK, introducing a new national security screening regime with mandatory suspensory notifications required for corporate and financial transactions in certain sectors which meet the prescribed thresholds. The Act also grants the UK Government wide-ranging powers to intervene in transactions on national security grounds, even where the transaction is outside of the scope of the mandatory notification regime. The UK Government can impose heavy criminal and civil penalties under the Act for non-compliance. In the event that the UK Government intervenes in any of the Group's transactions and/or imposes any related penalties on the Group, this could result in reputational damage and could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group may face risks in relation to compliance with ring-fencing legislation

In accordance with the provisions of the Financial Services (Banking Reform) Act 2013 UK banking groups that hold significant retail deposits, including the Group, were required to separate or 'ring-fence' their retail banking activities from their wholesale banking activities by 1 January 2019. The Group completed its ring-fencing plans in advance of the legislative deadline of 1 January 2019. However, given the complexity of the ringfencing regulatory regime and the material impact on the way the Group conducts its business operations in the UK, there is a risk that the Group and/or Santander UK plc may be found to be in breach of one or more

Risk Factors

ring-fencing requirements. This might occur, for example, if prohibited business activities are found to be taking place within the ring-fence, mandated retail banking activities are found being carried on in a UK entity outside the ring-fenced part of the group or the Group breached a PRA ring-fencing rule. If the Group were found to be in breach of any of the ring-fencing requirements placed upon it under the ring-fencing regime, it could be subject to supervisory or enforcement action by the PRA, the consequences of which might include substantial financial penalties, imposition of a suspension or restriction on the Group's UK activities or, in the most serious of cases, forced restructuring of the UK group, entitling the PRA (subject to the consent of the UK government) to require the sale of a Santander ring-fenced bank or other parts of the Group. Following HM Treasury's publication of the final report of the Independent Panel on Ring-Fencing and Proprietary Trading on 15 March 2022, HM Treasury announced its intention to consult on certain limited reforms to the ring-fencing regime during 2023, alongside broader proposals to raise the threshold above which ring-fencing requirements apply from £25 billion to £35 billion of retail deposits, and to align the ring-fencing regime with the UK resolution regime. These consultations may result in future changes to the regime or lead to further review or amendment of the Group's operational and compliance arrangements in relation to the regime.

Failure to comply with data privacy laws and regulations may result in the Group becoming subject to regulatory sanctions

Failure to comply with emerging and current laws and regulations concerning data privacy and localisation in a number of jurisdictions across the globe may result in the Group becoming subject to regulatory sanctions. In particular, the UK General Data Protection Regulation as it forms part of the law of England, Wales, Scotland and Northern Ireland by virtue of section 3 of the EUWA ("**UK GDPR**") and the Data Protection Act 2018 ("**DPA**") imposes obligations on data controllers and rights for data subjects. The implementation of the UK GDPR and DPA has required substantial amendments to the Group's procedures and policies. The changes have had, and could continue to have, an adverse impact on the Group's business by increasing its operational and compliance costs. If there are breaches of the GDPR obligations, the Group could face significant administrative and monetary sanctions as well as reputational damage. The occurrence of any of these events could have a material adverse effect on the Group's operations, financial condition and prospects. The Data Protection and Digital Information Bill was introduced on 18 July 2022 and is currently progressing through the various stages of the parliamentary process. Some proposed reforms, such as the requirement to implement a privacy management programme may result in a further increase in compliance and operational costs, if implemented. The proposed changes may also pose a risk to the EU Commission's adequacy finding in respect of the UK, as the UK's data protection laws may no longer be considered to be essentially equivalent to those of the EU, which would impact data flows from the EU to the UK.

Restrictions on the Group's ability to market products and services by electronic means may put the Group at a competitive disadvantage

For the purposes of the Privacy and Electronic Communications Regulations 2003, the Group relies on legitimate interests and not consent as a lawful basis for its marketing activity (an opt-out model, rather than an opt-in model). This model limits the Group to marketing its own similar products and services only to its own customers who have not opted out of marketing. This model therefore prevents the marketing by the Group of the Santander Group companies' products and services by electronic means. This may put the Group at a competitive disadvantage. It is proposed to move from a legitimate interests model to a consent model in the near future. There will be legal and regulatory risks associated with this transition, as well as systems updates costs to operationalise, which could in turn have a material adverse effect on the Group's operations, financial condition and prospects.

The Group faces risks in connection with the regulatory oversight of outsourcing and risk management

In March 2021, the PRA published Supervisory Statement 2/21 ("**SS2/21**") on outsourcing and risk management. The PRA has stated that SS2/21 should be the primary source of reference for the Group when interpreting and complying with its requirements on outsourcing

Risk Factors

arrangements and third-party risk management. SS2/21 should be read alongside the EBA guidelines on outsourcing arrangements, and FCA rules and guidance on outsourcing which remain applicable and effective. A major development is that the scope of contracts which should meet the PRA requirements on outsourcing and third-party risk management has increased beyond that set out in the EBA guidelines on outsourcing. The PRA states that it expects material third-party agreements that are not outsourcing to be subject to controls that are as robust as the controls that would apply to outsourcing arrangements with an equivalent level of materiality. Also in March 2021, the PRA published Supervisory Statement 1/21 ("**SS1/21**") which sets out its expectations for the operational resilience of the Group's 'important business services'. These are services that a PRA regulated firm provides which, if disrupted, could pose a risk to that firm's safety and soundness or, the financial stability of the UK. The Group is required to identify and set impact tolerances for all its important business services which must, in all cases, include a time-based metric to measure the tolerable level of disruption to that important business service. The Group must ensure it is able to deliver its important business services within impact tolerances in severe but plausible scenarios. If the Group is unable to meet the PRA's requirements on outsourcing and third-party risk management then it may face supervisory measures, which could in turn have a material adverse effect on the Group's operations, financial condition and prospects.

The Group may become subject to the provisions of the Banking Act, including bail-in and write down powers

The special resolution regime set out in the Banking Act provides HM Treasury, the BoE, the PRA and the FCA with a variety of powers for dealing with UK deposit taking institutions (and, in certain circumstances, their holding companies) that are failing or likely to fail, including: (i) to take a bank or bank holding company into temporary public ownership; (ii) to transfer all or part of the business of a bank to a private sector purchaser; or (iii) to transfer all or part of the business of a bank to a 'bridge bank'. The special resolution regime also comprises a separate insolvency procedure and administration procedure each of which is of specific application to banks. These insolvency and administration measures may be invoked prior to the point at which an application for insolvency proceedings with respect to a relevant institution could be made.

If an instrument or order were made under the Banking Act in respect of an entity in the Group, such instrument or order (as the case may be) may, among other things: (i) result in a compulsory transfer of shares or other securities or property of such entity; (ii) have an impact on the rights of the holders of shares or other securities issued by the Group or such entity or result in the nullification or modification of the terms and conditions of such shares or securities; or (iii) result in the de-listing of the shares and/or other securities of such entity. In addition, such an order may affect matters in respect of the Group or such entity and/or other aspects of the shares or other securities of the Group or such entity, which may negatively affect the ability of the Group or such entity to meet its obligations in respect of such shares or securities.

Further, amendments to the Insolvency Act 1986 and secondary legislation have introduced changes to the treatment and ranking of certain debts with the result that certain eligible deposits will rank in priority to the claims of ordinary (i.e. non-preferred) unsecured creditors in the event of an insolvency. This may negatively affect the ability of unsecured creditors to recover sums due to them in an insolvency scenario.

If a 'bail-in' order were made under the Banking Act 2009 as amended by The Financial Services (Banking Reform) Act 2013 (see further "*Description of the Issuer – Regulation of the Group – The Banking Act 2009*"), such an order would be based on the principle that any creditors affected by the 'bail-in' order should receive no less favourable treatment than they would have received had the bank entered into insolvency immediately before the coming into effect of the bail-in power. The bail-in power includes the power to cancel or write down (in whole or in part) certain liabilities or to modify the terms of certain contracts for the purposes of reducing or deferring the liabilities of a bank under resolution and the power to convert certain liabilities into shares (or other instruments of ownership) of the bank. The bail-in power under the Banking Act may potentially be exercised in respect of any unsecured debt securities issued by a bank under resolution or an entity in the Group, regardless of when they were issued. Accordingly, the bail-in power under the Banking Act could be exercised in respect of the Group's debt securities. Public financial support would only be used as a last resort, if at all, after having

Risk Factors

assessed and utilised, to the maximum extent practicable, the resolution tools including the bail-in tool and the occurrence of circumstances in which bail-in powers would need to be exercised in respect of the Group or any entity in the Group would have a material adverse effect on the Group's operations, financial condition and prospects.

The PRA also has the power to make rules requiring a parent undertaking of a bank to make arrangements to facilitate the exercise of resolution powers, including a power to require a member of a banking group to issue debt instruments. The exercise of such powers could have an impact on the liquidity of the Group's debt instruments and could materially increase the Group's cost of funding.

In addition, resolution authorities have the power to require institutions and groups to make structural changes to ensure legal and operational separation of 'critical functions' from other functions where necessary, or to require institutions to limit or cease existing or proposed activities in certain circumstances. As a result, the Group is required to identify such 'critical functions' as part of its resolution and recovery planning. If used in respect of the Group, these ex ante powers could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group must comply with anti-money laundering, anti-terrorism, anti-bribery and corruption, sanctions and anti-tax evasion laws and regulations and a failure to prevent or detect any illegal or improper activities fully or on a timely basis could have a material adverse effect on the Group's operations, financial condition or prospects

The Group is required to comply with applicable anti-money laundering ("AML"), counter-terrorism financing ("CTF"), anti-bribery and corruption, sanctions, preventing the facilitation of tax evasion and other laws and regulations in the jurisdictions in which the Group operates. These laws and regulations require the Group, among other things, to conduct customer due diligence (including in respect of sanctions and politically-exposed person screening), ensure customer and transaction information is appropriately recorded, monitored and kept up to date and implement effective financial crime policies and procedures detailing what is required from those responsible in order to counter financial crime risks. The policies and procedures require the implementation and embedding of effective controls and monitoring within the businesses of the Group, which in turn requires ongoing changes to systems, technology and operational activities.

The Group is also required to conduct financial crime training for its staff and to report suspicious transactions and activity to appropriate law enforcement.

Comprehensive and risk based financial crime training at a group-wide and business unit level is a key element of effective controls, with the FCA providing guidance on expectations within its Financial Crime Guide. Financial crime is continually evolving. This requires proactive and adaptable responses from the Group so that it is able to deter, detect and disrupt threats and criminality effectively. Even known threats can never be fully eliminated, and there will be instances where the Group may be used by other parties to engage in money laundering and other illegal or improper activities. The Group staff, whom the Group rely heavily upon to identify such activities and report them, have varying degrees of experience in recognising criminal tactics making effective bank-wide mandatory and specialist training provided by the Santander UK Group Anti-Financial Crime Academy more pertinent. Where the Group outsources any of its customer due diligence, customer screening or anti financial crime operations, it remains responsible and accountable for full compliance and any breaches. If the Group is unable to apply the necessary scrutiny and oversight, or if such oversight proves insufficient to detect illegal or improper activities, there remains a risk of regulatory breach and this could have a material adverse effect on the Group's operations, financial condition and prospects.

Over the last decade, AML, CTF, anti-bribery and corruption and sanctions laws and regulations have become, and may continue to become, increasingly complex and detailed. Consequently, financial crime risk has become the subject of enhanced regulatory scrutiny and supervision by regulators globally, and such scrutiny continues to intensify. To manage regulatory scrutiny, the Group, requires improved systems, sophisticated monitoring and skilled compliance personnel.

Risk Factors

Navigating the increasing complexity of financial crime regulation is a significant challenge, involving overlapping requirements between different legislation, and, in some instances, conflicts of laws. The divergence of policy approaches between the EU/UK and U.S. in the area of economic sanctions and the evolving financial and trade sanctions imposed on Russia and Belarus due to the war in Ukraine, require additional immediate and longer-term sanctions risk management and compliance efforts for the Group.

UK AML and CTF legislation continues to change (for instance through regular updates to the UK's list of third countries identified as high-risk countries) recent updates to beneficial ownership discrepancy reporting requirements detailed in the UK's Money Laundering Regulations, or the recent launch of the Register of Overseas Entities and the associated compliance regime, which can lead to substantial amendments to the Group's AML and CTF procedures and policies, with additional training and guidance required for employees. While legislative changes can offer opportunities to increase effectiveness and efficiency in the overall anti-financial crime system, there are also risks of legislative and regulatory divergence from EU requirements. Significant change could adversely impact the Group's business by increasing its operational and compliance costs and reducing the value of its assets and operations, which would in turn have a material adverse effect on the Group's operations, financial condition and prospects.

If the Group is unable to fully comply with applicable laws, regulations and expectations, its regulators and relevant law enforcement agencies have the ability and authority to pursue civil and criminal proceedings against it, to impose significant fines and other penalties on it, including requiring a complete review of the Group's business systems, day-to-day supervision by external consultants, imposing restrictions on the conduct of the Group's business and operations and ultimately the revocation of the Group's banking licence. The reputational damage to its business and brand could be severe if the Group was found to have materially breached AML, CTF, anti-bribery and corruption, anti-tax evasion or sanctions requirements. The Group's reputation could also suffer if it were unable to protect the Group's customers or its business from being used by criminals for illegal or improper purposes. Criminal penalties could be imposed upon individuals employed by the Group. Any of these outcomes could have a material adverse effect on the Group's operations, financial condition and prospects.

At an operational level, geo-political, economic and social changes can provide opportunities to financial criminals and alter the risks posed to banks. Effective intelligence and monitoring systems within strengthened public/private partnerships supported by improved national capabilities to share knowledge on emerging risks and information pre-suspicion are required to help manage these risks. However, there can be no guarantee that any intelligence shared by public authorities or other financial institutions will be accurate or effective in helping the Group to combat financial crime, and if, despite such efforts, the Group fails to combat financial crime effectively then this could have a material adverse effect on the Group's operations, financial condition and prospects.

In addition, while the Group reviews its relevant counterparties' internal policies and procedures (for example, under its correspondent banking relationships) with respect to such matters, the Group, to a large degree, depends upon its relevant counterparties to maintain and properly apply their own appropriate anti-financial crime procedures. Such measures, procedures and compliance may not be completely effective in preventing third parties from using its (and its relevant counterparties') services as a conduit for money laundering (including illegal cash operations) without its (or its relevant counterparties') knowledge. There are also risks that other third parties, such as suppliers, could be involved in financial crime. If the Group is associated with, or even accused of being associated with, financial crime (or a business involved in financial crime), then its reputation could suffer and it could become subject to civil or criminal proceedings that could result in penalties, sanctions and legal enforcement (including being added to "black lists" that would prohibit certain parties from engaging in transactions with it), any one of which could have a material adverse effect on the Group's operations, financial condition and prospects.

Risk Factors

The Group is subject to tax-related risks

The Group is subject to the substance and interpretation of UK tax laws and is subject to routine review and audit by tax authorities in relation thereto. The Group's interpretation or application of these tax laws may differ from those of the relevant tax authorities. While the Group provides for potential tax liabilities that may arise on the basis of the amounts expected to be paid to the tax authorities, the amounts ultimately paid may differ materially from the amounts provided depending on the ultimate resolution of such matters. In general, changes to tax laws and tax rates, including as a result of policy changes by governments and/or regulators, and penalties for failing to comply with such changes, could have a material adverse effect on the Group's operations, financial condition and prospects. Some of these changes may be specific to the banking/financial services sectors and therefore result in the Group incurring an additional tax burden when compared to other industry sectors.

The Group is exposed to risk of loss and damage from civil litigation and/or criminal legal and regulatory proceedings

The Group faces various legal and regulatory issues that have given rise and may give rise to civil or criminal litigation, arbitration, and/or criminal, tax, administrative and/or regulatory investigations, inquiries or proceedings. Failure to adequately manage the risks arising in connection with legal and regulatory issues, including the Group's obligations under existing applicable laws and regulations or its contractual obligations, including arrangements with its customers and suppliers, or failure to properly implement applicable laws and regulations could result in significant loss or damage including reputational damage, all of which could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group is (and will continue from time to time to be) subject to certain legal or regulatory investigations, inquiries and proceedings, both civil and criminal including in connection with the Group's lending and payment activities, treatment of customers, relationships with the Group's employees, financial crime, and other commercial or tax matters (see Note 23 to the 2023 Half Year Report). These may be brought against the Group under UK legal or regulatory processes, or under legal or regulatory processes in other jurisdictions, such as the EU and the US, in circumstances where overseas regulators and authorities may have jurisdiction by virtue of its activities or operations.

In view of the inherent difficulty of predicting the outcome of legal or regulatory proceedings, particularly where opportunistic claimants seek very large or indeterminate damages, cases present novel legal theories, involve a large number of parties or are in the early stages of discovery, or where the approaches of regulators or authorities to legal or regulatory issues and sanctions applied are subject to change, the Group cannot state with confidence what the eventual outcome of any pending matters will be and any such pending matters are not disclosed by name because they are under assessment. The Group's provisions in respect of any pending legal or regulatory proceedings are made in accordance with relevant accounting requirements. These provisions are reviewed periodically. However, in light of the uncertainties involved in such legal or regulatory proceedings, there can be no assurance that the ultimate resolution of these matters will not exceed the provisions currently accrued by the Group. As a result, the outcome of a particular matter (whether currently provided or otherwise) could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group is exposed to risks relating to the alleged historical or current misselling of, or misconduct in relation to, financial products

The alleged historical or current misselling of, or misconduct in relation to, financial products, including misselling of Payment Protection Insurance ("PPI"), the alleged overcharging of interest, the alleged inappropriate sale of interest-only mortgages, the alleged unfair use of the standard variable rate in connection with mortgages, the alleged non-disclosure of commission, including auto finance related commission giving rise to an alleged unfair relationship, or alleged misconduct as a result of having sales practices and/or rewards structures that are deemed to have been inappropriate, has given rise to and may give rise to a risk of complaints to FOS and/or civil litigation (including claims management company driven legal or complaints campaigns) (see Note 23 to the 2023 Half Year Report). Such matters may in the

Risk Factors

future give rise to the risk of regulatory enforcement action requiring the Group to amend sales processes, withdraw products or provide restitution to affected customers, any of which may require additional provisions to be recorded in the Group's financial statements and could adversely impact future revenues from affected products.

The Group faces a regulatory environment characterised by a continuing heightened regulatory focus and forthcoming regulatory change initiatives will lead to materially higher operational and compliance costs

The current regulatory environment, with the continuing heightened supervisory focus, combined with the forthcoming regulatory change initiatives, will lead to material operational and compliance costs. An adverse finding by a regulator, agency or authority could result in the need for extensive changes in systems and controls, business policies, and practices coupled with suspension of sales, restrictions on conduct of business and operations, withdrawal of services, customer redress, fines and reputational damage.

Relevant risks include:

- Regulators, agencies and authorities with jurisdiction over the Group, including the BoE, the PRA and the FCA, HM Treasury, HM Revenue & Customs ("HMRC"), the CMA, the Information Commissioner's Office, the Financial Ombudsman Service ("FOS"), the PSR, the Serious Fraud Office ("SFO"), the National Crime Agency ("NCA"), the Office of Financial Sanctions ("OFSI") or the Courts, may determine that certain aspects of the Group's business have not been or are not being conducted in compliance with applicable laws or regulations (or that policies and procedures are inadequate to ensure compliance), or, in the case of the FOS, with what is fair and reasonable in the FOS's opinion. Changes in policy, laws and regulations including in relation to Small and Medium Sized Enterprises ("SMEs") dispute resolution and liability for authorised push payment fraud and unauthorised payment fraud, may have significant consequences and lead to material implementation, operational and compliance costs.
- The increased focus on competition law in financial services and concurrent competition enforcement powers for the FCA and PSR may increase the likelihood of competition law related inquiries or investigations initiated by either the CMA or these authorities. In addition, the CMA's widening focus on market outcomes may result in increased reviews by the CMA of the markets in which the Group operates. The Group may be liable for damages to third parties harmed by the Group's conduct of business. For competition law, there are efforts by governments across Europe to promote private enforcement as a means of obtaining redress for harm suffered as a result of competition law breaches. Under the Consumer Rights Act 2015, there is scope for class actions to be used to allow the claims of a whole class of claimants to be heard in a single action in both follow-on and standalone competition cases.
- The Group may have held and may continue to hold bank accounts for entities or have relationships with entities such as third parties that might be or are subject to scrutiny from various regulators and authorities, including the SFO, the NCA and regulators in the U.S. and elsewhere, which has led and could in the future lead to the Group's conduct being reviewed as part of any such scrutiny.
- The developing legal and regulatory regime in which the Group operates requires it to be compliant across all aspects of its business, including the training, authorisation and supervision of personnel and the development of systems, processes and documentation. If the Group fails to be compliant with relevant law or regulation, there is a risk of an adverse impact on its business from more proactive regulatory intervention (including by any overseas regulator which establishes jurisdiction), investigation and enforcement activity leading to sanctions, fines, civil or criminal penalties, or other action imposed by or agreed with the regulatory authorities, as well as increased costs associated with responding to regulatory inquiries and defending regulatory actions. Customers of financial services institutions, including the Group's customers, may seek redress if they consider that they have suffered loss, for example, as a result of the misselling of a particular product, or through incorrect application or enforcement of the terms and

Risk Factors

conditions of a particular product or in connection with a competition law infringement and the Group's rights under a contract with its customers may in certain circumstances be unenforceable or otherwise impaired.

Given the: (i) requirement for compliance with an increasing volume of relevant laws and regulations; (ii) more proactive regulatory intervention and enforcement and more punitive sanctions and penalties for infringement; (iii) inherent unpredictability of litigation; (iv) evolution of the jurisdiction of FOS and CMA and related impacts; (v) development of a voluntary dispute resolution service to oversee the resolution of historic complaints from SMEs that meet the relevant eligibility criteria and new complaints from SMEs that would be outside the FOS' proposed revised jurisdiction; (vi) introduction of a voluntary code to enhance protection for customers who are victims of authorised push payment fraud; and (vii) high volume of new regulations or policy changes from multiple regulators and authorities which the Group is mandated to implement within compressed timescales; it is possible that related costs or liabilities arising from each or any risk identified in the bullet points above could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group is exposed to risks in relation to 'super complaints' from designated consumer bodies

The Financial Services and Markets Act 2000 (Designated Consumer Bodies) Order 2013 (the "**Designated Consumer Bodies Order**") was made on 16 December 2013 and came into force on 1 January 2014. The Designated Consumer Bodies Order designates the National Association of Citizens Advice Bureaux, the Consumers' Association, the General Consumer Council for Northern Ireland and the National Federation of Self Employed and Small Businesses as consumer bodies that may submit a 'super-complaint' to the FCA. A 'super-complaint' is a complaint made by any of these designated consumer bodies to the FCA on behalf of consumers of financial services where it considers that a feature, or a combination of features, of the market for financial services in the UK is seriously damaging the interests of these customers. Complaints about damage to the interests of individual consumers will continue to be dealt with by the FOS. If a 'super-complaint' were to be made against a Group entity by a designated consumer body under the Designated Consumer Bodies Order, any response published or action taken by the FCA could have a material adverse effect on the Group's operations, financial condition and prospects.

7. Operational Risks

Failure to successfully apply or to improve the Group's credit risk management systems could have a material adverse effect on the Group's operations, financial condition and prospects

As a commercial banking group, one of the main types of risks inherent in the Group's business is credit risk. For example, an important feature of the Group's credit risk management system is to employ the Group's own credit rating system to assess the particular risk profile of a customer. This system is primarily generated internally, but, in the case of counterparties with a global presence, also builds off the credit assessment assigned by other members of the Santander Group. As this process involves detailed analysis of the customer or credit risk, taking into account both quantitative and qualitative factors, it is subject to human and IT systems errors. Where exercising their judgement on current or future credit risk behaviour of the Group's customers, the Group's employees may not always be able to assign a correct credit rating, which may result in a larger exposure to higher credit risks than indicated by the Group's risk rating system. The Group may not be able to detect all possible risks before they occur, or its employees may not be able to effectively apply its credit policies and guidelines due to limited tools available to the Group, which may increase its credit risk.

Any failure to effectively apply, consistently monitor and refine the Group's credit risk management systems may result in an increase in the level of non-performing loans and higher losses than expected, which could have a material adverse effect on the Group's operations, financial condition and prospects.

Risk Factors

The Group's data management policies and processes may not be sufficiently robust

Critical business processes across the Group rely on large volumes of data from a number of different systems and sources. If data governance (including data retention and deletion, data quality and data architecture policies and procedures) is not sufficiently robust, manual intervention, adjustments and reconciliations may be required to reduce the risk of error in the Group's external reports or in reporting to senior management or regulators. Inadequate policies and processes may also affect the Group's ability to use data to service customers more effectively or to improve the Group's product offering. The Group must also comply with requirements under law or regulation which require classification of customers, counterparties, financial transactions or instruments. The Group must also comply with the requirements under law or regulation in respect of the use and protection of customer data and must mitigate the risk of any misuse or loss of data owing to failure of a data management process or an employee breach. Financial institutions that fail to comply with in-country (local) and global regulatory and compliance requirements may face supervisory measures, which could in turn have a material adverse effect on the Group's operations, financial condition and prospects.

The Group's business is subject to risks related to cyber-crime

The Group's systems, software and networks may be vulnerable to unauthorised access, misuse, computer viruses or other malicious code and other events that could have a security impact. The interception, misuse or mishandling of personal, confidential or proprietary information sent to or received from a client, vendor, service provider, counterparty or third party could result in legal liability, regulatory action and reputational harm, and therefore have a material adverse effect on the Group's operations, financial condition and prospects.

In particular, in recent years the computer systems of companies and organisations have been targeted by cyber criminals, activists and nation-state-sponsored groups. Like other financial institutions, the Group manages and holds confidential personal information of customers in the conduct of its banking operations, as well as a large number of assets. Consequently, the Group has been, and continues to be, subject to a range of cyber-attacks, such as malware, phishing and denial of service.

Cyber-attacks could result in the loss of significant amounts of customer data and other sensitive information, as well as significant levels of liquid assets (including cash). In addition, cyber-attacks could give rise to the disablement of the Group's electronic systems used to service its customers. Any material disruption or degradation of the Group's systems could cause information, including data related to customer requests, to be lost or to be delivered to the Group's clients with delays or errors, which could reduce demand for the Group's services and products. As attempted attacks continue to evolve in both scope and sophistication, the Group may incur significant costs in order to modify or enhance its protective measures against such attacks, or to investigate or remediate any vulnerability or resulting breach, or in communicating cyber-attacks to its customers. If the Group fails to effectively manage its cyber security risk, the impact could be significant and may include harm to the Group's reputation and make the Group liable for the payment of customer compensation, regulatory penalties and fines. Factors such as failing to apply critical security patches from its technology providers, to manage out obsolete technology or to update the Group's processes in response to new threats could give rise to these consequences, which, if they occur, could have a material adverse effect on the Group's operations, financial condition and prospects. This might also include significant increases in the premiums paid on cyber insurance policies or changes to policy limits and cover.

In addition, the Group may also be affected by cyber-attacks against national critical infrastructures in the UK or elsewhere, for example, the telecommunications network or cloud computing providers used by the Group. In common with other financial institutions the Group is dependent on such networks to provide digital banking services to its customers, connect its systems to suppliers and counterparties, and allow its staff to work effectively from their homes. Any cyber-attack against these networks could negatively affect its ability to service its customers. As the Group does not operate these networks it has limited ability to protect the Group's business from the adverse effects of cyber-attack against them. Further, the domestic and global financial services industry, including key financial market infrastructure, may be the target of cyber disruption and attack by cyber criminals, activists or governments looking to

Risk Factors

cause economic instability. The Group has limited ability to protect its business from the adverse effects of cyber disruption or attack against its counterparties and key national and financial market infrastructure. If such a disruption or attack were to occur it could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group is exposed to risk from potential non-compliance with policies, employee misconduct, human error, negligence and deliberate acts of harm or dishonesty, including fraud

The Group is exposed to risk from potential non-compliance with policies, employee misconduct, human error, negligence and deliberate acts of harm or dishonesty, including fraud. It is not always possible to deter or prevent such errors, acts, omissions and failures and the precautions the Group takes to detect and prevent this activity may not always be effective. Any instances could result in regulatory sanctions and cause reputational or financial harm, and therefore have a material adverse effect on the Group's operations, financial condition and prospects.

Any failure to effectively manage changes in the Group's information technology infrastructure and management information systems in a timely manner could have a material adverse effect on the Group's operations, financial condition and prospects

The Group's businesses and its ability to remain competitive depends to a significant extent upon the functionality of its information technology systems and on its ability to upgrade and expand the capacity of its information technology infrastructure on a timely and cost-effective basis. The proper functioning of the Group's financial control, risk management, credit analysis and reporting, accounting, customer service, financial crime, conduct and compliance and other information technology systems, as well as the communication networks between branches and main data processing centres, are critical to its customers businesses and its ability to compete. Investments and improvements in the Group's information technology infrastructure are regularly reviewed with a view to retain competitive advantage and to ensure that resilience remains within acceptable levels. Conversely, any failure to effectively improve, expand or upgrade its information technology infrastructure and management information systems in a timely manner could have a material adverse effect on the Group's operations, financial condition and prospects, and could cause reputational damage to the Group.

From time to time the Group is required to migrate information relating to its customers to new information technology systems. Any failure to manage such migration effectively could have a negative impact on the Group's ability to provide services to its customers and could cause reputational damage to the Group.

The Group expects its programmes of change to have an effect on its risk profile both technological and regulatory. Whether it is the opportunities from adoption of cloud technology, systems to support important regulatory initiatives, or the desire to identify, prioritise and remove obsolete systems from operations, the operational risk associated with programmes of systems change is likely to increase and this will therefore remain an area of key focus in the Group's risk management. While internal controls aim to reduce the risk to acceptable levels, there can be no assurance that the Group will not suffer material losses from such operational risks in the future, which could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group may be exposed to unidentified or unanticipated risks despite its risk management policies, procedures and methods and may be exposed to risk related to errors in the Group's risk modelling

The management of risk is an integral part of the Group's activities. The Group seek to monitor and manage its risk exposure through a variety of risk reporting systems. While the Group employs a broad and diversified set of risk monitoring and risk mitigation techniques and strategies, they may not be fully effective in mitigating the Group's risk exposure in all economic market environments or against all types of risk, including risks that the Group fails to identify or anticipate.

Risk Factors

Some of the Group's tools and metrics for managing risk are based upon its use of observed historical market behaviour. The Group applies statistical and other tools to these observations to arrive at quantifications of its risk exposures. These tools and metrics may fail to predict future risk exposures. These risk exposures could, for example, arise from factors the Group did not anticipate or correctly evaluate in its statistical models. This would limit its ability to manage its risks. The Group's losses thus could be significantly greater than the historical measures indicate. In addition, the Group's quantified modelling does not take all risks into account. The Group's more qualitative approach to managing those risks could prove insufficient, exposing it to material, unanticipated losses. The Group could face adverse consequences as a result of decisions, which may lead to actions by management, based on models that include errors or are otherwise inadequately developed, implemented or used, or as a result of the modelled outcome being misunderstood. If existing or potential customers or counterparties believe its risk management is inadequate, they could take their business elsewhere or seek to limit their transactions with the Group. These occurrences could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group relies on third parties and affiliates for important infrastructure support, products and services

Third party providers and certain affiliates provide key components of the Group's business infrastructure such as loan and deposit servicing systems, back office and business process support, information technology production and support, internet connections and network access. Relying on these third party providers and affiliates is a source of operational and regulatory risk, including with respect to security breaches affecting such parties and other parties that interact with these providers. As the use and depth of the Group's relationship with these third parties and affiliates increases, including the use of cloud based services, the Group increasingly faces the risk of operational failure with respect to their systems. The Group may be required to take steps to protect the integrity of its operational systems, thereby increasing its operational costs. In addition, any problems caused by these third parties or affiliates, including as a result of them not providing the Group their services for any reason, or performing their services poorly, could adversely affect the Group's ability to deliver products and services to customers and otherwise conduct its business, which could lead to reputational damage, litigation and regulatory investigations and intervention. Replacing these third party vendors or affiliates could also entail significant delays and expense. Further, the operational and regulatory risk the Group faces as a result of these arrangements may be increased to the extent that it restructures such arrangements. Any restructuring could involve significant expense to the Group and entail significant delivery and execution risk which could have a material adverse effect on the Group's operations, financial condition and prospects.

The Group relies on recruiting, retaining and developing appropriate senior management and skilled personnel

The Group's continued success depends in part on the continued service of key members of its senior executive team and other key employees. The ability to continue to attract, develop, train, motivate and retain highly qualified and talented professionals is a key element of the Group's strategy. The successful implementation of the Group's strategy depends on the availability of skilled and appropriate management, both at the Group's head office and in each of its business units. There is also an increasing demand for the Group to hire individuals with digital skills such as data scientist, engineering and designer skill sets. Such individuals are very sought after by all organisations, not just the banking industry, and thus the Group's ability to attract and hire this talent will determine how quickly the bank is able to respond to technological change. In light of a shortage of skills currently being seen across the UK, it is increasingly challenging to recruit and retain talent for all roles, with subject matter expert and customer facing roles offering the biggest challenges.

If the Group fails to staff its operations appropriately or loses one or more of its key senior executives or other key employees and fails to replace them in a satisfactory and timely manner, it could have a material adverse effect on the Group's operations, financial condition and prospects.

Risk Factors

In addition, the financial services industry has and may continue to experience more stringent regulation of employee compensation, which could have an adverse effect on the Group's ability to hire or retain the most qualified employees. If the Group fails or is unable to attract and appropriately develop, motivate and retain qualified professionals, it could have a material adverse effect on the Group's operations, financial condition and prospects.

8. Financial Reporting Risks

The Group's financial statements are based in part on judgements and accounting estimates which, if inaccurate, could cause material misstatement of the Group's future financial results and financial condition.

The preparation of the Group's consolidated financial statements in accordance with IFRS requires management to make judgements, estimates and assumptions in applying the accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Due to the inherent uncertainty in making estimates, actual results reported in future periods may be based on amounts which differ from those estimates. Estimates, judgements and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. There has been no change in the inherent sensitivity of the areas of judgement in the period. Management has considered the impact of developments in principal risks and uncertainties, as set out in the risk review, on critical judgements and accounting estimates.

The significant judgements, apart from those involving estimation, made by management in applying the Group's accounting policies in these financial statements (key judgements) and the key sources of estimation uncertainty that may have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year (key estimates), which together are considered critical to the Group's results and financial position, are set out in Note 1 to the Consolidated Financial Statements in 'Critical judgements and accounting estimates'. Any material differences between estimates and actual results reported in any given financial period, or any material adjustments to the carrying amount of assets and liabilities, could result in reputational damage to the Group and could have a material adverse effect on its future financial results and financial condition.

Changes in accounting standards could affect reported earnings

The accounting standard setters and other regulatory bodies periodically change the financial accounting and reporting standards that govern the preparation of the Consolidated Financial Statements. These changes can materially affect how the Group records and reports its financial condition and financial results. In some cases, the Group could be required to apply a new or revised standard retroactively, resulting in the restatement of prior period financial statements. Any change in reported earnings as a result of the foregoing could have a material adverse effect on the Group's future financial results and financial condition.

RISK FACTORS RELATING TO THE N&C SECURITIES

9. Risks associated with certain features and other terms and conditions of the N&C Securities

The N&C Securities are unsecured obligations of the Issuer and do not have the benefit of any deposit protection and investors will lose some or all of their investment if the Issuer fails

All N&C Securities will represent direct, unconditional and unsecured obligations of the Issuer. All N&C Securities will rank pari passu and without any preference among themselves and subject to any applicable statutory provisions or judicial order, at least equally with all other present and future unsecured and unsubordinated obligations of the Issuer.

As the N&C Securities are unsecured, investors are dependent on the Issuer's ability to pay all amounts due on the N&C Securities. Investors are therefore subject to the Issuer's credit risk and in the event that the Issuer is subject to resolution, insolvency and administration procedures. Investors should note in particular that even in respect of N&C Securities which are expressed to be "principal protected" or "capital protected" on termination and/or include a

Risk Factors

minimum redemption amount, the return of an investor's initial capital investment remains dependent on the Issuer's ability to meet its obligations in full.

The N&C Securities issued by Santander UK plc are not savings accounts or deposits of the Issuer or any member of the Santander Group. The N&C Securities are not protected by the UK Financial Services Compensation Scheme or any other government or private protection scheme.

Where the Issuer is unable to meet its payment obligations under the N&C Securities in full, an investor will lose some and possibly all of the amount invested.

The N&C Securities may be redeemed prior to their scheduled final termination and the amount the holder receives may be less than its original purchase price and could be as low as zero

In certain circumstances, the Early Redemption Amount payable on the termination of a N&C Security prior to its scheduled maturity may be less than its original purchase price and could be as low as zero.

Following early redemption of N&C Securities, the holders of such N&C Securities may not be able to reinvest the redemption or cancellation proceeds (if any) at an effective interest rate as high as any interest rate or yield (if any) on the N&C Securities and may only be able to do so at a significantly lower rate. Investors in N&C Securities should consider such reinvestment risk in light of other investments available at that time. Moreover, each interest-bearing N&C Security may cease to bear interest from the interest payment date immediately preceding the date of occurrence of the event giving rise to early redemption of the N&C Securities.

N&C Securities may be redeemed early for a number of reasons, including any of the following reasons:

- (i) the occurrence of a mandatory early redemption event (e.g., the price or level of the Reference Item rises above or falls below a pre-determined barrier level), if specified in the terms and conditions of the N&C Securities;
- (ii) the exercise by the Issuer of a call option, if specified to be applicable in the relevant Issue Terms;
- (iii) the occurrence of certain events or other circumstances in relation to a Reference Item at the discretion of the Calculation Agent;
- (iv) following the occurrence of an Automatic Early Redemption Event, if specified to be applicable in the relevant Issue Terms;
- (v) the Issuer determines that its performance under any N&C Security has or will in the immediate future become unlawful in whole or in part for any reason;
- (vi) any hedging party being unable to deal in hedging arrangements to hedge the price risk of the Issuer performing its obligations in respect of the N&C Securities;
- (vii) the Calculation Agent determines that a change in applicable law or regulation has occurred and solely by reason of the N&C Securities being outstanding, will result in the Issuer being required to be regulated by any additional jurisdiction or regulatory authority or being subject to any additional legal requirement or regulation considered by the Issuer to be materially onerous;
- (viii) in certain circumstances where the Issuer determines that it will be obliged to account for any present or future taxes, duties, assessments or governmental charges;
- (ix) the Calculation Agent determines that an Administrator/Benchmark Event (including without limitation, any amendment or cessation of a relevant benchmark, any relevant authorisation or registration being refused or suspended, use of the relevant benchmark not being commercially reasonable for reasons related to cost or licensing issues) has

Risk Factors

occurred and the Issuer elects to redeem the N&C Securities rather than make adjustments to them; or

- (x) following an Event of Default, provided that the non-payment of principal or interest may not trigger an Event of Default if such payment is not made to comply with mandatory law, regulation or court order or if such payment is not outstanding for a period of 14 days or more.

The Early Redemption Amount in respect of each N&C Security shall (unless otherwise specified in the relevant Issue Terms) be an amount determined by the Calculation Agent as representing the fair market value of such N&C Securities immediately prior to such early termination, adjusted to account fully for any reasonable expenses and costs of unwinding any underlying and/or related hedging and funding arrangements (including, without limitation any equity options, equity swaps or other N&C Securities of any type whatsoever hedging the Issuer's obligations under the N&C Securities). The Early Redemption Amount may be less than the investor's initial investment and therefore an investor may lose some or all of the initial investment.

The Issuer of the N&C Securities may be substituted with another company

The Issuer (or any previously substituted company as issuer from time to time) shall, without the consent of the holders of N&C Securities, be entitled at any time to substitute for the Issuer, or any affiliate of the Issuer (the "**Substitute Issuer**"), as principal obligor in respect of all obligations arising from or in connection with the N&C Securities. Any such substitution is subject to certain conditions, including the creditworthiness of the Substitute Issuer. Nevertheless, substitution of the Issuer for a Substitute Issuer could have a material adverse effect on the return on and value of the N&C Securities. N&C Securityholders may also be subject to adverse tax consequences in the event that the Substitute Issuer is located in a different tax jurisdiction.

The terms and conditions of the N&C Securities contain provisions which may permit their modification without the consent of all investors

The N&C Security Conditions contain provisions for calling meetings of N&C Securityholders to consider matters affecting their interests generally, including, without limitation, modifications of certain provisions of the relevant N&C Securities, Receipts or Coupons or the Agency Agreement (as the case may be). The provisions permit defined majorities to bind all N&C Securityholders including N&C Securityholders who did not attend and vote at the relevant meeting or, as the N&C Securityholders who voted in a manner contrary to the majority.

The Issuer may also choose from time to time without the consent of the N&C Securityholders, to create and issue further N&C Securities having terms and conditions the same as the N&C Securities. Any such creation and issuance of further N&C Securities may result in a dilution of the N&C Securityholders' voting rights.

The N&C Security Conditions also provide that the Issuer may, without the consent of N&C Securityholders, agree to certain modifications of the N&C Securities, including:

- (i) any modification of the provisions of the N&C Securities, the Receipts, the Coupons or the Agency Agreement which is not materially prejudicial to the interests of the N&C Securityholders; or
- (ii) any modification of any of the provisions of the Conditions, the N&C Securities, the Receipts, the Coupons or the Agency Agreement (as the case may be) which is of a formal, minor or technical nature or is made to correct a manifest or proven error or is to comply with mandatory provisions of applicable law.

Any such modification may cause the N&C Securities to perform differently, and could result in the return on and value of the N&C Securities to be less than if such modification had not been made.

Risk Factors

The Issuer may rely on third parties and the N&C Securityholders may be adversely affected if such third parties fail to perform their obligations

The Issuer may be a party to contracts with a number of other third parties that have agreed to perform services in relation to the N&C Securities. For example, the Paying Agents have agreed to perform services in connection with the N&C Securities; and Euroclear and Clearstream, Luxembourg have, in respect of N&C Securities in global form deposited with them ("**Global N&C Securities**"), agreed, *inter alia*, to accept such Global N&C Securities as eligible for settlement and to properly service the same, and to maintain up-to-date records in respect of the total amount or number outstanding of such Global N&C Securities. In the event that any relevant third party was to fail to perform its obligations under the respective agreements to which it is a party, the N&C Securityholders may be adversely affected. For example, the failure on the part of a Paying Agent or clearing system could mean delays or missed payments under the N&C Securities.

There are risk associated with ESG Securities

If the applicable Issue Terms in respect of N&C Securities specify that the N&C Securities are "**ESG Securities**", a portion of the proceeds of the offer of such ESG Securities (as specified in the applicable Issue Terms) shall be applied by the Issuer (directly or indirectly) in order to fund or otherwise finance certain eligible environmental, social or sustainability projects and/or other activities promoting social, environmental and/or sustainable purposes (as described in the applicable Issue Terms). No assurance can be given that allocating proceeds of any ESG Securities will satisfy any present or future investor objectives, expectations or requirements as regarding investments which are "green", "social" or "sustainable" or any such labels or standards of applicable legislation or industry standard principles. Furthermore, no assurance is given that any such ESG Securities will satisfy, in whole or in part, any present or future taxonomies, standards and/or other regulatory criteria or voluntary guidelines with which such investor or its investments may be expected to comply. Therefore, there is a risk that an investment in ESG Securities may not achieve an investor's "green", "social" or "sustainability" objectives, expectations or requirements.

10. Risks associated with the liquidity and value of the N&C Securities

An active secondary market in respect of the N&C Securities may never be established or may be illiquid and this would adversely affect the ability of an investor to sell the N&C Securities and/or the value at which an investor could sell the N&C Securities

N&C Securities may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their N&C Securities easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for N&C Securities that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. As such, the N&C Securities generally would have a more limited secondary market and more price volatility than conventional securities.

The Issuer cannot predict when market conditions may change and whether, if and when they do change, there will be a more or less liquid market for the N&C Securities as a result. If a trading market were to develop, the N&C Securities could trade at prices that may be higher or lower than the relevant initial issue price and this may result in a return that is greater or less than any interest or other additional amounts payable in respect of the N&C Securities.

In addition, certain N&C Securities have a more limited trading market and experience more price volatility because they were designed for specific investment objectives or strategies. There may be a limited number of buyers when an investor decides to sell such N&C Securities. This may affect the price an investor receives for such N&C Securities, or the ability of an investor to sell such N&C Securities at all.

Risk Factors

Application may be made to list an issue of N&C Securities on a stock exchange, as indicated in the applicable Issue Terms. The fact that the N&C Securities may be listed does not necessarily lead to greater liquidity. Additionally, the Issuer is not required to maintain the listing on such stock exchange or any other exchange. The price at which the N&C Securities trade on the relevant stock exchange (or any other exchange on which they are traded or quoted) may not reflect the applicable redemption amount.

If N&C Securities are not traded on any stock exchange, pricing information for such N&C Securities may be more difficult to obtain, and the liquidity and market prices of such N&C Securities may be adversely affected. The liquidity of the N&C Securities may also be affected by restrictions on offers and sales of N&C Securities in some jurisdictions as set forth under "*Subscription and Sale*". N&C Securities may be more difficult to obtain and the liquidity of the N&C Securities may be adversely affected. Also, to the extent N&C Securities of a particular issue are cancelled or redeemed, as the case may be, the number of N&C Securities of such issue outstanding will decrease, resulting in a diminished liquidity for the remaining N&C Securities of such issue. A decrease in the liquidity of an issue of N&C Securities may cause, in turn, an increase in the volatility associated with the price of such issue of N&C Securities.

As part of its issuing, market-making and/or trading arrangements, the Issuer may issue more N&C Securities than those which are to be subscribed or purchased by third party investors. The Issuer (or any of its affiliates) may hold such N&C Securities for the purpose of meeting any investor interest in the future. Prospective investors in the N&C Securities should therefore not regard the issue size of any Series as indicative of the depth or liquidity of the market for such Series, or of the demand for such Series.

Each of the Issuer, any Dealer and any financial intermediary may, but is not obliged to, at any time purchase N&C Securities at any price in the open market or by tender or private treaty. Any N&C Securities so purchased may be held or resold or surrendered for cancellation. A Dealer or any financial intermediary may, but is not obliged to, be a market-maker for an issue of N&C Securities. Even if a Dealer or any financial intermediary is a market-maker for an issue of N&C Securities, the secondary market for such N&C Securities may be limited. To the extent that an issue of N&C Securities becomes illiquid, an investor may have to await termination of such N&C Securities to realise their value.

The Issue Price of the N&C Securities may be more than the market value of such N&C Securities as at the Issue Date, and the price of the N&C Securities in secondary market transactions

The Issue Price in respect of any N&C Securities specified in the relevant Issue Terms may be more than the market value of such N&C Securities as at the relevant Issue Date, and the price, if any, at which the relevant Dealer(s) or any other person willing to purchase such N&C Securities in secondary market transactions. In particular, the Issue Price in respect of any N&C Securities may not reflect their inherent value and may take into account several types of proceeds, benefits or costs to the Issuer. These may include amounts with respect to inducements, commissions and/or other fees (including fees to be paid to distributors and/or introducing brokers) relating to the issue and sale or distribution of such N&C Securities as well as up-front payments or other amounts relating to the hedging of the Issuer's obligations under such N&C Securities. Secondary market prices are likely to exclude such amounts. In addition, pricing models of relevant market participants may differ or produce a different result. This can cause a difference between the theoretical value of the N&C Securities and any bid and offer prices quoted by the Issuer, any Affiliate or any third party in the secondary market. Such differences may be greater when the N&C Securities are initially traded on any secondary markets and the N&C Securities may gradually decline in value during the term of the N&C Securities. The sale of the N&C Securities in the secondary market could therefore result in a loss of all or part of the original Issue Price (or other purchase price).

Risk Factors

The market value of the N&C Securities at any time is dependent on other matters in addition to the credit risk of the Issuer

The market value of the N&C Securities at any time will be affected by a number of factors including:

- (i) market interest and yield rates;
- (ii) fluctuations in currency exchange rates;
- (iii) the creditworthiness of the Issuer;
- (iv) performance of any Reference Item(s);
- (v) liquidity of the N&C Securities and/or of any Reference Item(s) in the secondary market;
- (vi) the time remaining to any redemption date or maturity date, as the case may be;
- (vii) numerous other events (e.g. economic, financial, regulatory, political, terrorist or military events) in one or more jurisdictions, including factors affecting capital markets generally or the stock exchanges on which any of the N&C Securities or Reference Item(s) may be traded.

The amount(s) which are or may be payable in respect of N&C Securities are typically expected to be but may not be greater than the trading price of such N&C Securities at any time prior to termination. The sale of N&C Securities in the secondary market could result in a loss from the original purchase price.

Effect of credit ratings assigned to the Issuer

The value of the N&C Securities is expected to be affected, in part, by investors' general appraisal of the Issuer's creditworthiness. Such perceptions are generally influenced by the ratings accorded to the Issuer's outstanding securities by standard statistical rating services. A reduction in the rating, if any, accorded to outstanding debt securities of the Issuer by one of these rating agencies could result in a reduction in the trading value of the N&C Securities.

A credit rating assigned to the Issuer may not reflect the potential impact of all of the risks related to the structure, market, type of return or suitability of the N&C Securities as an investment but may affect the value of the N&C Securities. Any rating agency may lower its ratings or withdraw its rating if, in the sole judgement of the rating agency, the credit quality of the Issuer has declined or is in question. In addition, at any time any rating agency may revise its relevant rating methodology with the result that, amongst other things, any rating assigned to the Issuer may be lowered.

If any rating assigned to the Issuer is lowered or withdrawn, the secondary market value of any N&C Securities may be reduced and may have a negative impact on the value of and return on the N&C Securities.

The N&C Securities may have a Minimum Tradable Size

Prospective investors should be aware that for any N&C Security which has a Minimum Tradable Size specified in the applicable Issue Terms and a smaller minimum Specified Denomination, it is possible that such N&C Securities may only be traded in a nominal amount, for a consideration or in the number, as the case may be, that is at least equal to the Minimum Tradable Size.

In such a case, a holder who holds a nominal amount or number of N&C Securities or wishes to transfer a nominal amount or number of N&C Securities which is less than the Minimum Tradable Size will be unable to sell or transfer such holding. If a holder holds a nominal amount or number of N&C Securities that is less than the Minimum Tradable Size, in order for such holder to sell or transfer its holding of N&C Securities such holder would first need to purchase such additional identical N&C Securities such that it is in a position to sell or transfer a total

Risk Factors

nominal amount or number, as the case may be, of N&C Securities at least equal to the Minimum Tradable Size. Investors should be aware that it may not always be possible to purchase such additional N&C Securities and as such they may be unable to sell or transfer any such holding.

If N&C Securities which have a Minimum Tradable Size are in definitive form, holders should be aware that definitive N&C Securities with a denomination that is less than the Minimum Tradable Size may be illiquid or difficult to trade.

Investors who hold less than the minimum Specified Denomination may be unable to sell their N&C Securities and may be adversely affected if definitive N&C Securities are subsequently required to be issued

In relation to any issue of N&C Securities which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such N&C Securities may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination.

In such a case, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of N&C Securities at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time, may not receive definitive N&C Securities in respect of such holding (should definitive N&C Securities be printed) and would need to purchase a principal amount of N&C Securities at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

If such N&C Securities in definitive form are issued, holders should be aware that definitive N&C Securities which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Discontinuation or withdrawal of offer period

Unless otherwise specified in the applicable Issue Terms, the offer period in relation to any N&C Securities may be discontinued or extended at any time.

In addition, the Issuer and/or the other entities indicated in the Issue Terms will have the right to withdraw or revoke the offer, and the offer will be deemed to be null and void according to the terms indicated in the applicable Issue Terms. In such case, any amounts segregated by a distributor or financial intermediary as intended payment of the offer price by an investor will be released to the relevant investor by the distributor or financial intermediary but may or may not accrue interest depending on the agreements between the investor and the relevant distributor or financial intermediary or depending on the policies applied by the distributor or financial intermediary in this regard. In these circumstances, there may also be a time lag in the release of any such amounts and, unless otherwise agreed with the relevant distributor or financial intermediary, no amount will be payable as compensation and the investor may be subject to reinvestment risk.

Unless otherwise provided in the applicable Issue Terms, the Issuer and/or the other entities specified in the applicable Issue Terms may terminate the offer early by immediate suspension of the acceptance of further subscription requests. Any such termination may occur even where the maximum amount for subscription in relation to that offer (as specified in the applicable Issue Terms), has not been reached. In such circumstances, the early closing of the offer may have an impact on the aggregate number of N&C Securities issued and therefore may have an adverse effect on the liquidity of the N&C Securities.

Furthermore, under certain circumstances, the Issuer and/or the other entities indicated in the applicable Issue Terms will have the right to postpone the originally designated Issue Date. For the avoidance of doubt, this right applies also in the event that the Issuer publishes a supplement

Risk Factors

to this Base Prospectus in accordance with the provisions of the UK Prospectus Regulation. In the event that the issue date is so delayed, no compensation or amount in respect of interest shall be payable or otherwise accrue in relation to such N&C Securities unless otherwise agreed between the investor and the relevant distributor or the policies of the distributor or financial intermediary so provide.

11. Risks associated with the structure of a particular issue of N&C Securities

The inclusion of an Issuer call option in respect of N&C Securities will generally mean that (a) the holder will not be able to participate in any future upside performance of the underlying Reference Item(s) following the effective date of the Issuer call option, (b) the market value of the N&C Securities may be limited and (c) if the call option is exercised, the holder may not be able to reinvest the proceeds at an effective interest rate as high as any interest rate on the N&C Securities

If the applicable Issue Terms specify that the N&C Securities are redeemable at the option of the Issuer, the Issuer may redeem such N&C Securities at times when the prevailing interest rates may be relatively low. As a consequence, the yields (if any) received upon redemption may be lower than expected, and the redeemed face amount of the N&C Securities may be lower than the purchase price for the N&C Securities paid by the N&C Securityholder and may be lower than the amount the N&C Securityholder would have received had the N&C Securities been redeemed on the Maturity Date. As a consequence, part of the capital invested by the N&C Securityholder may be lost, so that the N&C Securityholder in such case would not receive the total amount of the capital invested. Accordingly, an investor generally will not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate, if applicable, as high as that of the N&C Securities. Furthermore, during any period when the Issuer may elect to redeem the N&C Securities, the market value of those N&C Securities generally will not rise substantially above the price at which they can be redeemed. This may also be true prior to any redemption period.

The value of Fixed Rate N&C Securities may be adversely affected by movements in market interest rates

Fixed Rate N&C Securities are subject to the risk that if the market interest rates subsequently increase above the rate paid on the Fixed Rate N&C Securities, this will adversely affect the value of the Fixed Rate N&C Securities and may result in a loss to the investor.

N&C Securities which are issued with variable interest rates or which are structured to include a multiplier or other leverage factor are likely to have more volatile market values than more standard securities

N&C Securities with floating interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market value may be more volatile than those for securities that do not include these features. Depending on the terms of the N&C Securities, an investor may receive substantially less or no interest at all on such Floating Rate N&C Securities.

Leverage factors (including multiplier): N&C Securities which include a leverage factor (such as potentially a "participation" term in the payout formula) magnify gains and losses. Therefore, holders of N&C Securities with such leverage features risk realising a worse return on the N&C Securities than in the absence of such leverage feature and, depending on the terms of the N&C Securities, investors could lose some or all of their investment. See also "*The market value of N&C Securities and the amount(s) payable on the N&C Securities may be affected due to the application of leverage or reduced exposure in the structure*" below.

Cap: where the terms and conditions of the N&C Securities provide that the amount payable or underlying(s) deliverable is subject to a pre-defined cap or maximum payout, the investor's ability to participate in any positive performance in the underlying asset will be limited to the capped or maximum payout, regardless of any outperformance of the underlying asset and there

Risk Factors

is a risk that the Investor would receive a higher return on a similar product without such pre-defined cap or maximum payout feature.

Floor: where the terms and conditions of the N&C Securities provide that the amount payable or underlying(s) deliverable is subject to a pre-defined floor or minimum payout, the investor's ability to participate in any negative performance in the underlying asset will be limited (for a "bearish" product) to the capped or maximum payout, regardless of any outperformance of the underlying asset. It is possible that the cost of the pre-defined floor or minimum payout feature may offset some of the upside return could otherwise be payable on the N&C Securities. There is a risk that the investor would receive a higher return on a similar product without such pre-defined floor or minimum payout feature.

If the Issuer has the right to convert the interest rate on any N&C Securities from a fixed rate to a floating rate, or vice versa, this may affect the secondary market value of the N&C Securities concerned

Fixed/Floating Rate N&C Securities are N&C Securities which may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the N&C Securities since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate N&C Securities may be less favourable than the then prevailing spreads on comparable floating rate notes relating to the same reference rate. In addition, the new floating rate at any time may be lower than the interest rates payable on other N&C Securities. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than the then prevailing market rate and may result in a loss to the investor.

Inverse Floating Rate N&C Securities will have more volatile market values than conventional Floating Rate N&C Securities

Inverse Floating Rate N&C Securities are N&C Securities with a variable interest rate having an inverse relationship to a benchmark rate: where the relevant benchmark decreases, the interest rate increases and *vice versa*. For example, Inverse Floating Rate N&C Securities may have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as the Sterling Overnight Index Average ("SONIA"). The market value of inverse Floating Rate N&C Securities typically is more volatile than the market value of other more conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate N&C Securities are more volatile because an increase in the reference rate not only decreases the interest rate payable on the N&C Securities, but may also reflect an increase in prevailing interest rates, which may further result in a reduction of the market value of the N&C Securities. Depending on the terms of the N&C Securities, investors could lose some or all of their investment.

Discontinuation or unavailability of a floating rate

If the N&C Securities are Floating Rate N&C Securities and the relevant interest rate referenced by such N&C Securities is discontinued or otherwise unavailable, amounts payable on the N&C Securities which reference such interest rate will be determined for the relevant period by the fall-back provisions applicable to such N&C Securities which may (depending on market circumstances at the relevant time) not operate as intended. Depending on the manner in which the relevant interest rate is to be determined under the Conditions and subject as provided in "*The regulation and reform of certain published rates, indices and other values or benchmarks may adversely affect the value of and return on N&C Securities linked to such values or benchmarks*" and "*Benchmark Transition Event*" below, this may in certain circumstances (i) be reliant upon the provision by reference banks of offered quotations for the interest rate or bid and offered quotations for the fixed leg of interest rate swap transactions (as applicable) which, depending on market circumstances, may not be available at the relevant time or (ii) in the case of an interest rate where the applicable fall-back is to use the rate which applied in the previous period when the relevant interest rate was available, result in the effective application of a fixed rate based on the rate which applied in the previous period. Any of the foregoing could have an

Risk Factors

adverse effect on the value or liquidity of, and return on, any of the N&C Securities, and, depending on the terms of the N&C Securities, investors could lose some or all of their investment.

N&C Securities issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates

The market value of N&C Securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the N&C Securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities. As such, there is no guarantee that N&C Securities issued at a substantial discount or premium will increase or retain their value and could negatively affect the return an investor may receive.

The market continues to develop in relation to SONIA and €STR as reference rates

Where the applicable Issue Terms for a Series of N&C Securities identifies that the Rate of Interest for such N&C Securities will be determined by reference to SONIA or €STR (each a "New Reference Rate"), the Rate of Interest will be determined (potentially amongst other things, depending on the type of N&C Securities) by reference to a compounded daily rate, a weighted average daily rate, a single daily rate or an index level based on a compounded daily rate. In each case such rate will differ from the relevant LIBOR or EURIBOR rate in a number of material respects, including (without limitation) that a compounded daily rate or weighted average rate is a backwards-looking, risk-free overnight rate, and a single daily rate is a risk-free overnight non-term rate, whereas LIBOR and EURIBOR are expressed on the basis of a forward-looking term and include a risk-element based on inter-bank lending. As such, investors should be aware that the New Reference Rates may behave materially differently from LIBOR or EURIBOR (as applicable) as interest reference rates for N&C Securities issued under the Programme. The use of any New Reference Rate as a reference rate for Eurobonds is nascent, and is subject to change and development, both in terms of the substance of the calculation and in the development and adoption of market infrastructure for the issuance and trading of bonds referencing such reference rates.

Accordingly, prospective investors in any N&C Securities referencing a New Reference Rate should be aware that the market continues to develop in relation to the New Reference Rates as reference rates in the capital markets and their adoption as an alternative to (as applicable) GBP-LIBOR, EURIBOR or EUR-LIBOR. For example, in the context of backwards-looking rates, market participants and relevant working groups have been assessing the differences between compounded rates and weighted average rates and the basis on which to determine them, and the development and use of certain term rates based on New Reference Rates is already under way in some markets. The adoption of any New Reference Rate may also see component inputs into swap rates or other composite rates transferring from (as applicable) LIBOR, EURIBOR or another reference rate to such New Reference Rate.

The market or a significant part thereof may adopt an application of a New Reference Rate that differs significantly from that set out in the Conditions and used in relation to N&C Securities referencing such New Reference Rate that are issued under the Programme. Furthermore, the Issuer may in future issue N&C Securities referencing a New Reference Rate that differs materially in terms of interest determination when compared with any previous N&C Securities issued under the Programme referencing such New Reference Rate. The development of compounded daily New Reference Rates as interest reference rates for the Eurobond markets, as well as continued development of New Reference Rate based rates for such market and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of any New Reference Rate referenced N&C Securities issued under the Programme from time to time.

Furthermore, the Rate of Interest on N&C Securities which reference a New Reference Rate will only be determined at the end of the relevant Interest Period prior to the relevant Interest Payment Date. It may be difficult for investors in such N&C Securities to estimate reliably the amount of interest which will be payable on such N&C Securities, and some investors may be

Risk Factors

unable or unwilling to trade such N&C Securities without changes to their IT systems, both of which factors could adversely impact the liquidity of such N&C Securities. Further, in contrast to LIBOR- or EURIBOR-based N&C Securities, if N&C Securities referencing a compounded daily or single daily New Reference Rate are redeemed early and accrued interest is payable on such redemption in respect of a period which is not an Interest Period, the final Rate of Interest payable in respect of such N&C Securities shall only be determined at the due date for redemption.

In addition, the manner of adoption or application of the New Reference Rates as reference rates in the Eurobond markets may differ materially compared with the application and adoption of the New Reference Rates in other markets, such as the derivatives and loan markets. Investors should carefully consider how any mismatch between the adoption of the New Reference Rates as reference rates across these markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of N&C Securities referencing any such rate.

To the extent a rate for a New Reference Rate is not published, the applicable rate to be used to calculate the Interest Rate on N&C Securities referencing such New Reference Rate will be determined using the fall-back provisions set out in the Conditions. Any of these fall-back provisions may result in interest payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made on the N&C Securities if such New Reference Rate had been so published in its current form.

Investors should carefully consider all of these matters when making their investment decision with respect to any such N&C Securities.

Benchmark Transition Event

In the case of certain Floating Rate N&C Securities linked to EURIBOR or a New Reference Rate on issue, the Conditions provide for certain fall-back arrangements in the event that a Benchmark Transition Event occurs. A Benchmark Transition Event may occur if EURIBOR or the relevant New Reference Rate (or in each case any subsequent replacement rate) in relation such Floating Rate N&C Securities ceases to exist or be published or a relevant supervisor publicly announces it is or will become non-representative. In the case of such Floating Rate N&C Securities, these fall-back arrangements include the possibility that the Rate of Interest could be determined by reference to a replacement benchmark rate, and that a spread adjustment may be applied to such replacement benchmark rate, together with the making of certain conforming changes to the Conditions, in each case as determined by the Calculation Agent. Such replacement rate and spread adjustment determination may be based on available alternative rates, relevant governmental body recommendation or selection, practice in the derivatives market or industry-accepted practice and such conforming changes will be as determined appropriate by the Calculation Agent to reflect the adoption of the replacement rate. Any of these fall-back provisions may result in payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made on the N&C Securities if the previous rate had continued being published in its current form.

To the extent that any N&C Securities reference a rate with respect to which a Benchmark Transition Event is likely to occur during the term of such N&C Securities, prospective investors should be aware that it is therefore likely that the consequences described above will then apply in respect of those N&C Securities.

The Issuer may be prohibited from physically delivering bearer N&C Securities

The Issuer may be prohibited from physically delivering definitive N&C Securities in bearer form by the laws of a N&C Securityholder's jurisdiction. In these circumstances, no delivery will be made in respect of such N&C Securities, unless definitive N&C Securities in bearer form have been delivered to a nominated custodian in a jurisdiction where such prohibition does not exist. Accordingly, there is a risk that investors may sustain delays in payment and additional costs in order to obtain amounts owing under the N&C Securities.

Risk Factors

Certain Considerations relating to Book-Entry Interests

Until and unless definitive N&C Securities in registered form are issued in exchange for the N&C Securities, holders of the Book-Entry Interests will not be considered the owners or holders of N&C Securities with regard to payment. To the extent the N&C Securities are issued in the form of Immobilised Bearer Global N&C Securities, the Book-Entry Depository or its nominee will be the sole holder of such N&C Securities. The Issuer, the Principal Paying Agent and the Registrar will treat the bearer of the Immobilised Bearer Global N&C Securities as the owner thereof for the purposes of receiving payments and for all other purposes. Upon receipt of amounts owing in respect of the Immobilised Bearer Global N&C Securities, the Book-Entry Depository will pay the amounts so received to the relevant clearing system(s) for onward payment to applicable owners of Book-Entry Interests in accordance with their procedures. Accordingly, holders of a Book-Entry Interest must rely on the procedures of the relevant clearing system(s) to exercise any rights and remedies of a N&C Securityholder under the N&C Securities (see "*General Description of the Programme – Form of Notes*" for a description).

Limitations on ownership of Book-Entry Interests

Ownership of Book-Entry Interests will be limited to persons with an account with Euroclear and/or Clearstream, Luxembourg or persons who may hold interests through such participants. Book-Entry Interests will be shown on, and transfers thereof will be affected only through records maintained in book-entry form by Euroclear and/or Clearstream, Luxembourg and their participants.

Accordingly, Book-Entry Interests will not be held in definitive form. Instead, Euroclear and/or Clearstream, Luxembourg (as applicable) will credit on their respective book-entry registration and transfer systems a participant's account with the interest beneficially owned by such participant. The laws of some jurisdictions, including certain states of the United States, may require that certain purchasers of securities take physical delivery of such securities in definitive form. Limitations on ownership of Book-Entry Interests may impair the ability to own, transfer or pledge Book-Entry Interests.

Certain Considerations relating to CREST Depository Interests

Investors who hold interests in the N&C Securities through Euroclear UK & International Limited (formerly known as CRESTCo Limited) ("**CREST**") through CREST Depository Interests will not be the legal owners of the N&C Securities (the "**Underlying N&C Securities**") to which such CREST Depository Interests relate. CREST Depository Interests are separate legal instruments from the Underlying N&C Securities and represent indirect interests in the interests of the CREST Nominee (as defined below) in such Underlying N&C Securities. CREST Depository Interests will be issued by the CREST Depository to investors and will be governed by English law.

The Underlying N&C Securities (as distinct from the CREST Depository Interests representing indirect interests in such Underlying N&C Securities) will be held in an account with a custodian. The custodian will hold the Underlying N&C Securities through the relevant Clearance System. Rights in the Underlying N&C Securities will be held through custodial and depository links through the relevant Clearance System. The legal title to the Underlying N&C Securities or to interests in the Underlying N&C Securities will depend on the rules of the relevant Clearance System in or through which the Underlying N&C Securities are held.

CREST International Nominees Limited or another entity appointed to act as nominee (the "**CREST Nominee**") in accordance with the CREST Global Deed Poll (in the form from time to time contained in Chapter 8 of the CREST International Manual (which forms part of the CREST Manual (as defined below)) (the "**CREST Deed Poll**") will hold the legal title to the Underlying N&C Securities and the direct enforcement right in respect of the Underlying N&C Securities. This could result in a holder of CREST Depository Interests receiving less than, or none of, the full amount payable in respect of the Underlying N&C Securities in the event of any insolvency or liquidation of any relevant intermediary, in particular where the Underlying N&C Securities held in clearing systems are not held in special purpose accounts and are

Risk Factors

fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries.

Rights in respect of the Underlying N&C Securities cannot be enforced by holders of CREST Depository Interests except indirectly through CREST Depository Limited or any successor thereto (the "**CREST Depository**") and the CREST Nominee who in turn can enforce rights indirectly through the intermediary depositaries and custodians described above. The enforcement of rights in respect of the Underlying N&C Securities will therefore be subject to the local law of the relevant intermediary.

These arrangements could result in an elimination or reduction in the payments that otherwise would have been made in respect of the Underlying N&C Securities in the event of any insolvency or liquidation of the relevant intermediary, in particular where the Underlying N&C Securities held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries.

If a matter arises that requires a vote of N&C Securityholders, the Issuer may make arrangements to permit the holders of Crest Depository Interests to instruct the CREST Depository to exercise the voting rights of the CREST Nominee in respect of the Underlying N&C Securities. However, there is no guarantee that it will be possible to put such voting arrangements in place for holders of CREST Depository Interests.

Holders of CREST Depository Interests will be bound by all provisions of the CREST Deed Poll and by all provisions of or prescribed pursuant to the CREST International Manual and the CREST Rules applicable to the CREST International Settlement Links Service (in each case as amended, modified, varied or supplemented from time to time (the "CREST Manual")). Holders of CREST Depository Interests must comply in full with all obligations imposed on them by such provisions.

Investors in CREST Depository Interests should note that the provisions of the CREST Deed Poll and the CREST Manual (including, for the avoidance of doubt, the provisions of the CREST International Manual and the CREST Rules) contain indemnities, warranties, representations and undertakings to be given by holders of CREST Depository Interests and limitations on the liability of the CREST Depository as issuer of the CREST Depository Interests. Holders of CREST Depository Interests may incur liabilities pursuant to or resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the money invested by them and the rights of and returns received by holders of CREST Depository Interests may differ from those of holders of N&C Securities which are not represented by CREST Depository Interests.

Investors in CREST Depository Interests should note that holders of CREST Depository Interests may be required to pay fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service. These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the Underlying N&C Securities through the CREST International Settlement Links Service.

Investors in CREST Depository Interests should note that none of the Issuer, any Dealer or any Agent will have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders acting in connection with CREST Depository Interests or for the respective obligations of such intermediaries, participants or accountholders under the rules and procedures governing their operations.

12. **Risks associated with N&C Securities that are linked to one or more Reference Item(s)**

The value of and return payable on N&C Securities may be dependent on the performance of the underlying Reference Item(s) and therefore subject to risks in relation to the Reference Item(s)

N&C Securities for which the payout is linked to the performance of Reference Item(s) represent an investment linked to the economic performance of the Reference Item(s) and investors should note that any return on their investment in such N&C Securities will depend upon the performance of such Reference Item(s).

If amounts payable in respect of N&C Securities are linked to the performance of the Reference Item(s), an investor in such a N&C Security must consider the direction, timing and magnitude of an anticipated change in the value of the Reference Item(s). However, it is impossible to make such predictions with any degree of certainty, as the price, performance or investment return of the Reference Item(s) may be subject to sudden and large unpredictable changes over time known as "**volatility**". The volatility of the Reference Item(s) may be affected by national and international financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the return on the N&C Securities.

Potential purchasers should also note that whilst the market value of such N&C Securities linked to such Reference Item(s) will be influenced (positively or negatively) by the performance of such Reference Item(s), any change may not be comparable or directly proportionate to the change in value of such Reference Item(s).

The historical performance of the Reference Item(s) should not be taken as an indication of future performance of such Reference Item(s) during the term of such N&C Security. It is not possible to predict the future value of the N&C Securities based on such past performance. Actual results will be different, and such differences may be material, and could have a negative impact on the value of and return on the N&C Securities and, depending on the terms of the N&C Securities, investors could lose some or all of their investment.

Investors have no claim against any Reference Item

An N&C Security is not equivalent to a direct investment in the Reference Item(s) or any component thereof and will not represent a claim against any Reference Item or any such component and, in the event of any loss, an N&C Securityholder will not have recourse under an N&C Security to any Reference Item. The N&C Securities are not in any way sponsored, endorsed or promoted by any issuer, sponsor, manager or other connected person in respect of an underlying Reference Item and such entities have no obligation to take into account the consequences of their actions on any N&C Securityholders. Accordingly, investors may receive a lower return on the N&C Securities than they would have received had they invested directly in the Reference Item(s).

The market value of N&C Securities and the amount(s) payable on the N&C Securities may be affected due to the application of leverage or reduced exposure in the structure

Where a formula used to determine the amount(s) payable with respect to the N&C Securities contains a multiplier participation rate or leverage factor (whether implicit or explicit) greater than one or 100 per cent. (but the maximum leverage factor is not expected to exceed 200 per cent.), then the percentage change in the amount that may be payable in respect of the N&C Security may be greater than any positive and/or negative performance of the Reference Item(s). N&C Securities which include such multiplier or leverage factor represent a very speculative form of investment, since any loss in the value of the Reference Item(s) may carry the risk of a correspondingly higher loss on the N&C Securities.

Where a formula used to determine the amount(s) payable with respect to the N&C Securities contains an explicit or implicit multiplier participation rate or leverage factor of less than one or 100 per cent. (but the minimum leverage factor is expected to be greater than zero), then the percentage change in the amount that may be payable in respect of the N&C Security may be

Risk Factors

less than any positive and/or negative performance of the Reference Item(s). N&C Securities which include such multiplier or leverage factor may not benefit from the full extent of any gain in the value of the Reference Item(s), since any gain in the value of the Reference Item(s) may carry the risk of a correspondingly lower gain on the N&C Securities, and an investor could lose some or all of their initial investment than if they had invested in a security that is not leveraged.

Please also see the payout formulars in the Payout Annex together with the Issue Terms in relation to the relevant N&C Securities and the worked examples set out in the section entitled "*How the Return on N&C Securities is Calculated*" and, in particular, the sub-section "- *N&C Securities with Multipliers and Leverage Factor*".

The worst performing feature means that an investor will be exposed to the performance of each Reference item and in particular the Reference Item which has the worst performance

If the terms and conditions of the N&C Securities provide that the return on the N&C Securities depends on the worst performing Reference Item in the basket of Reference Item(s), the N&C Securityholders will be exposed to the performance of each Reference Item and, in particular, to the Reference Item which has the worst performance. This means that, irrespective of how the other Reference Item(s) perform, if any one or more Reference Item(s) fails to meet a relevant threshold or barrier for the payment of interest or the calculation of any redemption amount, an investor may receive no interest payments and/or could lose some or all of the investor's initial investment.

There are certain risks in N&C Securities that include an averaging feature

The calculation of the performance of one or more Reference Items in respect of certain N&C Securities may be based on the average of the price or level or other measure of such Reference Item over two or more Averaging Dates (as applicable). The effect of such averaging may be that the performance of the Reference Item(s) will not increase proportionately if the price or level or other measure of the Reference Item(s) temporarily increases but the price or level or other measure of the Reference Item(s) has been correspondingly lower on the remaining averaging dates. Accordingly, the effect of the averaging feature may be to lead to a reduced performance (and therefore a reduced return on the relevant N&C Securities) as compared to the position where the performance of the Reference Item is measured on a single valuation date. On the other hand, a temporary decrease of price or level or other measure of the Reference Item will also not lead to a proportionate decrease of the performance of the Reference Item(s) if the price or level or other measure of the Reference Item(s) has been correspondingly higher on the remaining averaging dates.

The regulation and reform of certain published rates, indices and other values or benchmarks may adversely affect the value of and return on N&C Securities linked to such values or benchmarks

A number of major interest rates, other rates, indices and other published values or benchmarks are the subject of national and international regulatory reforms including those imposed by Regulation (EU) 2016/1011 (the "**EU Benchmarks Regulation**") and Regulation (EU) 2016/1011 as it forms part of UK domestic law by virtue of the EUWA and regulations made thereunder (the "**UK Benchmarks Regulation**") (for more information, see "*Description of the Issuer*" and the section entitled "*Regulation of the Group - Benchmarks Reform*"). The UK Benchmarks Regulation, among other things, applies to the provision of benchmarks and the use of a benchmark in the UK. It prohibits, subject to applicable transitional provisions, the use in the UK by UK supervised entities of (a) benchmarks provided by UK administrators which are not authorised or registered in accordance with the UK Benchmarks Regulation and (b) benchmarks provided by non-UK administrators where (i) the administrator's regulatory regime has not been determined to be "equivalent" to that of the UK, (ii) the administrator has not been recognised in accordance with the UK Benchmarks Regulation, and (iii) the benchmark has not been endorsed in accordance with the UK Benchmarks Regulation. These reforms have led to the discontinuation or modification of many Interbank Offered Rates ("**IBORs**") and may cause other such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material

Risk Factors

adverse effect on the value of and return on N&C Securities linked to any such value or benchmark.

The UK Benchmarks Regulation could have a material impact on any N&C Securities linked to a benchmark. For example:

- (i) any of these reforms or pressures described above or any other changes to a relevant interest rate benchmark (including EURIBOR, SONIA and €STR) could affect the level of the published rate, including to cause it to be lower and/or more volatile than it would otherwise be;
- (ii) the methodology or other terms of the benchmark may be changed in order to comply with the requirements of the UK Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the benchmark;
- (iii) if a benchmark is discontinued or is otherwise unavailable, then the rate of interest on the N&C Securities may be determined for a period by any applicable fall-back provisions under the relevant N&C Securities documentation, although such provisions may not operate as intended (depending on market circumstances and the availability of rates information or quotes from reference banks at the time); or
- (iv) the occurrence of an Administrator/Benchmark Event may cause early redemption or adjustment of the N&C Securities which may include selecting one or more successor benchmarks and making related adjustments to the N&C Securities, including if applicable to reflect increased costs.

Separately, the reform and replacement of IBORs with risk-free rates may cause the relevant IBOR to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. These risk-free rates have a different methodology and other important differences from the IBORs that they are to replace.

Any of these developments could have a material adverse effect on the value of and return on N&C Securities linked to any such rates. In summary, as at the date hereof with regard to the potential transition from IBORs to risk-free rates:

- (i) GBP LIBOR (and GBP SONIA swap rate): only three-month GBP LIBOR is still available, and only in synthetic form. It may only be used in legacy contracts. The Working Group on Sterling Risk-Free Rates, as mandated by the Bank of England and the FCA, has driven a broad-based transition to SONIA across sterling bond, loan and derivative markets, so that SONIA is now established as the primary sterling interest rate benchmark. On 14 December 2020, IBA launched the GBP SONIA ICE Swap Rate.
- (ii) USD LIBOR (and USD SOFR swap rate): only one-month, three-month and six-month USD LIBOR tenors are still available, and only in synthetic form. They may only be used in legacy contracts. On 22 June 2017, the Alternative Reference Rates Committee (the "ARRC"), convened by the Board of Governors of the Federal Reserve System and the Federal Reserve Bank of New York (the "FRBNY"), identified SOFR, a broad U.S. treasuries repurchase financing rate published by the FRBNY, as the rate that represents best practice for use in new U.S. dollar derivatives and other financial contracts. SOFR is a broad measure of the cost of borrowing cash overnight collateralised by U.S. treasury securities. On 8 November 2021, IBA launched the USD SOFR ICE Swap Rate.
- (iii) EURIBOR: EURIBOR has been reformed such that it is based on a hybrid methodology. On 13 September 2018, the Working Group on Euro Risk-Free Rates recommended €STR as the new euro risk-free rate, and the European Central Bank began publishing €STR on 2 October 2019. In addition, in May 2021, the Working Group published a set of guiding principles for fallback provisions in new EURIBOR-referencing contracts and financial instruments (including bonds) to address, among other things, the potential future discontinuation of EURIBOR.

Risk Factors

- (iv) Other IBORs: Similar initiatives are underway in respect of IBORs in various other currencies, including Japanese yen (TIBOR), Hong Kong dollar (HIBOR), Australian dollar (BBSW), Canadian dollar (CDOR) and Swiss franc (CHF LIBOR), which was discontinued at the end of 2021, to transition to identified alternative risk-free rates.

The risk-free rates described above have little, if any, historical track record and, therefore, it may be difficult to compare them to other rates and even harder to understand how they may perform in the future. The level of any such risk-free rate during the term of the N&C Securities may bear little or no relation to the historical actual or historical indicative data. Prior observed patterns, if any, in the behaviour of market variables and their relation to the risk-free rates, such as correlations, may change in the future.

Such risk-free rates also have different calculation methodologies and other important differences from the IBORs that they replace. Market terms for securities linked to such risk-free rates (such as SONIA or SOFR), such as the spread over the rate reflected in interest rate provisions, may evolve over time, and trading prices of such securities may be lower than those of later-issued securities as a result.

Furthermore, as an overnight rate based on a large volume of interbank transactions or as a rate based on transactions secured by central banks' treasury securities, a risk-free rate (such as SONIA or SOFR) does not measure bank-specific credit risk and, as a result, is less likely to correlate with the unsecured short-term funding costs of banks. This may mean that market participants would not consider any such risk-free rate a suitable substitute or successor for all of the purposes for which LIBOR has historically been used (including, without limitation, as a representation of the unsecured short-term funding costs of banks), which may, in turn, lessen market acceptance of such risk-free rate. An established trading market for debt securities linked to the relevant risk-free rate may never develop or may not be very liquid. If the relevant risk-free rate does not prove to be widely used in the capital markets, the trading price of securities linked to risk-free rates may be lower than those of securities linked to rates that are more widely used. Investors may not be able to sell N&C Securities at all or may not be able to sell N&C Securities at prices that will provide investors with a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk and, depending on the terms of the N&C Securities, investors could lose some or all of their investment.

Legal and regulatory changes relating to underlying assets may lead to an early redemption or early cancellation

Underlying assets (such as commodities, interest rates, exchange rates, broad-based credit indices and broad-based equity indices) are subject to legal and regulatory regimes that may change in ways that could affect the ability of the Issuer and/or any entities acting on behalf of the Issuer engaged in any underlying or hedging transactions in respect of the Issuer's obligations in relation to the N&C Securities to hedge the Issuer's obligations under the N&C Securities, and/or could lead to the early termination of the N&C Securities.

In particular, if the Calculation Agent determines that an Additional Disruption Event has occurred, the Issuer may either (a) redeem or cancel the N&C Securities prior to maturity or settlement by payment of an Early Redemption Amount which may be less than the purchase price of the N&C Securities or (b) amend the terms of the N&C Securities instead as it determines appropriate to account for such event. If the payment on the N&C Securities is accelerated, a holder's investment may result in a loss and a holder may not be able to reinvest the proceeds in a comparable investment. An Additional Disruption Event includes any legal or regulatory changes that the Calculation Agent determines have interfered with the ability of the Issuer and/or any entities acting on behalf of the Issuer engaged in any underlying or hedging transactions in respect of the Issuer's obligations in relation to the N&C Securities to hedge the Issuer's obligations under the N&C Securities, or if for any other reason the Issuer and/or any entities acting on behalf of the Issuer engaged in any underlying or hedging transactions in respect of the Issuer's obligations in relation to the N&C Securities is/are unable to enter into or maintain hedge positions to hedge the Issuer's obligations under the N&C Securities. An Additional Disruption Event may also occur where it is not possible for the Issuer, after using commercially reasonable efforts, to put in place or maintain any hedging it deems necessary in

Risk Factors

relation to the price risk of the relevant N&C Security or to get access to the proceeds of such hedging. The Early Redemption Amount may be less than the investor's initial investment and therefore an investor may lose some or all of the initial investment.

There are risks in utilising the N&C Securities for hedging purposes

It may not be possible to use the N&C Securities as a perfect hedge against the market risk associated with investing in a Reference Item. Prospective purchasers intending to purchase N&C Securities to hedge against the market risk associated with investing in a Reference Item should recognise the complexities of utilising N&C Securities in this manner. For example, the value of the N&C Securities may not exactly correlate with the value of the Reference Item. Due to fluctuating supply and demand for the N&C Securities, there is no assurance that their value will correlate with movements of the Reference Item. For these reasons, among others, it may not be possible to purchase or liquidate N&C Securities in a portfolio at the prices used to calculate the value of any Reference Item.

There are risks relating to Inventory N&C Securities which have been issued prior to the date of their purchase

In the case of N&C Securities which have been issued prior to the date of their purchase and which the Dealer has been holding from time to time on its own account ("**Inventory N&C Securities**"), the disclosure in relation to the Reference Item(s) to which the relevant Inventory N&C Securities may be linked as set forth in the Issue Terms will have been extracted by the Issuer from publicly available sources but will not have been prepared by, or on behalf of, and will not have been verified by, or on behalf of, the Issuer, the Dealer or any other member of the Santander Group, each of which will have disclaimed any responsibility for such information. Such information may be out of date and none of the Issuer, the Dealer or any other member of the Santander Group shall provide any updated information in relation to the Reference Item(s). If there has been any change in the Reference Item(s) since the date of the Issue Terms, this may have an adverse effect on the pay-out and/or value of the relevant Inventory N&C Securities. Furthermore, any change in the situation or condition of the Issuer since the date of the Issue Terms will not be disclosed and may have an adverse effect on the value of the relevant Inventory N&C Securities and, depending on the terms of the N&C Securities, investors could lose some or all of their investment.

N&C Securities which are exposed to one or more emerging markets elements are subject to particular risks

Where the determination of amounts in respect of the N&C Securities relate to Reference Items associated with, or denominated in the currencies of, emerging market countries, investors should note that the risk of the occurrence of and the severity of the consequences of the matters described herein may be greater than they would otherwise be in relation to more developed countries. Emerging markets jurisdictions may be characterised as politically unstable and/or lacking a stable and fully developed economy and financial system and/or lacking in established rule of law. Emerging markets investments generally have greater risks than those from developed jurisdictions including political risk, economic risk, currency risk, market risk, regulatory/legal risk and shareholder risk as further described below:

Political risk: The relative instability of political systems of emerging markets jurisdictions may leave them more vulnerable to public unrest and instability. Such circumstances, in turn, could lead to a reversal of some or all economic or political reform including such policies as confiscatory taxation, exchange controls or expropriation of foreign-owned assets without adequate compensation. Any such policies could have an adverse effect on the value of the Reference Item(s) and, in turn, the relevant N&C Securities.

Economic risk: Businesses and governments of emerging markets jurisdictions may be relatively inexperienced in dealing with difficult market conditions (such as the on-going global recession) and may have a limited capital base from which to borrow funds. In addition, an emerging markets jurisdiction may lack a developed banking sector and its financial institutions may not be adequately regulated. These factors, among other economic issues, could affect the

Risk Factors

functioning of the economy and have a corresponding adverse effect on the performance of the Reference Item(s) and, in turn, the relevant N&C Securities.

Currency risk: Reference Item(s) or N&C Securities denominated in the currencies of emerging markets jurisdictions may be subject to greater volatility and possibly the suspension of the ability to exchange or transfer currency, or the devaluation of the currency.

Market risk: The financial systems and markets of emerging markets jurisdictions may lack the level of transparency and liquidity found in more developed markets. As a result, such markets may suffer from extreme price volatility, price discrepancies and lack of liquidity. Any such circumstances or events may have an adverse effect on the performance of the Reference Item(s) and, in turn, the relevant N&C Securities.

Regulatory/Legal risk: In emerging markets jurisdictions there may be less government regulation of business and industry practices, stock exchanges, over-the-counter markets and market participants than in more developed countries. Legislation to safeguard the rights of private ownership and to prevent stock market manipulation may not be fully developed and regulations governing investments in securities may not exist or may be subject to inconsistent or arbitrary application or interpretation and may be subject to change with retroactive effect. The holder of a Reference Item of an emerging markets jurisdiction may not be able to pursue legal remedies in the courts of such jurisdictions. Any such circumstances or events may have an adverse effect on the performance of the Reference Item(s) and, in turn, the relevant N&C Securities.

N&C Securityholders of N&C Securities with such a nexus to emerging countries are exposed to the risk that such N&C Securities may be less liquid and the prices of such N&C Securities more volatile, thus increasing the risk that such N&C Securityholders may experience a loss on their investment.

N&C Securities incorporating any of the above emerging market features and related risks may be inherently more speculative and riskier than other investments and, depending on the terms of the N&C Securities, investors could lose some or all of their investment.

Risks relating to Equity Index Linked Interest N&C Securities

The Issuer may issue Equity Index Linked Interest N&C Securities where the amount payable is dependent upon the level of an equity index or indices and/or by whether that level is equal to, above or below one or more specified levels. Such amounts would therefore be dependent upon the economic performance of the specified equity index.

Equity Index Linked Interest N&C Securities may be subject to certain disruption provisions. In particular, the Calculation Agent may determine that an event giving rise to a Disrupted Day (as defined in the Equity Index Linked Conditions) has occurred at any relevant time. Any such determination may have an effect on the timing of valuation, and consequently the value of the N&C Securities. In addition certain additional disruption events may lead to early redemption of the N&C Securities and such an event may have an adverse effect on the value of the N&C Securities. Whether and how such provisions apply to the N&C Securities can be ascertained by reading the Equity Index Linked Conditions in conjunction with the applicable Issue Terms.

Various unpredictable factors may affect the performance of equity indices

Equity indices are comprised of a synthetic portfolio of shares, and as such, the performance of an equity index is dependent upon the macroeconomic factors relating to the shares that underlie such equity index, such as interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy, as well as the index composition, which may change over time. Any one or a combination of such factors could adversely affect the performance of the equity index which, in turn, would have an adverse effect on the value of and return on the N&C Securities. Depending on the terms of the N&C Securities, investors could lose some or all of their investment.

Risk Factors

Actions by the equity index sponsor may negatively affect the N&C Securities

The sponsor of the equity index(s) will have no involvement in the offer and sale of the N&C Securities and will have no obligation to the N&C Securityholders. For example, the sponsor can add, delete or substitute the components of an equity index at its discretion, and may also alter the methodology used to calculate the level of the equity index. The sponsor may also alter, discontinue or suspend calculation or dissemination of the equity index. Any of these actions may have a detrimental impact on the level of the equity index, which in turn could have a negative impact on the value of and return on the N&C Securities, and depending on the terms of the N&C Securities, investors could lose some or all of their investment.

Investors may receive a lower return on N&C Securities linked to an equity index (or one or more equity indices) than if they held the component shares directly and depending on the type of equity index (or indices)

The value of and return on N&C Securities linked to one or more equity indices may be less than the value of and return on a direct holding of the shares of the companies comprising the components of the equity index. This is because the equity index level at any specified time and valuation date may reflect the prices of such equity index components without taking into account any (or all) dividend payments on those component shares. Accordingly, investors may receive a lower return on N&C Securities linked to one or more equity indices than investors would have received had they invested directly in the component shares.

The rules governing the composition and calculation of the relevant equity index may stipulate that dividends distributed on its components are included in the calculation of the index level (a "total return" version of the index) or are not included in the calculation of the equity index level (a "price return" version of the equity index). In the case of a "price return" index, the relevant N&C Securities will not have the benefit of participating in dividends or other distributions paid on the components comprising the equity index and (assuming the N&C Securities are not "bearish" in nature) the N&C Securities would not perform as well as an investment directly in such components or an investment in a "total return" version of the equity index. Even if the rules of the relevant equity index provide that distributed dividends or other distributions of the components are reinvested in the equity index, in some circumstances the dividends or other distributions may not be fully reinvested in such equity index. Accordingly, investors may receive a lower return on N&C Securities linked to equity indices than investors would have received if they had invested in the components of such equity indices directly or in another product.

If the relevant equity index has a decrement feature, the return on such equity index will be calculated by reinvesting all gross dividends paid by such equity index and by subtracting a pre-defined dividend (also known as a synthetic dividend). If the actual ordinary dividends paid by such equity index is lower than the pre-defined dividends, the performance of the equity index will be less than a traditional "price return" index. As a result, the return of the N&C Securities may be lower than the return of an investment linked to the price of a traditional "price return" index. A decrement feature may also act as a drain on the performance of the equity index, and the index level will not reflect the aggregate performance of the underlying total return index but a lesser amount. As a result, the return of the N&C Securities may be lower than the return of an investment linked to the price of a "total return" index. Each of these factors may in turn have a negative impact on the value of and return on the N&C Securities and, depending on the terms of the N&C Securities, investors could lose some or all of their investment.

The occurrence of an index adjustment event or the replacement of the index sponsor by a successor index sponsor may have a negative effect on the N&C Securities

If the sponsor of an equity index makes a material alteration to the equity index or cancels the equity index and no successor exists, or if the sponsor fails to calculate and announce the Index, with the effect that the Index may not be used in certain ways by the Issuer or the Calculation Agent, the Calculation Agent shall:

- (A) if it determines the event to have a material effect on the N&C Securities, calculate the level of the equity index according to the previous formula and method; or

Risk Factors

- (B) if the Calculation Agent determines that it can no longer calculate the level of the equity index according to the previous formula and method, the Issuer may require the Calculation Agent to replace the equity index with a new equity index representative of the same economic and geographic sector and, to the extent possible, representative of securities/components listed on one or more exchanges of one or more OECD countries and make relevant adjustments to the Conditions to account for such replacement.

Any such action may have a negative effect on the value and return on the N&C Securities. Furthermore, if the Calculation Agent believes that the proposed action above would not achieve a commercially reasonable result, the Issuer may redeem the N&C Securities early.

If an equity index is calculated by a successor index sponsor, or, is replaced by a successor equity index, the successor equity index or equity index as calculated by the successor index sponsor, will be deemed to be the equity index if approved by the Calculation Agent. Any such successor equity index may perform poorly and may result in the N&C Securities having a value and return that is less than otherwise expected.

Any of these events may have a negative effect on the value of and return on the N&C Securities and, depending on the terms of the N&C Securities, investors could lose some or all of their investment.

Risks relating to Inflation Index Linked N&C Securities

The Issuer may issue Inflation Index Linked N&C Securities where the amount payable is dependent upon the level of an inflation/consumer price index or indices and/or whether the level of inflation/consumer price index or indices is equal to, above or below one or more specified levels. Such amounts would therefore be dependent upon the economic performance of the specified inflation/consumer price index. Such factors may affect the performance of the Inflation Index and in turn have a negative impact on the value of and return on the N&C Securities.

Inflation Index Linked N&C Securities may be subject to certain disruption provisions and additional disruption events provisions. Relevant events may relate to market disruptions, or other extraordinary events in relation to the relevant level of inflation/consumer price index or indices. If the Calculation Agent determines that any such event has occurred this may delay valuations under the N&C Securities and consequently adversely affect the value of the N&C Securities. The Calculation Agent may also, in the event of certain additional disruptions to the relevant inflation/consumer price index determine a successor index, which may adversely affect the value of the N&C Securities. In addition, certain extraordinary or disruption events may lead to early redemption of the N&C Securities which may have an adverse effect on the value of the N&C Securities.

Depending on the terms of the N&C Securities, investors could lose some or all of their investment.

13. **Risks associated with foreign exchange**

If an investor holds N&C Securities which are not denominated in the investor's home currency, the investor will be exposed to movements in exchange rates adversely affecting the value of the investor's holding. In addition, the imposition of exchange controls in relation to any N&C Securities could result in an investor not receiving payments on those N&C Securities

The Issuer will pay principal, interest and other amounts on the N&C Securities in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of

Risk Factors

the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency equivalent yield on the N&C Securities, (2) the Investor's Currency equivalent value of the principal payable on the N&C Securities, and (3) the Investor's Currency equivalent market value of the N&C Securities.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the N&C Securities. As a result, investors may receive less interest or principal or settlement amount than expected, or no interest or principal or settlement amount.

There is generally foreign exchange currency exposure in respect of N&C Securities which provide for payment to be made in a currency which is different to the currency of the Reference Item(s)

Where the terms and conditions of the N&C Securities provide that payment under such N&C Securities will be made in a currency which is different from the currency of the Reference Item, and such N&C Securities do not have a "quanto" feature (i.e. the N&C Securities themselves take no account of currency rate movements or otherwise hedge the currency risk), there are additional risks. Holders of such N&C Securities may be exposed not only to the performance of the Reference Item but also to the performance of such foreign currency, which cannot be predicted. Investors should be aware that foreign exchange rates are, and have been, highly volatile and determined by supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks (e.g., imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates and the availability of a specified currency). Any such factors and/or measures could have a negative impact on the market value of and return on the N&C Securities and, depending on the terms of such N&C Securities, investors could lose some or all of their investment.

There are risks relating to currency-protected or "quanto" N&C Securities which provide for payment to be made in a currency which is different to the currency of the Reference Item(s)

If one or more Reference Items are not denominated in the currency of the N&C Securities and at the same time only the performance of the Reference Item(s) in their denominated currency is relevant to the payout on the N&C Securities, such N&C Securities are referred to as currency-protected N&C Securities or N&C Securities with a "quanto" feature. Under such feature, the investment return of the N&C Securities depends only on the performance of the Reference Item(s) (in the relevant currency) and any change in the rate of exchange between the currency of the Reference Item(s) and the N&C Securities is disregarded. Accordingly, the application of a "quanto" feature means that N&C Securityholders will not have the benefit of any change in the rate of exchange between the currency of the Reference Item(s) and the N&C Securities that would otherwise increase the performance of the Reference Item(s) in the absence of such "quanto" feature. In addition, changes in the relevant exchange rate may indirectly influence the price of the Reference Item(s) which, in turn, could have a negative effect on the return on the N&C Securities. Depending on the terms of the N&C Securities, investors could lose some or all of their investment

Investment in Dual Currency N&C Securities may be negatively affected by changes in exchange rates and exchange controls

With respect to an investment in Dual Currency N&C Securities that are denominated and/or payable in a Specified Currency, there will be significant risks associated with such an investment. The Issuer has no control over the factors that generally affect these risks, such as economic, financial and political events and the supply and demand for the applicable currencies. Moreover, if payments on Dual Currency N&C Securities are determined by

Risk Factors

reference to a formula containing a multiplier or leverage factor, the effect of any change in the exchange rates between the applicable currencies will be magnified.

Depreciation of the payment currency would result in a decrease in the equivalent yield of the Dual Currency N&C Securities, in the equivalent value of the principal generally, and in the equivalent market value of the Dual Currency N&C Securities. Governmental exchange controls could affect exchange rates and the availability of the payment currency on a required payment date. Even if there are no exchange controls, it is possible that the payment currency will not be available on a required payment date due to circumstances beyond the Issuer's control. Any such factors could have a negative impact on the market value of and return on the N&C Securities and, depending on the terms of such N&C Securities, investors could lose some or all of their investment.

14. Risks associated with taxation

Potential purchasers and sellers of N&C Securities should be aware that they may be required to pay stamp taxes or other documentary or transaction charges in accordance with the laws and practices of the United Kingdom or country where the N&C Securities are transferred and/or any assets are issued, located or delivered. N&C Securityholders are subject to the provisions of the Conditions and payment and/or delivery of any amount due in respect of the N&C Securities will be made subject to any tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted. Potential purchasers should note that the N&C Securities will not have the benefit of a gross-up provision in respect of withholding taxes. N&C Securityholders will bear the risk of the imposition of any deduction or withholding with respect to payments made under the N&C Securities.

U.S. withholding on dividend equivalent payments

Section 871(m) of the U.S. Internal Revenue Code of 1986 (the "**Code**") causes a 30 per cent. withholding tax on amounts attributable to U.S. source dividends that are paid or "deemed paid" under certain financial instruments if certain conditions are met (such instruments, "**Specified N&C Securities**"). If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld. Accordingly, in the case of the imposition of any such withholding tax, N&C Securityholders will suffer a loss on the return. Prospective investors should refer to the section "*Taxation - U.S. Dividend Equivalent Withholding*".

N&C Securities may be subject to withholding under the U.S. Foreign Account Tax Compliance Act, commonly known as FATCA. Prospective investors should refer to the section "*Taxation - Foreign Account Tax Compliance Act*".

15. Risks associated with conflicts of interest of the Issuer, the Group, the Calculation Agent and the Dealer and the discretionary powers of the Issuer and the Calculation Agent

Role of Santander UK

Santander UK is acting in a number of capacities (e.g. Calculation Agent, Issuer and Dealer) in connection with the transactions described in this Base Prospectus. Santander UK, acting in such capacities in connection with such transactions, shall have only the duties and responsibilities expressly agreed to by it in its relevant capacity and shall not, by virtue of its acting in any other capacity, be deemed to have other duties or responsibilities or be deemed to hold a standard of care other than as expressly provided with respect to each such capacity. Santander UK, in its various capacities in connection with the contemplated transactions, may enter into business dealings, including the acquisition of investment securities as contemplated by its constitutional and other corporate documents, from which it may derive revenues and profits in addition to the fees, if any, stated in its constitutional and other corporate documents, without any duty to account therefor.

In the ordinary course of its business, including without limitation in connection with its market making activities, Santander UK and/or any of its affiliates may effect transactions for its own account or for the account of its customers and hold long or short positions in any Reference

Risk Factors

Item(s) or related derivatives. In addition, in connection with the offering of any N&C Securities, Santander UK and/or any its affiliates may enter into one or more hedging transactions with respect to any Reference Item(s) or related derivatives. Such hedging or market-making activities or with respect to proprietary or other trading activities by Santander UK and/or any its affiliates may enter into transactions in any Reference Item(s) or related derivatives which may affect the market price, liquidity or value of the relevant N&C Securities and which could be deemed to be adverse to the interests of the relevant N&C Securityholders.

There is no limitation or restriction on Santander UK, or any of its respective Affiliates, with regard to acting as adviser (or in a similar role) to other parties or persons. This and other future activities of Santander UK and/or its Affiliates may give rise to additional potential conflicts of interest.

Santander UK in its capacity as Issuer and Dealer may at the date hereof or at any time hereafter, be in possession of information in relation to one or more Reference Item(s) that is or may be material in the context of the N&C Securities and may or may not be publicly available to N&C Securityholders. There is no obligation on Santander UK or any Dealer to disclose to N&C Securityholders any such information.

There may be potential conflicts of interests if intermediaries are appointed in connection with the offer or placement of the N&C Securities

Given that the intermediaries appointed from time to time as distributors and the other entities acting in connection with the offer or placement of the N&C Securities act in their institutional capacity pursuant to a mandate granted by the Issuer and receive fees on the basis of the placement activity carried out and its outcome, such intermediaries may be subject to a potential conflict of interest.

Investors in N&C Securities through an intermediary (including by way of introducing broker) should be aware that the existence of commissions that may be payable to such intermediary in respect of the N&C Securities to the extent permitted by applicable law may give rise to conflicts of interest, as an intermediary may be interested in selling to its customers primarily N&C Securities where it receives the highest commissions. Investors should request details of any such commission or fee payment from such intermediary and any potential conflicts of interest before making any purchase of N&C Securities.

The conflicts of interest described above could lead to outcomes for investors with regard to their potential investment in the Securities that is less positive or materially adverse to investors than when compared with other possible investment options or alternatives.

Calculation Agent's discretion

The Calculation Agent (which may be Santander UK or an affiliate of Santander UK) has a very broad discretionary authority to make various determinations and adjustments under the N&C Securities, any of which may have an adverse effect on the value and/or the amounts payable under the N&C Securities. For example, the Calculation Agent has a broad discretion to, without limitation, (i) determine whether a Market Disruption Event, Additional Disruption Event, Index Adjustment Event, Delayed Index Level Event, Administrator/Benchmark Event and/or any other event and/or matters so specified in the Conditions has occurred, (ii) determine any resulting adjustments and calculations as described in the Conditions and (iii) make determinations in respect of any other matters as may be specified in the applicable Issue Terms. Prospective purchasers should be aware that any determinations made by the Calculation Agent may have an impact on the value and financial return of the N&C Securities. Any such discretion exercised by, or any calculation made by, the Calculation Agent (in the absence of manifest error) shall be binding on the Issuer and all holders of the N&C Securities.

If the Calculation Agent determines that any scheduled valuation date (including an averaging date) (i) falls on a day which is not a Scheduled Trading Day or any other day which is subject to adjustment in accordance with the terms and conditions of the relevant N&C Securities and/or (ii) falls on a day in respect of which a disruption or similar event has occurred and is continuing in respect of the Reference Item which affects the valuation of such Reference Item, the

Risk Factors

Calculation Agent has broad discretion to make any consequential postponement of, or any alternative provisions for, valuation of such Reference Item provided in the terms and conditions of the N&C Securities, including a determination of the value of such Reference Item by the Calculation Agent in its discretion, each of which could have a material adverse effect on the return on and value of the N&C Securities, and investors could lose some or all of their investment.

As at the date of this Base Prospectus, the long-term obligations of Santander UK are rated A by S&P, A1 by Moody's and A+ by Fitch, and the short-term obligations of Santander UK are rated A-1 by S&P, P-1 by Moody's and F1 by Fitch.

Regulation of the Group

As a financial services group, the Santander UK Group is subject to extensive financial services laws, regulations, administrative actions and policies in the UK and in each other location in which the Santander UK Group operates. This intensive approach to supervision is maintained in the United Kingdom by the PRA and the FCA. As well as being subject to UK regulation, as a result of forming part of the Banco Santander Group, the Santander UK Group is also affected by other regulators, such as the Banco de España and the ECB, as well as various legal and regulatory regimes (including the U.S.) that have extra-territorial effect. Extensive legislation and implementing regulations affecting the financial services industry have recently been adopted in regions that directly or indirectly affect Santander UK's business, including Spain, the U.S., the EU and other jurisdictions. In the UK and elsewhere, there is continuing political, competitive and regulatory scrutiny of the banking industry. Political involvement in the regulatory process, in the behaviour and governance of the UK banking sector and in the major financial institutions in which the UK government has a direct financial interest is likely to continue.

Approach of the Financial Conduct Authority ("FCA")

As per the FSMA (as amended by the Financial Services Act 2012), the FCA has a strategic objective to ensure that the relevant markets function well. In support of this, the FCA has three operational objectives: to protect consumers from bad conduct; to protect and enhance the integrity of the UK financial system and to promote effective competition in the interests of consumers.

Description of the Issuer

The FCA Handbook sets out rules and guidance across a range of conduct issues with which financial institutions are required to comply including high level principles of business and detailed conduct of business standards and reporting standards.

Regulatory Approach of the PRA

As per the Financial Services Act 2012, the PRA has two primary objectives: to promote the safety and soundness of the firms which it regulates and, with respect to insurers, to contribute to the securing of an appropriate degree of protection for policyholders. The PRA has a secondary objective in respect of the promotion of effective competition in the markets for services provided by PRA authorised firms. The PRA's regulatory and supervisory approach incorporates three key characteristics: to take a judgement based approach, a forward-looking approach, and a focused-approach.

The PRA Rulebook includes regulations and guidance relating to capital adequacy and liquidity, among several other things.

U.S. regulation

Within the Dodd-Frank Act, the so-called Volcker Rule, prohibits 'banking entities', including the Santander UK Group, from engaging in certain forms of proprietary trading or from sponsoring or investing in certain covered funds, in each case subject to certain exemptions, including exemptions permitting foreign banking entities to engage in trading and fund activities that take place solely outside of the U.S. The Volcker Rule also contains exclusions and certain exemptions for market-making, hedging, underwriting, trading in U.S. government and agency obligations as well as certain foreign government obligations, and also permits ownership interests in certain types of funds to be retained such as new exclusions for credit funds, venture capital funds, family wealth management vehicles and client facilitation vehicles. The Santander UK Group has policies, procedures and controls in place designed to achieve compliance with the Volcker Rule.

The Banking Act 2009

The special resolution regime set out in the Banking Act provides HM Treasury, the BoE, the PRA and the FCA with a variety of powers for dealing with UK deposit taking institutions (and, in certain circumstances, their holding companies) that are failing or likely to fail, including: (i) to take a bank or bank holding company into temporary public ownership; (ii) to transfer all or part of the business of a bank to a private sector purchaser; or (iii) to transfer all or part of the business of a bank to a 'bridge bank'. The special resolution regime also comprises a separate insolvency procedure and administration procedure each of which is of specific application to banks. These insolvency and administration measures may be invoked prior to the point at which an application for insolvency proceedings with respect to a relevant institution could be made.

The Financial Services (Banking Reform) Act 2013 further amended the Banking Act to introduce a UK 'bail-in power' to implement the EU Bank Recovery and Resolution Directive, which contains a bail-in power similar to that contained in the Banking Act and requires EU Member States to provide resolution authorities with the power to write down the claims of unsecured creditors of a failing institution and to convert unsecured claims to equity (subject to certain parameters). The UK bail-in power is an additional power available to the UK resolution authorities under the special resolution regime provided for in the Banking Act. This enables them to recapitalise a failed institution by allocating losses to such institution's shareholders and unsecured creditors, subject to the rights of such shareholders and unsecured creditors to be compensated under a bail-in compensation order.

Competition

The CMA is the UK's main competition authority responsible for ensuring that competition and markets work well for consumers. In addition, under the Banking Reform Act, as of 1 April 2015, the FCA has the power to enforce against breaches of the Competition Act 1998 and to refer markets to the CMA for in-depth investigation in the areas of financial services in the UK. As of 1 April 2015, the PSR also has an objective and powers equivalent to those of the FCA to promote competition in the payments industry.

Description of the Issuer

Payments

Within the UK, the Payment Systems Regulator has mandated that the Santander UK Group builds systems and processes for both Confirmation of Payee as well as the Contingent Reimbursement Model Code both of which aim to reduce the level of customer fraud (particularly through the Santander UK Group customer's manipulation into making payments known as "Authorised Push Payment" fraud). Under these standards, the Santander UK Group assumes responsibility for certain categories of customer losses, and inherent failings in system design may lead to fines from regulators and/or compensation being paid to customers. The Santander UK Group also expects to see significant developments in the key UK payment systems architecture - with systems update of the high value CHAPS system through Real Time Gross Settlement renewal as well as the "New Payments Architecture" for faster payments, BACS and the other lower value retail payment schemes. The Second Payment Services Directive has been implemented within the UK and the UK continues to build upon the requirements within the EBA Regulatory Technical Standards via the Open Banking API industry standard and build. The Santander UK Group has also adapted systems and pricing to comply with other European regulations - including the Second Cross Border Payments Regulation which has required the Santander UK Group to baseline the majority of EEA currency payments against their domestic equivalents in price.

Finally, the Santander UK Group has reviewed its use of European payments systems and processes in light of the end of the UK's transition period with the EU and has concluded that it can remain within the SEPA Payment Scheme and continue to send SEPA Euro Payments via Madrid to EEA beneficiaries. However, as it is not domiciled in the EU, it has needed to exit the other (high value) Euro payment schemes, being EURO1 and TARGET2. It has negotiated new arrangements to access those systems via Madrid and a correspondent banking relationship agreement has been agreed and is operational.

Financial Crime

On 30 May 2018, the Council of EU and the European Parliament amended the Fourth Anti-Money Laundering Directive, publishing the amending Directive (EU) No 2018 / 843 ("**5th AMLD**").

The 5th AMLD brought in increased corporate transparency rules, introduced the application of AML rules to firms providing services associated with virtual currencies and further extended enhanced due diligence ("**EDD**") requirements to all transactions with natural persons or legal entities established in third countries identified as high-risk countries ("**HRTCs**") pursuant to Article 9(2) of the Directive.

The UK government transposed the Directive into UK law on 20 December 2019, amending the UK's Money Laundering, Terrorist Financing and Transfer of Funds (Information on the Payer) Regulations 2017 ("**MLRs**") through the Money Laundering and Terrorist Financing (Amendment) Regulations 2019. The latter came into effect on 10 January 2020 and, among other changes, introduced a requirement to report beneficial ownership discrepancies to Companies House. Further amendments to the MLRs were made by the Money Laundering and Terrorist Financing (Amendment) (EU Exit) Regulations 2020.

On 26 March 2021, HM Treasury published a new statutory instrument, The Money Laundering and Terrorist Financing (Amendment) (High Risk Countries) Regulations 2021 amending the MLRs by replacing references to the European Commission's list of HRTCs (in respect of which EDD and additional specific EDD measures must be taken under the MLRs) with a UK list identified in a new Schedule 3ZA to the MLRs. This was the first exercise of the powers in section 49 of the Sanctions and Anti-Money Laundering Act 2018 ("**SAMLA**"). The UK list of HRTCs came into force on 26 March 2021 and has since been amended through The Money Laundering and Terrorist Financing (Amendment)(No.2)(High-Risk Countries) Regulations 2021 coming into force on 13 July 2021, The Money Laundering and Terrorist Financing (Amendment) (No. 3) (High-Risk Countries) Regulations 2021 coming into force on 2 November 2021, Money Laundering and Terrorist Financing (Amendment) (High-Risk Countries) Regulations 2022 coming into force on 29 March 2022, The Money Laundering and Terrorist Financing (High-Risk Countries) (Amendment) (No. 2) Regulations 2022 coming into force on 12 July 2022, and The Money Laundering and Terrorist Financing (High-Risk Countries) (Amendment) (No. 3) Regulations 2022 coming into force on 15 November 2022. These amendments reflected changes to the Financial Action Task Force ("**FATF**") list of jurisdictions under increased monitoring.

In July 2021, the UK government launched two consultations on the MLRs (as amended). The first targeted specific changes to align the UK's AML/CTF regime with recent amendments to FATF

Description of the Issuer

standards and introduce certain technical changes. The second was a "Call for Evidence" examining the effectiveness and future state of the UK's AML/CTF regime. Both consultations closed in October 2021. On 24 June 2022, the UK government published a forward-looking review of the UK's AML/CTF regime in response to the "Call for Evidence" focusing on systemic effectiveness, regulatory effectiveness and supervisory effectiveness. Following the publication of The Money Laundering and Terrorist Financing (Amendment) Regulations 2022 which came into force on 9 March 2022 and served to make certain time-sensitive updates to ensure the UK continues to meet international standards, and , the UK government published The Money Laundering and Terrorist Financing (Amendment) (No. 2) Regulations 2022 in response to their 2021 consultation, coming into force on 1 September with specific measures coming into force on 1 April 2023. These amendments include amongst others, specific obligations in respect of addressing Proliferation Financing risk and amendments to beneficial ownership discrepancy reporting regime, including discrepancy reporting obligations in respect of the Register of Overseas Entities introduced by the Economic Crime (Transparency and Enforcement) Act 2022 which was quickly moved through Parliament in light of Russia's invasion of Ukraine and came into force in 15 March 2022. Additional key changes introduced by the Economic Crime (Transparency and Enforcement) Act 2022 included strengthening aspects of the Unexplained Wealth Orders regime and increasing the speed at which sanctions designations can be made. On 22 September 2022, the UK government introduced the Economic Crime & Corporate Transparency Bill which aims to deliver long-awaited reforms to tackle economic crime and improve transparency over corporate entities. It is expected that this Bill gains Royal Assent during 2023.

To ensure regulatory continuity post-Brexit, the Government introduced SAMLA to provide a legal framework through which it can impose and update sanctions following the UK's departure from the EU. SAMLA grants the UK government the authority to introduce statutory instruments to enable compliance with United Nations (UN) sanctions and other international obligations, and to meet defined discretionary purposes such as promoting national and international peace and security. SAMLA broadly mirrors the EU sanctions regime but enables the UK to act independently by imposing sanctions regulations swiftly without the need to reach a consensus with other EU Member States. For example, the UK government introduced the Global Anti-Corruption Sanctions Regulation 2021 which allows the UK government to designate entities and individuals involved in serious corruption around the world. Separately, the Money Laundering and Transfer of Funds (Information) (Amendment) (EU Exit) Regulations 2019 were enacted to ensure that the UK's AML Regime has continued to operate effectively now that the UK has ceased to be a member of the EU.

The possibility of near-term divergence from EU law was reduced by the FCA's Temporary Transitional Power. Under this, a standstill direction was issued which stipulated that until 31 March 2022 and in terms of certain regulatory obligations, firms could continue to comply with the legal framework in place in the UK immediately before 31 December 2020. Financial crime legislation was covered by the standstill direction.

The U.S. government has continued to actively apply and enforce sanctions against individuals, entities and countries. U.S. sanctions are subject to change without warning and may affect the Santander UK Group's ability to transact with certain individuals and entities and to operate in certain jurisdictions.

The UK, EU and U.S. are expected to continue to use sanctions to pursue their foreign policy interests and objectives, and the imposition of new, additional, and/or enhanced sanctions is and will remain unpredictable. Any changes in UK, EU and/or U.S. sanctions could affect the Group's business.

The banking sector in the UK continues to be subject to the Suspicious Activity Reporting ("**SAR**") regime laid out in the Proceeds of Crime Act 2002. The regime is one of the key tools to inform law enforcement agencies and the National Crime Agency of suspicious (potentially money laundering or terrorist financing) activity. In 2018, the UK government asked the Law Commission to conduct a review of the legislation underpinning the regime. The review was completed in July 2019 and concluded that the breadth of the legal framework, including the pressure to submit SARs that is driven by individual criminal liability for failing to submit one when 'suspicious', means that the SARs regime suffers from very large reporting volumes.

The UK's SARs Reform Programme, which operates within the confines of the government's Economic Crime Plan 2019-2022, is exploring how banks could, together with government, target their joint efforts to produce and act quickly on higher value intelligence, thereby acting on some of the Law Commission's findings. Anti-corruption continues to be a key focus of the UK Governments approach to economic

Description of the Issuer

crime. The Economic Crime (Transparency and Enforcement) Act 2022 which came into force on 15 March 2022 contains provisions which will seek to tackle corruption through increased transparency of overseas ownership of UK land and real estate and the strengthening of UWO's. Anti-corruption remains a topic of global focus, as is illustrated by President Biden's 'Protecting Democracy' summit in December 2021 during which the US released its first strategy on Countering Corruption and more recently US National Security Advisor Jake Sullivan's speech at the December 2022 International Anti-Corruption Conference ("IACC"). Sullivan reiterated President Biden and the US administration's commitment to working with other countries to champion democracy and fight corruption.

Consumer Duty

The FCA is introducing a new Consumer Duty that aims to enhance and improve consumer protections. From 31 July 2023, the Consumer Duty applies to all firms, banks and financial institutions that deliver new or existing products and services to retail clients. For closed products or services, the Consumer Duty rules come into force on 31 July 2024. For many financial institutions, including the Group, the Consumer Duty will require a significant shift in culture, business objectives and marketing strategies, where businesses must consistently prioritise the best interests of their customers.

The Consumer Duty will introduce a new FCA principle (that is, the consumer principle), which requires firms to deliver good outcomes to retail customers. This consumer principle will be supported by cross-cutting rules and guidance, which require banks and businesses to: act in good faith, support customers to pursue their financial objectives and avoid causing foreseeable harm to customers. In May 2021, the FCA launched its first consultation on the Consumer Duty, which included high-level proposals on how the Consumer Duty would apply to various firms, but no draft rules or guidance were provided. In July 2022, the FCA then launched its final policy statement and guidance, as well as its final non-handbook guidance on the Consumer Duty. These provided further detail, rules and guidance on how the Consumer Duty would interact with other FCA guidance requirements, such as the FCA's guidance on treating and assessing the requirements of vulnerable customers. Further amendments to the final rules were proposed in the FCA's quarterly consultation No.38 (CP22/26) which was published on 2 December 2022.

Distribution

N&C Securities may be distributed by way of private or public placement and in each case on a syndicated or non-syndicated basis.

No offers, sales, resales or deliveries of any N&C Securities or distribution of any offering material relating to any N&C Securities, may be made in or from any jurisdiction except in circumstances which will result in compliance with any applicable laws and regulations and which will not impose any obligation on the Issuer.

As a result of the restrictions set out in the section of this Base Prospectus entitled "*Subscription and Sale*", purchasers of N&C Securities are advised to consult legal or other expert advisors prior to making any purchase, offer, sale, resale or other transfer of such N&C Securities.

General Description of the Programme

Form of N&C Securities

N&C Securities may be issued in bearer form ("**Bearer N&C Securities**") or immobilised bearer form deposited with a custodian on behalf of the relevant clearing system enabling subsequent transfers to be made by way of book entries ("**Immobilised Bearer N&C Securities**").

The N&C Securities of each Series will be represented by a global security in bearer form.

Bearer N&C Securities will be issued outside the United States in reliance on Regulation S.

Immobilised Bearer N&C Securities will be issued through Citibank, N.A., London Branch in its capacity as Book-Entry Depository pursuant to an N&C Securities Depository Agreement dated on or about the date of this Base Prospectus and may not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, a U.S. Person, as described in "Form of the N&C Securities".

CREST Depository Interests

If CREST Depository Instruments are specified in the Issue Terms, investors may hold indirect interests in the N&C Securities (such N&C Securities being "**Underlying N&C Securities**") through CREST (being the system for the paperless settlement of trades and the holding of uncertificated securities operated by Euroclear UK & International Limited or any successor thereto in accordance with the United Kingdom Uncertificated Securities Regulations 2001, as amended) by holding dematerialised depository interests ("**CREST Depository Interests**").

CREST Depository Interests are independent securities constituted under English law issued, held, settled and transferred through Euroclear UK & International Limited (formerly known as CRESTCo Limited) ("**CREST**"). CREST Depository Interests are issued by CREST Depository Limited or any successor thereto (the "**CREST Depository**") pursuant to the Global Deed Poll dated 25 June 2001, in the form from time to time contained in Chapter 8 of the CREST International Manual (which forms part of the CREST Manual issued by CREST) (as defined below in "Book-Entry Clearance Systems and Settlement") (as subsequently modified, supplemented and/or restated) (the "**CREST Deed Poll**").

CREST Depository Interests represent indirect interests in the Underlying N&C Securities to which they relate and holders of CREST Depository Interests will not be the legal owners of the Underlying N&C Securities. Holders of CREST Depository Instruments will not be entitled to deal directly in the N&C Securities and, accordingly, all dealings in the N&C Securities will be effected through CREST in relation to the holding of CREST Depository Interests.

The Underlying N&C Securities (as distinct from the CREST Depository Interests representing indirect interests in such Underlying N&C Securities) will be held in an account with a custodian. The custodian will hold the Underlying N&C Securities through the relevant Clearance System. Rights in the Underlying N&C Securities will be held through custodial and depository links through the relevant Clearance System. The legal title to the Underlying N&C Securities or to interests in the Underlying N&C Securities will depend on the rules of the relevant Clearance System in or through which the Underlying N&C Securities are held.

CREST International Nominees Limited or another entity appointed to act as nominee in accordance with the CREST Deed Poll (the "**CREST Nominee**") will hold the legal title to the Underlying N&C Securities and the direct enforcement right in respect of the Underlying N&C Securities. This could result in a holder of CREST Depository Interests receiving less than, or none of, the full amount payable in respect of the Underlying N&C Securities in the event of any insolvency or liquidation of any relevant intermediary, in particular where the Underlying N&C Securities held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries.

The rights of the holders of CREST Depository Interests in respect of their indirect interests in the relevant N&C Securities will be governed by the arrangements between CREST and Euroclear Bank S.A., Euroclear Bank N.V. and/or Clearstream Banking S.A., Luxembourg or any other clearing system specified in the Issue Terms in respect of the relevant N&C Securities in which the Underlying N&C Securities are held, including the CREST Deed Poll executed by the CREST Depository. These rights

General Description of the Programme

are different from those of holders of N&C Securities which are not represented by CREST Depository Interests.

CREST Depository Interests are further described in the section entitled "*Book-Entry Clearance Systems and Settlement*".

ESG Securities

The applicable Issue Terms in respect of N&C Securities may specify that the N&C Securities are "ESG Securities" ("**ESG Securities**"). It is the Issuer's intention that a portion of the proceeds of the offer of ESG Securities (as specified in the applicable Issue Terms) shall be applied by the Issuer (directly or indirectly) in order to fund or otherwise finance certain environmental, social or sustainability projects and/or other activities promoting social, environmental and/or sustainable purposes. The applicable Issue Terms will indicate if N&C Securities are intended to constitute ESG Securities and will provide additional information in relation to the intended use of proceeds in respect of any ESG Securities.

You should review the information in the applicable Issue Terms regarding such use of proceeds and determine for yourself the relevance of such information for the purpose of any investment in ESG Securities, together with any other investigation(s) you consider necessary. No assurance can be given that allocating proceeds of any ESG Securities to fund or otherwise finance (directly or indirectly) certain eligible green, social or sustainability assets or projects will meet investor expectations or requirements regarding such "green", "social" or "sustainable" or similar legislative labels or industry standards (including any under Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the so called "**EU Taxonomy**") or any UK equivalent, or any legislative or industry "green bond" standard), or that allocating issue proceeds to any eligible green, social or sustainability assets or projects will meet or continue to meet on an ongoing basis any or all investor expectations regarding such "green", "social", "sustainable" or other similarly-labelled objectives.

In the event that any ESG Securities are listed or admitted to trading on any dedicated "green", "environmental", "social", "sustainable" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer, the Dealer(s), the Manager(s) or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact related to the ESG Securities. Further, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuer, the Dealer(s), the Manager(s) or any other person that any such listing or admission to trading will be obtained in respect of any ESG Securities or, if obtained, that any such listing or admission to trading will be maintained during the term of such ESG Securities.

Whilst it is the intention of the Issuer to allocate an amount equal to the amount of issue proceeds specified in the applicable Issue Terms of the ESG Securities in, or substantially in, the manner therein, there is no contractual obligation to do so and no assurance is given that such allocation will be made.

How the Return on N&C Securities is calculated

HOW THE RETURN ON N&C SECURITIES IS CALCULATED

N&C Securities issued pursuant to this Base Prospectus will, upon maturity, pay a redemption amount that is linked to the change in value of a specified underlying asset or reference item which may fluctuate up or down depending on the performance of that underlying asset or reference item over time. The sections below are intended to demonstrate how the return on certain N&C Securities will be calculated depending upon changes in the value of the underlying asset or reference item.

The Issuer will not offer any Non Exempt N&C Securities under this Base Prospectus other than Non Exempt N&C Securities having the types of payout returns described in this section, unless such different payout returns are described in a supplement to this Base Prospectus approved by the FCA as competent authority under the UK Prospectus Regulation prior to offer of the relevant Non Exempt N&C Securities.

A simple illustrative chart of the payout return structure is as follows:

How the Return on N&C Securities is calculated

THE WORKED EXAMPLES PRESENTED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY AND ARE IN NO WAY REPRESENTATIVE OF THE ISSUE TERMS OF ANY PARTICULAR ISSUANCE OR PRICING OF N&C SECURITIES. THE WORKED EXAMPLES ARE INTENDED TO DEMONSTRATE HOW AMOUNTS PAYABLE UNDER (AND THEREFORE THE VALUE OF) THE N&C SECURITIES WOULD BE CALCULATED IN RESPECT OF A VARIETY OF DIFFERENT PAYOUT TERMS AND FEATURES (AS ILLUSTRATED ACROSS DIFFERENT TYPES OF UNDERLYING REFERENCE ITEM(S)). THE ACTUAL AMOUNTS PAYABLE (IF ANY) UNDER (AND THEREFORE THE VALUE OF) THE N&C SECURITIES WILL BE CALCULATED IN ACCORDANCE WITH THE TERMS OF THE RELEVANT N&C SECURITIES, WHICH TERMS MAY DIFFER FROM THOSE OF THE WORKED EXAMPLES PROVIDED BELOW. INVESTORS MUST REVIEW THE ISSUE TERMS OF THE RELEVANT N&C SECURITIES AND THIS DOCUMENT PRIOR TO ANY PURCHASE THEREOF IN ORDER TO ENSURE TO UNDERSTAND THE PARTICULAR TERMS OF THE N&C SECURITIES.

I. EQUITY INDEX LINKED – FINAL REDEMPTION AMOUNT (WITH BARRIER CONDITION), WITHOUT OR WITH FIXED INTEREST (AS APPLICABLE)

Key assumptions made for each of the worked examples below:

- *the nominal amount of each N&C Security (the "**Calculation Amount**") is assumed to be GBP 100 and the issue price is 100% of the Calculation Amount;*
- *the example underlying asset referred to is an equity index: the FTSE 100 index. The initial price of the FTSE 100 index is assumed to be 6,000; and*
- *the issue price of the N&C Securities referred to above will be the initial value of each security to which the final redemption amount of the N&C Securities is calculated.*

N&C Securities issued pursuant to this Base Prospectus may, upon maturity, pay a redemption amount that is linked to the change in value of a specified underlying asset or reference item or basket thereof (for the purpose of this section I, an equity index) which may fluctuate up or down depending on the performance of the underlying asset(s) or reference item(s) over time. The sections below are intended to demonstrate how the return on certain N&C Securities will be calculated depending upon changes in the value of the underlying asset(s) or reference item(s).

How the Return on N&C Securities is calculated

A. Final redemption amount (with barrier condition)

Overview of final redemption where a barrier condition is specified

The redemption amount will depend on whether the final valuation price of the underlying asset is at or above the initial valuation price of the underlying asset.

No interest is payable.

WORKED EXAMPLE A1:

Subject to any unscheduled prior early redemption, the final redemption amount is as follows:

- (i) if the barrier condition has been satisfied:

Calculation Amount * 116 per cent.

- (ii) if the barrier condition has not been satisfied:

Calculation Amount * 100.50 per cent.

Assuming for the purpose of this worked example only, that:

- the underlying asset is an equity index (in this worked example, the FTSE 100 index);
- the barrier condition is satisfied if the closing level of the underlying asset on the final valuation date is equal to or greater than the barrier level;
- the barrier level is the closing level of the underlying asset on the initial valuation date (in this worked example, 6,000); and
- on the final valuation date, the closing level of the underlying asset is 4,800.

In this case, because the closing level of the underlying asset on the final valuation date is less than the barrier level, the barrier condition has not been satisfied, and the final redemption amount is the Calculation Amount of GBP 100 multiplied by 100.50 per cent., being GBP 100.50.

Therefore, if you paid GBP 100 for each N&C Security that you purchased, you would receive back your original GBP 100 at maturity of the N&C Securities plus only a further GBP 0.50. You will receive no interest.

WORKED EXAMPLE A2:

Subject to any unscheduled prior early redemption, the final redemption amount shall be as follows:

- (i) if the barrier condition has been satisfied:

Calculation Amount * 116 per cent.

- (ii) if the barrier condition has not been satisfied:

Calculation Amount * 100.50 per cent.

Assuming for the purpose of this worked example only, that:

- the underlying asset is a single equity index (in this worked example, the FTSE 100 index);
- the barrier condition is satisfied if the closing level of the underlying asset on the final valuation date is equal to or greater than the barrier level;
- the barrier level is the closing level of the underlying asset on the initial valuation date (in this worked example, 6,000); and

How the Return on N&C Securities is calculated

- on the final valuation date, the closing level of the underlying asset is 7,800.

In this case, because the closing level of the underlying asset on the final valuation date is greater than the barrier level, the barrier condition has been satisfied and the final redemption amount is the Calculation Amount of GBP 100 multiplied by 116.00 per cent., being GBP 116.

Therefore, if you paid GBP 100 for each N&C Security that you purchased, you would receive back your original GBP 100 at maturity of the N&C Securities plus a further GBP 16. You will receive no interest.

How the Return on N&C Securities is calculated

B. Final redemption amount (with barrier condition), with fixed interest

Overview of fixed interest and final redemption where a barrier condition is specified

Interest is payable at a fixed rate (e.g. 1.5% per annum) payable annually.

Upon redemption, the redemption amount may be less than the calculation amount and may be equal to zero. The redemption amount will depend on whether the final valuation price of the underlying is at, above or below the specified barrier level. The barrier level is calculated by taking a particular fixed percentage of the initial price of the underlying. For example, the barrier level might be 60 per cent. of the initial price.

WORKED EXAMPLE B1:

Subject to any unscheduled prior early redemption, the redemption amount is as follows:

- (i) if the barrier condition has been satisfied:

Calculation Amount * 100 per cent.

- (ii) if the barrier condition has not been satisfied:

Calculation Amount * Final Performance

where "**Final Performance**" means the closing level of the underlying asset on the final valuation date divided by the closing level of the underlying asset on the initial valuation date.

Assuming for the purpose of this worked example only, that:

- interest is payable at a fixed rate (e.g. 1.5% per annum) payable annually;
- the terms specify one barrier condition;
- the underlying asset is a single equity index (in this worked example, the FTSE 100 index);
- the barrier condition is satisfied if the closing level of the underlying asset on the final valuation date is equal to or greater than the barrier level;
- the barrier level is the closing level of the underlying asset on the initial valuation date multiplied by 60 per cent. (i.e. 6,000 x 60% = 3,600); and
- on the final valuation date, the closing level of the underlying asset is 4,800.

In this case because the closing level of the underlying asset on the final valuation date is greater than the barrier level, the barrier condition has been satisfied, and the final redemption amount is the Calculation Amount of GBP 100 multiplied by 100 per cent., being GBP 100.

Therefore, if you paid GBP 100 for each N&C Security that you purchased, you would receive back your original GBP 100 upon maturity of the N&C Securities, plus the fixed interest amount payable annually.

WORKED EXAMPLE B2:

Subject to any prior early redemption, the redemption amount shall be as follows:

- (i) if the barrier condition has been satisfied:

Calculation Amount *100 per cent.

- (ii) if the barrier condition has not been satisfied:

Calculation Amount * Final Performance

How the Return on N&C Securities is calculated

where "**Final Performance**" means the closing level of the underlying asset on the final valuation date divided by the closing level of the underlying asset on the initial valuation date.

Assuming for the purpose of this worked example only, that:

- interest is payable at a fixed rate (e.g. 1.5% per annum) payable annually;
- the terms specify one barrier condition;
- the underlying asset is a single equity index (in this worked example, the FTSE 100 index);
- the barrier condition shall be deemed satisfied if the Calculation Agent determines that the level of the asset on the final valuation date is equal to or greater than the barrier level;
- the barrier level is the closing level of the underlying asset on the initial valuation date multiplied by 60 per cent. (i.e. $6,000 \times 60\% = 3,600$); and
- on the final valuation date, the closing level of the underlying asset is 2,800.

In this case because the closing level of the underlying asset on the final valuation date is less than the barrier level, the barrier condition has not been satisfied and the redemption amount shall be the Calculation Amount of GBP 100 multiplied by 0.4666 per cent. (being the Final Performance), being GBP 46.66.

Therefore, if you paid GBP 100 for each N&C Security that you purchased, you would receive back GBP 46.66 upon maturity of the N&C Securities and you would have lost GBP 53.34 from your original capital invested. You would still receive the fixed interest amount payable annually.

II. INFLATION LINKED – FINAL REDEMPTION AMOUNT (WITH BARRIER CONDITION), WITHOUT OR WITH FIXED INTEREST (AS APPLICABLE)

Key assumptions made for each of the worked examples below:

- *the nominal amount of each N&C Security (the "**Calculation Amount**") is assumed to be GBP 100 and the issue price is 100% of the Calculation Amount;*
- *the example underlying asset referred to is an inflation index: the CPIH index. The initial price of the CPIH index is assumed to be 8,000; and*
- *the issue price of the N&C Securities referred to above will be the initial value of each security to which the final redemption amount of the N&C Securities is calculated.*

N&C Securities issued pursuant to this Base Prospectus may, upon maturity, pay a redemption amount that is linked to the change in value of a specified underlying asset or reference item or basket thereof (for the purpose of this section II, an inflation index) which may fluctuate up or down depending on the performance of the underlying asset(s) or reference item(s) over time. The sections below are intended to demonstrate how the return on certain N&C Securities will be calculated depending upon changes in the value of the underlying asset(s) or reference item(s).

A. Final redemption amount (with barrier condition)

Overview of final redemption where a barrier condition is specified

The redemption amount will depend on whether the final valuation price of the underlying asset is at or above the initial valuation price of the underlying asset.

No interest is payable.

WORKED EXAMPLE A1:

Subject to any unscheduled prior early redemption, the final redemption amount is as follows:

How the Return on N&C Securities is calculated

- (i) if the barrier condition has been satisfied:

*Calculation Amount * 116 per cent.*

- (ii) if the barrier condition has not been satisfied:

*Calculation Amount * 100.50 per cent.*

Assuming for the purpose of this worked example only, that:

- the underlying asset is an inflation index (in this worked example, the CPIH index);
- the barrier condition is satisfied if the closing level of the underlying asset on the final valuation date is equal to or greater than the barrier level;
- the barrier level is the closing level of the underlying asset on the initial valuation date (in this worked example, 8,000); and
- on the final valuation date, the closing level of the underlying asset is 5,800.

In this case, because the closing level of the underlying asset on the final valuation date is less than the barrier level, the barrier condition has not been satisfied, and the final redemption amount is the Calculation Amount of GBP 100 multiplied by 100.50 per cent., being GBP 100.50.

Therefore, if you paid GBP 100 for each N&C Security that you purchased, you would receive back your original GBP 100 at maturity of the N&C Securities plus only a further GBP 0.50. You will receive no interest.

WORKED EXAMPLE A2:

Subject to any unscheduled prior early redemption, the final redemption amount shall be as follows:

- (i) if the barrier condition has been satisfied:

*Calculation Amount * 116 per cent.*

- (ii) if the barrier condition has not been satisfied:

*Calculation Amount * 100.50 per cent.*

Assuming for the purpose of this worked example only, that:

- the underlying asset is a single equity index (in this worked example, the CPIH index);
- the barrier condition is satisfied if the closing level of the underlying asset on the final valuation date is equal to or greater than the barrier level;
- the barrier level is the closing level of the underlying asset on the initial valuation date (in this worked example, 8,000); and
- on the final valuation date, the closing level of the underlying asset is 8,800.

In this case, because the closing level of the underlying asset on the final valuation date is greater than the barrier level, the barrier condition has been satisfied and the final redemption amount is the Calculation Amount of GBP 100 multiplied by 116.00 per cent., being GBP 116.

Therefore, if you paid GBP 100 for each N&C Security that you purchased, you would receive back your original GBP 100 at maturity of the N&C Securities plus a further GBP 16. You will receive no interest.

How the Return on N&C Securities is calculated

III. CROSS-ASSET LINKED N&C SECURITIES – FINAL REDEMPTION AMOUNT (WITH BARRIER CONDITION), WITHOUT OR WITH FIXED INTEREST (AS APPLICABLE)

Key assumptions made for each of the worked examples below:

- *the nominal amount of each N&C Security (the "Calculation Amount") is assumed to be GBP 100 and the issue price is 100% of the Calculation Amount;*
- *the example relates to a basket of underlying assets (i.e. the inflation index: the CPIH index and the equity index: FTSE 100 index respectively). The initial price of the CPIH index is assumed to be 8,000 and the initial price of the FTSE 100 index is assumed to be 6,000; and*
- *the issue price of the N&C Securities referred to above will be the initial value of each security to which the final redemption amount of the N&C Securities is calculated.*

N&C Securities issued pursuant to this Base Prospectus may, upon maturity, pay a redemption amount that is linked to the change in value of a specified underlying asset or reference item or basket thereof (for the purpose of this section III, a basket of an equity index and an inflation index) which may fluctuate up or down depending on the performance of the underlying asset(s) or reference item(s) over time. The sections below are intended to demonstrate how the return on certain N&C Securities will be calculated depending upon changes in the value of the underlying asset(s) or reference item(s).

A. Final redemption amount (with barrier condition)

Overview of final redemption where a barrier condition is specified

The redemption amount will depend on whether the final valuation price of the underlying asset is at or above the initial valuation price of the underlying asset.

No interest is payable.

WORKED EXAMPLE A1:

Subject to any unscheduled prior early redemption, the final redemption amount is as follows:

- (i) if the barrier condition has been satisfied:

$$\text{Calculation Amount} * [\max(\text{Floor}, \min(\text{Cap}; \text{Participation} * \text{Asset Final Performance})]$$

- (ii) if the barrier condition has not been satisfied:

$$\text{Calculation Amount} * [\max(\text{Floor}, \min(\text{Cap}; \text{Participation} * \text{Asset Final Performance})]$$

Assuming for the purpose of this worked example only, that:

- the basket of underlying assets consists of the inflation index (in this worked example, the CPIH index) and the equity index (in this worked example, the FTSE 100 index);
- Barrier Condition Final (American) is specified as applicable;
- the Participation is 170 per cent. (expressed as 1.70);
- the Floor is 0;
- the Cap is 200 per cent. (expressed as 2.00);
- the Asset Final Performance in respect of CPIH is 0.4375, being the worst performing asset;
- the barrier condition is satisfied if the closing level of any underlying asset in the basket on the final valuation date is equal to or greater than the barrier level;

How the Return on N&C Securities is calculated

- the barrier level is the closing level of each of the underlying assets on the initial valuation date, (in this worked example, 8,000 in respect of CPIH and 9,000 in respect of FTSE 100); and
- on the final valuation date, the closing level of the CPIH Index is 3,500 and the FTSE 100 Index is 9,100.

In this case, because the closing level of the CPIH Index on the final valuation date is less than the barrier level, the barrier condition has not been satisfied, and the final redemption amount is the Calculation Amount of GBP 100 multiplied by 0.74 per cent., being GBP 74. This means that if you invest GBP 100, you will lose GBP 26 of your investment. You will receive no interest.

WORKED EXAMPLE A2:

Subject to any unscheduled prior early redemption, the final redemption amount is as follows:

- (i) if the barrier condition has been satisfied:

$$\text{Calculation Amount} * [\max(\text{Floor}, \min(\text{Cap}; \text{Participation} * \text{Asset Final Performance})]$$

- (ii) if the barrier condition has not been satisfied:

$$\text{Calculation Amount} * [\max(\text{Floor}, \min(\text{Cap}; \text{Participation} * \text{Asset Final Performance})]$$

Assuming for the purpose of this worked example only, that:

- the basket of underlying assets consists of the inflation index (in this worked example, the CPIH index) and the equity index (in this worked example, the FTSE 100 index);
- Barrier Condition Final (American) is specified as applicable;
- the Participation is 170 per cent. (expressed as 1.70);
- the Floor is 0;
- the Cap is 200 per cent. (expressed as 2.00);
- the Asset Final Performance in respect of CPIH is 1.14;
- the barrier condition is satisfied if the closing level of any underlying asset in the basket on the final valuation date is equal to or greater than the barrier level;
- the barrier level is the closing level of each of the underlying assets on the initial valuation date, (in this worked example, 8,000 in respect of CPIH and 9,000 in respect of FTSE 100); and
- on the final valuation date, the closing level of the CPIH Index is 9,100 and the FTSE 100 Index is 9,800.

In this case, because the closing level of the CPIH Index on the final valuation date is more than the barrier level, the barrier condition has been satisfied, and the final redemption amount is the Calculation Amount of GBP 100 multiplied by 1.1375 per cent., being GBP 113.75. This means that if you invest GBP 100, you will make a profit of GBP 13.75 of your investment. You will receive no interest.

How the Return on N&C Securities is calculated

IV. VARIABLE INTEREST RATE N&C SECURITIES

Key assumptions made for each of the worked examples below:

- *the nominal amount of each N&C Security (the "Calculation Amount") is assumed to be GBP 100 and the issue price is 100% of the Calculation Amount;*
- *the example underlying asset referred to is an equity index: the FTSE 100 index. The initial price of the FTSE 100 index is assumed to be 8,000; and*
- *the issue price of the N&C Securities referred to above will be the initial value of each security to which the final redemption amount of the N&C Securities is calculated.*

N&C Securities issued pursuant to this Base Prospectus may pay an interest amount (if any) that is linked to an variable interest rate as determined by the Calculation Agent in percentage(s) specified in the relevant Issue Terms. The sections below are intended to demonstrate how the interest on certain N&C Securities will be calculated depending upon changes in the value of a specified underlying asset or reference item or basket thereof which may fluctuate up or down depending on the performance of the underlying asset(s) or reference item(s) over time.

Overview of interest rate and final redemption where the interest rate is variable

Interest is payable at a variable rate throughout the life of the product (e.g. for a product with four years to maturity). The rate of interest will be dependent on the change in value of the underlying asset or reference item.

WORKED EXAMPLE A1:

Subject to any unscheduled prior early redemption, the interest amount is as follows:

- (i) If the interest barrier condition is satisfied:

Calculation Amount * Rate of Interest_{n=1}; or

- (ii) If the interest barrier condition is not satisfied:

Calculation Amount * Rate of Interest_{n=2}

Assuming for the purpose of this worked example only, that:

- the Rate of Interest_{n=1} is 2.5 per cent. per annum;
- the Rate of Interest_{n=2} is 1.5 per cent. per annum;
- the terms specify one interest barrier condition;
- the interest barrier condition is satisfied if the closing level of the underlying asset on the interest valuation date is equal to or greater than the interest barrier level;
- the interest barrier level is the closing level of the underlying asset on the interest valuation date multiplied by 90 per cent. (i.e. 8,000 x 90% = 7,200);
- on the interest valuation date, the closing level of the underlying asset is 7,900; and
- the redemption amount is the same as the original principal amount (GBP 100).

In this scenario, since the closing level of the underlying asset on the interest valuation date is greater than the interest barrier level, the interest barrier condition has been satisfied, and the interest amount is the Calculation Amount of GBP 100 multiplied by 2.5 per cent., being GBP 2.50.

Therefore, if you paid GBP 100 for each N&C Security that you purchased, you would receive back your original GBP 100 upon maturity of the N&C Securities, plus the interest amount which is GBP 2.50.

How the Return on N&C Securities is calculated

WORKED EXAMPLE A2:

Subject to any unscheduled prior early redemption, the interest amount is as follows:

- (i) If the interest barrier condition is satisfied:

*Calculation Amount * Rate of Interest_{n=1}; or*

- (ii) If the interest barrier condition is not satisfied:

*Calculation Amount * Rate of Interest_{n=2}*

Assuming for the purpose of this worked example only, that:

- the Rate of Interest_{n=1} is 2.5 per cent. per annum;
- the Rate of Interest_{n=2} is 1.5 per cent. per annum;
- the terms specify one interest barrier condition;
- the interest barrier condition is satisfied if the closing level of the underlying asset on the interest valuation date is equal to or greater than the interest barrier level;
- the interest barrier level is the closing level of the underlying asset on the initial valuation date multiplied by 90 per cent. (i.e. 8,000 x 90% = 7,200);
- on the interest valuation date, the closing level of the underlying asset is 4,000; and
- the redemption amount is the same as the original principal amount (GBP 100).

In this scenario, since the closing level of the underlying asset on the interest valuation date is lower than the interest barrier level, the interest barrier condition has not been satisfied, and the interest amount is the Calculation Amount of GBP 100 multiplied by 1.5 per cent., being GBP 1.50.

Therefore, if you paid GBP 100 for each N&C Security that you purchased, you would receive back your original GBP 100 upon maturity of the N&C Securities, plus interest of only GBP 1.50.

V. N&C SECURITIES WITH MULTIPLIERS AND LEVERAGE FACTOR

Key assumptions made for each of the worked examples below:

- *the nominal amount of each N&C Security (the "Calculation Amount") is assumed to be GBP 100 and the issue price is 100% of the Calculation Amount;*
- *the example underlying asset referred to is an equity index: the FTSE 100 index. The initial price of the FTSE 100 index is assumed to be 8,000; and*
- *the issue price of the N&C Securities referred to above will be the initial value of each security to which the final redemption amount of the N&C Securities is calculated.*

N&C Securities issued pursuant to this Base Prospectus may, upon maturity, pay a redemption amount that is linked to the change in value of a specified underlying asset or reference item or basket thereof (for the purpose of this section III, a basket of an equity index and an inflation index) which may fluctuate up or down depending on the performance of the underlying asset(s) or reference item(s) over time. The sections below are intended to demonstrate how the return on certain N&C Securities will be calculated depending upon changes in the value of the underlying asset(s) or reference item(s).

How the Return on N&C Securities is calculated

A. Final redemption amount (with barrier condition)

Overview of final redemption where a barrier condition is specified

The redemption amount will depend on whether the final valuation price of the underlying asset is at or above the initial valuation price of the underlying asset.

No interest is payable.

WORKED EXAMPLE A1:

Subject to any unscheduled prior early redemption, the final redemption amount is as follows:

- (i) if the Asset Final Performance is greater than the redemption barrier level:

*Calculation Amount * 116 per cent.*

- (ii) if the Asset Final Performance is equal to the redemption barrier level:

*Calculation Amount * 50 per cent.*

- (iii) if the Asset Final Performance is less than the redemption barrier level:

*Calculation Amount * (Participation * Asset Final Performance)*

Assuming for the purpose of this worked example only, that:

- the terms specify redemption barrier condition;
- the redemption barrier level is the closing level of the underlying asset on the initial valuation date multiplied by 80 per cent. (i.e. 8,000 x 80% = 6,400);
- on the final valuation date, the closing level of the underlying asset is 7,000; and
- the Asset Final Performance is 87.5 per cent. or 0.875, which is the closing level of the underlying asset on the final valuation date divided by the closing level of the underlying asset on the initial valuation date.

In this case, because the closing level of the underlying asset on the final valuation date is greater than the barrier level, the final redemption amount is the Calculation Amount of GBP 100 multiplied by 116 per cent., being GBP 116. You will receive no interest.

WORKED EXAMPLE A2:

Subject to any unscheduled prior early redemption, the final redemption amount is as follows:

- (i) if the Asset Final Performance is greater than the redemption barrier level:

*Calculation Amount * 116 per cent.*

- (ii) if the Asset Final Performance is equal to the redemption barrier level:

*Calculation Amount * 50 per cent.*

- (iii) if the Asset Final Performance is less than the redemption barrier level:

*Calculation Amount * (Participation * Asset Final Performance)*

Assuming for the purpose of this worked example only, that:

- the terms specify redemption barrier condition;

How the Return on N&C Securities is calculated

- the redemption barrier level is the closing level of the underlying asset on the initial valuation date multiplied by 80 per cent. (i.e. $8,000 \times 80\% = 6,400$);
- on the final valuation date, the closing level of the underlying asset is 6,400; and
- the Asset Final Performance is 80 per cent. or 0.80, which is the closing level of the underlying asset on the final valuation date divided by the closing level of the underlying asset on the initial valuation date.

In this case, because the closing level of the underlying asset on the final valuation date is less than the barrier level, the final redemption amount is the Calculation Amount of GBP 100 multiplied by 50 per cent., being GBP 50. You will receive no interest. Therefore, if you paid GBP 100 for the N&C Securities, you will lose GBP 50.

WORKED EXAMPLE A3:

Subject to any unscheduled prior early redemption, the final redemption amount is as follows:

- (i) if the Asset Final Performance is greater than the redemption barrier level:

*Calculation Amount * 116 per cent.*

- (ii) if the Asset Final Performance is equal to the redemption barrier level:

*Calculation Amount * 50 per cent.*

- (iii) if the Asset Final Performance is less than the redemption barrier level:

*Calculation Amount * (Participation * Asset Final Performance)*

Assuming for the purpose of this worked example only, that:

- the terms specify redemption barrier condition;
- the redemption barrier level is the closing level of the underlying asset on the initial valuation date multiplied by 80 per cent. (i.e. $8,000 \times 80\% = 6,400$);
- on the final valuation date, the closing level of the underlying asset is 4,000;
- the Asset Final Performance is 50 per cent. or 0.50, which is the closing level of the underlying asset on the final valuation date divided by the closing level of the underlying asset on the initial valuation date; and
- Participation is 80 per cent.

In this case, because the closing level of the underlying asset on the final valuation date is less than the barrier level, the final redemption amount is the Calculation Amount of GBP 100 multiplied by 80 per cent. multiplied by 50 per cent., being GBP 40. You will receive no interest. Therefore, if you paid GBP 100 for the N&C Securities, you will lose GBP 60.

VI. PARTIAL REDEMPTION N&C SECURITIES - FINAL REDEMPTION AMOUNT (WITH BARRIER CONDITION); NO INTEREST

Key assumptions made for each of the worked examples below:

- *the nominal amount of each N&C Security (the "Calculation Amount") is assumed to be GBP 100 and the issue price is 100% of the Calculation Amount;*
- *the example underlying asset referred to is an equity index: the FTSE 100 index. The initial price of the FTSE 100 index is assumed to be 8,000; and*
- *the issue price of the N&C Securities referred to above will be the initial value of each security to which the final redemption amount of the N&C Securities is calculated.*

How the Return on N&C Securities is calculated

N&C Securities issued pursuant to this Base Prospectus will, upon maturity, pay a redemption amount that is linked to the change in value of a specified underlying asset or reference item which may fluctuate up or down depending on the performance of that underlying asset or reference item over time. The sections below are intended to demonstrate how the return on certain N&C Securities will be calculated depending upon changes in the value of the underlying asset or reference item.

Overview of final redemption where a barrier condition is specified

The redemption amount will depend on whether the final valuation price of the underlying asset is at or above the initial valuation price of the underlying asset.

No interest is payable.

WORKED EXAMPLE A1:

Subject to any unscheduled prior early redemption, the Partial Redemption Amount payable on each Partial Redemption Date and the Final Redemption Amount payable on the Maturity Date are each calculated as follows:

- (i) if the barrier condition has been satisfied on the valuation date falling prior to the relevant Partial Redemption Date or Maturity Date (as applicable):

Calculation Amount * [Outstanding Partial Redemption Nominal Percentage * 110 per cent.]

- (ii) if the barrier condition has not been satisfied on the valuation date falling prior to the relevant Partial Redemption Date or Maturity Date (as applicable):

Calculation Amount * [Outstanding Partial Redemption Nominal Percentage * 50 per cent.]

Assuming for the purpose of this worked example only, that:

- the underlying asset is an equity index (in this worked example, the FTSE 100 index);
- the N&C Securities have a four year term and 25% (being, the Outstanding Partial Redemption Nominal Percentage) of the original nominal amount shall be repaid by way of Partial Redemption Amount each of the first three years and the final 25% by way of the Final Redemption Amount at maturity;
- the barrier condition is satisfied if the closing level of the underlying asset on the final valuation date is equal to or greater than the barrier level;
- the barrier level is the closing level of the underlying asset on the initial valuation date (in this worked example, 8,000); and
- on the final valuation date, the closing level of the underlying asset is 5,800.

In this case, because the closing level of the underlying asset on the final valuation date is less than the barrier level, the barrier condition has not been satisfied, and the final redemption amount is the Calculation Amount of GBP 100 multiplied by 25 per cent. multiplied by 50 per cent., being GBP 12.50. You will receive no interest.

WORKED EXAMPLE A2:

Subject to any unscheduled prior early redemption, the Partial Redemption Amount payable on second Partial Redemption Date is calculated as follows:

- (i) if the barrier condition has been satisfied (i) on the valuation date falling prior to the relevant Partial Redemption Date or Maturity Date (as applicable):

How the Return on N&C Securities is calculated

*Calculation Amount * [Outstanding Partial Redemption Nominal Percentage * 110 per cent.]*

- (ii) if the barrier condition has not been satisfied on the valuation date falling prior to the relevant Partial Redemption Date or Maturity Date (as applicable):

*Calculation Amount * [Outstanding Partial Redemption Nominal Percentage * 50 per cent.]*

Assuming for the purpose of this worked example only, that:

- the underlying asset is an equity index (in this worked example, the FTSE 100 index);
- the N&C Securities have a four year term and 50% (being, the Outstanding Partial Redemption Nominal Percentage) of the original nominal amount shall be repaid by way of Partial Redemption Amount each of the first three years and the final 25% by way of the Final Redemption Amount at maturity;
- the barrier condition is satisfied if the closing level of the underlying asset on the final valuation date is equal to or greater than the barrier level;
- the barrier level is the closing level of the underlying asset on the initial valuation date (in this worked example, 8,000); and
- on the third valuation date, the closing level of the underlying asset is 5,800.

In this case, because the closing level of the underlying asset on the third valuation date is less than the barrier level, the barrier condition has not been satisfied, and the Calculation Amount of GBP 100 multiplied by 50 per cent. multiplied by 50 per cent., being GBP 25. You will receive no interest.

WORKED EXAMPLE A3:

Subject to any unscheduled prior early redemption, the Partial Redemption Amount payable on third Partial Redemption Date is calculated as follows:

- (i) if the barrier condition has been satisfied on the valuation date falling prior to the relevant Partial Redemption Date or Maturity Date (as applicable):

*Calculation Amount * [Outstanding Partial Redemption Nominal Percentage * 110 per cent.]*

- (ii) if the barrier condition has not been satisfied on the valuation date falling prior to the relevant Partial Redemption Date or Maturity Date (as applicable):

*Calculation Amount * [Outstanding Partial Redemption Nominal Percentage * 50 per cent.]*

Assuming for the purpose of this worked example only, that:

- the underlying asset is an equity index (in this worked example, the FTSE 100 index);
- the N&C Securities have a four year term and 75% (being, the Outstanding Partial Redemption Nominal Percentage) of the original nominal amount shall be repaid by way of Partial Redemption Amount each of the first three years and the final 25% by way of the Final Redemption Amount at maturity;
- the barrier condition is satisfied if the closing level of the underlying asset on the final valuation date is equal to or greater than the barrier level;
- the barrier level is the closing level of the underlying asset on the initial valuation date (in this worked example, 8,000); and

How the Return on N&C Securities is calculated

- on the second valuation date, the closing level of the underlying asset is 5,800.

In this case, because the closing level of the underlying asset on the second valuation date is less than the barrier level, the barrier condition has not been satisfied, and the Calculation Amount of GBP 100 multiplied by 75 per cent. multiplied by 50 per cent., being GBP 37.50. You will receive no interest.

WORKED EXAMPLE A4:

Subject to any unscheduled prior early redemption, the Partial Redemption Amount payable on first Partial Redemption Date is calculated as follows:

- (i) if the barrier condition has been satisfied on the valuation date falling prior to the relevant Partial Redemption Date or Maturity Date (as applicable):

*Calculation Amount * [Outstanding Partial Redemption Nominal Percentage * 110 per cent.]*

- (ii) if the barrier condition has not been satisfied on the valuation date falling prior to the relevant Partial Redemption Date or Maturity Date (as applicable):

*Calculation Amount * [Outstanding Partial Redemption Nominal Percentage * 50 per cent.]*

Assuming for the purpose of this worked example only, that:

- the underlying asset is an equity index (in this worked example, the FTSE 100 index);
- the N&C Securities have a four year term and 100% (being, the Outstanding Partial Redemption Nominal Percentage) of the original nominal amount shall be repaid by way of Partial Redemption Amount each of the first three years and the final 25% by way of the Final Redemption Amount at maturity;
- the barrier condition is satisfied if the closing level of the underlying asset on the final valuation date is equal to or greater than the barrier level;
- the barrier level is the closing level of the underlying asset on the initial valuation date (in this worked example, 8,000); and
- on the first valuation date, the closing level of the underlying asset is 5,800.

In this case, because the closing level of the underlying asset on the first valuation date is less than the barrier level, the barrier condition has not been satisfied, and the Calculation Amount of GBP 100 multiplied by 100 per cent. multiplied by 50 per cent., being GBP 50. You will receive no interest.

Wherever the Conditions provide optional provisions, the Issue Terms will specify which of those provisions apply to a specific issuance of N&C Securities.

Questions about risks of investing in the N&C Securities

7. Are purchasers subject to the credit risk of the Issuer with respect to the amount payable (if any) to a purchaser of the N&C Securities?

Yes. The N&C Securities issued by Santander UK plc do not constitute savings accounts or deposits of the Issuer or any member of the Santander Group, and N&C Securities are not insured, guaranteed or protected under the UK Financial Services Compensation Scheme or any other government or private protection scheme. All payments or deliveries to be made by Santander UK plc as Issuer under the N&C Securities are subject to its financial position and its ability to meet its obligations. Even in respect of N&C Securities which are expressed to be "principal protected" or "capital protected" on termination and/or include a minimum redemption amount, the return of an investor's initial capital investment remains dependent on the Issuer's ability to meet its obligations in full.

See the section entitled "Risk Factors" on pages 1 to 56 of this Base Prospectus and in particular: "*The Group is subject to regulatory capital, liquidity and leverage requirements that could limit its operations, and changes to these requirements may further limit and could have a material adverse effect on the Group's operations, financial condition and prospects*" and "*The Group may become subject to the provisions of the Banking Act, including bail-in and write down powers*".

8. If your N&C Securities are linked to one or more Reference Items, will you have recourse to that asset if the Issuer defaults?

An N&C Security is not equivalent to a direct investment in the Reference Item(s) or any component thereof and will not represent a claim against any Reference Item or any such component and, in the event of any loss, an N&C Securityholder will not have recourse under an N&C Security to any Reference Item. The N&C Securities are not in any way sponsored, endorsed or promoted by any issuer, sponsor, manager or other connected person in respect of

Commonly Asked Questions

an underlying Reference Item and such entities have no obligation to take into account the consequences of their actions on any N&C Securityholders. Accordingly, investors may receive a lower return on the N&C Securities than they would have received had they invested directly in the Reference Item(s).

9. **How much of an investment is at risk?**

For some N&C Securities, as indicated in the Conditions, purchasers will be entitled to receive 100 per cent. of the nominal amount of the N&C Securities on the scheduled maturity date, subject always to the creditworthiness of the Issuer to make such payment (or deliver the relevant N&C Securities). If such N&C Securities are sold prior to the scheduled maturity date or in certain circumstances if the N&C Securities are repaid early, such purchaser may not receive the entire nominal amount of such N&C Security, and may receive less than the amount that they invested.

For other N&C Securities, a purchaser's investment may be at risk as they may receive an amount less than their original investment on the scheduled maturity date and may even lose their entire investment. In such circumstances, the value of the N&C Securities can fluctuate and there is no guarantee that the value of the N&C Securities will increase or that they will retain their value.

See the section entitled "*Risk Factors*" above for more detailed information about the risks relating to the loss of any invested amounts.

Questions about purchase, ownership or sale of N&C Securities

10. **Who are the "holders" of the N&C Securities?**

Where the N&C Securities are represented by a Global N&C Security (as defined in the N&C Security Conditions), the expression "holders" or "N&C Securityholders" refers to those who are shown in the records of the clearing systems as the holder of an amount of N&C Securities for all purposes, save for payment of any amount due under the N&C Securities (for which purposes the common depository or its nominee shall be treated as the "holder"). Accordingly, only those who have an account at a clearing system will be N&C Securityholders and only N&C Securityholders have direct rights against the Issuer. N&C Securityholders do not include investors who own N&C Securities indirectly (for example through a custodian and/or distributors). Investors who hold only the beneficial interests in the N&C Securities (for instance, through CDIs (see below Commonly Asked Question No. 11 (*How is ownership of the Securities recorded?*))) must exercise their rights through the intermediary holding an account at the relevant clearing system.

11. **How is ownership of the N&C Securities recorded?**

A purchaser will not receive a certificate representing his or her interest. Subject as provided below, each series of N&C Securities will be issued in the form of a Global N&C Security (as defined in the N&C Security Conditions) with one global security representing all of the holders' interests in respect of an entire series of N&C Securities. Each Global N&C Security will be deposited at, and transfers of interest therein will be facilitated between, the relevant clearing systems (being any of Euroclear and/or Clearstream, Luxembourg (as applicable)). N&C Securities held through CREST will be dematerialised, meaning that the N&C Securities are held in electronic form in their respective book-entry systems, and there will be no Global N&C Security in respect of such N&C Securities. Transfers of such N&C Securities will be through book entries at such clearing system. Custodians and/or distributors will hold an interest in the N&C Securities through a clearing system on behalf of the purchasers, with whom they will have an arrangement in respect of such N&C Securities.

Depending on the terms of the N&C Securities, investors may hold indirect interests in the Securities in CREST through the issuance of dematerialised CREST Depository Interests ("**CDIs**") issued, held, settled and transferred through CREST (being, the system for the paperless settlement of trades and the holding of uncertificated securities operated by Euroclear UK & International Limited or any successor thereto). Holders of CDIs will not be the legal

Commonly Asked Questions

owners of the Securities to which such CDIs relate. CDIs are separate legal instruments from the Securities and represent indirect interests in the interests of the nominee for the CREST Depository in the relevant Securities. Rights in respect of the N&C Securities cannot be enforced by N&C Securityholders of CDIs except indirectly through the CREST Depository and CREST nominee who in turn can enforce rights indirectly through the relevant intermediary depositaries and custodians.

12. **What if the N&C Securities are not held through a clearing system?**

For N&C Securities not held through a clearing system, the "holder" will be the investor who bears the N&C Securities (where the N&C Securities are in bearer form) or the investor shown on the register (where the N&C Securities are in registered form) (as applicable). To receive payment under the terms of the N&C Securities you will need to contact the relevant paying agent or the registrar (as applicable) and you may be required to present evidence of your holding of the N&C Securities. The Issuer will not make payments to you directly but will do so through the relevant paying agent.

13. **What rights do N&C Securityholders have against the Issuer?**

The N&C Securities constitute direct, unsecured and unsubordinated obligations of the Issuer and rank equally among themselves. The payment obligations of the Issuer under the N&C Securities will rank equally with all other present and future unsecured and unsubordinated obligations of the Issuer (except for such obligations as may be preferred by provisions of law that are both mandatory and of general application). The N&C Securities do not evidence deposits of the Issuer. The N&C Securities are not insured or guaranteed by any government or government agency.

An N&C Securityholder's rights may include the right to have the principal amount of N&C Securities repaid by the Issuer at maturity, the right to receive interest based on the principal amount of such N&C Securities or otherwise, the right to receive a cash amount from the Issuer calculated in accordance with the Conditions and the Issue Terms, as applicable.

In the event of an insolvency of the Issuer, N&C Securityholders of the N&C Securities will be paid at the same time as holders of other unsecured obligations of the Issuer and will be paid after secured obligations and preferred obligations. If the Issuer is unable to repay amounts due to N&C Securityholders, each N&C Securityholder will be treated equally with all other N&C Securityholders who own unsecured N&C Securities issued by the Issuer.

For a discussion of certain factors affecting the Issuer's business, see the section entitled "*Risk Factors*" on pages 1 to 56 of this Base Prospectus (and any other risk factors (which may arise or of which the Issuer may become aware after the date of this Base Prospectus) that may be included in a supplement to the Base Prospectus (or further documents to be incorporated by reference therein)).

14. **What do investors have to do to exercise their rights in respect of the N&C Securities?**

Purchasers' rights relating to the N&C Securities are governed by the procedures of the relevant clearing systems. As only the N&C Securityholders can exercise any right to early redemption of the N&C Securities, a purchaser intending to have any such right to early redemption exercised on his or her behalf must contact his or her custodian and/or distributors through which he or she holds his or her interest for details of how to give notice.

The purchaser should ensure proper and timely instructions (if any) are given to the custodian and/or distributors requesting that it notify the holder to exercise the redemption right on his or her behalf.

15. **How can you enforce your rights against the Issuer if the Issuer has failed to make a payment of principal on the N&C Securities?**

The Issuer has executed a deed of covenant in respect of the N&C Securities which are governed by English law, pursuant to which it covenants in favour of the N&C Securityholders to comply with its obligations set out in the N&C Security Conditions and the applicable Annex(es). The

Commonly Asked Questions

N&C Securityholders are granted direct rights against the Issuer, including without limitation, the right to receive all payments, and are able to enforce such direct rights. This means that even if the legal "holder" of the N&C Securities is a depository on behalf of a clearing system, the accountholders in the clearing system will still be able to make a direct claim against the Issuer without having to rely on the depository doing so on their behalf.

16. How are payments made to investors?

Where the N&C Securities are represented by a global security, the Issuer will make payments of interest and principal or other amounts by paying the total amount payable to the clearing system(s), who will credit the appropriate amount to the account of each holder (which may include custodian and/or distributors), in each case, in accordance with the rules and policies of the clearing system(s). Each purchaser of the N&C Securities must look to its custodian and/or distributors for payments on such purchaser's N&C Securities. The Issuer has no obligation to make payments directly to purchasers of N&C Securities.

If a date specified for payment is not a business day, then the Issuer will make the relevant payment on the first following day that is a business day. On these occasions, the payment will be treated as if it were made on the original specified date for payment and will not be considered a late payment. Accordingly, the Issuer will not pay an additional interest amount for the postponement.

17. When are payments made to purchasers?

Each series of N&C Securities purchased will have a specified redemption date or settlement date (as applicable). N&C Securities that bear interest (either interest accrued at a fixed or floating rate or interest calculated by reference to one or more Reference Items) will also have interest payment dates.

If the date of payment is not a business day, the payment will be made on the immediately following business day (subject to any adjustment to the redemption date or settlement date (as applicable) under the terms and conditions of the N&C Securities).

18. Do N&C Securities have a minimum denomination or trading size?

N&C Securities may have a Minimum Tradable Size (if specified in the applicable Issue Terms) and a smaller minimum Specified Denomination. Such N&C Securities may only be traded in a nominal amount, for a consideration or in the number, as the case may be, that is at least equal to the Minimum Tradable Size.

An N&C Securityholder who holds a nominal amount or number of N&C Securities, or wishes to transfer a nominal amount or number of N&C Securities, which is less than the Minimum Tradable Size, will be unable to sell or transfer such holding. If an N&C Securityholder holds a nominal amount or number of N&C Securities that is less than the Minimum Tradable Size, in order for such N&C Securityholder to sell or transfer its holding of N&C Securities, such N&C Securityholder would first need to purchase such additional identical N&C Securities such that it is in a position to sell or transfer a total nominal amount or number, as the case may be, of N&C Securities at least equal to the Minimum Tradable Size. It may not always be possible to purchase such additional N&C Securities and as such you may be unable to sell or transfer any such holding.

If N&C Securities which have a Minimum Tradable Size are in definitive form, N&C Securityholders should be aware that definitive N&C Securities with a denomination that is less than the Minimum Tradable Size may be illiquid or difficult to trade.

19. Will purchasers be able to sell their N&C Securities?

The relevant Issue Terms will specify whether your N&C Securities will be listed on the London Stock Exchange or not listed or traded. There may be little or no secondary market for the N&C Securities. Even if there is a secondary market for the N&C Securities, it may not provide enough liquidity to allow you to trade or sell the N&C Securities easily.

Commonly Asked Questions

Santander UK plc may act as a market maker for the N&C Securities, but is not required to do so (subject to the rules of the London Stock Exchange). As other market makers may not participate significantly in the secondary market for the N&C Securities, the price at which you may be able to trade your N&C Securities is likely to depend on the price, if any, at which the Issuer is willing to buy the N&C Securities. If at any time the Issuer or another agent does not act as a market maker, it is likely that there would be little or no secondary market for the N&C Securities.

If the Issuer does make a market for the N&C Securities, it may cease to do so at any time without notice (subject to the rules of the London Stock Exchange).

N&C Securities are also subject to selling restrictions, purchaser representations and requirements and transfer restrictions that may limit your ability to resell or transfer them. Details of selling restrictions for various jurisdictions are set out in the section entitled "*Subscription and Sale*".

The Issuer may make a secondary market in the relevant series of N&C Securities, where an investor can sell their N&C Securities directly or via a custodian and/or distributors. However, there is no guarantee that a secondary market will develop and a purchaser should therefore be prepared to hold the N&C Securities until their redemption date or settlement date (as applicable). If the Issuer does make a secondary market, it may cease to do so at any time without notice.

If it is possible to sell your N&C Securities, they would be sold for the prevailing bid price in the market. The prevailing bid price may be affected by several factors including the performance of the Reference Item, prevailing interest rates at the time of sale, the time remaining until the stated redemption date or settlement date (as applicable), transaction costs and the perceived creditworthiness of the Issuer. It is therefore possible that if you sell your N&C Securities in the secondary market you may receive a price which is lower than your initial investment.

See Risk Factor 10 (*Risks associated with the liquidity and value of the N&C Securities*), specifically, "*An active secondary market in respect of the N&C Securities may never be established or may be illiquid and this would adversely affect the ability of an investor to sell the N&C Securities and/or the value at which an investor could sell the N&C Securities*" above.

20. **Are there any fees, expenses or taxes to pay when purchasing, holding or selling N&C Securities?**

Fees and expenses may be incurred by purchasers in relation to the purchase, holding, transfer and sale of N&C Securities. Potential purchasers or sellers of N&C Securities should also be aware that stamp duties or taxes may have to be paid in accordance with the laws and practices of the country where the N&C Securities are transferred. Every potential purchaser of N&C Securities should consult their custodian and/or distributors for details of fees, expenses, commissions or other costs and their own tax advisers in order to understand fully the tax implications specific to his or her investment in any N&C Security.

21. **Under what circumstances may the N&C Securities be redeemed or terminated before their stated maturity?**

The Issuer has the right in certain circumstances to redeem or terminate the Securities earlier than the specified maturity or settlement date and repay the N&C Securityholder an early redemption or termination amount. Such circumstances may include:

- the occurrence of a mandatory early redemption event (e.g., the price or level of the Reference Item rises above or falls below a pre-determined barrier level), if specified in the terms and conditions of the N&C Securities;
- the exercise by the Issuer of a call option, if specified to be applicable in the relevant Issue Terms;

Commonly Asked Questions

- the occurrence of certain events or other circumstances in relation to a Reference Item at the discretion of the Calculation Agent;
- the Issuer determines that its performance under any N&C Security or any arrangements made to hedge the Issuer's obligations under any N&C Security has become unlawful in whole or in part for any reason;
- any hedging party being unable to deal in hedging arrangements to hedge the price risk of the Issuer performing its obligations in respect of the N&C Securities;
- the Calculation Agent determines that a change in applicable law or regulation has occurred and solely by reason of the N&C Securities being outstanding, will result in the Issuer being required to be regulated by any additional jurisdiction or regulatory authority or being subject to any additional legal requirement or regulation considered by the Issuer to be materially onerous;
- in certain circumstances where the Issuer determines that it will be obliged to account for any present or future taxes, duties, assessments or governmental charges;
- the Calculation Agent determines that an Administrator/Benchmark Event (including without limitation, any amendment or cessation of a relevant benchmark, any relevant authorisation or registration being refused or suspended, use of the relevant benchmark not being commercially reasonable for reasons related to cost or licensing issues) has occurred and the Issuer elects to redeem the N&C Securities rather than make adjustments to them; or
- following an Event of Default.

The Early Redemption Amount in respect of each N&C Security shall (unless otherwise specified in the relevant Issue Terms) be an amount determined by the Calculation Agent as representing the fair market value of such N&C Securities immediately prior to such early termination, adjusted to account fully for any reasonable expenses and costs of unwinding any underlying and/or related hedging and funding arrangements (including, without limitation any equity options, equity swaps or other N&C Securities of any type whatsoever hedging the Issuer's obligations under the N&C Securities). **The Early Redemption Amount may be less than the investor's initial investment.** See Risk Factor 9 (*"The N&C Securities may be redeemed prior to their scheduled final termination and the amount the holder receives may be less than its original purchase price and could be as low as zero"*) above and Commonly Asked Question 26 (*How is the Early Redemption Amount calculated?*).

22. **Can the Issuer amend the terms and conditions of the N&C Securities once they have been issued?**

The terms and conditions of the N&C Securities may be amended by the Issuer without the consent of the N&C Securityholders if the amendment: (a) is not materially prejudicial to the interests of the N&C Securityholders, (b) is of a formal, minor or technical nature, (c) is made to correct a manifest or proven error, or (d) is to comply with mandatory provisions of applicable law. Any such modification shall be binding on the Holders and any such modification shall take effect by notice to the N&C Securityholders.

Additionally, following the occurrence of certain events, the Calculation Agent, on behalf of the Issuer, may be entitled to amend the terms and conditions of the N&C Securities without requiring the consent of the N&C Securityholders of such N&C Securities. Typically, such events will have triggered an Additional Disruption Event under the N&C Securities (for example, any legal or regulatory changes that the Calculation Agent determines have interfered with the ability of the Issuer and/or any entities acting on behalf of the Issuer engaged in any underlying or hedging transactions in respect of the Issuer's obligations in relation to the N&C Securities to hedge the Issuer's obligations under the N&C Securities, or if for any other reason the Issuer and/or any entities acting on behalf of the Issuer engaged in any underlying or hedging transactions in respect of the Issuer's obligations in relation to the N&C Securities is/are unable

to enter into or maintain hedge positions to hedge the Issuer's obligations under the N&C Securities.

Questions about the Calculation Agent

23. Who determines the amounts payable to purchasers?

Unless otherwise specified in the Issue Terms, the Calculation Agent (which may be Santander UK or an affiliate of Santander UK) has a very broad discretionary authority to make various determinations and adjustments in respect of the N&C Securities, and in such capacity, will determine the performance levels, values or prices of the Reference Item(s) on specified valuation dates and will determine any interest amounts and/or the redemption amounts payable or deliverable by the Issuer to the N&C Securityholders of such N&C Securities. Such determinations and calculations shall be made by the Calculation Agent acting in good faith and in a commercially reasonable manner. In the event that a disruption event has occurred in respect of a Reference Item on a specified valuation date, the valuation may be postponed to an alternative date, or the Calculation Agent may instead, in certain circumstances, estimate the value of such Reference Item on such valuation date.

In the event that the performance of the Issuer's obligations under the N&C Securities shall have become unlawful in whole or in part as a result of compliance, in good faith by the Issuer with any applicable present or future applicable law or regulation, which results in the early redemption or termination of the N&C Securities, the Early Payment Amount payable in respect of the N&C Securities will be determined by the Calculation Agent.

If the Calculation Agent determines that an Additional Disruption Event has occurred, the Issuer may either (a) redeem or cancel the N&C Securities prior to maturity or settlement by payment of an Early Redemption Amount which may be less than the purchase price of the N&C Securities or (b) amend the terms of the N&C Securities instead as it determines appropriate to account for such event. If the payment on the N&C Securities is accelerated, a holder's investment may result in a loss and a holder may not be able to reinvest the proceeds in a comparable investment. **The Early Redemption Amount may be less than the investor's initial investment.**

24. What further determinations may the Calculation Agent have to make?

The terms and conditions of the N&C Securities, as completed by (i) the applicable Annex(es) and (ii) the Issue Terms, also provide that the Calculation Agent is the entity responsible for determining whether certain events have occurred (some of which are mentioned above), and in circumstances where such events have occurred, whether the terms and conditions of the Securities need to be amended to reflect such events. Such determinations shall be made by the Calculation Agent acting in good faith and in a commercially reasonable manner. A non-exhaustive summary of some events is set out below:

- Market Disruption Event – any event that means the value of the Reference Item(s) cannot be determined in the regular manner, for example, the exchange on which the relevant shares trade has closed early or been disrupted, or the index sponsor has failed to publish the reference level;
- Additional Disruption Event – may include (if specified to be applicable in the relevant Issue Terms) (A) Change in Law, which (as defined in the applicable Annex(es)) (i) will, or there is a substantial likelihood that it will, become, or it has become, illegal for the Issuer and/or any of its Affiliates to hold, acquire, deal in or dispose of any relevant hedging arrangements relating to the N&C Securities and/or (ii) materially increases the Issuer's costs of performing its obligations under the N&C Securities (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Issuer and/or any of its Affiliates); (B) Hedging Disruption, (as defined in the applicable Annex(es)), meaning any event that has the potential of (i) materially interfering with the ability of the Issuer and/or any of its affiliate(s) to acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk,

Commonly Asked Questions

including but not limited to the currency risk, of the Issuer issuing and performing its obligations with respect to the N&C Securities, or (ii) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s), as determined by Calculation Agent acting in good faith and in a commercially reasonable manner; (C) Increased Cost of Hedging, means that any Hedging Party would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk, (D) Increased Cost of Stock Borrow, means that the Hedging Party would incur a rate to borrow any Component N&C Security comprised in an Index that is greater than the Initial Stock Loan Rate; and/or (E) Loss of Stock Borrow, means that the Hedging Party is unable, after using commercially reasonable efforts, to borrow (or maintain a borrowing of) any Component N&C Securities comprised in an Index in an amount equal to the Hedging Shares at a rate equal to or less than the Maximum Stock Loan Rate;

- Index Adjustment Event (in respect of Equity Index Linked Securities) – (i) a material change in the formula for or the method of calculating the Index, (ii) the cancellation of an index, which is then not replaced or (iii) the failure to calculate or publish the index level (though this may be a Market Disruption Event);
- Delayed Index Level Event (in respect of Inflation Index Linked Securities) – means, in respect of any Determination Date and an Inflation Index, that the relevant Inflation Index Sponsor fails to publish or announce the level of such Inflation Index (the "Relevant Level") in respect of any Reference Month which is to be utilised in any calculation or determination to be made by the Issuer in respect of such Determination Date, at any time on or prior to the Inflation Cut-Off Date;
- Administrator/Benchmark Event – (i) if a Relevant Benchmark or its administrator or sponsor does not obtain authorisation or registration with the effect that the relevant benchmark may not be used in certain ways by the Issuer and/or the Calculation Agent and/or any other relevant entity (as determined by the Calculation Agent) or (ii) it is materially modified.

If the Calculation Agent determines that a Market Disruption Event, Additional Disruption Event, Index Adjustment Event, Delayed Index Level Event, Administrator/Benchmark Event and/or any other event so specified in the Conditions has occurred, any consequential postponement of, or any alternative provisions for, valuation provided in the terms and conditions of any N&C Securities may have an adverse effect on the value of such N&C Securities.

The applicable Annex sets out in more detail the circumstances which can lead to a disruption event and the postponement of, or a change in the process relating to, the valuation of the most common types of underlying assets.

25. **Are the Calculation Agent's determinations binding on purchasers of the N&C Securities?**

All calculations, determinations or adjustments made by the Calculation Agent shall, in the absence of manifest error, be final, conclusive and binding on the holders of the N&C Securities. The Calculation Agent has the discretion to make various determinations and adjustments under the N&C Securities, any of which may have an adverse effect on the value and/or the amounts payable under the N&C Securities. See Risk Factor 15 "*Calculation Agent's discretion*" above.

26. **How is the Early Redemption Amount determined?**

Where the N&C Securities are early redeemed pursuant to the Conditions, you will receive an early redemption amount (the "**Early Redemption Amount**") on a date prior to the scheduled maturity date.

Such amount shall be determined by the Calculation Agent as soon as reasonably practicable following the event giving rise to the early redemption or termination of the N&C Securities

Commonly Asked Questions

and by reference to such factors as the Calculation Agent considers to be appropriate including, without limitation and subject to any provisions set out in the applicable Annex(es):

- market prices or values for the Reference Item(s) and other relevant economic variables (such as interest rates and, if applicable, exchange rates) at the relevant time;
- the remaining life of the N&C Securities had they remained outstanding to scheduled maturity or expiry and/or any scheduled early redemption;
- the value at the relevant time of any minimum redemption or cancellation amount which would have been applicable had the N&C Securities remained outstanding to scheduled maturity or expiry and/or any scheduled early redemption date;
- internal pricing models; and
- prices at which other market participants might bid for securities similar to the N&C Securities.

In any other case, the Early Redemption Amount you will receive will be equal to:

- where the Issue Terms specify "Early Redemption Amount" to be "Amortised Face Amount", an amount equal to the amortised face amount of your N&C Securities, being the scheduled final redemption amount of such N&C Security discounted to the date of its early redemption at a rate per annum (expressed as a percentage) (which, if none is specified in the Issue Terms, shall be the rate as would produce an amortised face amount equal to the issue price of such N&C Security if it were discounted back from the scheduled settlement date to the issue date) compounded annually, on the basis of the day count fraction specified in the Issue Terms;
- where the Pricing Supplement specifies "Early Redemption Amount" to be "Market Value less Associated Costs", an amount equal to the (a) fair market value of your N&C Securities prior to redemption (b) and the product of the Calculation Amount of less Associated Costs; or
- where the Issue Terms specify "Early Redemption Amount" to be "Market Value", an amount equal to the (a) fair market value of your N&C Securities prior to redemption (b) and the Calculation Amount of each N&C Security.

Further, if the relevant Pricing Supplement specifies the Early Redemption Amount as "Market Value Less Associated Costs", the amount may also be adjusted for any and all costs or expenses associated or incurred by the Issuer, any Affiliate and/or Hedging Party (as applicable) in connection with such early redemption, including, without limitation, any costs associated with unwinding any funding relating to the N&C Securities and/or any costs associated with unwinding any hedge positions relating to the N&C Securities. For the avoidance of doubt, this will apply to Exempt Securities only.

Questions on the type of Reference Item linked N&C Securities issued under this Base Prospectus

27. What type of Reference Item(s) may be linked to N&C Securities issued under this Base Prospectus?

Non-Exempt N&C Securities issued under this Base Prospectus or Exempt N&C Securities issued under the Programme Memorandum (as applicable) for which the payout is linked to the performance of one or more of the following types of Reference Items: equity indices, inflation indices or any combination of any of the above, shall be specified in the Issue Terms in respect of the relevant N&C Securities.

If the applicable N&C Security is a Non-Exempt N&C Security, the N&C Security may be (i) an Equity Index Linked Redemption N&C Security, (ii) a Fixed Rate N&C Security, (iii) a Floating Rate N&C Security, (iv) a Zero Coupon N&C Security or (v) a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Final Terms. If the applicable N&C Security is an Exempt N&C Security, such N&C Security may be (i) a Fixed Rate N&C Security, (ii) a Floating Rate N&C Security, (iii) a non-interest bearing N&C Security, (iv) a Zero Coupon N&C Security, (v) a Dual Currency Interest N&C Security, (vi) a Variable Interest Rate N&C Security, and/or any one of (a) an Equity Index Linked Interest N&C Security, (b) an Inflation Index Linked N&C Security, (c) a Partial Redemption N&C Security, or (d) a Cross-Asset Linked Security, or a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Pricing Supplement.

More information about the most common types of reference items are set out below at Commonly Asked Questions No. 28 to 30.

28. **What are Equity Index Linked Redemption N&C Securities?**

Amounts payable in respect of some N&C Securities, as indicated in the relevant Issue Terms, will be calculated by reference to the performance of an equity index or a basket of equity indices over a fixed period of time or on fixed dates. Such N&C Securities are known as **Equity Index Linked Redemption N&C Securities**.

An equity-based index is a synthetic portfolio of shares representing a particular market or portion of it and each such index has its own calculation methodology and is usually expressed in terms of a change from a base value.

There are two types of such equity-based indices that are referenced by Index Linked Securities: (i) a Non-Composite Index, where the underlying securities comprising such Index are deemed to be listed, traded or quoted on a single exchange or quotation system; and (ii) a Composite Index, where the underlying securities are deemed to be listed, traded or quoted on more than one exchange or quotation as determined by the Calculation Agent.

29. **What are Inflation Index Linked N&C Securities?**

Amounts payable in respect of some N&C Securities, as indicated in the relevant Issue Terms, will be calculated by reference to the performance of an inflation index or another consumer price index or a basket of inflation indices over a fixed period of time or on fixed dates. Such N&C Securities are known as Inflation Linked N&C Securities.

Inflation rates measure the percentage change in the general level of prices of goods and services in an economy over a period of time. The values of such inflation rates are published by recognised information services or are determined by central banks.

30. **What are Cross-Asset Linked N&C Securities?**

Amounts payable in respect of some N&C Securities, as indicated in the relevant Issue Terms, will be calculated by reference to the performance of combination of any of the above Reference Items over a fixed period of time or on fixed dates. Such Securities are known as Cross-Asset Linked N&C Securities.

Book-Entry Interests in an Immobilised Bearer Global N&C Security may in certain circumstances be exchanged for Definitive Registered N&C Securities upon receipt by the Registrar of instructions from a Paying Agent. It is expected that such instructions of the Paying Agent will be based upon directions received by Euroclear or Clearstream, Luxembourg, as applicable, from the participant which owns the relevant Book-Entry Interests. Definitive Registered N&C Securities issued in exchange for a Book-Entry Interest will, except as otherwise determined by the Issuer in compliance with applicable law, be subject to certain restrictions on transfer and certification requirements and may bear a legend regarding such restrictions.

4.2 Interest on Fixed Rate N&C Securities

This N&C Security Condition 4.2 applies to Fixed Rate N&C Securities only. The applicable Issue Terms contains provisions applicable to the determination of fixed rate interest and must be read in conjunction with this N&C Security Condition 4.2 and/or the relevant provisions of the Payout Annex for full information on the manner in which interest is calculated on Fixed Rate N&C Securities. In particular, the applicable Issue Terms will specify the Interest Commencement Date, the Rate(s) of Interest, the Interest Payment Date(s), the Maturity Date, the Fixed Coupon Amount, any applicable Broken Amount, the Calculation Amount, the Day Count Fraction, the Business Day Convention and any applicable Determination Date.

- (a) If no Fixed Coupon Amount or Broken Amount is specified in the applicable Issue Terms, the following provisions shall apply with respect to a Fixed Rate N&C Security:

Each Fixed Rate N&C Security will bear interest from (and including) the Interest Commencement Date (which unless otherwise specified in the applicable Issue Terms shall be the Issue Date) at the rate(s) (expressed as a percentage) equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date (where "**Maturity Date**" has the meaning given to it in the applicable Issue Terms).

Such interest will be payable in respect of each Fixed Rate N&C Security Interest Period. In these Conditions and for the purposes of Fixed Rate N&C Securities only, "**Fixed Rate N&C Security Interest Period**" means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

If a Business Day Convention is specified in the applicable Issue Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day (as defined in N&C Security Condition 4.6 below), then, if the Business Day Convention specified is:

- (i) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (ii) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (iii) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

Unless Day Count Fraction is specified as "Not Applicable" in the applicable Issue Terms, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (i) in the case of Fixed Rate N&C Securities which are represented by a Global N&C Security, the aggregate outstanding nominal amount of the Fixed Rate N&C Securities represented by such Global N&C Security; or
- (ii) in the case of Fixed Rate N&C Securities in definitive form held by each N&C Securityholder, the aggregate outstanding nominal amount of such Fixed Rate N&C Securities held by such N&C Securityholder,

General Terms and Conditions of the N&C Securities

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure in accordance with the Rounding Convention (as specified in N&C Security Condition 5 (*Payments*) below). Where the Specified Denomination of a Fixed Rate N&C Security in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate N&C Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

In respect of Floating Rate N&C Securities, the applicable Issue Terms will specify whether ISDA Determination, Screen Rate Determination Bank of England Base Rate Determination, Overnight Rate Determination (SONIA) or Overnight Rate Determination (€STR) applies to the calculation of interest, the party who will calculate the amount of interest due if it is not the Principal Paying Agent, the Margin, any maximum or minimum interest rates and the Day Count Fraction. Where ISDA Determination applies to the calculation of interest, the applicable Issue Terms will also specify the applicable Floating Rate Option, (where applicable) Designated Maturity, Reset Date, the compounding method and relevant business day period (if applicable). Where Screen Rate Determination applies to the calculation of interest, the applicable Issue Terms will also specify the applicable Reference Rate, any Rate Multiplier, Interest Determination Date(s) and Relevant Screen Page. - (vi) If, in respect of Exempt N&C Securities, the Reference Rate from time to time in respect of Floating Rate N&C Securities is specified in the applicable Pricing Supplement as being other than EURIBOR, the Bank of England Base Rate, SONIA or €STR, the Rate of Interest in respect of such Exempt N&C Securities will be determined as provided in the applicable Pricing Supplement.

The Calculation Agent or other person as specified in the applicable Issue Terms, as applicable, in the case of Floating Rate N&C Securities and Variable Interest Rate N&C Securities will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period. In the case of Variable Interest Rate N&C Securities, if applicable, the Calculation Agent will determine the Rate of Interest as provided in the Payout Annex as completed by the applicable Issue Terms. The Calculation Agent will notify the Principal Paying Agent of the Rate of Interest for the relevant Interest Period as soon as practicable after calculating the same.

In the case of Variable Interest Rate N&C Securities, if applicable, the Calculation Agent will determine the Interest Amount as provided in the Payout Annex as completed by the applicable Issue Terms.

Unless Day Count Fraction is specified as "Not Applicable" in the applicable Issue Terms, the Calculation Agent or other person as specified in the applicable Issue Terms, as applicable, in the case of Floating Rate N&C Securities, and the Calculation Agent, in the case of all other Variable Interest Rate N&C Securities, will calculate the amount of interest (the **"Interest Amount"**) payable on the N&C Securities for the relevant Interest Period by applying the Rate of Interest to:

- (i) in the case of Floating Rate N&C Securities and Variable Interest Rate N&C Securities which are represented by a Global N&C Security, the aggregate outstanding nominal amount of the applicable N&C Securities represented by such Global N&C Security multiplied, in the case of Partial Redemption N&C Securities, by the Outstanding Partial Redemption Nominal Percentage;

Securities (as applicable) held by such N&C Securityholder multiplied, in the case of Partial Redemption N&C Securities, by the Outstanding Partial Redemption Nominal Percentage,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure in accordance with the Rounding Convention (as specified in N&C Security Condition 5 (*Payments*) below). Where the Specified Denomination of a Floating Rate N&C Security or a Variable Interest Rate N&C Security in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such N&C Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding. In such case, the Calculation Agent will notify the Principal Paying Agent of the Interest Amount for the relevant Interest Period as soon as practicable after calculating the same.

(f) *Linear Interpolation*

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Issue Terms, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Issue Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Issue Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

"**Designated Maturity**" means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

(g) *Notification of Rate of Interest and Interest Amounts*

The Calculation Agent or other person as specified in the applicable Issue Terms, as applicable, will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange and/or market on which the relevant Floating Rate N&C Securities or a Variable Interest Rate N&C Securities are for the time being listed and/or admitted to trading and notice thereof to be published in accordance with N&C Security Condition 13 (*Notices*) as soon as possible after their determination but in no event later than the fourth (4th) London Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will promptly be notified to each stock exchange and/or market on which the relevant Floating Rate N&C Securities or Variable Interest Rate N&C Securities are for the time being listed and/or admitted to trading and to the N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*). Subject as provided in any Annex, each N&C Security (or in the case of the redemption of part only of a N&C Security, that part only of such N&C Security) will cease to bear interest (if any) from the date for its redemption unless, upon due presentation thereof, payment of principal is improperly withheld or refused. In such event, interest will continue to accrue on the relevant payment of principal on a daily basis at the relevant Rate of Interest and on the basis of the applicable Day Count Fraction or, if Day Count Fraction is specified as "Not Applicable" in the applicable Issue Terms, at such day count fraction as would customarily apply to the calculation of interest on securities denominated in the Specified Currency as selected by the Calculation Agent (or other person as specified in the applicable Issue Terms), in the case of Fixed Rate N&C Securities and Floating Rate N&C Securities and all other Variable Interest Rate N&C Securities acting in good faith and in a commercially reasonable manner, until whichever is the earlier of:

- (a) the date on which all amounts due in respect of such N&C Security have been paid and/or all assets deliverable in respect of such N&C Security have been delivered; and
- (b) five (5) days after the date on which the full amount of the moneys payable in respect of such N&C Security has been received by the Principal Paying Agent or the Registrar, as the case may be, and/or all assets in respect of such N&C Security have been delivered and notice to that effect has been given to the N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*).

This N&C Security Condition 4.9 applies to Partial Redemption N&C Securities only. If a Business Day Convention is specified in the applicable Issue Terms and (x) if there is no numerically corresponding day in the calendar month in which a Partial Interest Payment Date should occur or (y) if any Partial Interest Payment Date would otherwise fall on a day which is not a Business Day (as defined in N&C Security Condition 4.6 above), then, if the Business Day Convention specified is:

- (i) the Following Business Day Convention, such Partial Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (ii) the Modified Following Business Day Convention, such Partial Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Partial Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (iii) the Preceding Business Day Convention, such Partial Interest Payment Date shall be brought forward to the immediately preceding Business Day.

Partial interest shall be calculated in respect of any period by applying the Partial Rate of Interest to:

- (A) in the case of Partial Redemption N&C Securities which are represented by a Global N&C Security, the aggregate outstanding nominal amount of the Partial Redemption N&C Securities represented by such Global N&C Security multiplied by the Partial Redemption Nominal Percentage; or
- (B) in the case of Partial Redemption N&C Securities in definitive form held by each N&C Securityholder, the aggregate outstanding nominal amount of such Partial Redemption N&C Securities held by such N&C Securityholder multiplied by the Partial Redemption Nominal Percentage,

and, unless Day Count Fraction is specified to be "Not Applicable", in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure in accordance with the Rounding Convention (as specified in N&C Security Condition 5 (*Payments*) below). Where the Specified Denomination of a Partial Redemption N&C Security in definitive form is

General Terms and Conditions of the N&C Securities

a multiple of the Calculation Amount, the amount of interest payable in respect of such Partial Redemption N&C Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

- (c) If the Partial Redemption N&C Securities are in definitive form, the amount of Partial Interest payable on each Interest Payment Date in respect of the Partial Redemption N&C Security Interest Period ending on (but excluding) such date will amount to the Partial Interest Fixed Coupon Amount. Payments of Partial Interest on any Partial Interest Payment Date will, if so specified in the applicable Issue Terms, amount to the Partial Interest Broken Amount so specified.
- (d) For the purposes of Partial Redemption N&C Securities, "**Partial Redemption Nominal Percentage**" means the percentage specified as such in the applicable Issue Terms.

4.10 **Delay of interest payment**

In the event that pursuant to any adjustment or disruption provision in the Conditions any payment of interest would be delayed beyond the Maturity Date payment will be made in such manner as shall be notified to N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*).

5. **Payments**

5.1 **Payments in respect of Definitive Bearer N&C Securities**

(a) *Payments in respect of Definitive Bearer N&C Securities*

Subject as provided below:

- (i) payments in a Specified Currency other than euro or U.S. Dollars will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency;
- (ii) payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque; and
- (iii) payments will be made in U.S. Dollars by transfer to a U.S. Dollar account maintained by the payee with a bank outside of the United States (which expression, as used in this N&C Security Condition, means the United States of America, including the States and the District of Columbia and its possessions), or by cheque drawn on a United States bank. In no event will payment in respect of any Definitive Bearer N&C Security be made by a cheque mailed to an address in the United States. All payments of interest in respect of Definitive Bearer N&C Securities will be made to accounts located outside the United States except as may be permitted by United States tax law in effect at the time of such payment without detriment to the Issuer.

(b) *Payment of Principal and Interest in respect of Definitive Bearer N&C Securities, Receipts and Coupons*

Payments of principal in respect of Definitive Bearer N&C Securities will (subject as provided below) be made in the manner provided in N&C Security Condition 5.1(a) (*Payments in respect of Definitive Bearer N&C Securities*) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Definitive Bearer N&C Securities, and payments of interest in respect of Definitive Bearer N&C Securities will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the states and the District of Columbia and its possessions)).

(c) *Missing Unmatured Coupons*

General Terms and Conditions of the N&C Securities

Fixed Rate N&C Securities and Partial Redemption N&C Securities in definitive bearer form (other than Long Maturity Securities (as defined below) and save as provided in N&C Security Condition 5.4 below) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of ten (10) years after the Relevant Date (as defined in N&C Security Condition 8 (*Prescription*)) in respect of such principal (whether or not such Coupon would otherwise have become void under N&C Security Condition 8 (*Prescription*)) or, if later, five (5) years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

(d) *Unmatured Coupons and Talons void*

Upon any Fixed Rate N&C Security or Partial Redemption N&C Security in definitive bearer form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate N&C Security, Variable Interest Rate N&C Security or Long Maturity N&C Security in definitive bearer form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A "**Long Maturity Security**" is a Fixed Rate N&C Security or Partial Redemption N&C Security (other than a Fixed Rate N&C Security or Partial Redemption N&C Security which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such N&C Security shall cease to be a Long Maturity N&C Security on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such N&C Security.

If the due date for redemption of any Definitive Bearer N&C Security is not an Interest Payment Date, interest (if any) accrued in respect of such N&C Security from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against presentation and surrender of the relevant Definitive Bearer N&C Security.

(e) *Payments of Principal and Interest in respect of Global N&C Securities*

Payments of principal and interest (if any) in respect of N&C Securities represented by any Global N&C Security in bearer form will (subject as provided below) be made in the manner specified above in relation to Definitive Bearer N&C Securities and otherwise in the manner specified in the Definitive Bearer Global N&C Securities against presentation or surrender, as the case may be, of such Global N&C Securities at the specified office of any Paying Agent outside the United States. A record of each payment made against presentation or surrender of any Global N&C Securities, distinguishing between any payment of principal and any payment of interest, will be made on such Global N&C Securities by the Paying Agent to which it was presented and such record shall be *prima facie* evidence that the payment in question has been made.

No payments of principal, interest or other amounts due in respect of a Global N&C Security will be made by mail to an address in the United States or by transfer to an account maintained in the United States.

5.2 **Payments in respect of Immobilised Bearer Global N&C Securities**

Payments of any amounts owing in respect of the Immobilised Bearer Global N&C Securities (including principal, interest and instalments, if any) will be made by the Issuer in the Settlement Currency to the relevant Paying Agent. The relevant Paying Agent will, in turn, make such payments to the Custodian in its capacity as the bearer of the relevant Immobilised Bearer Global N&C Securities and the amount so received by the Custodian is forwarded by it to the Book-Entry Depositary in accordance with the terms

General Terms and Conditions of the N&C Securities

of the N&C Securities Depository Agreement. Upon receipt of any such amounts, the Book-Entry Depository will pay the amounts so received to the common depository for Euroclear and/or Clearstream, Luxembourg, as applicable, which will distribute such payments to participants in accordance with their procedures.

The Issuer, the Principal Paying Agent and the Registrar will treat the bearer of the Immobilised Bearer Global N&C Securities as the owners thereof for the purpose of receiving payments and for all other purposes. Consequently, none of the Issuer, the Book-Entry Depository, any Agent, the Registrar or any agent of the Issuer, any Agent or the Registrar has or will have any responsibility or liability for:

- (a) any aspect of the records of Euroclear, Clearstream, Luxembourg or any participants or indirect participant relating to, or payments made on account of, Euroclear, Clearstream, Luxembourg or any participant or indirect participant relating to or payments made on account of a Book-Entry Interest; or
- (b) Euroclear, Clearstream, Luxembourg or any participant or indirect participant.

Payments by participants to owners of Book-Entry Interests held through participants are the responsibility of such participants.

In the event any Immobilised Bearer Global N&C Security (or any portion thereof) is redeemed, the Book-Entry Depository will, through Euroclear or Clearstream, Luxembourg, as applicable, redeem an equal amount of the Book-Entry Interests in such Immobilised Bearer Global N&C Security from the amount received by it in respect of the redemption of such Immobilised Bearer Global N&C Security. The redemption price payable in connection with the redemption of such Book-Entry Interests will be equal to the amount received by the Book-Entry Depository in connection with the redemption of such Immobilised Bearer Global N&C Securities (or any portion thereof).

5.3 Payments in respect of Definitive Registered N&C Securities

(a) Payments of principal in respect of Definitive Registered N&C Securities

Payments of principal (other than instalments of principal prior to the final instalment) in respect of each Definitive Registered N&C Security will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Definitive Registered N&C Security at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account of the holder (or the first named of joint holders) of the Definitive Registered N&C Security appearing in the register of holders of the Definitive Registered N&C Security maintained by the Registrar (the "**Register**") at the close of business on the fifteenth (15th) calendar day (whether or not such fifteenth day is a business day) before the relevant due date (the "**Record Date**"). Notwithstanding the previous sentence, if a holder does not have a Designated Account, payment will instead be made by a cheque in the Specified Currency drawn on a Designated Bank. For these purposes, "**Designated Account**" means the account maintained by a holder with a designated bank and identified as such in the Register and "**Designated Bank**" means (in the case of payment in a Specified Currency other than euro) a bank in the principal financial centre of the country of such Specified Currency and (in the case of a payment in euro) any bank which processes payments in euro.

(b) Payments of interest in respect of Definitive Registered N&C Securities

Payments of interest in respect of each Definitive Registered N&C Security if any, will be made by a cheque in the Specified Currency drawn on a Designated Bank and mailed by uninsured mail on the business day in the city where the specified office of the Registrar is located immediately preceding the relevant due date to the holder (or the first named of joint holders) of the Definitive Registered N&C Security appearing in the Register at the close of business on the Record Date at his address shown in the Register on the Record Date and at his risk. Upon application of the holder to the specified office of the Registrar not less than three (3) business days in the city where the specified office of the Registrar is located before the due date for any payment of interest in respect of a Definitive Registered N&C Security, the payment may be made by transfer on the due date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of interest (other than

General Terms and Conditions of the N&C Securities

interest due on redemption) and instalments of principal (other than the final instalment) in respect of the Definitive Registered N&C Securities which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Definitive Registered N&C Security on redemption will be made in the same manner as payment of the principal amount of such Definitive Registered N&C Security.

Holders of Definitive Registered N&C Securities will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Definitive Registered N&C Security as a result of a cheque posted in accordance with this N&C Security Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of principal or interest in respect of the Definitive Registered N&C Securities.

5.4 Specific provisions in relation to payments in respect of Partial Redemption N&C Securities and certain types of Exempt N&C Securities

Payments of instalments of principal (if any) in respect of Definitive Bearer N&C Securities, other than the final instalment, will (subject as provided below) be made in the manner provided in N&C Security Condition 5.1(a) (*Payments in respect of Definitive Bearer N&C Securities*) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt in accordance with N&C Security Condition 5.1(b) (*Payment of Principal and Interest in respect of Definitive Bearer N&C Securities, Receipts and Coupons*). Payment of the final instalment will be made in the manner provided in N&C Security Condition 5.1(a) (*Payments in respect of Definitive Bearer N&C Securities*) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Definitive Bearer N&C Security in accordance with N&C Security Condition 5.1(b) (*Payment of Principal and Interest in respect of Definitive Bearer N&C Securities, Receipts and Coupons*). Each Receipt must be presented for payment of the relevant instalment together with the Definitive Bearer N&C Security to which it appertains. Receipts presented without the Definitive Bearer N&C Security to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any Definitive Bearer N&C Security becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Payments of instalments of principal (other than the final instalment) in respect of each Definitive Registered N&C Security will be made by a cheque in the Specified Currency drawn on a Designated Bank and mailed by uninsured mail on the business day in the city where the specified office of the Registrar is located immediately preceding the relevant due date to the holder (or the first named of joint holders) of the Definitive Registered N&C Security appearing in the Register at the close of business on the Record Date at his address shown in the Register on the Record Date and at his risk. Upon application of the holder to the specified office of the Registrar not less than three (3) business days in the city where the specified office of the Registrar is located before the due date for any payment of an instalment in respect of a Definitive Registered N&C Security, the payment may be made by transfer on the due date in the manner provided in N&C Security Condition 5.3(a) (*Payments of principal in respect of Definitive Registered N&C Securities*). Any such application for transfer shall be deemed to relate to all future instalments of principal (other than the final instalment) in respect of the Definitive Registered N&C Securities which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the final instalment of principal will be made in the same manner as payment of the principal amount of such Definitive Registered N&C Security.

Holders of Definitive Registered N&C Securities will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Definitive Registered N&C Security as a result of a cheque posted in accordance with this N&C Security Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of principal or interest in respect of the Definitive Registered N&C Securities.

Upon the date on which any Dual Currency N&C Securities or Variable Interest Rate N&C Securities in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto

General Terms and Conditions of the N&C Securities

(whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof.

5.5 **General provisions applicable to payments**

- (a) The holder of a Global N&C Security shall be the only person entitled to receive payments or to make a claim in respect of N&C Securities represented by such Global N&C Security and the Issuer will be discharged by payment to, or to the order of, the holder of such Global N&C Security in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg or the relevant clearance system specified in the applicable Issue Terms, as the beneficial holder of a particular nominal amount or number of units of N&C Securities represented by such Global N&C Security must look solely to Euroclear or Clearstream, Luxembourg or the relevant clearance system specified in the applicable Issue Terms, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of such Global N&C Security.
- (b) Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto, but without prejudice to the provisions of N&C Security Condition 7 (*Taxation*) and (ii) any withholding or deduction required: (a) pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, official interpretations thereof, or any law or guidance implementing an intergovernmental approach thereto (collectively, "**FATCA**"); and (b) pursuant to Section 871(m) of the Code ("**871(m) Withholding**"). Any such amounts withheld or deducted will be treated as paid for all purposes under the N&C Securities, and no additional amounts will be paid on the N&C Securities with respect to any such withholding or deduction.

In addition, in determining the amount of 871(m) Withholding imposed with respect to any amounts to be paid on the N&C Securities, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

Payments on the N&C Securities that reference U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

5.6 **Place of Payment**

Notwithstanding the foregoing provisions of this N&C Security Condition 5, if any amount of principal and/or interest in respect of N&C Securities (other than those in definitive registered form) is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such N&C Securities will be made at the specified office of a Paying Agent in the United States if:

- (a) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Bearer N&C Securities in the manner provided above when due;
- (b) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (c) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

Any amount payable in respect of an N&C Security which exceeds the sum subscribed represents an amount payable by the Issuer (i) as consideration for the use of the sum subscribed by the Issuer and (ii)

General Terms and Conditions of the N&C Securities

as compensation for and in recognition that in certain circumstances the amount repayable on maturity may be less than the sum subscribed or that the amount paid in excess of the sum subscribed may have been less than the prevailing rate of interest (generally payable by the Issuer) at the time when the N&C Securities were issued.

5.7 Payment Days

Subject to N&C Security Condition 4.3(a) (*Interest Payment Dates*), if the date for payment (the "**Relevant Payment Date**") of any amount in respect of any N&C Security, Receipt or Coupon is not a Payment Day, the holder thereof will instead be entitled to payment on the relevant day determined in accordance with the relevant Payment Day Convention as set out below and will not be entitled to any further interest or other payment in respect of any delay.

Where:

- (a) the Payment Day Convention is specified as "Following" in the applicable Issue Terms, or where no Payment Day Convention is specified in the applicable Issue Terms, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place;
- (b) the Payment Day Convention is specified as "Modified Following" in the applicable Issue Terms, the holder thereof shall not be entitled to payment until the next day which is a Payment Day unless such day falls in the next calendar month, in which event such holder shall be entitled to payment on the Payment Day immediately preceding the Relevant Payment Date (the "**Adjusted Date for Payment**"); and
- (c) the Payment Day Convention is specified as "Preceding" in the applicable Issue Terms, the holder thereof shall be entitled to payment on the Payment Day immediately preceding the Relevant Payment Date (the "**Adjusted Date for Payment**"),

provided that, in the event that any day upon which a valuation or determination is required to be made for the purposes of determining the amount of the payment to be made in respect of the Relevant Payment Date (each such date a "Relevant Valuation Date") would, as a result of the adjustment anticipated in paragraph (b) or (c) above, fall after the second Business Day preceding the Adjusted Date for Payment, N&C Securityholders will not be entitled to the relevant payment due in respect of the Relevant Payment Date until the day falling two (2) Business Days following the last occurring Relevant Valuation Date.

"**Payment Day**" means any day which (subject to N&C Security Condition 8 (Prescription)):

- (a) is a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (i) in the case of N&C Securities in definitive form only, the relevant place of presentation; and
 - (ii) each Additional Financial Centre specified in the applicable Issue Terms; and
- (b) either (A) in relation to any sum payable in a relevant currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of each such relevant currency (which if the relevant currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively) or (B) in relation to any sum payable in euro, a day on which the T2 is open.

5.8 Interpretation of principal and interest

Any reference in the Conditions to principal in respect of the N&C Securities shall be deemed to include, as applicable:

- (a) the Final Redemption Amount of the N&C Securities;
- (b) the Early Redemption Amount of the N&C Securities;

General Terms and Conditions of the N&C Securities

- (c) the Optional Redemption Amount(s) (if any) of the N&C Securities;
- (d) in relation to Exempt N&C Securities redeemable in instalments, the Instalment Amounts;
- (e) in relation to Zero Coupon N&C Securities, the Amortised Face Amount (as defined in N&C Security Condition 6.7 (*Early Redemption Amounts*));
- (f) the Partial Redemption Amount (if any) of the N&C Securities; and
- (g) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the N&C Securities.

5.9 Rounding Convention

For the purposes of calculations made pursuant to N&C Security Condition 4.2 (*Interest on Fixed Rate N&C Securities*), N&C Security Condition 4.3 (*Interest on Floating Rate N&C Securities and Variable Interest Rate N&C Securities*), N&C Security Condition 4.9 (*Partial Redemption N&C Securities*) and N&C Security Condition 6 (*Redemption and Purchase*) any figure to be rounded will, if other than a sub-unit in the relevant Specified Currency:

- (a) if "Rounded Up" is specified in the applicable Issue Terms, be rounded upwards to the next sub-unit of the relevant Specified Currency;
- (b) if "Rounded Down" is specified in the applicable Issue Terms, be rounded downwards to the next sub-unit of the relevant Specified Currency; or
- (c) in the event that no Rounding Convention is specified in the applicable Issue Terms be rounded down as if "Rounded Down" had been specified,

provided that, in each case, the Calculation Amount in respect of N&C Securities which are (i) held by the same N&C Securityholder, (ii) of the same Series and (iii) in definitive form, shall be aggregated for the purpose of determining the aggregate amount (a) of interest due in respect of any Interest Payment Date or (b) payable in respect of principal due (including for the avoidance of doubt the Final Redemption Amount).

5.10 Sub-units

In these Conditions, "sub-unit" means, with respect to any currency other than the euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to the euro, one cent.

6. Redemption and Purchase

6.1 Redemption at Maturity

Unless previously redeemed or purchased and cancelled as specified below:

- (a) each N&C Security other than an Exempt N&C Security or a Partial Redemption N&C Security, will be redeemed by the Issuer at its Final Redemption Amount specified in the applicable Final Terms and/or, in the case of certain Variable Redemption N&C Securities set out in the Payout Annex, determined in the manner specified in the relevant paragraph of the Payout Annex in the relevant Specified Currency, on the Maturity Date (each as specified in the applicable Final Terms);
- (b) each Exempt N&C Security (unless otherwise specified in the applicable Pricing Supplement or applicable Annex(es)) will be redeemed by the Issuer at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Pricing Supplement in the relevant Specified Currency on the Maturity Date; and
- (c) each Partial Redemption N&C Security, will be redeemed by the Issuer:
 - (i) by payment of the Partial Redemption Amount in the relevant Specified Currency on the Partial Redemption Date in each case specified in the applicable Issue Terms; and

General Terms and Conditions of the N&C Securities

- (ii) by payment of the Final Redemption Amount determined in the manner specified in the relevant paragraph of the Payout Annex specified in the applicable Issue Terms (or in the case of a Partial Redemption N&C Security which is an Exempt N&C Security, as specified in the applicable Pricing Supplement) in the relevant Specified Currency, on the Maturity Date specified in the applicable Issue Terms, which amount shall be deemed to be the final instalment of principal in respect of the relevant N&C Security.

6.2 Redemption at the option of the Issuer (Issuer Call)

This N&C Security Condition 6.2 applies to N&C Securities which are subject to redemption prior to the Maturity Date at the option of the Issuer (other than for taxation reasons or upon a regulatory event), such option being referred to as an "Issuer Call". The applicable Issue Terms contains provisions applicable to any Issuer Call and must be read in conjunction with this N&C Security Condition 6.2 for full information on any Issuer Call. In particular, the applicable Issue Terms will identify the Optional Redemption Date(s), the Optional Redemption Amount and any minimum or maximum amount of N&C Securities which can be redeemed.

If Issuer Call is specified as being applicable in the applicable Issue Terms, the Issuer may, having given not less than 30 calendar days' notice to the N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*) (which notice shall be irrevocable and specify the date fixed for redemption), redeem all or some only of the N&C Securities then outstanding on any Optional Redemption Date and at the Optional Redemption Amount(s) specified in the applicable Issue Terms together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. Any such redemption must be of a nominal amount or number of units not less than the Minimum Redemption Amount and not more than the Maximum Redemption Amount, in each case as may be specified in the applicable Issue Terms.

In the case of a partial redemption of N&C Securities, the N&C Securities to be redeemed ("**Redeemed N&C Securities**") will (i) in the case of Redeemed N&C Securities represented by definitive N&C Securities, be selected individually by lot, not more than 30 calendar days' prior to the date fixed for redemption, and (ii) in the case of Redeemed N&C Securities represented by a Global N&C Security, be selected in accordance with the rules of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion). In the case of Redeemed N&C Securities represented by definitive N&C Securities, a list of the serial numbers of such Redeemed N&C Securities will be published in accordance with N&C Security Condition 13 (*Notices*) not less than 15 calendar days prior to the date fixed for redemption.

The Optional Redemption Amount, in respect of each N&C Security of a nominal amount equal to the Calculation Amount, will be the specified percentage of the Calculation Amount or other fixed amount specified in the applicable Issue Terms.

6.3 Redemption for Illegality

This N&C Security Condition 6.3 applies to N&C Securities which are subject to redemption prior to the Maturity Date at the option of the Issuer upon an illegality event as described below, such option being referred to as an "Issuer Illegality Call". The applicable Issue Terms contains provisions applicable to any Issuer Illegality Call and must be read in conjunction with this N&C Security Condition 6.3 for full information on any Issuer Illegality Call.

If Issuer Illegality Call is specified as being applicable in the applicable Issue Terms, in the event that the Calculation Agent determines in good faith and in a reasonable manner that the performance of the obligations of the Issuer under the N&C Securities, has or will in the immediate future become unlawful, illegal or otherwise prohibited in whole or in part as a result of compliance with any applicable present or future law, rule, regulation, judgement, order or directive of any governmental, administrative, legislative or judicial authority or power (but, if not having the force of law, only if compliance with it is in accordance with the general practice of persons to whom it is intended to apply), or the interpretation thereof, the Issuer may, if and to the extent permitted by law, having made reasonable efforts to give not less than 30 calendar days' notice to the N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*) (which notice shall be irrevocable), on the expiry of such notice redeem all, but

General Terms and Conditions of the N&C Securities

not some only, of the N&C Securities, each N&C Security being redeemed at the Early Redemption Amount.

6.4 Regulatory Redemption Event

This N&C Security Condition 6.4 applies to N&C Securities which are subject to redemption prior to the Maturity Date at the option of the Issuer upon a regulatory event as described below, such option being referred to as an "Issuer Regulatory Call". The applicable Issue Terms contains provisions applicable to any Issuer Regulatory Call and must be read in conjunction with this N&C Security Condition 6.4 for full information on any Issuer Regulatory Call.

If Issuer Regulatory Call is specified as applicable in the applicable Issue Terms, in the event that the Calculation Agent determines that a change in applicable law or regulation has occurred which results, or will result, solely by reason of the N&C Securities being outstanding, in the Issuer being required to be regulated by any additional jurisdiction or regulatory authority, or being subject to any additional legal requirement or regulation considered by the Issuer, acting in good faith towards the N&C Securityholders, to be materially onerous to it, the Issuer having given not less than 30 calendar days' notice to the N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*) (which notice shall be irrevocable) may, on the expiry of such notice redeem all, but not some only, of the N&C Securities, each N&C Security being redeemed at the Early Redemption Amount. Payment shall be made in such manner as shall be notified to N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*).

6.5 Redemption for Tax Reasons

If Issuer Tax Call is specified as being applicable in the applicable Issue Terms, the N&C Securities may be redeemed at the option of the Issuer (such option being referred to as an "Issuer Tax Call") in whole, but not in part, at any time (if this N&C Security is not a Floating Rate N&C Security or a Variable Interest Rate Security) or on any Interest Payment Date (if this N&C Security is a Floating Rate N&C Security or a Variable Interest Rate Security), on giving not less than 30 calendar days' notice to the Principal Paying Agent and, in accordance with N&C Security Condition 13, the N&C Securityholders (which notice shall be irrevocable), if:

- (a) on the occasion of the next payment due under the N&C Securities, the Issuer has or will become obliged to deduct, withhold or otherwise pay or account for any present or future taxes, duties, assessments or governmental charges; and
- (b) such obligation cannot be avoided by the Issuer taking reasonable measures available to it. Reasonable measures shall not include anything which would cause the Issuer to incur any material costs, and

such circumstances being referred to a "Issuer Tax Call Circumstances".

Before the publication of any notice in respect of an Issuer Tax Call, the Issuer shall deliver to the Principal Paying Agent a certificate duly signed by the Issuer stating that the Issuer is entitled to effect such redemption on the basis of an opinion of a firm of independent legal advisers or accountants dated no earlier than three months prior to the date of such notice to the effect either that:

- (a) Issuer Tax Call Circumstances exist; or that
- (b) upon a change in or amendment to the laws or regulations of the United Kingdom or other relevant jurisdiction (including any authority or political subdivision therein or thereof having power to tax), including any treaty to which the relevant jurisdiction is a party, or a change in the official application of those laws or regulations, which at the date of such certificate is proposed to be made and in the opinion of such firm is reasonably expected to become effective on or prior to the date when the relevant payment in respect of the N&C Securities would otherwise be made, becoming so effective, Issuer Tax Call Circumstances would exist.

N&C Securities redeemed pursuant to this N&C Security Condition will be redeemed at their Early Redemption Amount referred to in Condition 6.7 (*Early Redemption Amounts*) below.

6.6 Redemption or adjustment for an Administrator/Benchmark Event

General Terms and Conditions of the N&C Securities

In the event that an Administrator/Benchmark Event occurs, the Issuer may (at its option):

- (a) instruct the Calculation Agent to make such adjustments to the Conditions of the N&C Securities as it may determine appropriate to account for the relevant event or circumstance and, without limitation, such adjustments may include selecting a successor benchmark(s) and making related adjustments to the Conditions including, where applicable, to reflect any increased costs of the Issuer in licensing the successor benchmark(s) and, in the case of more than one successor benchmark, making provision for allocation of exposure as between the successor benchmarks; or
- (b) having given not less than 30 calendar days' notice to the N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*) (which notice shall be irrevocable), on expiry of such notice redeem all, but not some only, of the N&C Securities, each N&C Security being redeemed at the Early Redemption Amount.

For the avoidance of doubt, the above is additional, and without prejudice, to any other terms of the N&C Securities. In the event that under any such terms any other consequences could apply in relation to an event or occurrence the subject of an Administrator/Benchmark Event, the Issuer shall determine which terms shall apply in its sole and absolute discretion.

For these purposes,

"Administrator/Benchmark Event" means the Calculation Agent determines that (1) a Benchmark Modification or Cessation Event has occurred or will occur or (2) any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of a relevant Benchmark or the administrator or sponsor of a relevant Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that the Issuer or the Calculation Agent or any other entity is not, or will not be, permitted under any applicable law or regulation to use the relevant Benchmark to perform its or their respective obligations under the N&C Securities, or (3) it is not commercially reasonable to continue the use of the Benchmark in connection with the N&C Securities as a result of any applicable licensing restrictions or changes in the cost of obtaining or maintaining any relevant licence (including, without limitation, where the Issuer, the Calculation Agent or any other entity is required to hold a valid licence in order to issue or perform its obligations in respect of the N&C Securities and for any reason such licence is either not obtained, not renewed or is revoked or there is a material change in the cost of obtaining or renewing such licence);

"Benchmark" means any figure which is a benchmark as defined in BMR and where any amount payable under the N&C Securities, or the value of the N&C Securities, is determined by reference in whole or in part to such figure, all as determined by the Calculation Agent;

"Benchmark Modification or Cessation Event" means, in respect of the Benchmark, any of the following:

- (a) any material change in such Benchmark; or
- (b) the permanent or indefinite cancellation or cessation in the provision of such Benchmark; and

"BMR" means the UK Benchmarks Regulation (Regulation (EU) 2016/1011 as it forms part of domestic law by virtue of EUWA), as amended from time to time.

- (a) in the case of a N&C Security with a Final Redemption Amount equal to the Issue Price, subject as provided below, the Final Redemption Amount thereof; or

General Terms and Conditions of the N&C Securities

- (b) in the case of a N&C Security (other than a Zero Coupon N&C Security) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the N&C Security is denominated, subject as provided below, the amount specified in, the applicable Issue Terms or, if no such amount is so specified in the applicable Issue Terms, at its nominal amount; or
- (c) in the case of a Zero Coupon N&C Security an amount (the "**Amortised Face Amount**") calculated in accordance with the following formula:

$$\text{Early Redemption Amount} = \text{RP} \times (1 + \text{AY})^y$$

where:

RP means the Reference Price; and

AY means the Accrual Yield expressed as a decimal; and

y is the Day Count Fraction specified in the applicable Issue Terms which will be either (i) 30/360 (in which case the numerator will be equal to the number of days (calculated on the basis of a 360-day year consisting of 12 months of 30 days each) from (and including) the Issue Date of the first Tranche of the N&C Securities to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such N&C Security becomes due and repayable and the denominator 360), (ii) Actual/360 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the N&C Securities to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such N&C Security becomes due and repayable and the denominator will be 360) or (iii) Actual/365 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the N&C Securities to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such N&C Security becomes due and repayable and the denominator will be 365);

- (d) if "**Market Value less Associated Costs**" is specified as the Early Redemption Amount in the applicable Pricing Supplement, the Early Redemption Amount in respect of each unit of N&C Securities or nominal amount of N&C Securities equal to the Calculation Amount or, in the case of Partial Redemption N&C Securities, each unit of N&C Securities or nominal amount of N&C Securities which as of the Issue Date had a nominal amount equal to the Calculation Amount, shall be an amount determined by the Calculation Agent, which on (i) in the case of redemption other than pursuant to N&C Security Condition 9 (*Events Of Default*), the second (2nd) Business Day immediately preceding the due date for the early redemption of the N&C Security or (ii) in the case of redemption pursuant to N&C Security Condition 9 (*Events Of Default*), the due date for the early redemption of the N&C Security, represents the fair market value of such N&C Securities determined by the Calculation Agent using its internal models and methodologies by reference to such factors as the Calculation Agent considers to be appropriate (including, but not limited to, (a) interest rates, index levels, implied volatilities in the option markets and exchange rates); (b) the remaining life of the N&C Securities had they remained outstanding to scheduled maturity and/or any scheduled early redemption; (c) the value at the relevant time of any minimum redemption amount which would have been applicable had the N&C Securities remained outstanding to scheduled maturity and/or any scheduled early redemption date; and (d) prices at which other market participants might bid for securities similar to the N&C Securities), less, Associated Costs. In respect of N&C Securities bearing interest, the Early Redemption Amount, as determined by the Calculation Agent, in accordance with this paragraph, shall not include any accrued but unpaid interest save to the extent this may be taken into account, where appropriate, in determining the fair market value referred to above.

As used herein:

"**Associated Costs**" means an amount per nominal amount of the N&C Securities equal to the Calculation Amount or, in the case of Partial Redemption N&C Security, an amount per nominal amount of N&C Securities which as of the Issue Date had a nominal amount equal to the Calculation Amount equal to such N&C Securities *pro rata* share (determined on the basis of

- (e) if "**Market Value**" is specified as the Early Redemption Amount in the applicable Issue Terms, the Early Redemption Amount in respect of each unit of N&C Securities or nominal amount of N&C Securities equal to the Calculation Amount or, in the case of Partial Redemption N&C Securities equal to the Calculation amount or, in the case of Partial Redemption N&C Securities, each unit of N&C Securities or nominal amount of N&C Securities which as of the Issue Date had a nominal amount equal to the Calculation Amount, shall be an amount determined by the Calculation Agent, which on (i) in the case of redemption other than pursuant to N&C Security Condition 9 (*Events of Default*), the second (2nd) Business Day immediately preceding the due date for the early redemption of the N&C Security or (ii) in the case of redemption pursuant to N&C Security Condition 9 (*Events of Default*), the due date for early redemption of the N&C Security, represents the fair market value of such N&C Securities determined by the Calculation Agent using its internal models and methodologies by reference to such factors as the Calculation Agent considers to be appropriate (including, but not limited to, (a) interest rates, index levels, implied volatilities in the option markets and exchange rates); (b) the remaining life of the N&C Securities had they remained outstanding to scheduled maturity and/or any scheduled early redemption; (c) the value at the relevant time of any minimum redemption amount which would have been applicable had the N&C Securities remained outstanding to scheduled maturity and/or any scheduled early redemption date; and (d) prices at which other market participants might bid for securities similar to the N&C Securities). 6.8 Automatic Early Redemption Event

This N&C Security Condition 6.8 applies to N&C Securities which are subject to redemption prior to the Maturity Date following the occurrence of an Automatic Early Redemption Event as described below, such redemption being referred to as an "Automatic Early Redemption". Such N&C Securities may be held, reissued, resold or, at the option of the Issuer, surrendered to any Paying Agent and/or the Registrar for cancellation.

6.11 Cancellation

All N&C Securities which are redeemed will forthwith be cancelled (together, in the case of Definitive Bearer N&C Securities, with all unmatured Receipts, Coupons and Talons attached thereto or surrendered therewith at the time of redemption). - (b) save to the extent that an Exchange Notice has been given in accordance with N&C Security Condition 16.1(d) below, the amount of interest due in respect of the N&C Securities will be calculated by reference to the aggregate nominal amount of N&C Securities presented (or, as the case may be, in respect of which Coupons are presented) for payment by the relevant holder and the amount of such payment shall be rounded down to the nearest euro 0.01;
- (c) if definitive N&C Securities are required to be issued after the Redenomination Date, they shall be issued at the expense of the Issuer (i) in the case of Relevant N&C Securities, in the denomination of euro 100,000 and/or such higher amounts as the Principal Paying Agent may determine and notify to the N&C Securityholders and any remaining amounts less than euro 100,000 shall be redeemed by the Issuer and paid to the N&C Securityholders in euro in accordance with N&C Security Condition 5 (*Payments*); and (ii) in the denominations of euro 1,000, euro 10,000, euro 50,000 and (but only to the extent of any remaining amounts less than euro 1,000 or such smaller denominations as the Principal Paying Agent or the Registrar, as applicable may approve) euro 0.01 and such other denominations as the Principal Paying Agent or the Registrar, as applicable shall determine and notify to the N&C Securityholders;

Payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque;
- (f) if the N&C Securities are Fixed Rate N&C Securities and interest for any period ending on or after the Redenomination Date is required to be calculated for a period ending other than on an Interest Payment Date, it will be calculated:
 - (i) in the case of the N&C Securities represented by a Global N&C Security, by applying the Rate of Interest to the aggregate outstanding nominal amount of the N&C Securities represented by such Global N&C Security; and
 - (ii) in the case of definitive N&C Securities, by applying the Rate of Interest to the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate N&C Security in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate N&C Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding;

- (g) if the N&C Securities are Floating Rate N&C Securities, the applicable Pricing Supplement will specify any relevant changes to the provisions relating to interest; and

General Terms and Conditions of the N&C Securities

The terms and conditions applicable to Equity Index Linked Interest N&C Securities shall comprise the General Terms and Conditions of the N&C Securities (the "N&C Security Conditions") and the additional Terms and Conditions set out below (the "Equity Index Linked Conditions"), together with the Terms and Conditions as set out in each other Annex which is specified as applicable in the applicable Issue Terms (together with the N&C Security Conditions and the Equity Index Linked Conditions, the "Conditions") and, in each case subject to completion in the applicable Issue Terms. In the event of any inconsistency between the N&C Security Conditions and the Equity Index Linked Conditions, the Equity Index Linked Conditions shall prevail. In the event of any inconsistency between (i) the N&C Security Conditions and/or the Equity Index Linked Conditions and (ii) the Issue Terms, the Issue Terms shall prevail. References in the Equity Index Linked Conditions to "N&C Security" and "N&C Securities" shall be deemed to be references to "N&C Security" and "N&C Securities" and references to "N&C Securityholder" shall be deemed to be references to "N&C Securityholder". Any reference to "Index" within this Annex shall be deemed to be a reference to an Equity Index (as hereinafter defined).

References below to a numbered N&C Security Condition are to such numbered section of the N&C Security Conditions and references to a numbered Equity Index Linked Condition are to such numbered section as set out in this Equity Index Annex. Defined terms used in this Equity Index Annex or the related section of the Issue Terms where the same term may be used in another Annex (e.g. Valuation Date) shall have the meanings given in this Equity Index Annex or in the section of the Issue Terms relating to Equity Index Linked Interest N&C Securities notwithstanding the same terms being used in another Annex or section of the Issue Terms.

1. Equity Index Linked Securities

(a) Equity Index Linked Interest N&C Securities

Unless previously redeemed or purchased and cancelled in accordance with the N&C Security Conditions and subject to these Equity Index Linked Conditions, each Equity Index Linked Interest N&C Security will bear interest, if applicable, in the manner specified in the applicable Pricing Supplement and the Conditions.

This Equity Index Linked Condition 1(a) applies to Exempt N&C Securities only.

(b) Equity Index Linked Redemption N&C Securities

Unless previously redeemed or purchased and cancelled, each N&C Security will be redeemed by the Issuer (A) by payment of the Final Redemption Amount specified in, or determined in the manner specified in, the applicable Issue Terms and the Conditions on the Maturity Date or (B) by payment of the Final Redemption Amount on the terms set out in the applicable Issue Terms and the Conditions, in each case on the Maturity Date (subject as provided below).

For the avoidance of doubt, this Equity Index Linked Condition 1(b) may apply to Non-Exempt N&C Securities or Exempt N&C Securities, as applicable.

2. Market Disruption

"Market Disruption Event" means, in relation to N&C Securities relating to a single Index or basket containing any Index:

Equity Index Annex

Observation Level, ends at the relevant Valuation Time in respect of the Exchange on which such Component N&C Security is principally traded;

- (B) an Exchange Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that, for purposes of determining an Opening Level, begins at or, for purposes of determining a Closing Level, Intraday Level or Observation Level, ends at the relevant Valuation Time in respect of the Exchange on which such Component N&C Security is principally traded; or
 - (C) an Early Closure in respect of such Component Security; and
- (y) the aggregate of all Component N&C Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists comprises 20.00 per cent. or more of the level of such Index; or
- (ii) the occurrence or existence, in each case, in respect of futures or options contracts relating to such Index, of: (a) a Trading Disruption; (b) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that, for purposes of determining an Opening Level, begins at or, for purposes of determining a Closing Level, Intraday Level or Observation Level, ends at the Valuation Time in respect of the Related Exchange; or (c) an Early Closure.

For the purposes of determining whether a Market Disruption Event exists in respect of a Component N&C Security at any time, if a Market Disruption Event occurs in respect of such Component N&C Security at that time, then the relevant percentage contribution of that Component N&C Security to the level of such Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that Component N&C Security to (y) the overall level of such Index, in each case using the official opening weightings as published by the Index Sponsor as part of the market "opening data"; and

- (b) in the case of Non-Composite Indices, the occurrence or existence of (1) at any time during the one hour period that, for purposes of determining an Opening Level, begins at or, for purposes of determining a Closing Level, Intraday Level or Observation Level ends at the relevant Valuation Time (i) a Trading Disruption or (ii) an Exchange Disruption, which in either case the Calculation Agent determines is material, or (2) an Early Closure.

For the purposes of determining whether a Market Disruption Event exists at any time, if a Market Disruption Event occurs in respect of a Component N&C Security included in such Index at any time, then the relevant percentage contribution of that Component N&C Security to the level of such Index shall be based on a comparison of (x) the portion of the level of such Index attributable to that Component N&C Security and (y) the overall level of the Index, in each case immediately before the occurrence of such Market Disruption Event. For the purposes of determining whether a Market Disruption Event in respect of such Index exists at any time, if a Market Disruption Event occurs in respect of a Component N&C Security included in such Index at any time, then the relevant percentage contribution of that Component N&C Security to the level of such Index shall be based on a comparison of (i) the portion of the level of such Index attributable to that Component N&C Security and (ii) the overall level of the Index, in each case immediately before the occurrence of such Market Disruption Event. The Calculation Agent shall give notice as soon as practicable to the N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*) of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day would have been an Averaging Date or a Valuation Date.

3. Adjustments to an Index

3.1 Successor Index Sponsor Calculates and Reports an Index

If a relevant Index is:

- (a) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent acting in good faith and in a commercially reasonable manner; or

Equity Index Annex

- (b) replaced by a successor index using, in the determination of the Calculation Agent acting in good faith and in a commercially reasonable manner, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index,

then in each case that Index (the "**Successor Index**") will be deemed to be the Index.

3.2 **Modification and Cessation of Calculation of an Index**

If, in the determination of the Calculation Agent,

- (a) on or prior to the last Valuation Date or the last Averaging Date or Scheduled Observation Date, the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation, contracts or commodities and other routine events) (an "**Index Modification**"); or
- (b) the relevant Index Sponsor permanently cancels a relevant Index and no Successor Index exists (an "**Index Cancellation**"); or
- (c) on any Valuation Date or any Averaging Date or Scheduled Observation Date, the Index Sponsor or (if applicable) the successor sponsor fails to calculate and announce a relevant Index (an "**Index Disruption**" and, together with an Index Modification and an Index Cancellation, each an "**Index Adjustment Event**");

then the Issuer shall:

- (i) require the Calculation Agent to determine, acting in good faith and in a commercially reasonable manner, if such Index Adjustment Event has a material effect on the N&C Securities and, if so, shall calculate the relevant Index Level using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on that Valuation Date or Averaging Date or Scheduled Observation Date, as the case may be, as determined by the Calculation Agent, acting in good faith and in a commercially reasonable manner, which in the case of an Index will be determined in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those Component N&C Securities that comprised that Index immediately prior to that Index Adjustment Event; or
- (ii) if the Calculation Agent determines that it cannot or can no longer calculate the relevant Index Level as described in paragraph (i), require the Calculation Agent to replace the affected Index by a new Index provided that such new index is (a) representative of the same economic or geographic sector (as the case may be), and (b) to the extent possible, representative of securities/components listed on one or more exchanges of one or more OECD countries and make relevant adjustments to the Conditions to account for such replacement; or
- (iii) if this Equity Index Linked Condition 3.2(c)(iii) is specified as applicable in the applicable Issue Terms and if the Calculation Agent determines that there is not such a new Index and/or that the application of paragraph (ii) would not achieve a commercially reasonable result, on giving notice to N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*), as applicable, redeem or cancel, as the case may be, all but not some only of the N&C Securities, each N&C Security being redeemed by payment of the relevant Early Redemption Amount.

3.3 **Notice**

The Calculation Agent shall, as soon as practicable, notify the relevant Agent of any determination made by it pursuant to paragraph (3.2) above and the action proposed to be taken in relation thereto and such Agent shall make available for inspection by N&C Securityholders copies of any such determinations.

4. Correction of Index

With the exception of any corrections published after the day which is three (3) Exchange Business Days prior to the Maturity Date, if the level of an Index published on a given day and used or to be used by the Calculation Agent to make any determination under the N&C Securities, is subsequently corrected and the correction published by the relevant Index Sponsor, Exchange or Related Exchange within one Settlement Cycle after the original publication, the level to be used for calculation of any relevant value in relation to the N&C Securities shall be the level of the Index as so corrected and the Calculation Agent may make any relevant adjustment to the Conditions or any subsequent amount payable under the N&C Securities to account therefor, as the Calculation Agent determines appropriate in good faith and in a commercially reasonable manner. The Calculation Agent shall, as soon as practicable, notify the relevant Agent of any adjustment made by it pursuant to this Equity Index Linked Condition 4 and such Agent shall make available for inspection by N&C Securityholders copies of any such adjustment.

 - (ii) if the Calculation Agent determines that it cannot replace the affected Index as described in paragraph (i),
 - (A) require the Calculation Agent to determine acting in good faith and in a commercially reasonable manner the appropriate adjustment, if any, to be made to any of the terms of the N&C Securities to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (B) provided that this Equity Index Linked Condition 5(a)(ii)(B) is specified as applicable in the applicable Issue Terms, redeem or cancel, as the case may be, the N&C Securities by giving notice to the N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*). If the N&C Securities are so redeemed or cancelled, the Issuer will pay each N&C Securityholder the Early Redemption Amount, in respect of each N&C Security held by it, and determined by taking into account the Additional Disruption Event. Payments will be made in such manner as shall be notified to the N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*).

Payments will be made in such manner as shall be notified to the N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*).

Equity Index Annex

Defined terms used in this Inflation Index Annex or the related section of the Issue Terms where the same term may be used in another Annex (e.g. Determination Date, Hedging Party, Final Valuation Date or Averaging Date) shall have the meanings given in this Inflation Index Annex or in the section of the Issue Terms relating to Inflation Index Linked N&C Securities notwithstanding the same terms being used in another Annex or section of the Issue Terms.

1. Inflation Index Linked Securities

This Inflation Index Annex will apply to Exempt N&C Securities only.

For each Key Date the relevant Reference Month, Determination Date(s), Inflation Cut-Off Date and, where applicable, End Date will be specified. The Calculation Agent will apply the provision of these Inflation Index Linked Conditions separately in each case to make the relevant Inflation Index valuation in relation to each Key Date accordingly. 3. **Inflation Index Delay and Disruption Provisions**

(a) **Delay in Publication**

If the Calculation Agent determines that a Delayed Index Level Event in respect of an Inflation Index has occurred with respect to any Determination Date, then the Relevant Level for such Inflation Index with respect to the relevant Reference Month subject to such Delayed Index Level Event (the "**Substitute Index Level**") shall be determined by the Calculation Agent as follows:

- (i) if "Related Bond" is specified as applicable for such Inflation Index in the relevant Issue Terms, the Calculation Agent shall determine the Substitute Index Level by reference to the corresponding index level determined under the terms and conditions of the relevant Related Bond; or
- (ii) if (I) "Related Bond" is not specified as applicable for such Inflation Index in the relevant Issue Terms, or (II) the Calculation Agent is not able to determine a Substitute Index Level under (i) above, the Calculation Agent shall determine the Substitute Index Level by reference to the following formula:

$$\text{Substitute Index Level} = \text{Base Level} \times \left(\frac{\text{Latest Level}}{\text{Reference Level}} \right)$$

in each case as of such Determination Date,

where:

"**Base Level**" means, in respect of an Inflation Index, the level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Index Level is being determined.

"**Latest Level**" means, in respect of an Inflation Index, the latest level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor prior to the month in respect of which the Substitute Index Level is being determined.

"**Reference Level**" means, in respect of an Inflation Index, the level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month that is 12 calendar months prior to the month in respect of the Latest Level.

The Issuer shall give notice to N&C Securityholders, in accordance with N&C Security Condition 13 (*Notices*) of any Substitute Index Level calculated pursuant to this Inflation Index Linked Condition 3.

If the Relevant Level (as defined below) is published or announced at any time on or after the relevant Inflation Cut-off Date, such Relevant Level will not be used in any calculations. The Substitute Index Level so determined pursuant to this Inflation Index Linked Condition 3 will be the definitive level for that Reference Month.

(b) **Cessation of Publication**

If the Calculation Agent determines that the level for the Inflation Index has not been published or announced for two (2) consecutive months, the Inflation Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index or the Inflation Index Sponsor otherwise cancels the Inflation Index, then the Calculation Agent shall determine a successor

Inflation Index Annex

inflation index (the "**Successor Inflation Index**") (in lieu of any previously applicable Inflation Index) for the purposes of the Inflation Index Linked N&C Securities by using the following methodology:

- (i) if at any time (other than after an early cancellation event has been designated by the Calculation Agent pursuant to Inflation Index Linked Condition 3(b)(v) below), a successor inflation index has been designated by the calculation agent (or equivalent) pursuant to the terms and conditions of the Related Bond, such successor inflation index shall be designated a "Successor Inflation Index" notwithstanding that any other Successor Inflation Index may previously have been determined under Inflation Index Linked Conditions 3(b)(ii), 3(b)(iii) or 3(b)(iv) below;
 - (ii) if a Successor Inflation Index has not been determined pursuant to Inflation Index Linked Condition 3(b)(i) above, and a notice has been given or an announcement has been made by the Inflation Index Sponsor, specifying that the Inflation Index will be superseded by a replacement Inflation Index specified by the Inflation Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the Inflation Index for purposes of the Inflation Index Linked N&C Securities from the date that such replacement Inflation Index comes into effect;
 - (iii) if a Successor Inflation Index has not been determined pursuant to Inflation Index Linked Conditions 3(b)(i) or 3(b)(ii) above, the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If four or five responses are received and, of those four or five responses, three or more leading independent dealers state the same index, this index will be deemed the "Successor Inflation Index". If three responses are received and two or more leading independent dealers state the same index, this index will be deemed the "Successor Inflation Index". If fewer than three responses are received or no Successor Inflation Index is determined pursuant to this Inflation Index Linked Condition 3(b)(iii), the Calculation Agent will proceed to Inflation Index Linked Condition 3(b)(iv) below;
 - (iv) if no replacement index or Successor Inflation Index has been determined under Inflation Index Linked Conditions 3(b)(i), 3(b)(ii) or 3(b)(iii) above by the next occurring Inflation Cut-Off Date, the Calculation Agent, subject as provided below, will determine an appropriate alternative index from such Inflation Cut-Off Date, and such index will be deemed a "Successor Inflation Index"; or
 - (v) if the Calculation Agent determines that there is no appropriate alternative index in relation to Inflation Index Linked N&C Securities, the Issuer acting in good faith and in a commercially reasonable manner discretion may either (1) require the Calculation Agent to determine acting in good faith and in a commercially reasonable manner the appropriate adjustment, if any, to be made to the terms of the N&C Securities to account for this event or (2) on giving notice to N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*), the Issuer shall redeem or cancel, as applicable all but not some only of the Inflation Index Linked N&C Securities, each Inflation Index Linked N&C Security being redeemed or cancelled, as applicable by payment of the relevant Early Redemption Amount, in the case of N&C Securities. Payments will be made in such manner as shall be notified to the N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*).
- (c) **Rebasing of the Inflation Index**

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the "**Rebased Index**") will be used for purposes of determining the level of the Inflation Index from the date of such rebasing; provided, however, that the Calculation Agent shall make adjustments as are made by the calculation agent (or equivalent) pursuant to the terms and conditions of the Related Bond, if "Related Bond" is specified as applicable in the applicable Issue Terms, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was

Inflation Index Annex

rebased, or, if "Related Bond" is not specified as applicable in the applicable Issue Terms, the Calculation Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased.

(d) **Material Modification Prior to Last Occurring Inflation Cut-Off**

If, on or prior to the last occurring Inflation Cut-Off Date, the Inflation Index Sponsor announces that it will make a material change to the Inflation Index then the Calculation Agent shall make any such adjustments, if "Related Bond" is specified as applicable in the applicable Issue Terms, consistent with adjustments made to the Related Bond, or, if "Related Bond" is not specified as applicable in the applicable Issue Terms, only those adjustments to the Inflation Index necessary for the modified Inflation Index to continue as the Inflation Index.

(e) **Manifest Error in Publication**

To the extent that it has sufficient time and it is reasonable to do so prior to the relevant Maturity Date, in the case of N&C Securities if, within thirty (30) calendar days of publication, the Calculation Agent determines that the Inflation Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Calculation Agent may, in its discretion, make such adjustments to the terms of the Inflation Index Linked N&C Securities as it determines appropriate to account for the correction and will notify the N&C Securityholders of any such adjustments in accordance with N&C Security Condition 13 (*Notices*).

4. **Additional Disruption Events**

"**Additional Disruption Event**" means any of Change in Law, Hedging Disruption and/or Increased Cost of Hedging in each case if specified as applying to Inflation Index Linked N&C Securities in the applicable Issue Terms.

- (a) If an Additional Disruption Event occurs, the Issuer acting in good faith and in a commercially reasonable manner may either:
- (i) require the Calculation Agent to determine acting in good faith and in a commercially reasonable manner the appropriate adjustment, if any, to be made to any of the terms of the N&C Securities to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (ii) in the case of N&C Securities, redeem the N&C Securities by giving notice to the N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*). If the N&C Securities are so redeemed the Issuer will pay each N&C Securityholder the Early Redemption Amount in respect of each N&C Security held by him. Payments will be made in such manner as will be notified to the N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*).
- (b) Upon the occurrence of an Additional Disruption Event, the Issuer will give notice as soon as practicable to the N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*) (in the case of N&C Securities) stating the occurrence of the Additional Disruption Event (including giving details thereof) and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event or the proposed action.

5. **Inflation Index Disclaimer**

The N&C Securities are not sponsored, endorsed, sold or promoted by the Inflation Index or the Inflation Index Sponsor and the Inflation Index Sponsor does not make any representation whatsoever, whether express or implied, either as to the results to be obtained from the use of the Inflation Index and/or the levels at which the Inflation Index stands at any particular time on any particular date or otherwise. Neither the Inflation Index nor the Inflation Index Sponsor shall be liable (whether in negligence or otherwise) to any person for any error in the Inflation Index and the Inflation Index Sponsor is under no obligation to advise any person of any error therein. any risk in connection with the N&C Securities. The Issuer shall not have any liability to the N&C Securityholders for any act or failure to act by the Inflation Index Sponsor in connection with the calculation, adjustment or maintenance of the Inflation Index. Neither the Issuer nor its Affiliates has any affiliation with or control over the Inflation Index or the Inflation Index Sponsor or any control over the computation, composition or dissemination of the Inflation Index. Although the Calculation Agent will obtain information concerning the Inflation Index from publicly available sources it believes reliable, it will not independently verify this information. Accordingly, no representation, warranty or undertaking (express or implied) is made and no responsibility is accepted by the Issuer, its Affiliates or the Calculation Agent as to the accuracy, completeness and timeliness of information concerning the Inflation Index.

6. **Definitions**

For the purpose of the Inflation Index Linked N&C Securities:

"Change in Law" means that, on or after the Trade Date (as specified in the applicable Issue Terms):

- (a) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or
- (b) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority),

the Calculation Agent determines acting in good faith and in a commercially reasonable manner that (i) it has become illegal for any Hedging Party to hold, acquire or dispose of any relevant hedging arrangements in respect of the Inflation Index, and/or (ii) any Hedging Party will incur a materially increased cost in performing its obligations in relation to the N&C Securities (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Issuer, any of its Affiliates or any other Hedging Party).

"Delayed Index Level Event" means, in respect of any Determination Date and an Inflation Index, that the relevant Inflation Index Sponsor fails to publish or announce the level of such Inflation Index (the **"Relevant Level"**) in respect of any Reference Month which is to be utilised in any calculation or determination to be made by the Issuer in respect of such Determination Date, at any time on or prior to the Inflation Cut-Off Date.

"Determination Date" means each date specified as such in the applicable Issue Terms.

"End Date" means each date specified as such in the applicable Issue Terms.

"Fallback Bond" means, in respect of an Inflation Index, a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation the relevant Inflation Index relates and which pays a coupon or redemption amount which is calculated by reference to such Inflation Index, with a maturity date which falls on (a) the End Date specified in the applicable Issue Terms, (b) the next longest maturity after the End Date if there is no such bond maturing on the End Date, or (c) the next shortest maturity before the End Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the relevant Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems, the Calculation Agent will select a new Fallback Bond on the same basis, but notwithstanding the immediately prior sentence, selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

"Hedging Disruption" means that any Hedging Party is unable, after using commercially reasonable efforts, to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk, including but not limited to currency risk, of the Issuer issuing and performing its obligations with respect to the N&C Securities, or (b) freely

realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s), as determined by the Calculation Agent.

"Hedging Party" means, at any relevant time, the Issuer, or any of its Affiliates or any entity (or entities) providing the Issuer directly or indirectly with hedging arrangements in relation to the N&C Securities as the Issuer may select at such time.

"Increased Cost of Hedging" means that any Hedging Party would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, inflation price risk, foreign exchange risk and interest rate risk) of the Issuer issuing and performing its obligations with respect to the N&C Securities, or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates shall not be deemed an Increased Cost of Hedging.

"Inflation Cut-Off Date" means, in respect of a Determination Date, five (5) Business Days prior to any due date or scheduled date for payment under the N&C Securities for which valuation on the relevant Determination Date is relevant, unless otherwise stated in the applicable Issue Terms.

"Inflation Index" means each inflation index specified in the applicable Issue Terms and related expressions shall be construed accordingly.

"Inflation Index Sponsor" means, in relation to an Inflation Index, the entity that publishes or announces (directly or through an agent) the level of such Inflation Index which, as of the Issue Date, is the Inflation Index Sponsor specified in the applicable Issue Terms.

"Observation Level" means any of the following levels, each as specified in the applicable Issue Terms: (a) the lowest level of the Inflation Index observed by the Calculation Agent on the Scheduled Observation Dates, (b) the highest level of the Inflation Index observed by the Calculation Agent on the Scheduled Observation Dates, or (c) the level of the Inflation Index observed by the Calculation Agent on the relevant Scheduled Observation Date as specified in the applicable Issue Terms.

"Reference Month" means the calendar month for which the level of the Inflation Index is reported as specified in the applicable Issue Terms, regardless of when this information is published or announced; except that if the period for which the Relevant Level was reported is a period other than a month, the Reference Month shall be the period for which the Relevant Level is reported.

"Related Bond" means, in respect of an Inflation Index, the bond specified as such in the applicable Issue Terms. If the Related Bond specified in the applicable Issue Terms is "Fallback Bond", then, for any Related Bond determination, the Calculation Agent shall use the Fallback Bond. If no bond is specified in the applicable Issue Terms as the Related Bond and "Fallback Bond: Not Applicable" is specified in the applicable Issue Terms, there will be no Related Bond. If a bond is specified as the Related Bond in the applicable Issue Terms and that bond redeems or matures before the End Date (i) unless "Fallback Bond: Not Applicable" is specified in the applicable Issue Terms, the Calculation Agent shall use the Fallback Bond for any Related Bond determination and (ii) if "Fallback Bond: Not Applicable" is specified in the applicable Issue Terms, there will be no Related Bond.

"Relevant Level" has the meaning set out in the definition of "Delayed Index Level Event" above.

SUMMARY OF THE N&C SECURITIES

[Insert completed summary for the N&C Securities, unless minimum denomination is equal to or greater than GBP 100,000 (or its equivalent in another currency)]

FORM OF THE N&C SECURITIES

Words and expressions defined in the "Terms and Conditions of the N&C Securities", as applicable, shall have the same meanings in this Form of the N&C Securities.

Form of the N&C Securities

Other than in the case of Book-Entry Interests, CDIs (each as defined below) and Definitive Registered N&C Securities, the N&C Securities of each Series will initially be represented by a global security in bearer form, with or without interest coupons attached. Bearer N&C Securities will be issued outside the United States in reliance on Regulation S under the Securities Act ("**Regulation S**") and Immobilised Bearer N&C Securities of certain issues may be issued through the Book-Entry Depository (as defined below). In addition, interests in Immobilised Bearer N&C Securities of certain issues may not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. Person and may not be legally or beneficially owned at any time by any U.S. Person ("**Permanently Restricted N&C Securities**"). Accordingly, Permanently Restricted N&C Securities may only be offered and sold in offshore transactions outside the United States to persons that are not U.S. Persons in reliance on Regulation S.

Bearer N&C Securities

Each Tranche of Bearer N&C Securities will be initially represented by either a temporary bearer global N&C Security (a "**Temporary Bearer Global N&C Security**") or a permanent bearer global N&C Security (a "**Permanent Bearer Global N&C Security**") and, together with the Temporary Bearer Global N&C Security, the "**Bearer Global N&C Securities**") as indicated in the applicable Issue Terms of the N&C Securities, which, in either case, will:

- (a) if the Bearer Global N&C Securities are intended to be issued in new global note ("**NGN**") form, as stated in the applicable Issue Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper for Euroclear Bank S.A./N.V. ("**Euroclear**") and Clearstream, Banking, S.A. ("**Clearstream, Luxembourg**"); or
- (b) if the Bearer Global N&C Securities are not intended to be issued in NGN form, be delivered on or prior to the original issue date of the Tranche to a common depository (the "**Common Depository**") for Euroclear and Clearstream, Luxembourg or to Clearstream Banking AG, Frankfurt ("**Clearstream, Frankfurt**"), as the case may be.

Where the Global N&C Securities issued in respect of any Tranche are in NGN form, the applicable Issue Terms will also indicate whether such Global N&C Securities are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global N&C Securities are to be so held does not necessarily mean that the N&C Securities of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The Common Safekeeper for NGNs will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg, as indicated in the applicable Issue Terms.

N&C Securities in bearer form for U.S. federal tax purposes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain circumstances permitted by U.S. Treasury Regulations. In the case of each Tranche of N&C Securities in bearer form the relevant Issue Terms will specify whether U.S. Treasury Regulation § 1.163-5(c)(2)(i)(C) (or any successor U.S. Treasury Regulation section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010) ("**TEFRA C**") or U.S. Treasury Regulation § 1.163-5(c)(2)(i)(D) (or any successor U.S. Treasury Regulation section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010) ("**TEFRA D**") apply in relation to the N&C Securities, or if the N&C Securities do not have a maturity of more than one year, that TEFRA does not apply. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and the U.S. Treasury regulations promulgated thereunder.

Form of the N&C Securities

Whilst any Bearer N&C Security is represented by a Temporary Bearer Global N&C Security, payments of principal, interest (if any) and any other amount payable in respect of the N&C Securities due prior to the Exchange Date (as defined below) will be made against presentation of the Temporary Bearer Global N&C Security (if the Temporary Bearer Global N&C Security is not intended to be issued in NGN form) only to the extent that certification to the effect that the beneficial owners of interests in such Bearer N&C Security are not U.S. Persons or persons who have purchased for resale to any U.S. Person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and/or Clearstream, Frankfurt and Euroclear and/or Clearstream, Luxembourg and/or Clearstream, Frankfurt, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent. If a Permanent Bearer Global N&C Security is issued directly (rather than exchanged from a Temporary Bearer Global N&C Security), then that issuance must, on the earlier of the date of the first payment of interest by the issuer or the date of delivery by the issuer of the obligation in definitive form, comply with the same certification requirements as a Temporary Bearer Global N&C Security, described above.

In respect of each Tranche of N&C Securities in respect of which a Temporary Bearer Global N&C Security is issued, on and after the date (the "**Exchange Date**") which is 40 days after the Temporary Bearer Global N&C Security is issued, interests in such Temporary Bearer Global N&C Security will be exchangeable (free of charge) upon a request as described therein for either:

- (a) interests in a Permanent Bearer Global N&C Security of the same Series; or
- (b) Definitive Bearer N&C Securities (as defined in the General Terms and Conditions of the N&C Securities) of the same Series (as defined in the General Terms and Conditions of the N&C Securities) with, where applicable, receipts, interest coupons and talons attached (as indicated in the applicable Issue Terms and subject, in the case of Definitive Bearer N&C Securities, to such notice period as is specified in the applicable Issue Terms).

In each case such exchange shall be made against certification of non-U.S. beneficial ownership as described above, unless such certification has already been given. Purchasers in the United States and certain U.S. Persons will not be able to receive Definitive Bearer N&C Securities or interests in a Permanent Bearer Global N&C Security. The holder of a Temporary Bearer Global N&C Security will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due presentation and certification, exchange of the Temporary Bearer Global N&C Security for an interest in a Permanent Bearer Global N&C Security or for Definitive Bearer N&C Securities is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Bearer Global N&C Security will be made through Euroclear and/or Clearstream, Luxembourg and/or Clearstream, Frankfurt, as applicable, against presentation or surrender (as the case may be) of the Permanent Bearer Global N&C Security (if the Permanent Bearer Global N&C Security is not intended to be issued in NGN form) without any requirement for certification.

The applicable Issue Terms will specify that a Permanent Bearer Global N&C Security will be exchangeable (free of charge), in whole but not in part, for Definitive Bearer N&C Securities with, where applicable, receipts, interest coupons and talons attached upon either:

- (a) not less than 60 days' written notice from Euroclear and/or Clearstream, Luxembourg or Clearstream, Frankfurt, as applicable, (acting on the instructions of any holder of an interest in such Permanent Bearer Global N&C Security) to the Principal Paying Agent; or
- (b) only upon the occurrence of an Exchange Event (as defined below).

No Definitive Bearer N&C Securities will be sent by post or otherwise delivered to any location in the United States or its possessions in connection with such exchange.

For these purposes, "**Exchange Event**" means that:

- (a) an Event of Default (as defined in N&C Security Condition 9 (Events Of Default)) has occurred and is continuing;

Form of the N&C Securities

- (b) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg (in respect of N&C Securities settled through Euroclear and Clearstream, Luxembourg) or Clearstream, Frankfurt (in respect of N&C Securities settled through Clearstream, Frankfurt) have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no alternative clearing system satisfactory to the Issuer and the Principal Paying Agent is available; or
- (c) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the N&C Securities represented by the Permanent Bearer Global N&C Security in definitive form.

The Issuer will promptly give notice to the N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg or Clearstream, Frankfurt, as the case may be, (acting on the instructions of any holder of an interest in such Permanent Bearer Global N&C Security) may give notice to the Principal Paying Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (3) above, the Issuer may also give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

The following legend will appear on all Bearer Global N&C Securities, receipts, talons and interest coupons relating to such N&C Securities where TEFRA D is specified in the applicable Issue Terms:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE."

N&C Securities which are represented by a Bearer Global N&C Security will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

In relation to any Tranche of N&C Securities under the Programme, the Issuer may issue N&C Securities of a minimum authorised denomination of £100,000 and integral multiples of £1,000 (or such other amount as is specified in the applicable Issue Terms) in excess thereof up to and including £199,000 (or such other amount as is specified in the applicable Issue Terms). In such case, no N&C Securities in definitive form will be issued with a denomination above £199,000 (or such other amount as is specified in the applicable Issue Terms). So long as such N&C Securities are represented by a Temporary Bearer Global N&C Security or Permanent Bearer Global N&C Security and the relevant clearing systems so permit, the N&C Securities will be tradeable only in the relevant minimum authorised denomination and higher integral multiples of £1,000 (or such other amount as is specified in the applicable Issue Terms), notwithstanding that no Definitive Bearer N&C Securities will be issued with a denomination above £199,000 (or such other amount as is specified in the applicable Issue Terms).

If a Global Bearer N&C Security is exchangeable for a Definitive Bearer N&C Security at the option of the N&C Securityholders, the N&C Securities shall be tradeable only in principal amounts of at least the Specified Denomination (as defined in the General Terms and Conditions of the N&C Securities) (or if more than one Specified Denomination, the lowest Specified Denomination).

Immobilised Bearer N&C Securities

Interests in N&C Securities to be issued as bearer securities in immobilised form ("**Immobilised Bearer N&C Securities**") of certain issues that may not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, a U.S. Person will initially be represented by a global security in bearer form (a "**Permanently Restricted Global N&C Security**" or an "**Immobilised Bearer Global N&C Security**"). Any offer, sale, resale, trade, pledge, redemption, transfer or delivery of an interest in a Permanently Restricted Global N&C Security made, directly or indirectly, within the United States or to, or for the account or benefit of, a U.S. Person will not be recognised. Interests in Permanently Restricted Global N&C Securities may not be legally or beneficially owned at any time by any U.S. Person and accordingly may

Form of the N&C Securities

only be offered and sold outside the United States to person that is not a U.S. Persons in reliance on Regulation S. Interests in a Permanently Restricted Global N&C Security may not be held otherwise than through Euroclear or Clearstream, Luxembourg, and such Permanently Restricted Global N&C Securities will bear a legend regarding such restrictions on transfer.

The Immobilised Bearer Global N&C Securities will initially be issued in bearer form, without interest coupons, and title thereto will pass by delivery. Pursuant to a securities depositary agreement (such agreement as amended and/or supplemented and/or restated from time to time, the "**N&C Securities Depositary Agreement**") dated on or about the date of this Base Prospectus between the Issuer, Citibank, N.A., London Branch (the "**Book-Entry Depositary**"), Citibank, N.A., London Branch (the "**Custodian**") and Citibank Europe plc (the "**Registrar**"), the Immobilised Bearer Global N&C Securities of each Series will on issue be deposited with the Book-Entry Depositary and held by the Custodian on behalf of the Book-Entry Depositary. If any N&C Securities are issued as Immobilised Bearer Global N&C Securities, then the entire Series of which they form part will be issued as Immobilised Bearer Global N&C Securities.

In respect of Immobilised Bearer Global N&C Securities to be settled through Euroclear and/or Clearstream, Luxembourg ("**Permanently Restricted Immobilised Bearer Global N&C Securities**") which are deposited with the Book-Entry Depositary, the Book-Entry Depositary will issue registered certificated depositary interests ("**CDIs**") to a common depositary for Euroclear and Clearstream, Luxembourg, or its nominee, and will record the CDIs in the books and records of the Registrar in the name of the common depositary or its nominee, as applicable. Ownership of interests in the Permanently Restricted Immobilised Bearer Global N&C Securities deposited with the Book-Entry Depositary (the "**Book-Entry Interests**") will be limited to persons with an account with Euroclear and/or Clearstream, Luxembourg or persons who may hold interests through such participants. Book-Entry Interests will be shown on, and transfers thereof will be affected only through records maintained in book-entry form by Euroclear and/or Clearstream, Luxembourg and their participants.

Subject as set out below, the Book-Entry Interests will not be held in definitive form. Instead, Euroclear and/or Clearstream, Luxembourg (as applicable) will credit on their respective book-entry registration and transfer systems a participant's account with the interest beneficially owned by such participant. The laws of some jurisdictions, including certain states of the United States, may require that certain purchasers of securities take physical delivery of such securities in definitive form. The foregoing limitations may impair the ability to own, transfer or pledge Book-Entry Interests. In addition, while the Immobilised Bearer N&C Securities are in global form, holders of Book-Entry Interests will not be considered the owners or holders of such N&C Securities for any purpose.

Interests in an Immobilised Bearer Global N&C Security will be exchangeable (free of charge), in whole but not in part, for N&C Securities in definitive registered form without receipts, interest coupons or talons attached only upon the occurrence of an Exchange Event. For these purposes, "**Exchange Event**" means:

- (a) an Event of Default has occurred and is continuing;
- (b) in the case of Immobilised Bearer N&C Securities registered in the name of a nominee for a common depositary for Euroclear and Clearstream, Luxembourg, the Issuer has been notified that (x) either Euroclear or Clearstream, Luxembourg is unwilling or unable to continue to act as depositary for the N&C Securities and no alternative clearing system is available or (y) both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available;
- (c) the Book-Entry Depositary is at any time unwilling or unable to continue as Book-Entry Depositary in respect of any Immobilised Bearer N&C Securities or its appointment as such under the N&C Securities Depositary Agreement is (or is to be) terminated and no successor is appointed by the Issuer within 90 days; or
- (d) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the N&C Securities represented by the Global N&C Security in definitive registered form.

Form of the N&C Securities

The Issuer will promptly give notice to N&C Securityholders in accordance with N&C Security Condition 13 (*Notices*) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Immobilised Bearer Global N&C Security) may give notice to the Registrar (or request that the Principal Paying Agent does so) requesting exchange and, in the event of the occurrence of an Exchange Event as described in (v) above, the Issuer may also give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Registrar.

In such an event, the Issuer (or the Registrar on behalf of the Issuer) will exchange the Book-Entry Interests in the relevant Immobilised Bearer Global N&C Security for N&C Securities in definitive form, registered in the name or names and issued in any approved denominations, requested by or on behalf of Euroclear and/or Clearstream, Luxembourg, as applicable (in accordance with their respective customary procedures and based upon directions received from participants reflecting the beneficial ownership of Book-Entry Interests), and which may bear a restrictive legend unless such legend is not required by applicable law.

To the extent permitted by law, the Issuer, the Principal Paying Agent and the Registrar shall be entitled to treat the holder of any N&C Security as the absolute owner thereof.

Transfer of Interests

Pursuant to the N&C Securities Depositary Agreement, the Immobilised Bearer Global N&C Securities may be transferred only to a successor to the relevant Book-Entry Depositary.

Unless and until Book-Entry Interests are exchanged for N&C Securities in definitive registered form, the CDIs held for the common depositary for Euroclear and Clearstream, Luxembourg may not be transferred except as a whole to a nominee or a successor approved by the Issuer.

All transfers of Book-Entry Interests between participants in Euroclear or participants in Clearstream, Luxembourg will be effected by Euroclear or Clearstream, Luxembourg, as applicable, pursuant to customary procedures and subject to the applicable rules and procedures established by Euroclear or Clearstream, Luxembourg and their respective participants.

A Book-Entry Interest in an Permanently Restricted Global Immobilised Bearer N&C Security may not be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, a U.S. Person, and any offer, sale, resale, trade, pledge, redemption, transfer or delivery made, directly or indirectly, within the United States or to, or for the account or benefit of, a U.S. Person will not be recognised.

Book-Entry Interests in an Immobilised Bearer Global N&C Security may be exchanged for N&C Securities in definitive registered form upon receipt by the Registrar of instructions from the Principal Paying Agent. It is expected that such instructions of the Principal Paying Agent will be based upon directions received by Euroclear or Clearstream, Luxembourg, as applicable, from the participant which owns the relevant Book-Entry Interests. N&C Securities in a definitive registered form issued in exchange for a Book-Entry Interest will be subject to certain restrictions and will bear the legend provided for in the Agency Agreement and N&C Securities Depositary Agreement.

Immobilised Bearer N&C Securities are also subject to the restrictions on transfer set forth therein and will bear a legend regarding such restrictions. See "*Subscription and Sale*".

General

Pursuant to the Agency Agreement (as defined under the General Terms and Conditions of the N&C Securities), the Principal Paying Agent shall arrange that, where a further Tranche of N&C Securities is issued which is intended to form a single Series with an existing Tranche of N&C Securities at a point after the Issue Date of the further Tranche, the N&C Securities of such further Tranche shall be assigned a common code and ISIN and, where applicable, a CUSIP and CINS number which are different from the common code, ISIN, CUSIP and CINS assigned to N&C Securities of any other Tranche of the same Series until such time as the Tranches are consolidated and form a single Series, which shall not be prior to the expiry of any applicable period that by law or regulation would require such N&C Securities of such Tranche not to be fungible.

The Issuer may agree with any Dealer that N&C Securities may be issued in a form not contemplated by the Conditions, in which event, other than where such N&C Securities are Exempt N&C Securities, a supplement to this base prospectus or a new prospectus or prospectus will be made available which will describe the effect of the agreement reached in relation to such N&C Securities.

Use of Proceeds

USE OF PROCEEDS

The net proceeds from each issue of N&C Securities will be applied by the Issuer for its general corporate purposes. If, in respect of an issue, there is a particular identified use of proceeds, this will be stated in the applicable Issue Terms.

If the N&C Securities are ESG Securities the applicable Issue Terms will provide additional information in relation to the intended use of proceeds.

Immobilised Bearer Global N&C Securities

Payments of any amounts owing in respect of Immobilised Bearer Global N&C Securities (including principal and interest, if any) will be made by the Issuer in the Specified Currency to the relevant Paying Agent. The relevant Paying Agent will, in turn, make such payments to or to the order of the Book-Entry Depository in its capacity as bearer of the relevant Immobilised Bearer Global N&C Securities. Upon receipt of such amounts, the Book-Entry Depository will pay the amounts so received to the common depository for Euroclear and Clearstream, Luxembourg, as applicable, which will distribute payments to participants in accordance with their procedures, as detailed above.

The Issuer will treat the bearer of the Immobilised Bearer Global N&C Securities as the owner thereof for the purposes of receiving payments and for all other purposes. None of the Issuer, the Book-Entry Depository or any agent of the Issuer has or will have any responsibility or liability for:

- (a) any aspect of the records of Euroclear, Clearstream, Luxembourg or any direct or indirect participant relating to, or payments made on account of, a Book-Entry Interest in any Immobilised Bearer Global N&C Securities or for maintaining, supervising or reviewing any of the records of Euroclear, Clearstream, Luxembourg or any direct or indirect participant relating to, or payments made on account of, a Book-Entry Interest in any Immobilised Bearer Global N&C Securities; or
- (b) Euroclear, Clearstream, Luxembourg or any direct or indirect participant.

Transfers of any interests in N&C Securities represented by a Global N&C Security or a CDI within Euroclear and Clearstream, Luxembourg will be effected in accordance with the customary rules and operating procedures of the relevant Clearance System and, in the case of CDIs, in accordance with the provisions of the N&C Securities Depository Agreement.

The Issuer will not be responsible for the operation of the clearing arrangements which is a matter for the clearing institutions, their nominees, their participants and the investors.

Euroclear UK & International Limited

Following their delivery into a clearing system, interests in N&C Securities may be delivered, held and settled in Euroclear UK & International Limited (formerly known as CRESTCo Limited) ("**CREST**") by means of the creation of dematerialised depository Interests ("**CREST Depository Interests**") representing the interests in the relevant N&C Securities ("**Underlying N&C Securities**"). Such delivery, holding and settlement is governed, *inter alia*, by the terms of the CREST Manual issued by CREST dated 1 September 2015 (as the same may be amended, modified, varied or supplemented from time to time, the "**CREST Manual**"). The CREST Depository Interests will be issued by CREST Depository Limited or any successor thereto (the "**CREST Depository**") to holders of the CREST Depository Interests and will be constituted and governed by English law. CREST International Nominees Limited or another entity appointed to act as nominee in accordance with the CREST Deed Poll (as defined below) (the "**CREST Nominee**") will hold the legal title to the Underlying N&C Securities and the direct enforcement right in respect of the Underlying N&C Securities.

The CREST Depository Interests will represent indirect interests in the interest of the CREST Nominee in the Underlying N&C Securities. Pursuant to the CREST Manual, N&C Securities held in global form by the Common Depository may be settled through CREST, and the CREST Depository will issue CREST Depository Interests. The CREST Depository Interests will be independent securities which may be held and transferred through CREST.

Interests in the Underlying N&C Securities will be credited to the CREST Nominee's account with Euroclear and the CREST Nominee will hold such interests as nominee for the CREST Depository which will issue CREST Depository Interests to the relevant CREST participants.

Each CREST Depository Interest will be treated by the CREST Depository as if it were one Underlying N&C Security, for the purposes of determining all rights and obligations and all amounts payable in respect thereof. The CREST Depository will pass on to holders of CREST Depository Interests any interest or other amounts received by it as holder of the Underlying N&C Securities on trust for such holder. Holders of CREST Depository Interests will also be able to receive from CREST notices of meetings of holders of Underlying N&C Securities and other relevant notices issued by the Issuer.

Transfers of interests in Underlying N&C Securities by a CREST participant to a participant of Euroclear or Clearstream, Luxembourg will be effected by cancellation of the CREST Depository Interests and transfer of an interest in such N&C Securities underlying the CREST Depository Interests to the account

Book-Entry Clearance Systems and Settlement

of the relevant participant with Euroclear or Clearstream, Luxembourg. The CREST Depository Interests will have the same ISIN as the ISIN of the Underlying N&C Securities and will not require a separate listing on the Official List of the Financial Conduct Authority.

Holders of CREST Depository Interests are referred to Chapter 8 of the CREST International Manual (as contained in the CREST Manual) which contains the form of the CREST Deed Poll to be entered into by the CREST Depository (the "**CREST Deed Poll**"). The rights of the holder of CREST Depository Interests will be governed by the arrangements between CREST, Euroclear, Clearstream, Luxembourg and the Issuer including the CREST Deed Poll executed by the CREST Depository. These rights may be different from those of holders of N&C Securities which are not represented by CREST Depository Interests.

If issued, CREST Depository Interests will be delivered, held and settled in CREST, by means of the CREST International Settlement Links Service (the "**CREST International Settlement Links Service**"). The settlement of the CREST Depository Interests by means of the CREST International Settlement Links Service has the following consequences for holders of CREST Depository Interests:

- (a) holders of CREST Depository Interests will not be the legal owners of the Underlying N&C Securities. The CREST Depository Interests are separate legal instruments from the Underlying N&C Securities to which they relate and represent an indirect interest in such Underlying N&C Securities;
- (b) the Underlying N&C Securities themselves (as distinct from the CREST Depository Interests representing indirect interests in such Underlying N&C Securities) will be held in an account with a custodian. The custodian will hold the Underlying N&C Securities through a clearing system. Rights in the Underlying N&C Securities will be held through custodial and depository links through the appropriate clearing systems. The legal title to the Underlying N&C Securities or to interests in the Underlying N&C Securities will depend on the rules of the clearing system in or through which the Underlying N&C Securities are held;
- (c) rights under the Underlying N&C Securities cannot be enforced by holders of CREST Depository Interests except indirectly through the intermediary depositaries and custodians described above. The enforcement of rights under the Underlying N&C Securities will therefore be subject to the local law of the relevant intermediary. The rights of holders of CREST Depository Interests to the Underlying N&C Securities are represented by the entitlements against the CREST Depository which (through the CREST Nominee) holds interests in the Underlying N&C Securities. This could result in an elimination or reduction in the payments that otherwise would have been made in respect of the Underlying N&C Securities in the event of any insolvency or liquidation of the relevant intermediary, in particular where the Underlying N&C Securities held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries;
- (d) the CREST Depository Interests issued to holders of CREST Depository Interests will be constituted and issued pursuant to the CREST Deed Poll. Holders of CREST Depository Interests will be bound by all provisions of the CREST Deed Poll and by all provisions of or prescribed pursuant to, the CREST International Manual and the CREST Rules applicable to the CREST International Settlement Links Service (in each case as contained in the CREST Manual) and such holders must comply in full with all obligations imposed on them by such provisions;
- (e) the provisions of the CREST Deed Poll and the CREST Manual (including for the avoidance of doubt the provisions of the CREST International Manual and the CREST Rules) contain indemnities, warranties, representations and undertakings to be given by holders of CREST Depository Interests and limitations on the liability of the issuer of the CREST Depository Interests, the CREST Depository;
- (f) holders of CREST Depository Interests may incur liabilities resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the money invested by them. The attention of holders is drawn to the terms of the CREST Deed Poll and the CREST Manual (including for the avoidance of doubt the provisions of the CREST International Manual

Book-Entry Clearance Systems and Settlement

and the CREST Rules), copies of which are available from CREST at 33 Cannon Street, London EC4M 5SB or by calling +44 (0) 207 849 0000 or from the CREST website at: <https://www.euroclear.com/en.html>;

- (g) holders of CREST Depository Interests may be required to pay fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service. These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the N&C Securities through the CREST International Settlement Links Service;
- (h) neither the Issuer, the Dealer nor any Paying Agent will have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations; and
- (i) N&C Securities issued in temporary global form exchangeable for a Permanent Global Bearer N&C Security will not be eligible for CREST settlement as CREST Depository Interests. As such, investors investing in the Underlying N&C Securities through CREST Depository Interests will only receive the CREST Depository Interests after such Temporary Bearer Global N&C Security is exchanged for a Permanent Bearer Global N&C Security, which could take up to 40 days after the issue of the N&C Securities.

TAXATION

The following is a general description of certain tax considerations relating to the N&C Securities. It does not purport to be a complete analysis of all tax considerations relating to the N&C Securities, whether in those jurisdictions or elsewhere. It is not intended and does not constitute tax advice or legal opinion. Prospective purchasers of N&C Securities are advised to consult their own tax advisers as to the consequences, under the tax laws of the countries of their respective citizenship, residence or domicile, of a purchase of N&C Securities, including, but not limited to, the consequences of receipt of payments under the N&C Securities and their disposal or redemption. This summary is based upon the law as in effect on the date of this Base Prospectus and is subject to any changes in law that might take effect after such date.

1. United Kingdom Taxation

The following applies only to persons who are the beneficial owners of N&C Securities and is a summary of the Issuer's understanding of current law and published HM Revenue and Customs ("HMRC") practice in the United Kingdom relating only to (i) the United Kingdom withholding tax treatment of payments of principal and interest in respect of the N&C Securities and (ii) the United Kingdom Stamp Duty and Stamp Duty Reserve Tax in respect of the N&C Securities. It does not deal with any other United Kingdom taxation implications of acquiring, holding or disposing of the N&C Securities. Some aspects do not apply to certain classes of person (such as dealers and persons connected with the Issuer) to whom special rules may apply. Prospective N&C Securityholders should note that the particular Issue Terms of any Series of N&C Securities as specified in the applicable Conditions may affect the tax treatment of that and any other Series of N&C Securities and should be treated with appropriate caution. The comments below do not deal with the tax consequences of any substitution of the Issuer in accordance with Condition 14 (Substitution). The United Kingdom tax treatment of prospective N&C Securityholders depends on their individual circumstances and may be subject to change in the future. Prospective N&C Securityholders who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

Payment of Interest on the N&C Securities

Withholding on account of United Kingdom tax

The Issuer, provided that it continues to be a bank for the purposes of section 991 of the Income Tax Act 2007 ("ITA 2007") and provided that the interest on the N&C Securities is paid in the ordinary course of its business within the meaning of section 878 of ITA 2007, will be entitled to make payments of interest on the N&C Securities without withholding or deduction for or on account of United Kingdom income tax.

Payments of interest on the N&C Securities by the Issuer may also be made without deduction of or withholding on account of United Kingdom income tax provided that the relevant N&C Securities are, and continue to be, either:

- (a) "listed on a recognised stock exchange" within the meaning of section 1005 of ITA 2007. The London Stock Exchange is a recognised stock exchange. N&C Securities will be treated as listed on the London Stock Exchange if they are included in the Official List (within the meaning of and in accordance with the provisions of Part 6 of the Financial Services and Markets Act 2000) and admitted to trading on the London Stock Exchange. Provided, therefore, that the N&C Securities remain so listed, interest on the N&C Securities will be payable without withholding or deduction on account of United Kingdom tax whether or not the Issuer carries on a banking business in the United Kingdom and whether or not the interest is paid in the ordinary course of its business; or
- (b) admitted to trading on a "multilateral trading facility" (for the purposes of section 987 ITA 2007) operated by a recognised stock exchange that is regulated in the United Kingdom, the European Economic Area or Gibraltar.

In addition, interest on the N&C Securities may also be paid by the Issuer without withholding or deduction on account of United Kingdom tax where the maturity of the N&C Securities is less than 365

Taxation

days and these N&C Securities do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount must generally be withheld from payments of interest on the N&C Securities which have a United Kingdom source on account of United Kingdom income tax at the basic rate (currently 20.00 per cent.) subject to any other tax exemptions that may apply. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a holder of an N&C Security, HMRC can issue a notice to the Issuer to pay interest to the holder of an N&C Security without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

References to "interest" mean "interest" as understood in United Kingdom tax law and do not take into account any different meaning which may prevail under any other law or under the terms and conditions. Different considerations may apply to payments treated as "annual payments" or "manufactured payments".

Stamp Duty and Stamp Duty Reserve Tax ("SDRT") in respect of the N&C Securities

A charge to stamp duty or SDRT may, in certain circumstances, arise on the issue, transfer and/or settlement of N&C Securities and SDRT may also be payable in relation to any agreement to transfer N&C Securities. This will depend upon the Terms and Conditions of the relevant N&C Securities (as completed by the applicable Final Terms or, in the case of Exempt N&C Securities, as completed and (if applicable) amended by the applicable Pricing Supplement). N&C Securityholders should take their own advice from an appropriately qualified professional adviser in this regard.

2. U.S. Dividend Equivalent Withholding

Section 871(m) of the U.S. Internal Revenue Code of 1986 (the "**Code**") treats a "dividend equivalent" payment as a dividend from sources within the United States that is generally subject to a 30 per cent. U.S. withholding tax. A "dividend equivalent" payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a "specified notional principal contract" or a "specified equity-linked instrument" that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the U.S. Internal Revenue Service ("**IRS**") to be substantially similar to a payment described in (i) and (ii). U.S. Treasury regulations issued under Section 871(m) and applicable guidance (the "**Section 871(m) Regulations**") require withholding on certain non-U.S. holders of the N&C Securities with respect to amounts treated as dividend equivalent payments. Under the Section 871(m) Regulations, only a N&C Security that has an expected economic return sufficiently similar to that of the underlying U.S. security, based on tests set forth in the Section 871(m) Regulations, will be subject to the Section 871(m) withholding regime (making such N&C Security a "**Specified N&C Security**"). Certain exceptions to this withholding requirement apply, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalents will generally be required when payments are made on, or upon the date of maturity, lapse or other disposition of, the Specified Security. If the underlying U.S. security or securities are expected to pay dividends during the term of the Specified Security, withholding generally will still be required even if the Specified N&C Security does not provide for payments explicitly linked to dividends. Additionally, the Issuer or a withholding agent may withhold the full 30 per cent. tax on any payment on the N&C Securities in respect of any dividend equivalent arising with respect to such N&C Securities regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law (including, for the avoidance of doubt, where a non-U.S. holder is eligible for a reduced tax rate under an applicable tax treaty with the United States). A non-U.S. holder may be able to claim a refund of any excess withholding provided the required information is timely furnished to the U.S. Internal Revenue Service. Refund claims are subject to U.S. tax law requirements and there can be no assurance that a particular refund claim will be timely paid or paid at all. Among other things, a non-U.S. holder may not receive the necessary information to properly claim a refund for excess withholding taxes remitted in respect of its N&C Security for purposes of claiming a refund. In addition, a non-U.S. holder's resident tax jurisdiction may not permit the holder to take a credit for U.S. withholding taxes related to the dividend equivalent amount. If the Issuer or any withholding agent

Taxation

determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

The Section 871(m) Regulations generally apply to Specified N&C Securities issued on or after 1 January 2017. If the terms of a N&C Security are subject to a "significant modification" (as defined for U.S. tax purposes) the N&C Security generally would be treated as retired and reissued on the date of such modification for the purposes of determining, based on economic conditions in effect at that time, whether such N&C Security is a Specified Security. Similarly, if additional N&C Securities of the same series are issued (or deemed issued for U.S. tax purposes, such as certain sales of N&C Securities out of inventory) after the original issue date, the IRS could treat the issue date for determining whether the existing N&C Securities are Specified N&C Securities as the date of such subsequent sale or issuance. Consequently, a previously out of scope N&C Security, might be treated as a Specified N&C Security following such modification or further issuance.

In addition, payments on the Specified N&C Securities may be calculated by reference to dividends on underlying U.S. securities that are reinvested at a rate of 70 per cent. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30 per cent. of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. For the avoidance of doubt, the Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

The applicable Issue Terms will indicate whether the Issuer has determined that N&C Securities are Specified N&C Securities and may specify contact details for obtaining additional information regarding the application of Section 871(m) to such N&C Securities. A non-U.S. holder of Specified N&C Securities should expect to be subject to withholding in respect of any underlying dividend-paying U.S. securities. The Issuer's determination is binding on non-U.S. holders of N&C Securities, but it is not binding on the IRS. The Section 871(m) Regulations require complex calculations to be made with respect to N&C Securities linked to U.S. securities and their application to a specific issue of N&C Securities may be uncertain.

Potential investors should note that a N&C Security that in isolation is not a Specified N&C Security may nonetheless be subject to Section 871(m) tax if a non-U.S. holder has engaged, or engages, in other transactions in respect of the N&C Security, a U.S. security or component of an index in connection with the N&C Security. A non-U.S. holder that enters, or has entered, into other transactions in respect of a U.S. security, component of an underlying index, or the N&C Securities should consult its own tax advisor regarding the application of Section 871(m) to the N&C Securities and such other transactions.

Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the N&C Securities.

3. Foreign Account Tax Compliance Act

Pursuant to certain provisions of the Code, commonly known as FATCA, a "foreign financial institution" may be required to withhold on certain payments it makes to persons that fail to meet certain certification, reporting or related requirements. The Issuer has registered with the U.S. Internal Revenue Service as a reporting foreign financial institution for these purposes.

A number of jurisdictions (including the United Kingdom) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the N&C Securities are uncertain and may be subject to change.

Withholding may apply pursuant to FATCA or an IGA with respect to payments on N&C Securities treated as Specified N&C Securities for purposes of Section 871(m) as described under "*U.S. Dividend Equivalent Withholding*" above. For N&C Securities that are not treated as Specified N&C Securities, withholding would not apply prior to the date that is two years after the date on which final regulations defining "foreign passthru payments" are filed with the U.S. Federal Register and such N&C Securities issued on or prior to the date that is six months after the date on which final regulations are filed with the U.S. Federal Register generally would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the issuer or change in terms)

Taxation

and/or characterised as equity for U.S. tax purposes. However, if additional N&C Securities (as described under "*General Terms and Conditions of the N&C Securities – Further Issues*") that are not distinguishable from previously issued N&C Securities are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all such N&C Securities, including those N&C Securities offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA.

The effective date for withholding on "foreign passthru payments" above reflects proposed U.S. Treasury regulations ("**Proposed FATCA Regulations**"). The Proposed FATCA Regulations also eliminate FATCA withholding on gross proceeds from the disposition of, or final payments, redemptions, or other principal payments made in respect of, an instrument that may produce U.S. source interest or dividends. The discussion above assumes that the Proposed FATCA Regulations will be finalised in their current form.

Holders should consult their own tax advisors regarding how these rules may apply to their investment in the N&C Securities. In the event that any withholding would be required pursuant to FATCA or an IGA with respect to payments on the N&C Securities, no person will be required to pay additional amounts as a result of the withholding.

Subscription and Sale

SUBSCRIPTION AND SALE

The Dealers have in a Programme Agreement (such Programme Agreement as modified and/or supplemented and/or restated from time to time, the "**Programme Agreement**") dated on or about 4 October 2021 agreed with the Issuer a basis upon which the Issuer may from time to time agree to issue N&C Securities. Any such agreement will extend to those matters stated under "*Form of the N&C Securities*" and "*General Terms and Conditions of the N&C Securities*". In the Programme Agreement, the Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the issue of N&C Securities under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith. The price and amount of N&C Securities to be issued under the Programme will be determined by the Issuer and the relevant Dealer(s) at the time of issue in accordance with prevailing market conditions. The N&C Securities may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the relevant Dealer. The Programme Agreement also provides for N&C Securities to be issued in syndicated Tranches that are jointly and severally underwritten by two or more Dealers. If a Tranche of N&C Securities is syndicated, the details of such syndication will be specified in the applicable Issue Terms.

In connection with the issue of any Tranche of N&C Securities, the Dealer or Dealers (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in the applicable Issue Terms may over-allot or effect transactions with a view to supporting the market price of the N&C Securities of the Series (as defined below) of which such Tranche forms part at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of N&C Securities is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of N&C Securities and 60 days after the date of the allotment of the relevant Tranche of N&C Securities.

10. **Important information relating to Public Offers of N&C Securities**

Certain Tranches of N&C Securities with a denomination of less than £100,000 (or its equivalent in any other currency) may be offered in circumstances where there is no exemption from the obligation under FSMA to publish a prospectus. Any such offer is referred to as a "**Public Offer**". This Base Prospectus has been prepared on a basis that permits Public Offers of N&C Securities in the United Kingdom. Any person making or intending to make a Public Offer of N&C Securities on the basis of this Base Prospectus must do so only with the Issuer's consent to the use of this Base Prospectus as provided below and provided such person complies with the conditions attached to that consent.

Save as provided above, neither the Issuer nor any Dealer have authorised, nor do they authorise, the making of any Public Offer of N&C Securities in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

11. **Consent to use this Base Prospectus**

In the context of a Public Offer of N&C Securities, the Issuer accepts responsibility, in the United Kingdom, for the content of this Base Prospectus, in relation to any person (an "**Investor**") who purchases any such N&C Securities in a Public Offer made by a Dealer or an Authorised Offeror (as defined below), where that offer is made during the Consent Period and provided that the conditions attached to the giving of consent for the use of this Base Prospectus are complied with. Neither the Issuer nor any Dealer makes any representation as to the compliance by an Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to any Public Offer and neither the Issuer nor any Dealer has any responsibility or liability for the actions of that Authorised Offeror.

Except in the circumstances set out in the following paragraphs, the Issuer has not authorised the making of any Public Offer by any offeror and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any Public Offer of N&C Securities. Any Public Offer made without the consent of the Issuer is unauthorised and neither the Issuer nor, for the avoidance of doubt, any Dealer accepts any responsibility or liability in relation to such offer or for the actions of the persons making any such unauthorised offer.

If, in the context of a Public Offer, an Investor is offered N&C Securities by a person which is not an Authorised Offeror, the Investor should check with that person whether anyone is responsible for this Base Prospectus for the purposes of the relevant Public Offer and, if so, who that person is. If the Investor is in any doubt about whether they can rely on this Base Prospectus and/or who is responsible for its contents they should take legal advice.

- (vii) retain Investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested and to the extent permitted by the Rules, make such records available to the Issuer and the relevant Dealer or directly to the Financial Conduct Authority (or the appropriate authority with jurisdiction over any Dealer) in order to enable the Issuer or the relevant Dealer to comply with anti-money laundering, anti-bribery, anti-corruption and "know your client" Rules applying to the Issuer or the relevant Dealer;

 - (iii) for the purposes of (ii) above and (iv) below, the financial intermediary waives any objection to the courts of England on the grounds that they are an inconvenient or inappropriate forum to settle any dispute;
 - (iv) to the extent permitted by law, the Issuer and the Dealer may, in respect of any Dispute or Disputes, take (a) proceedings in any other court with jurisdiction; and (b) concurrent proceedings in any number of jurisdictions; and
 - (v) each relevant Dealer will, pursuant to the Contracts (Rights of Third Parties) Act 1999, be entitled to enforce those provisions of the Authorised Offeror Contract which are, or are expressed to be, for their benefit, including the agreements, representations, warranties, undertakings and indemnity given by the financial intermediary pursuant to the Authorised Offeror Terms.

13. Common Conditions to Consent

The conditions to the Issuer's consent to the use of the Base Prospectus in the context of the relevant Public Offer of N&C Securities are (in addition to the conditions described in paragraph 12 above if Part B of the applicable Final Terms specifies "General Consent" as "Applicable") that such consent:

- (a) is only valid during the Consent Period; and
- (b) only extends to the use of this Base Prospectus to make Public Offers of the relevant Tranche of N&C Securities in the United Kingdom.

Each Tranche of N&C Securities may only be offered to Investors as part of a Public Offer in the United Kingdom, or otherwise in circumstances in which no obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

An Investor intending to purchase or purchasing any N&C Securities in a Public Offer from an Authorised Offeror will do so and offers and sales of such N&C Securities to an Investor by such Authorised Offeror will be made, in accordance with the terms and conditions of the offer in place between such Authorised Offeror and such Investor including arrangements in relation to price, allocations, expenses and settlement. The Issuer will not be a party to any such arrangements with such Investors in connection with the Public Offer or sale of the N&C Securities concerned and, accordingly, this Base Prospectus and any Final Terms will not contain such information. The relevant

General Information

information will be provided by the Authorised Offeror at the time of such offer. Neither the Issuer nor, for the avoidance of doubt, any Dealer has any responsibility or liability to an Investor in respect of the information described above.

Independent Investigation

Neither this Programme Memorandum nor any other information supplied in connection with the Programme or any Exempt N&C Securities (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation by the Issuer or any of the Dealers that any recipient of this Programme Memorandum or any other information supplied in connection with the Programme or any Exempt N&C Securities should purchase any Exempt N&C Securities. Each investor contemplating purchasing any Exempt N&C Securities should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Programme Memorandum nor any other information supplied in connection with the Programme or the issue of any Exempt N&C Securities constitutes an offer or invitation by or on behalf of the Issuer or any of the Dealers to any person to subscribe for or to purchase any Exempt N&C Securities. Furthermore, neither this Programme Memorandum, nor any other information supplied in connection with the Programme or any Exempt N&C Securities is, nor does it purport to be, investment advice. Unless expressly agreed otherwise with a particular investor, neither the Issuer nor any Dealer is acting as an investment adviser or providing advice of any other nature, or assumes any fiduciary obligation, to any investor in Exempt N&C Securities.

Neither the delivery of this Programme Memorandum nor the offering, sale or delivery of any Exempt N&C Securities shall in any circumstances imply that the information contained herein concerning the Issuer is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Dealers expressly do not undertake to review the financial condition or affairs of the Issuer during the life of the Programme or to advise any investor in the Exempt N&C Securities of any information coming to their attention. Investors should review, *inter alia*, the most recently

Programme Memorandum

published documents incorporated by reference in this Programme Memorandum (including any documents incorporated by reference pursuant to any supplements hereto) when deciding whether or not to purchase any Exempt N&C Securities.

Subscription and sales and transfer restrictions in the United States

Persons into whose possession offering material comes must inform themselves about and observe any such restrictions. This Programme Memorandum does not constitute, and may not be used for or in connection with, an offer to any person to whom it is unlawful to make such an offer or a solicitation by anyone not authorised so to act. See "*Subscription and Sale*" above.

The Exempt N&C Securities that are debt for U.S. federal income tax purposes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to or for the account or benefit of U.S. Persons, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 (the "**Code**") and the U.S. Treasury regulations promulgated thereunder.

The Exempt N&C Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or under any state securities laws and Exempt N&C Securities are subject to certain United States tax law requirements.

The Exempt N&C Securities, or interests therein, may not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States (including any state of the United States and the District of Columbia), its territories, possessions and other areas subject to its jurisdiction (the "**United States**") or directly or indirectly offered, sold, resold, traded, pledged, redeemed, transferred or delivered to, or for the account or benefit of, any person who is (i) a "U.S. person" as defined in Regulation S under the Securities Act ("**Regulation S**"), (ii) a person who comes within any definition of U.S. person for the purposes of the United States Commodity Exchange Act of 1936, as amended (the "**CEA**") (including but not limited to a "U.S. person" as defined in the Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations promulgated by the Commodity Futures Trading Commission (the "**CFTC**") pursuant to the CEA and a person other than a "Non-United States person" as defined in CFTC Rule 4.7(a)(1)(iv) excluding for the purposes of CFTC Rule 4.7(a)(1)(iv)(D) the exception for qualified eligible persons who are not "Non-United States persons"), or (iii) a "United States person" as defined in the U.S. Internal Revenue Code of 1986 and the U.S. Treasury regulations promulgated thereunder, in each case, as such definition may be amended, modified or supplemented from time to time (each such person, a "**U.S. Person**").

Investment Considerations

The Exempt N&C Securities may not be suitable for all investors

Each potential investor in the Exempt N&C Securities must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

- has sufficient knowledge and experience to make a meaningful evaluation of the Exempt N&C Securities, the merits and risks of investing in the Exempt N&C Securities and the information contained or incorporated by reference in this Programme Memorandum or any applicable supplement;
- has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Exempt N&C Securities and the impact the Exempt N&C Securities will have on its overall investment portfolio;
- has sufficient financial resources and liquidity to bear all of the risks of an investment in the Exempt N&C Securities, including Exempt N&C Securities with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- understands thoroughly the terms of the Exempt N&C Securities and is familiar with the behaviour of any relevant indices and financial markets; and

Programme Memorandum

- is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

An investment in Exempt N&C Securities (including Exempt N&C Securities which are Equity Index Linked Interest N&C Securities or Inflation Index Linked N&C Securities) may entail significant risks not associated with investments in conventional securities such as debt or equity securities, including, but not limited to, the risks set out in "*Risks associated with N&C Securities where interest amounts are linked to one or more Reference Item(s)*" above.

In making an investment decision, investors must rely on their own examination of the Issuer and the terms of the Exempt N&C Securities, including the merits and risks involved.

Certain of the Dealers and their affiliates have engaged and may in the future engage in investment banking and/or commercial banking transactions with, and may perform services for the Issuer and its respective affiliates.

Neither the Dealers nor the Issuer makes any representation to any investor in the Exempt N&C Securities regarding the legality of its investment under any applicable laws. Any investor in the Exempt N&C Securities should satisfy itself that it is able to bear the economic risk of an investment in the Exempt N&C Securities for an indefinite period of time.

Purchasers of such Exempt N&C Securities are deemed to have sufficient knowledge, experience and professional advice to make their own investment decisions and to have undertaken their own legal, financial, tax, accounting and other business evaluation of the risks and merits of investments in such Exempt N&C Securities and should ensure that they fully understand the risks associated with investments of this nature which are intended to be sold only to sophisticated investors. Purchasers of Exempt N&C Securities are solely responsible for making their own independent appraisal of an investigation into the business, financial condition, prospects, creditworthiness, status and affairs of any Reference Item and the information relating to any Reference Item and the level or fluctuation of any Reference Item(s).

Important – EEA Retail Investors – If the Pricing Supplement in respect of any Exempt N&C Securities includes a legend entitled "*Prohibition of Sales to EEA Retail Investors*", the Exempt N&C Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (the "**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive (EU) 2016/97, as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "**EU Prospectus Regulation**"). Consequently, save in relation to any jurisdiction(s) or period(s) for which the "*Prohibition of Sales to EEA Retail Investors*" is specified to be not applicable in the relevant Pricing Supplement no key information document is required by Regulation (EU) No 1286/2014 (as amended, the "**EU PRIIPs Regulation**") for offering or selling the Exempt N&C Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Exempt N&C Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

Important – UK Retail Investors – If the Pricing Supplement in respect of any Exempt N&C Securities includes a legend entitled "*Prohibition of Sales to UK Retail Investors*", the Exempt N&C Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a retail investor means a person who is one (or more) of:

- a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the EUWA; or
- a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA; or

Programme Memorandum

- not a qualified investor as defined in Article 2 of the UK Prospectus Regulation.
