Abbey National Treasury Services plc

(incorporated under the laws of England and Wales)

€10,000,000,000

Structured Note Programme

Unconditionally and irrevocably guaranteed by

Santander UK plc

(formerly Abbey National plc)

(incorporated under the laws of England and Wales)

Abbey National Treasury Services plc (the "Issuer") may from time to time issue notes and other similar instruments (the "Notes") denominated in any currency as agreed between the Issuer and the relevant Dealer (as defined below) under this €10,000,000,000 Structured Note Programme (the "Programme"). This prospectus (the "Prospectus") supersedes the prospectus dated 14 April 2010 previously issued by the Issuer and Guarantor in respect of the Programme, and is valid for a period of 12 months from the date hereof. Any Notes issued under the Programme by the completion of the Final Terms on or after the date of this Prospectus are issued subject to the provisions hereof. This Prospectus does not affect any Notes already in issue under the Programme, prior to the date of this Prospectus. "Final Terms" means the terms set out in a Final Terms supplement, substantially in the form set out in this Prospectus, which complete and amend the "General Terms and Conditions of the Notes" set out on page 109 herein, which, together with the applicable Technical Annex(es) relating to Equity Index Linked Notes, Equity Linked Notes, Currency Linked Notes, Fund Linked Notes, Inflation Linked Notes, Commodity Linked Notes and Credit Linked Notes or any other relevant type of Notes attached thereto, are referred to as the "Conditions".

This Prospectus has been approved by the United Kingdom Financial Services Authority (the "FSA") which is the United Kingdom competent authority for the purposes of Directive 2003/71/EC (the "Prospectus Directive") to the extent that such amendments have been implemented in a Member State of the European Economic Area and relevant implementing measures in the United Kingdom, as a base prospectus (the "Base Prospectus") issued in compliance with the Prospectus Directive and relevant implementing measures in the United Kingdom for the purpose of giving information with regard to the issue of the Notes under the Programme during the period of 12 months after the date hereof. In accordance with Article 18 of the Prospectus Directive, the FSA has been requested to provide the following competent authorities with a certificate of approval attesting that the Base Prospectus of each of the Issuer and the Guarantor has been drawn up in accordance with the Prospectus Directive: (1) Comisión Nacional del Mercado de Valores (CNMV) ("Spain"), (2) Commissione Nazionale per le Società e la Borsa (CONSOB) ("Italy"), (3) Comissão do Mercado de Valores Mobiliários (CMVM) ("Portugal"), (4) Commission de Surveillance du Secteur Financier (CSSF) ("Luxembourg"), (5) Autoriteit Financiële Markten (AFM) ("The Netherlands"), (6) Autorité des marchés financiers (AMF) ("France"), (7) Commission Bancaire, Financière et des Assurances (CBFA) ("Belgium"), (8) Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin) ("Germany") and (9) Finanzmarktaufsichtsbehörde (FMA) ("Austria").

Application has been made to the FSA in its capacity as competent authority (the "UK Listing Authority") under the UK Financial Services and Markets Act 2000 ("FSMA") for Notes issued under the Programme to be admitted to the official list of the UK Listing Authority (the "Official List"). In respect of Notes to be admitted to the Official List, application has also been made to the London Stock Exchange plc (the "London Stock Exchange") for such Notes to be admitted to trading on the London Stock Exchange's Regulated Market. The London Stock Exchange's Regulated Market is a regulated market for the purposes of Directive 2004/39/EC (the Markets in Financial Instruments Directive).

The payment of all amounts payable in respect of the Notes will be unconditionally and irrevocably guaranteed by Santander UK plc (the "Guarantor").

Notes may be issued in bearer or registered form (respectively "Bearer Notes" and "Registered Notes"). The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed €10,000,000,000 (or its equivalent in other currencies calculated as described herein), subject to increase as described herein.

The Notes may be issued on a continuing basis to the Dealer specified under "Summary of the Programme" and any additional Dealer appointed under the Programme from time to time (the "Dealer" and together the "Dealers"), which appointment may be for a specific issue or on an ongoing basis. References in this Prospectus to the "relevant Dealer" shall, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such Notes.

Notice of the aggregate nominal amount or issue size of Notes, interest (if any) payable in respect of Notes, the issue price of Notes, and any other terms and conditions not contained herein which are applicable to each Tranche (as defined in the Conditions) of Notes will be set out in the applicable Final Terms which, with respect to Notes to be admitted to the Official List and to be admitted to trading on the London Stock Exchange's Regulated Market, will be delivered to the UK Listing Authority and the London Stock Exchange on or before the date of issue of the Notes of such Tranche.

The Programme provides that Notes may be unlisted or listed on such other or further stock exchange(s) as may be agreed between the Issuer, the Guarantor and the relevant Dealer and specified in the Final Terms. Prospective purchasers of Notes should ensure that they understand the nature of the relevant Notes and the extent of their exposure to risks and that they consider the suitability of the relevant Notes as an investment in the light of their own circumstances and financial condition. Certain issues of Notes involve a high degree of risk and potential investors should be prepared to sustain a loss of all or part of their investment.

Any person (an "Investor") intending to acquire or acquiring any securities from any person (an "Offeror") should be aware that, in the context of an offer to the public as defined in section 102B of FSMA, the Issuer may be responsible to the Investor for the Prospectus under section 90 of FSMA, only if the Issuer has authorised that Offeror to make the offer to the Investor. Each Investor should therefore enquire whether the Offeror is so authorised by the Issuer. If the Offeror is not authorised by the Issuer, the Investor should check with the Offeror whether anyone is responsible for the Prospectus for the purposes of section 90 of FSMA in the context of the offer to the public and, if so, who that person is. If the Investor is in any doubt about whether it can rely on the Prospectus and/or who is responsible for its contents, it should take legal advice. This paragraph should be read in conjunction with the fifth paragraph on page iv of this Prospectus. **Information in relation to an offer to the public will be made available at the time such sub-offer is made, and such information will be also provided by the relevant Offeror.**

See "Risk Factors" (page 10) for a discussion of factors which may affect the Issuer's and the Guarantor's ability to fulfil its obligations under Notes issued under the Programme and under the Guarantee, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme, and certain factors to be considered in connection with an investment in Commodity Linked Notes, Credit Linked Notes Currency Linked Notes, Equity Linked Notes, Equity Index Linked Notes, Fund Linked Notes, Inflation Linked Notes or Property Linked Notes (each as defined herein) or other structured Notes which may be issued under the Programme linked to one or more reference asset or reference basis (each a "Relevant Asset") or reference entity or reference entities (each a "Reference Entity"). All payments in respect of the Notes will be made without deduction for or on account of withholding taxes imposed by any tax jurisdiction unless any such deduction is required by law. In the event that any such deduction is required, neither the Issuer nor, as the case may be, the Guarantor will be required to pay any additional amounts to cover the amounts so deducted.

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the "Securities Act"), and may not be offered or sold in the United States of America (the "United States") or to, or for the benefit of, U.S. persons unless the Notes are registered under the Securities Act or an

exemption from the registration requirements of the Securities Act is available. See "*Form of the Notes*" for a description of the manner in which Notes will be issued. Registered Notes are subject to certain restrictions on transfer. See "*Subscription and Sale and Transfer and Selling Restrictions*".

The rating of certain Series of Notes to be issued under the Programme may be specified in the applicable Final Terms. Whether or not each credit rating applied for in relation to relevant Series of Notes will be issued by a credit rating agency established in the European Union and registered under Regulation (EC) No. 1060/2009 (the CRA Regulation) will be disclosed in the Final Terms.

The Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to or for the account or benefit of U.S. persons, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code and the U.S. Treasury regulations promulgated thereunder.

To ensure compliance with United States Treasury Department Circular 230, Noteholders are hereby notified that: (a) any discussion of federal tax issues in this document is not intended or written to be relied upon, and cannot be relied upon, by Noteholders for the purpose of avoiding penalties that may be imposed on Noteholders under the Internal Revenue Code; (b) such discussion is included herein by the Issuer in connection with the promotion or marketing (within the meaning of Circular 230) by the Issuer of the transactions and matters addressed herein; and (c) Noteholders should seek advice based on their particular circumstances from an independent tax adviser.

Notwithstanding anything in this Prospectus to the contrary, each prospective investor (and each employee, representative or other agent of the prospective investor) may disclose to any and all persons, without limitation of any kind, the U.S. tax treatment and U.S. tax structure of any offering and all materials of any kind (including opinions or other tax analyses) that are provided to the prospective investor relating to such U.S. tax treatment and U.S. tax structure, other than any information for which nondisclosure is reasonably necessary in order to comply with applicable securities laws.

Persons into whose possession offering material comes must inform themselves about and observe any such restrictions. This Prospectus does not constitute, and may not be used for or in connection with, an offer to any person to whom it is unlawful to make such an offer or a solicitation by anyone not authorised so to act.

This Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. The Issuer, the Guarantor and the Dealers do not represent that this Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering, or that all actions have been taken by the Issuer, the Guarantor or the Dealers which would permit a public offering of any Notes or distribution of this Prospectus in any jurisdiction where action for that purpose is required. In particular, no action has been taken by the Issuer, the Guarantor or the Dealers which would permit a public offering of any Notes outside the European Economic Area ("EEA") or distribution of this Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Prospectus or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Prospectus and the offering and sale of Notes. See "*Subscription and Sale and Transfer and Selling Restrictions*".

This Prospectus has been prepared on the basis that, except to the extent sub-paragraph (ii) below may apply, any offer of Notes in any Member State of the EEA which has implemented the Prospectus Directive (each, a "Relevant Member State") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offer of Notes. Accordingly, any person making or intending to make an offer of Notes in that Relevant Member State, which are the subject of an offering contemplated in this Prospectus, as completed by final terms in relation to the offer of those Notes, may only do so (i) in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to the Prospectus Directive, in each case, in relation to such offer, or (ii) if a prospectus for such offer has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State and (in either case) published, all in accordance with the Prospectus Directive, provided that any such prospectus has subsequently been completed by the applicable Final Terms which specify that offers may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State, such offer is made in the period beginning and ending on the dates specified for such purpose in such prospectus or final terms, as applicable and the Issuer has consented in writing to its use for the purposes of such offer. Except to the extent sub-paragraph (ii) above may apply, none of the Issuer, the Guarantor nor any Dealer have authorised, nor do they authorise, the making of any offer of Notes in circumstances in which any obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

In making an investment decision, investors must rely on their own examination of the Issuer and the Guarantor and the terms of the Notes being offered, including the merits and risks involved.

Certain of the Dealers and their affiliates have engaged and may in the future engage in investment banking and/or commercial banking transactions with, and may perform services for the Issuer, the Guarantor and their respective affiliates.

None of the Dealers, the Issuer and the Guarantor makes any representation to any investor in the Notes regarding the legality of its investment under any applicable laws. Any investor in the Notes should satisfy itself that it is able to bear the economic risk of an investment in the Notes for an indefinite period of time.

Purchasers of such Notes are deemed to have sufficient knowledge, experience and professional advice to make their own investment decisions and to have undertaken their own legal, financial, tax, accounting and other business evaluation of the risks and merits of investments in such Notes and should ensure that they fully understand the risks associated with investments of this nature which are intended to be sold only to sophisticated investors. Purchasers of Notes are solely responsible for making their own independent appraisal of and investigation into the business, financial condition, prospects, creditworthiness, status and affairs of any Reference Entity or Relevant Asset and the information relating to any Reference Entity or Relevant Asset and the level or fluctuation of any Relevant Asset(s).

U.S. INFORMATION

The Notes have not been approved or disapproved by the United States Securities and Exchange Commission (the "SEC") or any other securities commission or other regulatory authority in the United States, nor have the foregoing authorities approved this Prospectus or confirmed the accuracy or determined the adequacy of the information contained in this Prospectus. Any representation to the contrary is unlawful.

The Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to or for the account or benefit of U.S. persons, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code and the U.S. Treasury regulations promulgated thereunder.

To ensure compliance with United States Treasury Department Circular 230 ("**CIRCULAR 230**"), Noteholders are hereby notified that: (a) any discussion of federal tax issues in this document is not intended or written to be relied upon, and cannot be relied upon, by Noteholders for the purpose of avoiding penalties that may be imposed on Noteholders under the Internal Revenue Code; (b) such discussion is included herein by the Issuer in connection with the promotion or marketing (within the meaning of Circular 230) by the Issuer of the transactions and matters addressed herein; and (c) Noteholders should seek advice based on their particular circumstances from an independent tax adviser.

Notwithstanding anything in this Prospectus to the contrary, each prospective investor (and each employee, representative or other agent of the prospective investor) may disclose to any and all persons, without limitation of any kind, the U.S. tax treatment and U.S. tax structure of any offering and all materials of any kind (including opinions or other tax analyses) that are provided to the prospective investor relating to such U.S. tax treatment and U.S. tax structure, other than any information for which nondisclosure is reasonably necessary in order to comply with applicable securities laws.

In making an investment decision, investors must rely on their own examination of the Issuer, the Guarantor and the terms of the Notes being offered, including the merits and risks involved.

This Prospectus is being distributed on a confidential basis in the United States to a limited number of QIBs (as defined under "*Form of the Notes*") for informational use solely in connection with the consideration of the purchase of the Notes being offered hereby. Its use for any other purpose in the United States is not authorized. It may not be copied or reproduced in whole or in part nor may it be distributed or any of its contents disclosed to anyone other than the prospective investors to whom it is originally submitted.

Registered Notes may be offered or sold within the United States or to U.S. persons only to QIBs in transactions exempt from the registration requirements under the Securities Act. Each U.S. purchaser of Registered Notes is hereby notified that the offer and sale of any Registered Notes to it may be made in reliance upon the exemption from the registration requirements of the Securities Act provided by Rule 144A under the Securities Act ("**Rule 144A**").

Each purchaser or holder of Notes represented by a Rule 144A Global Note or any Notes issued in registered form in exchange or substitution therefor (together "**Restricted Notes**") will be deemed, by its acceptance or purchase of any such Restricted Notes, to have made certain representations and agreements intended to restrict the resale or other transfer of such Notes as set out in "*Subscription and Sale and Transfer and Selling Restrictions*". Unless otherwise stated, terms used in this paragraph have the meanings given to them in "*Form of the Notes*".

If the Guarantor ceases to be a reporting company under the Exchange Act (as defined below), in order to permit compliance with Rule 144A in connection with any resales or other transfers of Notes that are "restricted securities" within the meaning of the Securities Act, the Issuer will undertake in a deed poll (the "**Deed Poll**") to furnish, upon the request of a holder of such Notes or any beneficial interest therein, to such holder or to a prospective purchaser designated by him, the information required to be delivered under Rule 144A(d)(4) under the Securities Act if, at the time of the request, the Issuer and the Guarantor are neither reporting companies under Section 13 or 15(d) of the U.S. Securities Exchange Act of 1934, as amended, (the "**Exchange Act**") nor exempt from reporting pursuant to Rule 12g3-2(b) thereunder. Redemption:

The applicable Final Terms will indicate either that the relevant Notes cannot be redeemed prior to their stated maturity (other than in specified instalments, if applicable, or for following an Event of Default or for certain other specified events) or that such Notes will be redeemable at the option of the Issuer and/or the Noteholders upon giving notice to the Noteholders or the Issuer, as the case may be, on a date or dates specified prior to such stated maturity or automatically upon the occurrence of certain specified events or on a date or dates after the stated maturity following specified events noted in the Conditions and/or the applicable Final Terms and at a price or prices and on such other terms as may be agreed between the Issuer and the relevant Dealer as indicated in the applicable Final Terms.

Risk Factors:

Each prospective investor should consult its own financial and legal advisers about the risks associated with an investment in the Notes and the suitability of an investment in the relevant Notes in light of its particular circumstances.

Risks relating to the Group

There are certain factors that may affect the Issuer's and the Guarantor's ability to fulfil their obligations under Notes issued under the Programme. These are set out under "*Risk Factors – Risk factors relating to the Issuer*" and "*Risk Factors – Risk relating to the Issuer, the Guarantor and the Group*" in this Prospectus and include risks concerning the creditworthiness of the Issuer and the Guarantor, general economic conditions, competition in the financial services industry, regulatory and legislative change, operational risks, potential conflicts of interest and the risk that hedging and trading activity by the Issuer, the Guarantor or any of their affiliates may affect the value of Notes.

Risks relating to investment in the Notes

Risks relating to investment in the Notes depend on their features and may include, *inter alia*, the following, all of which are more fully described under "*Risk Factors – General risks relating to investments in the Notes*", "*Risk Factors – Risks associated with the redemption of the Notes*" and "*Risk Factors – Other risks related to Notes generally*" in this Prospectus:

- (i) certain Notes can be classified as structured products which will typically include embedded derivatives – investors must understand their terms including the potential risk of loss of investment and the relation to the performance of the Relevant Asset before investing,

- (ii) Noteholders have no rights in relation to any underlying Relevant Asset(s),
- (iii) limited and/or volatile market value of the Notes,
- (iv) redemption when reinvestment circumstances are not advantageous for a Noteholder,
- (v) reduced or no payment of interest,
- (vi) payment of principal or interest at a different time or in a different currency than expected; and/or
- (vii) loss of all or part of a Noteholder's initial investment or anticipated return on such investment which may be due to the Notes (or the payment of principal or interest under the Notes) being:
 - (a) subject to optional redemption by the Issuer (where such a feature is applicable), which may be made at times when the prevailing interests rates are relatively low resulting in a lower amount than expected on redemption,
 - (b) determined by reference to an index, formula, asset or other reference factor (such as securities, commodities, fund units, exchange rates, etc.),
 - (c) payable in various currencies,
 - (d) payable, as to their issue price, in instalments,
 - (e) subject to caps, floors, leverage or other factors or any combination thereof,
 - (f) subject to an inverse floating rate of interest,
 - (g) subject to a fixed-to-floating (or floating-to-fixed) rate of interest,
 - (h) issued at a discount or premium from their principal amount,
 - (i) subject to decreases in interest or principal payable depending on changes in the creditworthiness of a Reference Entity or Reference Obligation and/or by reference to the outcome of an auction determination, and/or
 - (j) payments of principal or interest being linked to the occurrence or non-occurrence of certain events beyond the control of the Issuer and (if applicable) the Guarantor.

Other risks relating to the Notes discussed in these sections and in "*Risk Factors – Risks related to the market generally*" include:

- (i) binding decisions of meetings of Noteholders,
- (ii) no payment of additional amounts (in certain circumstances) in relation to taxes withheld from payments under the Notes,

- (iii) changes in law,
- (iv) changes in interest rates,
- (v) in relation to any issue of Notes which have a minimum denomination and are tradable in the clearing systems in amounts above such minimum denomination which is smaller, an investor not receiving all of its entitlement if definitive Notes are issued,
- (vi) credit ratings, where provided in the applicable Final Terms, not reflecting all risks relating to the Notes,
- (vii) certain investors being subject to laws and regulations or review or regulation by certain authorities,
- (viii) the fact that the Notes may not be a suitable investment for all investors and/or
- (ix) the fact that the Notes may be subject to certain transfer restrictions.

In addition, for certain of the above Notes, various events in relation to the relevant underlying asset or reference basis may lead to adjustments to or early redemption of the Notes and there are certain factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme (see "*Risk Factors – General risks relating to investments in the Notes*" and "*Risk Factors – Risks associated with specific Types of Notes*" in this Prospectus).

RISK FACTORS

An investment in the Notes may involve a high degree of risk. Each of the Issuer and the Guarantor believes that the following factors may affect its ability to fulfil its obligations under Notes issued under the Programme and/or are material for the purpose of assessing the market risk associated with Notes issued under the Programme. Most of these factors are contingencies which may or may not occur and neither the Issuer nor the Guarantor is in a position to express a view on the likelihood of any such contingency occurring.

The factors discussed below regarding the risks of acquiring or holding any Notes are not exhaustive, and additional risks and uncertainties that are not presently known to the Issuer or Guarantor or that the Issuer or Guarantor currently believes to be immaterial could also have a material impact on the business operations or financial condition of the Issuer or the Guarantor or the Notes.

Each of the Issuer and the Guarantor believes that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Issuer or the Guarantor to pay interest, principal or other amounts on or perform other obligations in connection with any Notes may occur for other reasons which may not be considered significant risks by the Issuer and the Guarantor based on information currently available to them or which they may not currently be able to anticipate. Prospective investors should also read the detailed information set out elsewhere in this Prospectus and reach their own views prior to making any investment decision.

Words and expressions defined in the "General Terms and Conditions of the Notes" below or elsewhere in this Prospectus have the same meanings in this section.

1. Risk factors relating to the Issuer

The Issuer is a wholly-owned subsidiary of the Guarantor, which is an indirect wholly-owned subsidiary of Banco Santander. The principal activity of the Issuer is to provide treasury, corporate and wholesale banking services. As part of this activity the Issuer provides a treasury function, incorporating liquidity, funding, capital and risk management products to Santander UK. It also provides treasury services, supplying products and risk management services for other financial services companies, and corporate banking services principally to small and medium sized UK companies. As a result, the Issuer's ability to meet and perform its obligations may be affected by any inability of third parties to perform obligations owed to the Issuer.

2. Risk factors relating to the Issuer, the Guarantor and the Group

The Guarantor and its subsidiaries (the "**Group**") provide a comprehensive range of personal financial services, including savings and investments, mortgages, unsecured lending, banking, pensions, life and general insurance products to customers throughout the United Kingdom. In addition, the Group provides offshore operations in certain jurisdictions. As a result, the Guarantor's ability to meet and perform its obligations may be affected by the performance of the Group.

The Group's results may be materially impacted by economic conditions in the UK

The Group's business activities are concentrated in the U.K. and on the offering of mortgage related products and services. As a consequence, the Group's business, financial condition and/or results of operations are significantly affected by economic conditions in the U.K. generally, and by the U.K. property market in particular. In 2008 and 2009, the U.K. property market suffered a significant correction as a consequence of housing demand being constrained by a combination of subdued earnings growth, greater pressure on disposable income, rising unemployment, a decline in the availability of mortgage finance and the continued effect of global market volatility. In 2010, there was some improvement in U.K. property market conditions, but the number of loans approved for house purchase remains low relative to the experience of the past decade.

U.K. economic conditions and uncertainties may have an adverse effect on the quality of the Group's loan portfolio and may result in a rise in delinquency and default rates. There can be no assurance that the Group will not have to increase its provisions for loan losses in the future as a result of increases in non-performing loans or for other reasons beyond its control. Any increases in the Group's provisions for loan losses and write-offs/charge-offs could have a material adverse effect on the Group's business, financial condition and/or results of operations.

Although the U.K. economy has begun to show signs of recovery from the recession that followed in the wake of the financial crisis, the economic recovery remains fragile and consumer sentiment remains weak amid concerns of a possible "double-dip" recession precipitated by (amongst other things) the U.K. Government's emergency budget and the possibility of rising interest rates in the face of persistent inflation above the Bank of England's target rate of 2.00 per cent. The housing market correction in the U.K. combined with increasing unemployment continue to adversely affect the credit performance of real estate related exposures, including both residential mortgages and loans to the real estate sector by Corporate Banking, resulting in impairments of asset values by financial institutions, including the Group. These conditions may continue to affect consumer confidence levels and may cause further adverse changes in payment patterns, causing increases in delinquencies and default rates, which may impact the Group's provision for credit losses and write-offs/charge-offs.

U.K. Government measures to tackle the record levels of national debt, including taxation rises and the £81 billion of public spending cuts announced in the Government Spending Review in October 2010, are also likely to result in a slower recovery than other recent recessions. Political involvement in the regulatory environment and the major financial institutions in which the U.K. Government has a direct financial interest will continue. U.K. Government demands for financial institutions to increase lending to support the economic recovery will increase competition for deposits, potentially narrowing margins.

The combination of slow economic recovery, U.K. Government intervention and competition for deposits will maintain the pressure on the Group's retail business model. Credit quality may improve in some sectors as the economy returns to growth but could be adversely affected by any increase in unemployment. These negative conditions in the U.K., together with any related significant reduction in the demand for the Group's products and services, could have a material adverse effect on the Group's business, financial condition and/or results of operations.

The Group's business, financial condition and/or results of operations may be negatively affected by conditions in global financial markets

The extreme volatility and disruption in global capital and credit markets over the past three years has led to severe dislocation of financial markets around the world, unprecedented reduced liquidity and increased credit risk premiums for many market participants. This has caused severe problems at many of the world's largest commercial banks, investment banks and insurance companies, a number of which are the Group's counterparties or customers in the ordinary course of business. These conditions have also resulted in a material reduction in the availability of

financing, both for financial institutions and their customers, compelling many financial institutions to rely on central banks and governments to provide liquidity and, in some cases, additional capital during this period. Governments around the world have sought to provide this liquidity in order to stabilise financial markets and prevent the failure of financial institutions.

Although these conditions have eased to some extent since 2009, the volatility of the capital and credit markets has continued and liquidity problems remain, exacerbated recently by fears concerning the financial health of a number of European governments. The continuing sovereign debt concerns and fiscal deterioration in relation to certain European countries may continue to accentuate the existing disruption in the capital and credit markets. The continuing market instability and reduction of available credit have contributed to decreasing consumer confidence, increased market volatility, increased funding costs, reduced business activity and, consequently, increasing commercial and consumer loan delinquencies, and market value declines on debt securities held by the Group, all of which could have a material adverse effect on the Group's business, financial condition and/or results of operations.

The Group's risk management measures may not be successful

The management of risk is an integral part of all of the Group's activities. Risk constitutes the Group's exposure to uncertainty and the consequent variability of return. Specifically, risk equates to the adverse effect on profitability or financial condition arising from different sources of uncertainty including credit risk (retail), credit risk (wholesale), credit risk (corporate) market risk, operational risk, securitisation risk, non traded market risk, concentration risk, liquidity and funding risk, reputational risk, strategic risk, pension obligation risk, residual value risk and regulatory risk. The Group seeks to monitor and manage its risk exposure through a variety of separate but complementary financial, credit, market, operational, compliance and legal reporting systems. While the Group employs a broad and diversified set of risk monitoring and risk mitigation techniques, such techniques, and the judgments that accompany their application, cannot anticipate every unfavourable event or the specifics and timing of every outcome. Accordingly, the Group's ability to successfully identify and balance risks and rewards, and to manage all material risks, is important. Failure to manage such risks appropriately could have a significant effect on the Group's business, financial condition and/or results of operations. For example, failure to manage the credit risk (retail) associated with mortgage lending could result in the Group making mortgage loans outside of appropriate risk parameters and potentially resulting in higher levels of default or delinquency on the Group's mortgage loan assets.

Risks concerning borrower credit quality are inherent in the Group's business

Risks arising from changes in credit quality and the recoverability of loans and amounts due from borrowers and counterparties are inherent in a wide range of the Group's businesses. Adverse changes in the credit quality of the Group's borrowers and counterparties as a result of a general deterioration in UK or global economic conditions, or arising from systemic risks in the financial system, could reduce the recoverability and value of the Group's assets and require an increase in the Group's level of provisions for bad and doubtful debts.

The Group estimates and establishes reserves for credit risks and potential credit losses inherent in its credit exposure. This process, which is critical to its results and financial condition, requires difficult, subjective and complex judgments, including forecasts of how these economic conditions might impair the ability of its borrowers to repay their loans. As is the case with any such assessments, the Group may fail to estimate accurately the impact of factors that it identifies. Any such failure may have a material adverse impact on the Group's business, financial condition and/or results of operations.

The soundness of other financial institutions could materially and adversely affect the Group's business

The Group's ability to engage in routine funding transactions could be adversely affected by the actions and commercial soundness or perceived commercial soundness of other financial institutions. Financial services institutions are interrelated as a result of trading, clearing, counterparty or other relationships. The Group has exposure to many different industries and counterparties, and routinely executes transactions with counterparties in the financial industry, including brokers and dealers, commercial banks, investment banks, mutual funds, and other institutional clients. Defaults by, or even rumours or questions about, one or more financial services institutions, or the financial services industry generally, have led to market-wide liquidity problems and could lead to losses for the Group or other

institutions as well as increased funding costs. Many transactions expose the Group to credit risk in the event of default of the Group's counterparty or client. In addition, the Group's credit risk may be exacerbated when the collateral held by the Group cannot be realised or is liquidated at prices not sufficient to recover the full amount of the loan or derivative exposure due to the Group. There is no assurance that any such losses would not materially and adversely affect the Group's business, financial condition and/or results of operations.

Risks associated with liquidity and funding are inherent in the Group's business

Liquidity risk is the risk that the Group, although solvent, either does not have available or sufficient financial resources to enable it to meet its obligations as they fall due or can secure them only at excessive cost. This risk is inherent in any retail and commercial banking business and can be heightened by a number of enterprise-specific factors, including over-reliance on a particular source of funding, changes in credit ratings or market-wide phenomena such as market dislocation. While the Group has implemented liquidity management processes to seek to mitigate and control these risks, unforeseen systemic market factors in particular make it difficult to eliminate completely these risks. Adverse and continued constraints in the supply of liquidity, including inter-bank lending, has affected and may materially and adversely affect the cost of funding the Group's business and extreme liquidity constraints may affect the Group's current operations as well as limit growth possibilities. Such events may also have a material adverse effect on the market value and liquidity of bonds issued by the Group in the secondary markets. From 2007 to 2010, the prime residential mortgage securitisation and covered bond markets experienced severe disruption as a result of a material reduction in investor demand for these securities. These markets, which are important sources of funding for the Group, remain relatively constrained for new external issuances of securities. Global investor confidence also remains low and other forms of wholesale funding remain relatively scarce.

Continued or worsening disruption and volatility in the global financial markets could have a material adverse effect on the Group's ability to access capital and liquidity on financial terms acceptable to it. If capital markets financing ceases to become available, or becomes excessively expensive, the Group may be forced to raise the rates it pays on deposits with a view to attracting more customers, and/or to sell assets, potentially at depressed prices. While central banks around the world have made coordinated efforts to increase liquidity in the financial markets by taking measures such as increasing the amounts they lend directly to financial institutions, lowering interest rates and significantly increasing temporary reciprocal currency arrangements (or swap lines), it is not known how long central bank schemes will continue or on what terms. The Bank of England has indicated that the Special Liquidity Scheme will not be extended when it expires in January 2012. It is also possible that the Bank of England will raise interest rates in the near-term, thereby increasing the cost of the Group's funding. The persistence or worsening of these adverse market conditions and the withdrawal of such central bank schemes or an increase in base interest rates, could have a material adverse effect on the Group's ability to access liquidity and cost of funding (whether directly or indirectly).

The Group relies, and will continue to rely, primarily on retail deposits to fund lending activities. The ongoing availability of this type of funding is sensitive to a variety of factors outside the Group's control, such as general economic conditions and the confidence of retail depositors in the economy, in general, and the financial services industry in particular, and the availability and extent of deposit guarantees, as well as competition between banks for deposits. Any of these factors could significantly increase the amount of retail deposit withdrawals in a short period of time, thereby reducing the Group's ability to access retail deposit funding on appropriate terms, or at all, in the future. If these circumstances were to arise, this could have a material adverse effect on the Group's business, financial condition and/or results of operations.

Any reduction in the credit rating assigned to the Group, any member of the Group or to any of their respective debt securities could increase the Group's cost of funding and liquidity position and adversely affect its interest margins

Credit ratings affect the cost and other terms upon which the Group is able to obtain funding. Rating agencies regularly evaluate the Group and certain members of the Group, as well as their respective debt securities. Their ratings are based on a number of factors, including the financial strength of the Group or of the relevant member, as well as conditions affecting the financial services industry generally. There can be no assurance that the rating agencies will maintain the Group's or the relevant member's current ratings or outlook, especially in light of the difficulties in the financial services industry and the financial markets. Any reduction in those ratings and outlook could increase the cost

of the Group's funding, limit access to capital markets, and require additional collateral to be placed, and consequently, adversely affect the Group's interest margins and/or affect its liquidity position.

Fluctuations in interest rates, bond and equity prices and other market factors are inherent in the Group's business

The Group faces significant interest rate and bond and equity price risks. Fluctuations in interest rates could adversely affect the Group's operations and financial condition in a number of different ways. An increase in interest rates generally may decrease the relative value of the Group's fixed rate loans and raise the Group's funding costs, although it would increase income from variable rate loans. Such an increase could also generally decrease the relative value of fixed rate debt securities in the Group's securities portfolio. In addition, an increase in interest rates may reduce overall demand for new loans and increase the risk of customer default, while general volatility in interest rates may result in a gap between the Group's interest rate-sensitive assets and liabilities. Interest rates are sensitive to many factors beyond the Group's control, including the policies of central banks, including, in particular, the Bank of England, as well as domestic and international economic conditions and political factors. It remains difficult to predict any changes in economic or financial market conditions, although there is increasing speculation that the Bank of England may have to increase interest rates in the near-term due to concerns over persistent inflation above the bank's target rate of 2.00 per cent.

Dramatic declines in housing markets over the past three years have adversely affected the credit performance of real estate-related loans and resulted in write-downs of asset values by many financial institutions (including the Group). These write-downs, initially of asset-backed securities but spreading to other securities and loans, have caused many financial institutions to seek additional capital, to reduce or eliminate dividends, to merge with larger and stronger institutions and, in some cases, to fail. Reflecting concern about the stability of the financial markets generally and the strength of counterparties, many lenders and institutional investors have reduced funding to borrowers, including to other financial institutions. As a result of these market forces, volatility in interest rates and basis spreads has increased, which has increased the Group's borrowing costs, while decreasing values of global debt and equity markets have had an adverse effect on the value of the Group's portfolio of mortgage-backed securities and other asset-backed securities issued by Banco Santander entities held for yield and liquidity purposes.

Any further increase in capital markets funding costs or deposit rates could precipitate a re-pricing of loans to customers, which could result in a reduction of volumes, and could also have an adverse effect on the Group's interest margins. While the Group would also expect to increase lending rates, there can be no assurance that it would be able to offset in full or at all its funding costs and, in addition, may face competitive pressure to pass on interest rate rises to retain existing and capture new customer deposits.

Santander UK also sponsors a number of defined benefit staff pension schemes, and its obligations to those schemes may increase depending on the performance of financial markets. Although the Group is undertaking measures to mitigate and control the effects of these conditions, there can be no assurances that such controls will insulate the Group from deteriorating market conditions.

Changes in foreign exchange rates affect the value of assets and liabilities denominated in foreign currencies, and such changes, and the degree of volatility with respect thereto, may affect earnings reported by the Group.

Market conditions have resulted, and could result in the future, in material changes to the estimated fair values of financial assets of the Group. Negative fair value adjustments could have a material adverse effect on the Group's operating results, financial condition and prospects

In the past three years, financial markets have been subject to significant stress conditions resulting in steep falls in perceived or actual financial asset values, particularly due to the recent volatility in global financial markets and the resulting widening of credit spreads.

The Group has material exposures to securities and other investments that are recorded at fair value and are therefore exposed to potential negative fair value adjustments. Asset valuations in future periods, reflecting then prevailing market conditions, may result in negative changes in the fair values of the Group's financial assets and these may also translate into increased impairments. In addition, the value ultimately realised by the Group on disposal may

be lower than the current fair value. Any of these factors could require the Group to record negative fair value adjustments, which may have a material adverse effect on its operating results, financial condition or prospects.

In addition, to the extent that fair values are determined using financial valuation models, such values may be inaccurate or subject to change, as the data used by such models may not be available or may become unavailable due to changes in market conditions, particularly for illiquid assets, and particularly in times of economic instability. In such circumstances, the Group's valuation methodologies require it to make assumptions, judgments and estimates in order to establish fair value, and reliable assumptions are difficult to make and are inherently uncertain and valuation models are complex, making them inherently imperfect predictors of actual results. Any consequential impairments or write-downs could have a material adverse effect on the Group's operating results, financial condition and prospects.

A core strategy of Santander UK is to grow the Group's operations and it may not be able to manage such growth effectively, which could have an adverse impact on its profitability

The Group allocates management and planning resources to develop strategic plans for organic growth, and to identify possible acquisitions and disposals and areas for restructuring the Group's businesses. The Group cannot provide assurance that it will, in all cases, be able to manage its growth effectively or deliver its strategic growth objectives. Challenges that may result from the strategic growth decisions include the Group's ability to:

- manage efficiently the operations and employees of expanding businesses;
- maintain or grow its existing customer base;
- assess the value, strengths and weaknesses of investment or acquisition candidates;
- finance strategic investments or acquisitions;
- fully integrate strategic investments, or newly established entities or acquisitions in line with its strategy;
- align its current information technology systems adequately with those of an enlarged Group;
- apply its risk management policy effectively to an enlarged Group; and
- manage a growing number of entities without over-committing management or losing key personnel.

The Group may incur unanticipated losses related to its business combinations

The Group has made several recent business acquisitions, including the acquisition of Alliance & Leicester plc and the retail deposits, branch network and related employees of Bradford & Bingley. In October and November 2010, Santander UK also acquired the following Banco Santander entities:

- Santander Cards Limited, Santander Cards UK Limited (and its subsidiaries) and Santander Cards Ireland Limited;
- Santander Consumer (UK) plc (of which Santander UK already held 49.9%); and
- Santander PB UK (Holdings) Limited (of which Santander UK already held 51%) and its subsidiaries, (together, the "**Reorganisation**")

Santander UK will also acquire those parts of the banking business of the Royal Bank of Scotland Group which are carried out through its Royal Bank of Scotland branches in England and Wales and its NatWest branches in Scotland (the "**RBS Acquisition**") upon completion of the acquisition.

The Group's assessment of the businesses acquired under the Reorganisation and to be acquired under the RBS Acquisition is based on certain assumptions with respect to operations, profitability, asset quality and other matters that may prove to be incorrect. In the case of the RBS Acquisition, this assessment was also based on limited information, as

there were no standalone audited financial statements in respect of the relevant assets. There can be no assurance that the Group will not be exposed to currently unknown liabilities resulting from these business combinations. Any unanticipated losses or liabilities could have a material adverse effect on the Group's business, financial condition and/or results of operations.

The Group may fail to realise the anticipated benefits of its recent or proposed business combinations

The success of the Group's business combinations will depend, in part, on the Group's ability to realise the anticipated benefits from combining with the businesses of Alliance & Leicester, those acquired under the Reorganisation and the assets to be acquired under the RBS Acquisition, with the Group's business. It is possible that the integration process could take longer or be more costly than anticipated. The eventual integration of the assets to be acquired under the RBS Acquisition is dependent upon, among other things, the successful transition to Partenon (the proprietary IT platform used by Grupo Santander). Any delay could result in additional costs to the Group and mean that the Group does not receive the full benefit anticipated from such acquisition. The Group's efforts to integrate these businesses are also likely to divert management attention and resources. If the Group takes longer than anticipated or is not able to integrate these businesses, the anticipated benefits of the Group's business combinations may not be realised fully or at all.

Goodwill impairments may be required in relation to certain of the Group's acquired businesses

The Group has made several recent business acquisitions (including the transfer of Alliance & Leicester, and the acquisition of the retail deposits, branch network and related employees of Bradford & Bingley, and certain businesses under the Reorganisation), and will acquire certain assets under the RBS Acquisition. It is possible that the goodwill which has been attributed, or will be attributed, to these businesses may have to be written-down if Santander UK's valuation assumptions are required to be reassessed as a result of any deterioration in their underlying profitability, asset quality and other relevant matters. Impairment testing in respect of goodwill is performed annually, more frequently if there are impairment indicators present, and comprises a comparison of the carrying amount of the cash-generating unit with its recoverable amount. There can be no assurances that Santander UK will not have to write down the value attributed to goodwill in the future, which would adversely affect the Group's results and net assets.

The Group's business is conducted in a highly competitive environment

The market for UK financial services is highly competitive and the recent financial crisis has re-shaped the banking landscape in the United Kingdom, reinforcing both the importance of a retail deposit funding base and strong capitalisation. The Group expects such competition to intensify in response to consumer demand, technological changes, the impact of consolidation regulatory actions and other factors. If financial markets remain unstable, financial institution consolidation may continue (whether as a result of the UK Government taking ownership and control over other financial institutions in the UK or otherwise). Financial institution consolidation could also result from the UK Government disposing of its stake in those financial institutions it currently controls. Such consolidation could adversely affect the Group's business, financial condition and/or results of operations. The increased competition could result in declining lending margins or competition for savings driving up funding costs that cannot be recovered from borrowers, all of which could adversely affect the Group's business, financial condition, and/or results of operations.

In addition, if the Group's customer service levels were perceived by the market to be materially below those of its UK competitor financial institutions, the Group could lose existing and potential new business. If the Group is not successful in retaining and strengthening customer relationships, it may lose market share, incur losses on some or all of its activities or fail to attract new deposits or retain existing deposits, which could have a material adverse effect on its business, financial condition and/or results of operations.

Operational risks are inherent in the Group's business

Operational losses can result from fraud, criminal acts, errors by employees, failure to document transactions properly or to obtain proper authorisation, failure to comply with regulatory requirements and conduct of business rules, failure or breakdown of accounting, data processing and other record keeping systems, natural disasters, or failure or

breakdown of external systems, including those of the Group's suppliers or counterparties. Such operational losses could have a material adverse effect on Santander UK's business, financial condition and/or results of operations.

Nothing in this risk factor should be taken to imply that any of the Issuer or the Guarantor would be unable to comply with their obligations as a company with securities admitted to the Official List or as a supervised firm regulated by the FSA.

Reputational risk could cause harm to the Group and its business prospects

The Group's ability to attract and retain customers and conduct business transactions with its counterparties could be adversely affected to the extent that its reputation, the reputation of Banco Santander (as the majority shareholder in Santander UK) or the reputation of affiliates operating under the Santander brand or any of its other brands is damaged. Failure to address, or appearing to fail to address, various issues that could give rise to reputational risk could cause harm to the Group and its business prospects. Reputational issues include, but are not limited to: appropriately addressing potential conflicts of interest; legal and regulatory requirements; ethical issues; adequacy of anti-money laundering processes; privacy issues; customer service issues; record-keeping; sales and trading practices; proper identification of the legal, reputational, credit, liquidity and market risks inherent in products offered; and general company performance (including the quality of Santander UK's customer services). A failure to address these issues appropriately could make customers unwilling to do business with the Group, which could adversely affect its business, financial condition and/or results of operations.

The Group's business is subject to substantial legislative, regulatory and governmental oversight

The Group is subject to extensive financial services laws, regulations, administrative actions and policies in each location in which the Group operates (including in the U.S. and, indirectly, in Spain, as a result of being part of Grupo Santander).

During the recent market turmoil there have been unprecedented levels of government and regulatory intervention and scrutiny and changes to the regulations governing financial institutions. In addition, in light of the financial crises, regulatory and governmental authorities are considering, or may consider, further enhanced or new legal or regulatory requirements intended to prevent future crisis or otherwise assure the stability of institutions under their supervision. It is anticipated that this intensive approach to supervision will be continued by any successor regulatory authorities to the FSA.

Recent proposals and measures taken by governmental, tax and regulatory authorities and future changes in supervision and regulation, in particular in the UK, which are beyond the Group's control, could materially affect the Group's business, the products and services offered or the value of assets as well as the Group's operations and result in significant increases in operational costs. Changes in UK legislation and regulation to address the stability of the financial sector may also affect the competitive position of the UK banks, including Santander UK, particularly if such changes are implemented before international consensus is reached on key issues affecting the industry, for instance in relation to the FSA's regulations on liquidity risk management and also the UK Government's introduction of a levy on banks. Although the Group works closely with its regulators and continually monitors the situation, future changes in regulation, fiscal or other policies can be unpredictable and are beyond the control of the Group. No assurance can be given generally that laws or regulations will be adopted, enforced or interpreted in a manner that will not have an adverse effect on the Group's business. The resolution of a number of issues, including regulatory investigations and reviews (such as the review by the Office of Fair Trading of barriers to entry, expansion and exit in retail banking in the UK, the results of which were published on 4 November 2010) and court cases, affecting the UK financial services industry could have an adverse effect on the Group's business, financial condition and/or results of operations or its relations with some of its customers and potential customers.

The Group is subject to regulatory capital and liquidity requirements that could limit its operations, and changes to these requirements may further limit and adversely affect its business, financial condition and/or results of operations

The Group is subject to capital adequacy requirements adopted by the FSA for banks, which provide for a minimum ratio of total capital to risk-adjusted assets both on a consolidated basis and on a solo consolidated basis (the basis used by the FSA solely for the purpose of the calculation of capital resources and capital resources requirements, which comprises Santander UK and certain subsidiaries), expressed as a percentage. Any failure by the Group to maintain its ratios this may result in administrative actions or sanctions which may affect the Group's ability to fulfil its obligations.

In response to the recent financial crisis, the FSA has imposed, and may continue to impose more stringent capital adequacy requirements, including increasing the minimum regulatory capital requirements imposed on the Group. For instance, the FSA has adopted a supervisory approach in relation to certain UK banks, including the Group, under which those banks are expected to maintain Tier 1 Capital in excess of the minimum levels required by the existing rules and guidance of the FSA. The FSA is currently considering, and in the process of consulting on, changes to the eligibility criteria for Tier 1 Capital as well as provisions that may result in banks being required to increase the level of regulatory capital held in respect of trading book risks. This consultation is taking place ahead of the UK implementation of the recent amendments and proposed amendments to the EU-wide capital adequacy requirements (as set out in the amended Directive 2006/48/EC and Directive 2006/49/EC).

On 5 October 2009, the FSA published its new liquidity rules which significantly broadened the scope of the existing liquidity regime and are designed to enhance regulated firms' liquidity risk management practices. As part of these reforms, the FSA is also expected to implement gradually requirements for financial institutions to hold prescribed levels of liquid assets and have in place other sources of liquidity to address the institution-specific and market-wide liquidity risks that institutions may face in short-term and prolonged stress scenarios.

Following its consultation paper issued in December 2009, the Basel Committee on Banking Supervision announced in September 2010 that it had reached agreement on a number of proposals to reform international capital adequacy and liquidity standards in order to increase resilience in the banking sector from financial and economic stresses (broadly referred to as Basel III). The changes brought about by Basel III include, among other things, phasing out Innovative Tier 1 Capital instruments with incentives to redeem and implementing a leverage ratio on institutions in addition to current risk-based regulatory capital requirements. As a retail bank, Santander UK's current leverage ratio is high, reflecting the low risk-weighting of its assets. Basel III also requires institutions to build counter-cyclical capital buffers that may be drawn upon in stress scenarios, as well as increasing the amount and quality of Tier 1 Capital that institutions are required to hold. The changes brought about by Basel III will be phased in gradually between January 2013 and January 2019. The most recent Basel capital rules have raised the minimum level of tangible common equity capital from 2 to 7 per cent. of risk-weighted assets, however it is not yet known whether the FSA will require U.K. banks to hold a further buffer above this level.

These measures could have a material adverse effect on the Group's business, financial condition and/or results of operations. There is a risk that changes to the UK capital adequacy regime (including any introduction of a minimum leverage ratio) may result in increased minimum capital requirements, which could reduce available capital and thereby adversely affect the Group's profitability and ability to pay dividends, continue organic growth (including increased lending) or pursue acquisitions or other strategic opportunities (unless the Group were to restructure its balance sheet in order to reduce the capital charges incurred pursuant to the FSA Rules in relation to the assets held, or alternatively raise additional capital but at increased cost and subject to prevailing market conditions). In addition, changes to the eligibility criteria for Tier 1 Capital may affect the Group's ability to raise Tier 1 Capital or the eligibility of existing Tier 1 Capital resources.

There is also a risk that implementing and maintaining enhanced liquidity risk management systems may incur significant costs and more stringent requirements to hold liquid assets may materially affect the Group's lending business as more funds may be required to acquire or maintain a liquidity buffer, thereby reducing future profitability.

UK tax changes (including the new bank levy) could have a material adverse effect on the Group's business

HM Treasury will introduce a new and permanent bank levy via legislation in the Finance Bill 2011. The bank levy will be imposed on (amongst other entities) UK banking groups and subsidiaries, and therefore applies to the Group. The amount of the levy will be based on a bank's total liabilities, excluding (amongst other things) Tier 1 Capital, insured retail deposits and repos secured on sovereign debt. A reduced rate will be applied to longer-term liabilities.

HM Treasury has emphasised that the levy will not be regarded as insurance against future bank failures and that it is exploring the costs and benefits of imposing a financial activities tax on the profits and remuneration of banking groups.

The bank levy, and possible future changes in the taxation of banking groups in the UK, could have a material adverse effect on Santander UK's business, results of operations and/or financial condition, and the competitive position of UK banks, including Santander UK.

The Group is exposed to various forms of legal and regulatory risk, including the risk of misselling financial products, acting in breach of legal or regulatory principles or requirements and giving negligent advice, any of which could have a material adverse effect on its business, financial condition and/or results of operations or its relations with its customers

The Group is exposed to many forms of legal and regulatory risk, which may arise in a number of ways. Primarily:

- certain aspects of the Group's business may be determined by the Bank of England, the FSA, HM Treasury, the Financial Ombudsman Service ("FOS") or the courts as not being conducted in accordance with applicable laws or regulations, or, in the case of the Financial Ombudsman Service, with what is fair and reasonable in the Ombudsman's opinion;
- the alleged misselling of financial products, resulting in disciplinary action or requirements to amend sales processes, withdraw products, or provide restitution to affected customers, all of which may require additional provisions.
- the Group holds accounts for entities that might be or are subject to interest from various regulators, including the Serious Fraud Office, those in the US and others. The Group is not aware of any current investigation into the Group as a result of any such enquiries but cannot exclude the possibility of the Group's conduct being reviewed as part of any such investigations; and
- the Group may be liable for damages to third parties harmed by the conduct of its business.

In addition, the Group faces both financial and reputational risk where legal or regulatory proceedings, or the Financial Ombudsman Service, or other complaints are brought against it in the UK High Court or elsewhere, or in jurisdictions outside the UK, including other European countries and the United States.

Failure to manage these risks adequately could have a material adverse effect on the Group's reputation and/or its business, financial condition and/or results of operations.

The structure of the financial regulatory authorities in the UK and the UK regulatory framework that applies to members of the Group is the subject of reform and reorganisation

The UK Government announced proposals on 16 and 17 June 2010 to reform the institutional framework for UK financial regulation. Specifically, the UK Government intends to disband the FSA and reallocate its current responsibilities between three new regulatory authorities.

Any substantial reorganisation of the regulatory framework has the potential to cause administrative and operational disruption for the regulatory authorities concerned. This disruption could impact on the resources which the FSA or any successor authority is able to devote to the supervision of regulated financial services firms, the nature of its approach to supervision and accordingly, the ability of regulated financial sector firms (including members of the Group) to deal effectively with their supervisors and to anticipate and respond appropriately to developments in regulatory policy.

While it is not presently anticipated that the structural reorganisation of the regulatory authorities concerned will, itself, lead to substantive changes in the regulatory provisions and conduct of business rules and guidance which have been made or are being consulted on by the FSA, it is possible that future changes in the nature of, or policies for, prudential and conduct of business supervision, as performed by any successor authority to the FSA, will differ from the current approach taken by the FSA and that this could lead to a period of some uncertainty for members of the Group.

Any or all of these factors could have a material adverse effect on the conduct of the business of the Group and, therefore, also on its strategy and profitability, and its ability to respond to and satisfy the supervisory requirements of the relevant UK regulatory authorities.

Various new reforms to the mortgage lending market have been proposed which could require significant implementation costs or changes to the business strategy of relevant members of the Group and may create uncertainty in the application of relevant laws or regulation

In March 2009, the Turner Review, "A regulatory response to the global banking crisis", was published and set out a detailed analysis of how the global financial crisis began along with a number of recommendations for future reforms and proposals for consultation. In the Turner Review, it was announced that the FSA would publish a discussion paper considering the possibility of a move towards the regulation of mortgage products (in addition to the product providers) and other options for reform of the mortgage market. This discussion paper (Discussion Paper 09/3) was published in October 2009 and launched the FSA's "Mortgage Market Review". The review involved a consultation concerning various potential reforms to the regulatory framework applicable to mortgage lenders and mortgage intermediaries, including in relation to mortgage firms' conduct of business, product distribution and advice, and their handling of arrears and repossessions.

Separately, HM Treasury announced on 26 March 2010 that it had decided to transfer the responsibility for the regulation of second charge residential mortgages, including existing loans, from the OFT to the FSA, and further to consider changes to the form of regulation proposed to protect consumers in the buy-to-let sector and to take action to protect borrowers when mortgage books are on-sold.

At this stage, it is not possible accurately to predict the nature and impact that these reforms (and any further reforms considered as part of the Mortgage Market Review) may have. However, it is possible that such reforms, if adopted, could lead to a period of uncertainty for the affected members of the Group, particularly as regards changes that may be required to the operational strategy and capital management of the relevant entity, and the supervisory approach taken by the FSA in relation to second charge mortgages, a portfolio of which the Group acquired as a result of its acquisition of Alliance & Leicester. In addition, a change of UK Government has occurred since these proposals were adopted and a new UK regulatory structure has been proposed. While there is, at present, nothing to suggest that these proposals will not be implemented, the change of UK Government and the proposed reforms to the regulatory supervisory structure could give rise to uncertainty for members of the Group as to whether or when the proposed reforms will take place.

As a consequence of such changes and any associated costs that may arise, it is possible that there could be a material adverse effect on the business, financial condition and/or results of operations of the Group.

Potential intervention by the FSA (or an overseas regulator) may occur, particularly in response to attempts by customers to seek redress from financial service institutions, including the Group, where it is alleged that particular products fail to meet the customers' reasonable expectations.

Customers of financial services institutions, including customers of the Group, may seek redress if they consider that they have suffered loss as a result of the misselling of a particular product, or through incorrect application of the terms and conditions of a particular product. Given the inherent unpredictability of litigation and the evolution of judgments by the FOS, it is possible that an adverse outcome in some matters could have a material adverse effect on the business, results of operations and/or financial condition of the Group arising from any penalties imposed or compensation awarded, together with the costs of defending such an action.

The Financial Services Act 2010 has provided for a new power for the FSA which enables the FSA to require authorised firms, including members of the Group, to establish a consumer redress scheme if it considers that consumers have suffered loss or damage as a consequence of a widespread or regular regulatory failing, including misselling.

In recent years there have been several industry-wide issues in which the FSA has intervened directly. One such issue is the misselling of Payment Protection Insurance ("PPI"), on which topic, in August 2010, the FSA published Policy Statement 10/12 entitled "The assessment and redress of Payment Protection Insurance complaints". This policy statement contains final FSA Rules which alter the basis on which FSA regulated firms (including Santander UK and certain members of the Group) must consider and deal with complaints in relation to the sale of PPI and may potentially increase the amount of compensation payable to customers whose complaints are upheld. In October 2010 the British Bankers' Association applied for judicial review of these new rules and it is currently uncertain as to whether this application will lead to further changes to the rules. Santander UK and certain members of the Group have sold and continue to sell PPI. At this point in time, Santander UK and the relevant members of the Group are assessing the likely impact of the revised FSA Rules on this subject. However, it is possible that these new rules may increase the costs associated with assessing PPI complaints and may lead to Santander UK and/or members of the Group paying out substantially higher amounts in compensation to customers who make such complaints. As a result, this may ultimately have an impact on the business, financial condition and/or results of operations of Santander UK and the Group.

The FSA may identify future industry-wide misselling or other issues that could affect the Group. This may lead from time to time to: (i) significant direct costs or liabilities (including in relation to misselling); and (ii) changes in the practices of such businesses which benefit customers at a cost to shareholders.

Decisions taken by the FOS (or any overseas equivalent that has jurisdiction) could, if applied to a wider class or grouping of customers, have a material adverse effect on the business, results of operations and/or financial condition of the Group.

Members of the Group are responsible for contributing to compensation schemes in the UK in respect of banks and other authorised financial services firms that are unable to meet their obligations to customers

In the United Kingdom, the Financial Services Compensation Scheme (the "FSCS") was established under FSMA and is the UK's statutory fund of last resort for customers of authorised financial services firms. The FSCS can pay compensation to customers if an FSA authorised firm is unable, or likely to be unable, to pay claims against it (for instance, an authorised bank is unable to pay claims by depositors). The FSCS is funded by levies on firms authorised by the FSA, including Santander UK and other members of the Group.

In the event that the FSCS raises funds from authorised firms, raises those funds more frequently or significantly increases the levies to be paid by such firms, the associated costs to the Group may have a material adverse effect on its business, financial condition and/or results of operations. The recent measures taken to protect the depositors of deposit-taking institutions involving the FSCS have resulted in a significant increase in the levies made by the FSCS on the industry and such levies may continue to go up in the future if similar measures are required to protect depositors of other institutions.

In addition, regulatory reform initiatives in the UK and internationally may result in further changes to the FSCS, which could result in additional costs and risks for the Group. For instance, the FSA produced a consultation paper on pre-funding the FSCS, which may affect the profitability of Santander UK (and other members of the Group required to contribute to the FSCS), although the UK Government has stated that pre-funding would not be introduced before 2012.

As a result of the structural reorganisation and reform of the UK financial regulatory authorities, it is proposed that the FSCS will become the responsibility of one of the successor regulatory authorities to the FSA. It is possible that future policy of the FSCS and future levies on the firms authorised by the FSA may differ from those at present and that this could lead to a period of some uncertainty for members of the Group. In addition, it is possible that other jurisdictions where the Group operates could introduce similar compensation, contributory or reimbursement schemes. As a result of any such developments, the Group may incur additional costs and liabilities which may adversely affect its business, financial condition and/or results of operations.

The UK Banking Act may adversely affect the Group's business

The U.K. Banking Act came into force on 21 February 2009. It provides H.M. Treasury, the Bank of England and the FSA with a variety of tools for dealing with U.K. institutions which are authorised deposit takers and are failing. If the position of a relevant entity in the Group were to decline so dramatically that it was considered to be failing, or likely to fail, to meet threshold authorisation conditions set out in FSMA (for example, if there were a mass withdrawal of deposits over solvency fears surrounding Santander UK, in a manner analogous to the situation that occurred at Northern Rock, adversely affecting the ability of Santander UK to continue to trade), it could become subject to the exercise of powers by HM Treasury, the Bank of England and the FSA under the special resolution regime set out in the Banking Act. The special resolution regime provides HM Treasury, the Bank of England and the FSA with a variety of powers for dealing with UK deposit taking institutions that are failing or likely to fail, including: (i) to take a bank or bank holding company into temporary public ownership; (ii) to transfer all or part of the business of a bank to a private sector purchaser; or (iii) to transfer all or part of the business of a bank to a "bridge bank". The special resolution regime also comprises a separate insolvency procedure and administration procedure each of which is of specific application to banks. These insolvency and administration measures may be invoked prior to the point at which an application for insolvency proceedings with respect to a relevant institution could be made.

If an instrument or order were made under the Banking Act in respect of Santander UK, such instrument or order (as the case may be) may (among other things): (i) result in a compulsory transfer of shares and/or other securities or property of Santander UK; and/or (ii) impact on the rights of the holders of shares or other securities in Santander UK, and/or result in the nullification or modification of the terms and conditions of such shares or securities; and/or (iii) result in the de-listing of Santander UK's shares and/or other securities. In addition, such an order may affect matters in respect of Santander UK and/or other aspects of Santander UK's shares or other securities which may negatively affect the ability of Santander UK to meet its obligations in respect of such shares or securities.

At present, no instruments or orders have been made under the Banking Act in respect of the Group and there has been no indication that any such order will be made, but there can be no assurance that holders of shares or other securities in Santander UK would not be adversely affected by any such order if made in the future.

The Group's operations are highly dependent on its information technology systems

The Group's business, financial performance and ability to meet its strategic objectives depend to a significant extent upon the functionality of its information technology systems, including Partenon, and its ability to increase systems capacity. The proper functioning of the Group's financial control, risk management, credit analysis and reporting, accounting, customer service and other information technology systems, as well as the communication networks between its branches and main data processing centres, are critical to the Group's business and its ability to compete. For example, the Group's ability to process credit card and other electronic transactions for its customers is an essential element of its business. A disruption (even short-term) to the functionality of the Group's information technology systems (whether as a result of migrating any new business onto Partenon or otherwise), delays or other problems in increasing the capacity of the information technology systems or increased costs associated with such systems could have a material adverse effect on the Group's business, financial condition and/or results of operations.

The Group relies upon certain outsourced services (including information technology support, maintenance and consultancy services in connection with Partenon) provided by certain other members of Grupo Santander. Any material change in the basis upon which these services are provided to the Group could have a material adverse effect on the Group's business, financial condition and/or results of operations.

In addition, if the Group fails to update and develop its existing information technology systems as effectively as its competitors, this may result in a loss of the competitive advantages that the Group believes its information technology systems provide, which could also have a material adverse effect on the Group's business, financial condition and/or results of operations.

Third parties may use the Group as a conduit for illegal activities without the Group's knowledge, which could have a material adverse effect on the Group

The Group is required to comply with applicable anti-money laundering laws and regulations and has adopted various policies and procedures, including internal control and "know-your-customer" procedures, aimed at preventing use of the Group for money laundering. For example, a major focus of US governmental policy relating to financial institutions in recent years has been combating money laundering and enforcing compliance with US economic sanctions. The outcome of any proceeding or complaint is inherently uncertain and could have a material adverse effect on the Group's operations and/or financial condition, especially to the extent that the scope of any such proceedings expands beyond its original focus.

In addition, while the Group reviews its relevant counterparties' internal policies and procedures with respect to such matters, the Group, to a large degree, relies upon its relevant counterparties to maintain and properly apply their own appropriate anti-money laundering procedures. Such measures, procedures and compliance may not be completely effective in preventing third parties from using the Group (and its relevant counterparties) as a conduit for money laundering (including illegal cash operations) without the Group's (and its relevant counterparties') knowledge. If the Group is associated with, or even accused of being associated with, or becomes a party to, money laundering, then its reputation could suffer and/or it could become subject to fines, sanctions and/or legal enforcement (including being added to any "black lists" that would prohibit certain parties from engaging in transactions with the Group), any one of which could have a material adverse effect on the Group's business, financial condition and/or results of operations.

Changes in the pension liabilities and obligations of the Group could have a materially adverse effect on the Group

The Group provides retirement benefits for many of its former and current employees in the United Kingdom through a number of defined benefit pension schemes established under trust. The Group has only limited control over the rate at which it pays into such schemes. Under the UK statutory funding requirements, employers are usually required to contribute to the schemes at the rate they agree with the scheme trustees, although if they cannot agree, such rate can be set by the Pensions Regulator. The scheme trustees may, in the course of discussions about future valuations, seek higher employer contributions. The scheme trustees' power in relation to the payment of pension contributions depends on the terms of the trust deed and rules governing the pension schemes.

The UK Pensions Regulator has the power to issue a financial support direction to companies within a group in respect of the liability of employers participating in the UK defined benefit pension plans where that employer is a service company, or is otherwise "insufficiently resourced" (as defined for the purposes of the relevant legislation). As some of the employers within the Group are service companies or may become insufficiently resourced, other companies within the Group which are connected with or an associate of those employers are at risk of a financial support direction in respect of those employers' liabilities to the defined benefit pension schemes in circumstances where the Pensions Regulator properly considers it reasonable to issue one. Such a financial support direction could require the companies to guarantee to provide security for the pension liabilities of those employers, or could require additional amounts to be paid into the relevant pension schemes in respect of them.

The High Court decided in the 2010 case of *Bloom and others v The Pensions Regulator (Nortel, Re)* that liabilities under financial support directions issued by the Pensions Regulator against companies after they have gone into administration were payable as an expense of the administration, and did not rank as provable debts. This means that such liabilities will have to be satisfied before any distributions to unsecured creditors could be made. The matter

is not yet settled as it is understood that there will be an expedited appeal to the Court of Appeal and amendment to the existing legislation may be introduced.

The Pensions Regulator can also issue contribution notices if it is of the opinion that an employer has taken actions, or failed to take actions, deliberately designed to avoid meeting its pension promises or which are materially detrimental to the scheme's ability to meet its pension promises. A contribution notice can be moved to any company which is connected with or an associate of such employer in circumstances where the Regulator considers it reasonable to issue. The risk of a contribution notice being imposed may inhibit the freedom of the Group to restructure itself or to undertake certain corporate activities.

Changes in the size of the deficit in the defined benefit schemes operated by the Group, due to reduction in the value of the pension fund assets (depending on the performance of financial markets) or an increase in the pension fund liabilities due to changes in mortality assumptions, the rate of increase of salaries, discount rate assumptions, inflation, the expected rate of return on plan assets, or other factors, could result in the Group having to make increased contributions to reduce or satisfy the deficits which would divert resources from use in other areas of the Group's business and reduce Santander UK's capital resources. While a number of the above factors can be controlled by the Group, there are some over which it has no or limited control. Although the trustees of the defined benefit pension schemes are obliged to consult the Group before changing the pension schemes' investment strategy, the trustees have the final say.

The Group relies on recruiting, retaining and developing appropriate senior management and skilled personnel

The Group's continued success depends in part on the continued service of key members of its management team. The ability to continue to attract, train, motivate and retain highly qualified professionals is a key element of the Group's strategy. The successful implementation of the Group's growth strategy depends on the availability of skilled management, both at its head office and at each of its business units. If the Group or one of its business units or other functions fails to staff their operations appropriately or loses one or more of its key senior executives and fails to replace them in a satisfactory and timely manner, its business, financial condition and/or results of operations, including control and operational risks, may be adversely affected. Likewise, if the Group fails to attract and appropriately train, motivate and retain qualified professionals, its business may be affected.

3. General risks relating to investments in the Notes

The Notes are unsecured obligations of the Issuer and the Guarantor

All Notes will represent direct, unconditional and unsecured obligations of the Issuer. All Notes will rank *pari passu* and without any preference among themselves and subject to any applicable statutory provisions or judicial order, at least equally with all other present and future unsecured and unsubordinated obligations of the Issuer.

The obligations of the Issuer are fully and unconditionally guaranteed by the Guarantor. It should however be noted that this Guarantee extends only to amounts which have become due and payable or obligations which are due to be performed in accordance with the General Terms and Conditions of the Notes. It is not an assurance that any amount will become due and payable or any other relevant obligation arise under the terms of the relevant Note (for example, in certain circumstances, interest and/or principal will cease to be payable, or the amount payable will be reduced, under the terms of the relevant Note).

Investors should note in particular that even in respect of Notes which are expressed to be "principal protected" or "capital protected" and/or include a minimum redemption amount, return of an investor's initial capital investment remains dependent on the Issuer and/or the Guarantor's ability to meet their obligations in full. Where the Issuer and/or the Guarantor are unable to do so, an investor will lose some and possibly all of the amount invested. In addition amounts payable may be subject to deductions for taxes and/or expenses and any amount payable on early redemption or "a secondary market sale of Notes may be significantly less than the amount that would otherwise be payable at maturity.

The Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- understand thoroughly (if necessary, in consultation with the investor's own legal, tax, accountancy, regulatory, investment or other professional advisers) the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- be able to evaluate (either alone or with the help of a financial adviser and/or other professional advisor) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

In addition, an investment in Equity Linked Notes, Equity Index Linked Notes, Inflation Linked Notes, Credit Linked Notes, Currency Linked Notes, Commodity Linked Notes, Fund Linked Notes, Property Linked Notes or other structured Notes linked to other assets or bases of reference, may entail significant risks not associated with investments in conventional securities such as debt or equity securities, including, but not limited to, the risks set out in "Risks associated with specific Types of Notes" below.

Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser and/or other professional advisor) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

The Issuer and the Guarantor cannot assure a trading market for the Notes will ever develop or be maintained

The Issuer may issue Notes in different series with different terms in amounts that are to be determined. Such Notes may be unlisted or listed on a recognised stock exchange and there can be no assurance regarding the ability of Noteholders to sell their Notes or the price at which such holders may be able to sell their Notes. Investors should however, be aware of the prevailing and widely reported global credit market conditions, whereby a general lack of liquidity in the secondary market for instruments similar to the Notes may result in investors suffering losses on Notes in secondary resales even if there is no decline in the performance of the assets of the Issuer or the Guarantor. The Issuer and the Guarantor cannot predict when these circumstances will change and whether, if and when they do change, there will be a more liquid market for the Notes at that time. If a trading market were to develop, the Notes could trade at prices that may be higher or lower than the relevant initial issue price and this may result in a return that is greater or less than the interest or other additional amounts payable in respect of the Notes, depending on many factors, including:

- the Group's financial results;

- any change in the Issuer's or the Guarantor's creditworthiness;
- the market for similar securities or instruments;
- the complexity and volatility of the Relevant Assets (hereinafter defined) applicable to any Notes issued under the Programme;
- the method of calculating the principal, premium (of any), interest (if any) and other amounts payable in respect of the Notes;
- the time remaining to the maturity of the Notes;
- the outstanding amount of the Notes;
- the redemption features of the Notes; and
- the level, direction and volatility of market interest rates generally.

In addition, certain Notes have a more limited trading market and experience more price volatility because they were designed for specific investment objectives or strategies. There may be a limited number of buyers when an investor decides to sell such Notes. This may affect the price an investor receives for such Notes, or the ability of an investor to sell such Notes at all.

Application may be made to list an issue of Notes on a stock exchange, as indicated in the applicable Final Terms. The fact that the Notes may be listed does not necessarily lead to greater liquidity. No assurance can be given that there will be a market for any Notes. If Notes are not traded on any stock exchange, pricing information for such Notes may be more difficult to obtain, and the liquidity and market prices of such Notes may be adversely affected. The liquidity of the Notes may also be affected by restrictions on offers and sales of Notes in some jurisdictions. Notes may be more difficult to obtain and the liquidity of the Notes may be adversely affected. Also, to the extent Notes of a particular issue are cancelled or redeemed, as the case may be, the number of Notes of such issue outstanding will decrease, resulting in a diminished liquidity for the remaining Notes of such issue. A decrease in the liquidity of an issue of Notes may cause, in turn, an increase in the volatility associated with the price of such issue of Notes.

Each of the Issuer and any Dealer and any financial intermediary may, but is not obliged to, at any time purchase Notes at any price in the open market or by tender or private treaty. Any Notes so purchased may be held or resold or surrendered for cancellation. A Dealer or any financial intermediary may, but is not obliged to, be a market-maker for an issue of Notes. Even if a Dealer or any financial intermediary is a market-maker for an issue of Notes, the secondary market for such Notes may be limited. To the extent that an issue of Notes becomes illiquid, an investor may have to await redemption of such Notes to realise their value.

There may be less liquidity in the secondary market for the Notes also if they are exclusively offered to retail investors without any offer to institutional investors.

Over-issuance of Notes by the Issuer

As part of its issuing, market-making and/or trading arrangements, the Issuer may issue more Notes than those which are to be subscribed or purchased by third party investors. The Issuer (or any of its affiliates) may hold such Notes for the purpose of meeting any investor interest in the future. Prospective investors in the Notes should therefore not regard the issue size of any Series as indicative of the depth or liquidity of the market for such Series, or of the demand for such Series.

The Issue Price of the Notes may be more than the market value of such Notes as at the Issue Date, and the price of the Notes in secondary market transactions

The Issue Price in respect of any Notes specified in the relevant Final Terms may be more than the market value of such Notes as at the relevant Issue Date, and the price, if any, at which the relevant Dealer(s) or any other person willing to purchase such Notes in secondary market transactions may be lower than the Issue Price in respect of such Notes. In particular, the Issue Price in respect of any Notes may take into account amounts with respect to commissions relating to the issue and sale of such Notes as well as amounts relating to the hedging of the Issuer's obligations under such Notes, and secondary market prices are likely to exclude such amounts. In addition, pricing models of relevant market participants may differ or produce a different result.

The Notes are subject to selling and transfer restrictions that may be affected by the existence and liquidity of any secondary market in the Notes

The Notes have not been, and will not be, registered under the Securities Act or any other securities laws. Accordingly, the Notes are subject to certain restrictions on the resale and other transfer thereof as set forth under "*Subscription and Sale and Transfer and Selling Restrictions*". As a result of such restrictions, the Issuer and the Guarantor cannot be certain of the existence of a secondary market for the Notes or the liquidity of such market if one develops. Consequently, a Noteholder must be able to bear the economic risk of an investment in such Notes for an indefinite period of time.

Potential conflicts of interest

Abbey National Treasury Services plc ("**ANTS**") may be acting in a number of capacities (e.g. Calculation Agent, Issuer and Dealer) in connection with the transactions described in this Prospectus. ANTS, acting in such capacities in connection with such transactions, shall have only the duties and responsibilities expressly agreed to by it in its relevant capacity and shall not, by virtue of its acting in any other capacity, be deemed to have other duties or responsibilities or be deemed to hold a standard of care other than as expressly provided with respect to each such capacity. ANTS, in its various capacities in connection with the contemplated transactions, may enter into business dealings, including the acquisition of investment securities as contemplated by its constitutional and other corporate documents, from which it may derive revenues and profits in addition to the fees, if any, stated in its constitutional and other corporate documents, without any duty to account therefor.

In the ordinary course of its business, including without limitation in connection with its market making activities, the Issuer and/or any of its affiliates may effect transactions for its own account or for the account of its customers and hold long or short positions in any Relevant Asset(s) or related derivatives. In addition, in connection with the offering of any Notes, the Issuer and/or any its affiliates may enter into one or more hedging transactions with respect to any Relevant Asset(s) or related derivatives. In connection with such hedging or market-making activities or with respect to proprietary or other trading activities by the Issuer and/or any its affiliates, the Issuer and/or any its affiliates may enter into transactions in any Relevant Asset(s) or related derivatives which may affect the market price, liquidity or value of the relevant Notes and which could be deemed to be adverse to the interests of the relevant Noteholders.

There is no limitation or restriction on ANTS, or any of its respective Affiliates, with regard to acting as adviser (or in a similar role) to other parties or persons. This and other future activities of ANTS and/or its Affiliates may give rise to additional potential conflicts of interest.

ANTS in its capacity as Issuer and any Dealer may at the date hereof or at any time hereafter, be in possession of information in relation to a Relevant Asset that is or may be material in the context of the Notes and may or may not be publicly available to Noteholders. There is no obligation on the Issuer or any Dealer to disclose to Noteholders any such information.

ANTS in its capacity as Issuer and/or any of its Affiliates may have existing or future business relationships with any Reference Entities or, if applicable, any of their subsidiaries or affiliates or any other person or entity having obligations to any Reference Entity (including, but not limited to, dealing, lending, depositary, risk management,

advisory and banking relationships), and will pursue actions and take steps that they or it deems necessary or appropriate to protect their and/or its interests arising therefrom without regard to the consequences for a Noteholder regardless of whether any such action might have an adverse effect (including, without limitation, any action which might constitute or give rise to any breach, event of default, credit event or termination event) on any Reference Obligation.

Calculation Agent's discretion

The Calculation Agent (which will likely be ANTS or an affiliate of ANTS) has a very broad discretionary authority to make various determinations and adjustments under the Notes, any of which may have an adverse effect on the value and/or the amounts payable under the Notes. For example, the Calculation Agent has a broad discretion to, without limitation, (i) determine whether a Disrupted Day, Index Adjustment Event, Potential Adjustment Event, Extraordinary Event and/or any other event and/or matters so specified in the Conditions has occurred, (ii) determine any resulting adjustments and calculations as described in the Conditions and (iii) in respect of any other matters as may be specified in the applicable Final Terms. Prospective purchasers should be aware that any determinations made by the Calculation Agent may have an impact on the value and financial return of the Notes. Any such discretion exercised by, or any calculation made by, the Calculation Agent (in the absence of manifest error) shall be binding on the Issuer and all holders of the Notes.

Potential investors should consider certain legal and tax consequences of investing in the Notes

The appropriate characterisation of the Notes under various legal investment restrictions, and thus the ability of potential investors subject to those restrictions to purchase the Notes, may be subject to significant interpretative uncertainties. No representation is made as to the proper characterisation of the Notes for legal investment purposes, or for risk-weighting, Notes valuation, regulatory, accounting or other financial institution regulatory regimes of any regulatory body. Potential investors should consult with their own legal advisers in determining whether, and to what extent, the Notes will constitute legal investments for them and the consequences of such an investment.

The Issuer and/or its Affiliates cannot advise on the appropriate accounting treatment or possible tax consequences of an indicative transaction. Prior to purchasing the Notes, a potential investor should discuss with its professional advisers how such purchase would or could affect them. Potential investors with any questions regarding the impact of an investment in the Notes on their tax position should consult their tax adviser. Neither the Issuer nor any of its affiliates provides tax or legal advice.

The Notes will not have the benefit of a gross-up provision in respect of withholding taxes. Noteholders will bear the risk of the imposition of any deduction or withholding with respect to payments made under the Notes.

Taxation and Expenses

Potential purchasers and sellers of Notes should be aware that they may be required to pay stamp taxes or other documentary charges in accordance with the laws and practices of the country where the Notes are transferred. Noteholders are subject to the provisions of the Conditions and payment and/or delivery of any amount due in respect of the Notes will be made subject to any tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

It is not possible to predict whether the tax regime on the basis of which the net values relating to any amount payable to investors pursuant to the Notes applicable as at the date of publication of the specific Final Terms may be amended during the life of the Notes, nor can it be excluded that, in case of amendments, the net values indicated with respect to the Notes may differ, even substantially, from those which will effectively apply to the Notes as at the various payment dates, as indicated in the relevant Final Terms.

To that end, the section "Taxation" in this Prospectus sets out a brief description of the tax regime applicable to the purchase/subscription, ownership or disposal of the Notes for certain categories of investors, based on the tax laws in force in certain jurisdictions as at the date of this Prospectus. Such laws remain subject to any changes in law which may occur after such date, and which could be made on a retroactive basis.

Potential purchasers who are in any doubt as to their tax position should consult their own independent tax advisers. In addition, potential purchasers should be aware that tax regulations and their application by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time.

If Physical Delivery is specified in the applicable Final Terms as applying in relation to any Notes, all expenses arising from the delivery of the relevant Asset Amount (as hereinafter defined) in respect of such Note shall be for the account of the relevant Noteholder and the Issuer is under no obligation to deliver such Asset Amount until all such expenses have been paid to the satisfaction of the Issuer by the relevant Noteholder. Where such expenses are not paid to the Issuer's satisfaction, the Issuer has the option to proceed with delivery but in so doing has the right to deduct an amount at least equal to the aggregate unpaid expenses from the Asset Amount to be delivered. The Issuer's delivery obligations in respect of the Notes will be discharged in full by delivery of such Reduced Asset Amount (as hereinafter defined).

The Issuer and the Guarantor may rely on third parties and the Noteholders may be adversely affected if such third parties fail to perform their obligations

The Issuer and the Guarantor may be a party to contracts with a number of other third parties that have agreed to perform services in relation to the Notes. For example, the Paying Agents have agreed to perform services in connection with the Notes; and Euroclear and Clearstream, Luxembourg have, in respect of Bearer Global Notes in NGN form, agreed, *inter alia*, to accept such Bearer Global Notes as eligible for settlement and to properly service the same, and to maintain up-to-date records in respect of the total amount outstanding of such Bearer Global Notes in NGN form. In the event that any relevant third party was to fail to perform its obligations under the respective agreements to which it is a party, the Noteholders may be adversely affected.

General considerations with respect to underlying Relevant Assets

The Notes may involve a high degree of risk, which include, among others, interest rate, corporate, market, foreign exchange, time value and/or political risks, as well as other risks arising from fluctuations in the values of the relevant securities (or basket of securities), index (or basket of indices), commodity (or commodity index) or other underlying assets (each a "**Relevant Asset**") which may be specified in the applicable Final Terms, and general risks applicable to the stock market (or markets) and capital markets. Notes which are linked to the performance of the Relevant Asset may not provide for a predetermined redemption amounts and/or interest payments, but amounts payable (whether in respect of principal and/or interest) or deliverable will be dependent upon the performance of the Relevant Asset(s), which itself may contain substantial risks.

Prospective purchasers of Notes should recognise that their Notes, other than Notes having a minimum redemption amount (subject to comments above as to Issuer and Guarantor solvency and deduction of taxes and expenses), may be worthless on redemption. Purchasers should be prepared to sustain a total loss of the purchase price of their Notes, except, if so indicated in the applicable Final Terms, to the extent of any minimum redemption attributable to such Notes (again, subject to comments above). This risk reflects the nature of the Notes as an asset which, other factors held constant, tends to decline in value over time and which may become worthless when it is redeemed (except to the extent of any minimum redemption amount subject to adjustments above).

Investments in Notes linked to the performance of a Relevant Asset entail significant risks and may not be appropriate for investors lacking financial expertise. Prospective investors should consult their own financial, tax and legal advisors as to the risks entailed by an investment in such Notes and the suitability of such Notes in light of their particular circumstances and ensure that their acquisition is fully consistent with their financial needs and investment policies, is lawful under the laws of the jurisdiction of their incorporation and/or in which they operate, and is a suitable investment for them to make. The Issuer believes that such Notes should only be purchased by investors that are in a position to understand the special risks that an investment in these instruments involves, in particular relating to options and derivatives and related transactions, and should be prepared to sustain a total loss of the purchase price of their Notes.

In order to realise a return upon an investment in a Note, it may be necessary that an investor must have correctly anticipated the timing and magnitude of an anticipated increase or the absence of a decrease in the value of the Relevant Asset(s) relative to the Issue Price, and must also be correct about when any change will occur. If the value of the Relevant Asset(s) does not increase, or decreases, as the case may be, before such Note is redeemed, part of the investor's investment in such Note may be lost on such redemption. Other than in respect of Notes which are redeemable prior to the Maturity Date at the option of the Noteholder, it is likely that the only means by which a Noteholder can realise value from its Notes prior to their Maturity Date is to sell such Notes at their then market price in the secondary market (if available) (see "*The Issuer and the Guarantor cannot assure a trading market for the Notes will ever develop or be maintained*" above).

Furthermore, the value of the Relevant Asset(s) may be observed for valuation purposes at a particular time(s) on a particular day(s). Markets in Relevant Assets may move significantly in very short periods of time. As such prospective purchasers should be aware that the value observed for the Relevant Asset may not reflect the value of the Relevant Asset which has prevailed at other times on the relevant valuation day or in the period immediately preceding such day. For example, this may occur if the valuation time falls at any time during a "Flash Crash", similar in nature to that which occurred on the New York Stock Exchange on 6 May 2010, in which the relevant market moves significantly downwards before subsequently correcting shortly afterwards. Whilst the terms of the Notes may include provisions to allow postponement of valuation in the event of certain disruptions in the market, not all significant market movements will be covered by these provisions. Relevant Asset prices at the opening or closing of relevant markets may also be particularly volatile as traditionally many trades are executed at such time. This may itself have an effect on the Relevant Asset prices and consequently the Notes.

In addition, the value of any Relevant Asset and/or obligation of an underlying obligor (a "**Reference Entity**") may depend on a number of interrelated factors, including economic, financial and political events in one or more jurisdictions, including factors affecting capital markets generally and the stock exchange(s) on which any Relevant Asset and/or obligation of a Reference Entity may be traded.

If the formula used to determine any amounts payable in respect of the Notes contains a multiplier or leverage factor, the effect of any fluctuation in the value of the Relevant Assets, the adjustments of the Reference Entity to which the Notes are linked or indexed will be magnified. In recent years, values of certain equities, bonds, notes or other financial instruments, indices and formulae have been volatile and such volatility may be expected in the future. However, past experience is not necessarily indicative of what may occur in the future. The historical experience of the Relevant Assets and/or Reference Entities should not be taken as an indication of future performance of such Relevant Assets and/or Reference Entities during the term of such Note. The price at which a Noteholder will be able to sell Notes prior to maturity may be at a discount, which could be substantial, to the market value of such Notes on the Issue Date, if, at such time, the market price of the Relevant Asset(s) and/or obligation(s) of a Reference Entity is below, equal to or not sufficiently above the market price of the Relevant Asset(s) and/or obligation(s) of a Reference Entity on the Issue Date. The historical market prices of any Relevant Asset and/or obligation of a Reference Entity should not be taken as an indication of such Relevant Asset's and/or obligation's future performance during the term of any Note.

Additionally, there may be regulatory and other ramifications associated with the ownership by certain investors of Notes linked to certain Relevant Assets, to obligations of the Reference Entity or to the potential holding of such Relevant Asset or Reference Obligation, where Physical Delivery Notes are envisaged pursuant to the applicable Final Terms. Each purchaser of Notes must conduct its own investigation into its regulatory position with respect to the potential purchase of Notes, and none of the Issuer, the Guarantor, the Dealer or the Calculation Agent assumes any obligation or liability whatsoever to such purchaser in such regard.

None of the Issuer, Guarantor, Calculation Agent nor any Dealer provide any advice with respect to any Relevant Asset or any obligations of a Reference Entity nor make any representation as to its quality, credit or otherwise, and investors in the Notes must rely on their own sources of analysis, including credit analysis with respect to any Relevant Asset and/or Reference Entity. No investigation or review of the Relevant Assets, including, without limitation, any public filings made by the issuer or obligor of the Relevant Assets, has been made by the Issuer or any of its Affiliates for the purposes of forming a view as to the merits of an investment linked to the Relevant Assets. Nor is any guarantee or express or implied warranty made in respect of the selection of the Relevant Assets or is any

assurance or guarantee given as to the performance of the Relevant Assets. Potential investors should not conclude that the sale by the Issuer of the Notes is any form of investment recommendation by it or any of its affiliates.

Notes that are linked to a Relevant Asset and/or the obligations of a Reference Entity may be principal (or capital) protected or non-principal (or capital) protected. Investors in Notes which are not principal (or capital) protected may risk losing their entire investment if the value of the Relevant Asset and/or obligation of a Reference Entity does not move in the anticipated direction. If the Notes are specified in the applicable Final Terms as having a minimum redemption amount, such Notes are principal (or capital) protected at maturity only and only to such extent. If such Notes are redeemed or sold before their scheduled maturity, they may return less than the minimum redemption amount or even zero. In addition amounts payable may be subject to deductions for taxes or expenses.

Investors should note that certain Notes linked to the performance of the Relevant Assets may not benefit from a minimum redemption amount and investors may receive less than the initial investment amount of the Notes and investors are exposed to the full loss of their investment.

PROSPECTIVE INVESTORS SHOULD NOTE THAT "PRINCIPAL PROTECTION" AND "CAPITAL PROTECTION" FEATURES REMAIN CONTINGENT ON THE ISSUER AND/OR THE GUARANTOR'S ABILITY TO MEET ITS OBLIGATIONS IN FULL. WHERE THE ISSUER AND/OR THE GUARANTOR IS UNABLE TO DO THIS, AN INVESTOR IN A "PRINCIPAL PROTECTED" NOTE OR A "CAPITAL PROTECTED" NOTE, WILL NOT RECEIVE BACK ALL OF THE AMOUNT INVESTED IN THE NOTE AND MAY LOSE ALL OF THEIR INVESTMENT.

PROSPECTIVE INVESTORS MUST REVIEW THE APPLICABLE FINAL TERMS TO ASCERTAIN WHAT THE RELEVANT ASSETS ARE AND TO SEE HOW THE CASH SETTLEMENT AMOUNT, FINAL REDEMPTION AMOUNT OR THE ASSET AMOUNT, AS THE CASE MAY BE, AND ANY PERIODIC INTEREST PAYMENTS ARE DETERMINED AND WHEN SUCH AMOUNTS ARE PAYABLE AND/OR DELIVERABLE, AS THE CASE MAY BE, BEFORE MAKING ANY DECISION TO PURCHASE ANY NOTES.

No Claim against any Relevant Asset

A Note will not represent a claim against any Relevant Asset and, in the event of any loss, a Noteholder will not have recourse under a Note to any Relevant Asset.

Postponement or alternative provisions for the valuation of a Relevant Asset may have an adverse effect on the value of the Notes

If the Calculation Agent determines that any scheduled valuation date (including an averaging date) (i) falls on a day which is not a Scheduled Trading Day or any other day which is subject to adjustment in accordance with the terms and conditions of the relevant Notes and/or (ii) falls on a day in respect of which a disruption or similar event has occurred and is continuing in respect of the relevant Relevant Asset which affects the valuation of such Relevant Asset, the Calculation Agent has broad discretion to make any consequential postponement of, or any alternative provisions for, valuation of such Relevant Asset provided in the terms and conditions of the Notes, including a determination of the value of such Relevant Asset by the Calculation Agent in its discretion, each of which may have an adverse effect on the value of the Notes.

Partly-paid Notes

The Issuer may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing some or all of his investment.

Notes issued at a substantial discount or premium

The market value of Notes issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities.

Generally, the longer the remaining term of the Notes, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Discontinuation or withdrawal of offer period

Unless otherwise specified in the applicable Final Terms, the offer period in relation to any Notes may be discontinued at any time.

In addition under certain circumstances indicated in the applicable Final Terms, the Issuer and/or the other entities indicated in the Final Terms will have the right to withdraw or revoke the offer, and the offer will be deemed to be null and void according to the terms indicated in the applicable Final Terms. In such case, any amounts segregated by a distributor or financial intermediary as intended payment of the offer price by an investor will be released to the relevant investor by the distributor or financial intermediary but may or may not accrue interest depending on the agreements between the investor and the relevant distributor or financial intermediary or depending on the policies applied by the distributor or financial intermediary in this regard. In these circumstances, there may also be a time lag in the release of any such amounts and, unless otherwise agreed with the relevant distributor or financial intermediary, no amount will be payable as compensation and the investor may be subject to reinvestment risk.

Unless otherwise provided in the applicable Final Terms, the Issuer and/or the other entities specified in the applicable Final Terms may terminate the offer early by immediate suspension of the acceptance of further subscription requests. Any such termination may occur even where the maximum amount for subscription in relation to that offer (as specified in the applicable Final Terms), has not been reached. In such circumstances, the early closing of the offer may have an impact on the aggregate number of Notes issued and, therefore, may have an adverse effect on the liquidity of the Notes.

Furthermore, under certain circumstances, the Issuer and/or the other entities indicated in the applicable Final Terms will have the right to postpone the originally designated Issue Date. For the avoidance of doubt, this right applies also in the event that the Issuer publishes a supplement to this Prospectus in accordance with the provisions of the Prospectus Directive. In the event that the issue date is so delayed, no compensation or amount in respect of interest shall be payable or otherwise accrue in relation to such Notes unless otherwise agreed between the investor and the relevant distributor or the policies of the distributor or financial intermediary so provide.

Hedging

It may not be possible to use the Notes as a perfect hedge against the market risk associated with investing in a Relevant Asset. Prospective purchasers intending to purchase Notes to hedge against the market risk associated with investing in a Relevant Asset should recognise the complexities of utilising Notes in this manner. For example, the value of the Notes may not exactly correlate with the value of the Relevant Asset. Due to fluctuating supply and demand for the Notes, there is no assurance that their value will correlate with movements of the Relevant Asset. For these reasons, among others, it may not be possible to purchase or liquidate Notes in a portfolio at the prices used to calculate the value of any Relevant Asset. Please see also the Risk Factor entitled "*Potential conflicts of interest*" above.

If the United Kingdom joins the European Monetary Union prior to the maturity of the Notes, the Issuer and the Guarantor cannot assure the Noteholders that this would not adversely affect payments on the Notes

It is possible that prior to the maturity of the Notes the United Kingdom may become a participating member state in the European economic and monetary union and the euro may become the lawful currency of the United Kingdom. In that event (i) all amounts payable in respect of any Notes denominated in pounds sterling may become payable in euro; (ii) applicable provisions of law may allow or require the Issuer to re-denominate such Notes into euro and take additional measures in respect of such Notes; and (iii) the introduction of the euro as the lawful currency of the United Kingdom may result in the disappearance of published or displayed rates for deposits in pounds sterling used to determine the rates of interest on such notes or changes in the way those rates are calculated, quoted and published or displayed. It cannot be said with certainty what effect, if any, adoption of the euro by the United Kingdom would have on investors in the Notes.

Provisions relating to any such redenomination of the Notes are included in General Condition 17 (Redenomination). Prospective investors should familiarise themselves with these provisions and should note in particular that these provisions permit the Issuer to redominate the Notes in euro without the consent of any Noteholders, Receiptholders or Couponholders. Such redenomination may be performed in accordance with the provisions of General Condition 17 or, if different, the then prevailing market practice for redenomination in euro of internationally offered securities. Prospective investors should note further that the provisions of General Condition 17 provide that, in the event of any such redenomination, all unmatured Coupons (whether or not attached to the Notes) and the payment obligations contained in any Notes and Receipts, in each case, issued prior to the date of the redenomination and denominated in the Specified Currency of the Notes will become void and such Notes, Receipts and Coupons will instead constitute valid exchange obligations of the Issuer for exchange for corresponding new euro-denominated Notes, Receipts and Coupons.

Euro-system Eligibility

The European Central Bank maintains and publishes a list of assets which are recognised as eligible collateral for Eurosystem monetary and intra-day credit operations. In certain circumstances, recognition may impact on (among other things) the liquidity of the relevant assets. Recognition (and inclusion on the list) is at the discretion of the Eurosystem and is dependent upon satisfaction of certain Eurosystem eligibility criteria and rules. If application is made to the European Control Board for any Notes to be recognised and added to the list of eligible assets, there can be no assurance that such Notes will be so recognised, or, if they are recognised, that they will continue to be recognised at all times during their life.

Emerging Markets

Where the Notes relate to Relevant Assets which involve emerging market countries, investors should note that the risk of the occurrence of and the severity of the consequences of the matters described herein may be greater than they would otherwise be in relation to more developed countries.

Post-issuance information

Unless otherwise specified in the applicable Final Terms and save as required by any applicable laws and regulations, the Issuer will not provide post-issuance information in relation to the Notes or the Relevant Asset.

4. Risks associated with the redemption of the Notes

If the applicable Final Terms specify that the Notes are redeemable at the option of the Issuer, the Issuer may redeem such Notes at times when the prevailing interest rates may be relatively low. As a consequence, the yields (if any) received upon redemption may be lower than expected, and the redeemed face amount of the Notes may be lower than the purchase price for the Notes paid by the Noteholder. As a consequence, part of the capital invested by the Noteholder may be lost, so that the Noteholder in such case would not receive the total amount of the capital invested. Accordingly, an investor generally will not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate, if applicable, as high as that of the Notes. Furthermore, during any period when the Issuer may elect to redeem the Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This may also be true prior to any redemption period.

Notes may also be redeemed early at the applicable Early Redemption Amount where an early redemption event is provided for in the relevant Final Terms. The Early Redemption Amount in respect of each Note may be less than the nominal amount or unit issue price of each Note and shall (unless otherwise specified in the applicable Final Terms) be an amount determined by the Calculation Agent as representing the fair market value of such Notes ignoring the circumstances leading to such Early Redemption, adjusted to account fully for any reasonable expenses and costs of unwinding any underlying and/or related hedging and funding arrangements (including, without limitation, any equity options, equity swaps or other instruments of any type whatsoever hedging the Issuer's obligations under the Notes). Following any such early redemptions, an investor generally would not be able to reinvest the redemption proceeds at any effective interest rate as high as the interest rate on the relevant Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments

available at that time. Moreover, each interest-bearing Note may cease to bear interest from the interest payment date immediately preceding the date of occurrence of the event giving rise to early redemption of the Notes.

Settlement risks

The Issuer may (as specified in the applicable Final Terms) be entitled to redeem Notes either by payment of a cash amount ("**Cash-Settled Notes**") and/or by physical delivery of all or part of a Relevant Asset or some other asset or property ("**Physically-Settled Notes**"). In certain circumstances, the cash amount payable on Cash-Settled Notes, or the value of assets or property deliverable on Physically-Settled Notes, on redemption of such Notes (whether at maturity or otherwise) may be less than the principal amount of the Notes together with any accrued interest and may in certain circumstances be zero. In addition, in respect of any Physically-Settled Notes, risk of delivery of the relevant asset or property will be the risk of the Noteholders and where any settlement disruption or other intervening event occurs this may mean that physical settlement cannot be made.

The yield to maturity of the Notes may be adversely affected by redemptions by the Issuer

The yield to maturity of each series of Notes may depend on: (i) the amount and timing of the repayment of principal or other redemption amounts on the Notes or periodic payments, if any, on the Notes; and (ii) the price paid by the Noteholders of each series. The yield to maturity of the Notes may be adversely affected where such amounts paid by the Issuer to the Noteholders, in accordance with their terms, are lower than anticipated.

The Notes may be redeemed early if the Issuer's performance under such Notes has become unlawful or impractical in whole or in part for any reason or if certain regulatory event(s) occur, or in certain other circumstances

In the event that the Calculation Agent determines that the performance of the obligations of the Issuer, or the obligations of the Guarantor under the Notes, or any arrangements made to hedge the Issuer's obligations under the Notes, has or will become unlawful, illegal or otherwise prohibited in whole or in part or a relevant change in any applicable present or future law, rule, regulation, judgment, order or directive of any governmental, administrative, legislative or judicial authority or power (but, if not having the force of law, only if compliance with it is in accordance with the general practice of persons to whom it is intended to apply), or in the interpretation thereof, has occurred or certain other events specified in the relevant Technical Annex (have occurred) the Issuer may redeem or cancel the Notes as at the Early Redemption Amount specified in the applicable Final Terms.

Time Lag After Redemption

Unless otherwise specified in the relevant Final Terms, in the case of Notes which the Issuer is required to redeem prior to the Maturity Date at the option of the Noteholder, there will be a time lag between the time a Noteholder gives the instruction to redeem and the time the applicable Optional Redemption Amount is determined by the Calculation Agent. Such time lag could be significantly longer, however, particularly in the case of a delay in the redemption of Notes due to there being a limit on the maximum number of Notes redeemable on any one day, following the imposition of any exchange controls or similar regulations affecting the ability to obtain or exchange any relevant currency (or basket of currencies), or following a determination by the Issuer, or the Calculation Agent, as applicable, that there should be a change or changes to the calculation of the Optional Redemption Amount, or to the terms of the Notes. The applicable Optional Redemption Amount may change significantly during any such period, and such movement or movements could decrease the Optional Redemption Amount, and may result in a Noteholder not realising a return or making a greater less than would otherwise be the case on an investment in the Notes.

5. Risks associated with specific Types of Notes

Risks relating to Fixed Rate Notes and Floating Rate Notes

Investment in Fixed Rates Notes involves the risk that subsequent changes in the market interest rates may adversely affect the value of the Fixed Rate Notes.

Notes with floating interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market value may be more volatile than those for securities that do not include these features. An investor may receive substantially less or no interest at all on such Floating Rate Notes.

Risks relating to Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than the then prevailing spreads on comparable floating rate notes relating to the same reference rate. In addition, the new floating rate at any time may be lower than the interest rates payable on other Notes. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than the then prevailing interest rates payable on its securities.

Risks relating to Inverse Floating Rate Notes

Inverse Floating Rate Notes may have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as the London Interbank Offered Rate (LIBOR). The market value of Inverse Floating Rate Notes typically is more volatile than the market value of other more conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate payable on the Notes, but may also reflect an increase in prevailing interest rates, which may further adversely affect the market value of the Notes.

Risks relating to Equity Linked Notes

The Issuer may issue Equity Linked Notes where the amount of principal and/or interest payable are dependent upon the price of or changes in the price of equity securities or a basket of equity securities or where, depending on the price of or change in the price of equity securities or the basket of equity securities, on redemption the Issuer's obligation is to deliver specified assets. Equity securities may include depositary receipts.

Potential investors in Equity Linked Notes should be aware that, depending on the terms of the Equity Linked Notes, (i) they may receive no interest or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified assets may occur at a different time than expected, and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the price of the equity security or basket of equity securities may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices, and the timing of changes in the relevant price of the equity security or equity securities may affect the actual yield to investors, even if the average level is consistent with their expectations.

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the equity security or equity securities on principal or interest payable will be magnified.

A holder of the Notes will not be a beneficial owner of the underlying equity securities and therefore will not be entitled to receive any dividends or similar amounts paid on the underlying equity securities, nor will a Noteholder be entitled to purchase the underlying equity securities by virtue of their ownership of the Notes. Moreover, holders of the Notes will not be entitled to any voting rights or other control rights that holders of the underlying equity securities may have with respect to the issuer of such underlying equity securities. Unless otherwise specified in the applicable Final Terms, the Interest Amount and/or Final Redemption Amount will not reflect the payment of any dividends on the underlying equity securities. Accordingly, the return on the Notes will not reflect the return an investor would realise if it actually owned the underlying equity securities and received dividends, if any, paid on those securities. Therefore, the yield to maturity based on the methodology for calculating the Final Redemption Amount will not be the same yield as would be produced if the underlying equity securities were purchased directly and held for a similar period.

In the case of Equity Linked Notes following the declaration by the Share Company (as defined in the (Equity Linked Conditions) of the terms of any Potential Adjustment Event (as defined in the Equity Linked Conditions), the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Shares and, if so, will (i) make the corresponding adjustment, if any, to any of the terms of the relevant Conditions and/or the applicable Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) and (ii) determine the effective date of that adjustment. Such adjustment may have an adverse effect on the value and liquidity of the affected Equity Linked Notes.

Equity Linked Notes may also be subject to certain disruption provisions. In particular, the Calculation Agent may determine that an event giving rise to a Disrupted Day (as defined in the Equity Linked Conditions) has occurred at any relevant time. Any such determination may have an effect on the timing of valuation, and consequently the value of the Equity Linked Notes, and/or may delay settlement in respect of the Notes. In addition certain extraordinary events may lead to early redemption of the Notes or to a change in the composition of the basket of equities (where applicable) in accordance with the criteria specified in the Equity Linked Conditions. Prospective purchasers should review the Equity Linked Conditions and the applicable Final Terms to ascertain whether and how such provisions apply to the Notes.

Where the Notes provide for physical delivery:

- the Calculation Agent may determine that a Settlement Disruption Event is subsisting. A Settlement Disruption Event is an event beyond the control of the Issuer as a result of which, in the opinion of the Calculation Agent, the Issuer cannot make delivery of the specified assets. Any such determination may affect the value of the Notes and/or may delay settlement in respect of the Notes; and
- in the event that a Noteholder does not deliver a valid Asset Transfer Notice as contemplated in the Equity Linked Conditions, the Issuer may, but is not required to, elect to deliver to the relevant Clearance System(s) the aggregate Asset Amount in respect of such Notes, to be divided between and delivered to the relevant Noteholders by the relevant Clearance System(s) in accordance with the rules of the relevant Clearance System(s) but no assurance is given as to the effect of such rules or other Clearance System practices for any such Noteholders.

The market price of Equity Linked Notes may be volatile and may be affected by the time remaining to the maturity date, the volatility of the equity security or equity securities, the dividend rate (if any) and the financial results and prospects of the issuer or issuers of the relevant equity security or equity securities as well as economic, financial and political events in one or more jurisdictions, including factors affecting the stock exchange(s) or quotation system(s) on which any such securities may be traded.

No Share Company or Basket Company (as such terms are defined in the Equity Linked Conditions) will have participated in the preparation of the relevant Final Terms or in establishing the terms of the Equity Linked Notes and none of the Issuer, the Guarantor or any Dealer will be required to make any investigation or enquiry in connection with such offering with respect to any information concerning any such Share Company or Basket Company contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available information described in this paragraph or in any relevant Final Terms) that would affect the trading price of the share or depositary receipt (where applicable) will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such a Share Company or Basket Company could affect the trading price of the share or depositary receipt (where applicable) and therefore the trading price of the Notes.

The Issuer may vary the manner in which a particular series of Notes are redeemed, if specified in the applicable Final Terms. At its sole and absolute discretion, it may elect not to pay the relevant Noteholders the Final Redemption Amount or to deliver or procure delivery of the relevant Asset Amount, to the relevant Noteholders, as the case may be, and in lieu thereof, deliver or procure the delivery of the relevant Asset Amount or make payment of the

Early Redemption Amount on the Scheduled Maturity Date to the relevant Noteholders. See Equity Linked Condition 12 (Variation of Settlement) and Credit Linked Condition 23 (Variation of Settlement) herein.

Risks relating to Equity Index Linked Notes

The Issuer may issue Equity Index Linked Notes where the amount of principal and/or interest payable are dependent upon the level of an equity index or equity indices.

Potential investors in any such Notes should be aware that, depending on the terms of the Equity Index Linked Notes, (i) they may receive no interest or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected, and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the level of the index or indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices, and the timing of changes in the relevant level of the index or indices may affect the actual yield to investors, even if the average level is consistent with their expectations

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the level of the index or the indices on principal or interest payable will be magnified.

Equity Index Linked Notes may be subject to certain disruption provisions. In particular, the Calculation Agent may determine that an event giving rise to a Disrupted Day (as defined in the Equity Index Linked Conditions) has occurred at any relevant time. Any such determination may have an effect on the timing of valuation, and consequently the value of the Notes, and/or may delay settlement in respect of the Notes. In addition certain extraordinary events may lead to early redemption of the Notes. Prospective purchasers should review the Equity Index Linked Conditions and the applicable Final Terms to ascertain whether and how such provisions apply to the Notes.

The market price of Equity Index Linked Notes may be volatile and may depend on the time remaining to the maturity date and the volatility of the level of the index or indices. The level of the index or indices may be affected by the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which any securities comprising the index or indices may be traded.

Risks relating to Currency Linked Notes and Currency Risk in Notes and Relevant Assets generally

The Issuer may issue Currency Linked Notes where the amount of principal and/or interest payable are dependent upon movements in currency exchange rates or are payable in one or more currencies which may be different from the currency in which the Notes are denominated.

Potential investors in Currency Linked Notes should be aware that, depending on the terms of the Currency Linked Notes, (i) they may receive no interest or a limited amount of interest, (ii) payment of principal or interest may occur at a different time or in a different currency than expected, and (iii) they may lose a substantial portion of their investment. In addition, movements in currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices, and the timing of changes in the exchange rates may affect the actual yield to investors, even if the average level is consistent with their expectations.

Payments of principal and interest or other obligations of the Issuer in respect of any Series of Notes may be restricted upon the occurrence of certain disruption events described in the applicable Final Terms. A relevant disruption event may relate to the imposition of currency or exchange controls in any specified country or to a nationalisation, or any other circumstance as provided in the applicable Final Terms. Following a relevant disruption event, the Issuer shall be entitled to require the Calculation Agent to adjust the Notes or to redeem the Notes early or to postpone payments or deliveries in respect of the Notes so long as the relevant disruption event continues provided that if the relevant disruption event continues for a period of two years the Notes shall expire worthless and shall be cancelled.

If the amount of principal and/or interest payable are dependent upon movements in currency exchange rates and are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the currency exchange rates on principal or interest payable will be magnified.

The market price of Currency Linked Notes may be volatile and, if the amount of principal and/or interest payable are dependent upon movements in currency exchange rates, may depend upon the time remaining to the redemption maturity date and the volatility of currency exchange rates. Movements in currency exchange rates may be dependent upon economic, financial and political events in one or more jurisdictions.

There is generally foreign exchange currency exposure in respect of Notes which provide for payment to be made in a currency which is different to the currency of the Relevant Asset(s)

Where the terms and conditions of the Notes provide that payment under such Notes will be made in a currency which is different from the currency of the Relevant Asset, and such Notes do not have a "quanto" feature (i.e. the Notes themselves take no account of currency rate movements or otherwise hedge the currency risk), there are additional risks. Holders of such Notes may be exposed not only to the performance of the Relevant Asset but also to the performance of such foreign currency, which cannot be predicted. Investors should be aware that foreign exchange rates are, and have been, highly volatile and determined by supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks (e.g., imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates and the availability of a specified currency). Foreign exchange fluctuations between a Noteholder's home currency and the relevant currency in which the repayment amount of the Notes is denominated may affect investors who intend to convert gains or losses from the exercise or sale of Notes into their home currency.

There are risks relating to currency-protected or "quanto" Notes which provide for payment to be made in a currency which is different to the currency of the Relevant Asset(s)

If one or more Relevant Assets are not denominated in the currency of the Notes and at the same time only the performance of the Relevant Asset(s) in their denominated currency is relevant to the payout on the Notes, such Notes are referred to as currency-protected Notes or Notes with a "quanto" feature. Under such feature, the investment return of the Notes depends only on the performance of the Relevant Asset(s) (in the relevant currency) and any change in the rate of exchange between the currency of the Relevant Asset(s) and the Notes is disregarded. Accordingly, the application of a "quanto" feature means that Noteholders will not have the benefit of any change in the rate of exchange between the currency of the Relevant Asset(s) and the Notes that would otherwise increase the performance of the Relevant Asset(s) in the absence of such "quanto" feature. In addition, changes in the relevant exchange rate may indirectly influence the price of the relevant Relevant Asset(s) which, in turn, could have a negative effect on the return on the Notes.

The value of the Notes can be affected by currency related events

The value of any currency, including those currencies specified in any indicative transaction, may be affected by complex political and economic factors. The exchange rate of each currency referenced in a Currency Linked Note is at any moment a result of the supply and demand for the two currencies, and changes in the exchange rate result over time from the interaction of many factors directly or indirectly affecting economic and political conditions in the originating country of each currency, including economic and political developments in other countries. Of particular importance are the relative rates of inflation, interest rate levels, the balance of payments and the extent of governmental surpluses or deficits in such countries, all of which are in turn sensitive to the monetary, fiscal and trade policies pursued by the governments of such countries and other countries important to international trade and finance. Foreign exchange rates can either be fixed by sovereign governments or floating. Exchange rates of most economically developed nations are permitted to fluctuate in value. However, governments sometimes do not allow their currencies to float freely in response to economic forces. Governments use a variety of techniques, such as intervention by their

central bank or imposition of regulatory controls or taxes, to affect the exchange rates of their respective currencies. They may also issue a new currency to replace an existing currency or alter the exchange rate or relative exchange characteristics by devaluation or revaluation of a currency. Thus, a special risk in purchasing the Notes is that the liquidity, trading value and amounts payable could be affected by the actions of the sovereign government which could change or interfere with theretofore freely determined currency valuation, fluctuations in response to other market forces and the movement of currencies across borders.

Risks relating to Commodity Linked Notes

The Issuer may issue Commodity Linked Notes where the amount of principal and/or interest payable are dependent upon the price or change in the price of a commodity, a basket of commodities, a commodity index or basket of commodity indices (each a "**Commodity Underlying**") or where, depending on the price or change in the price of the relevant Commodity Underlying, on redemption the Issuer's obligation is to deliver specified assets.

Potential investors in Commodity Linked Notes should be aware that, depending on the terms of the Commodity Linked Notes, (i) they may receive no interest or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified assets may occur at a different time than expected, and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the price of the relevant Commodity Underlying may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices, and the timing of changes in the relevant price of the relevant Commodity Underlying may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the greater the change in the price or level of the relevant Commodity Underlying, the greater the effect on yield.

Commodity Linked Notes may be subject to certain disruption provisions or extraordinary event provisions. Relevant events may relate to market disruptions, or other extraordinary events in relation to the relevant commodity or commodities. If the Calculation Agent determines that any such event has occurred this may delay valuations under and/or settlements in respect of the Notes and consequently adversely affect the value of the Notes. In addition certain extraordinary or disruption events may lead to early redemption of the Notes. Prospective investors should review the Commodity Linked Conditions and the applicable Final Terms to ascertain whether and how such provisions apply to the Note.

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the relevant Commodity Underlying on principal, interest payable or the amount of specified assets deliverable will be magnified.

The market price of Commodity Linked Notes may be volatile and may depend on the time remaining to the redemption date and the volatility of the price of the relevant Commodity Underlying. The price of commodities may be affected by economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any such commodities may be traded.

Factors affecting the performance of Commodities may adversely affect the value of the Notes; Commodity prices may be more volatile than other asset classes.

The prices of commodities may be volatile, and, for example, may fluctuate substantially if natural disasters or catastrophes, such as hurricanes, fires or earthquakes, affect the supply or production of such commodities. Commodity prices are affected by a variety of factors that are unpredictable including, for example, changes in supply and demand relationships, weather patterns and extreme weather conditions, governmental programmes and policies, national and international political, military, terrorist and economic events, fiscal, monetary and exchange control programmes, changes in interest and exchange rates and changes and suspensions or disruptions of market trading activities in commodities and related contracts. Commodity prices may be more volatile than other asset classes, making investments in commodities riskier than other investments. A further explanation of some of the factors affecting the price of commodities are:

- ***Supply and demand*** - The planning and management of commodities supplies is very time consuming. This means that the scope for action on the supply side is limited and it is not always possible to adjust production

swiftly to take account of demand. Demand can also vary on a regional basis. Transport costs for commodities in regions where they are needed also affect their prices. The fact that some commodities take a cyclical pattern, such as agricultural products which are only produced at certain times of the year, can also result in major price fluctuations.

- **Liquidity** - Not all commodities markets are liquid and able to quickly and adequately react to changes in supply and demand. The fact that there are only a few market participants in the commodities markets means that speculative investments can have negative consequences and may distort prices.
- **Weather conditions and natural disasters** - Unfavourable weather conditions can influence the supply of certain commodities for the entire year. This kind of supply crisis can lead to severe and unpredictable price fluctuations. Diseases and epidemics can also influence the prices of agricultural commodities.
- **Direct investment costs** - Direct investments in commodities involve storage, insurance and tax costs. Moreover, no interest or dividends are paid on commodities. The total returns from investments in commodities are therefore influenced by these factors.
- **Location** - Commodities are often produced in emerging market countries, with demand coming principally from industrialised nations. The political and economic situation is however far less stable in many emerging market countries than in the developed world. They are generally much more susceptible to the risks of rapid political change and economic setbacks. Political crises can affect purchaser confidence, which can as a consequence affect commodity prices. Armed conflicts can also impact on the supply and demand for certain commodities. It is also possible for industrialised nations to impose embargos on imports and exports of goods and services. This can directly and indirectly impact commodity prices. Furthermore, numerous commodity producers have joined forces to establish organisations or cartels in order to regulate supply and influence prices.
- **Changes in tax rates** - Changes in tax rates and customs duties may have a positive or a negative impact on the profit margins of commodities producers. When these costs are passed on to purchasers, these changes will affect prices.

Any interest and/or the redemption amount payable in respect of a Commodity Linked Note may be reduced (possibly to zero) by any change in the price of the relevant Commodity Underlying. In such circumstances the amount (if any) payable on the redemption of the Commodity Linked Notes may be significantly less than the holder's original investment in the relevant Notes.

Ownership of the Notes will not entitle an investor to any rights with respect to any futures contracts or commodities included in or tracked by the Relevant Asset(s).

An investor will not own or have any beneficial or other legal interest in, and will not be entitled to any rights with respect to, any of the commodities or commodity futures included in such Relevant Asset(s). The Issuer will not invest in any of the commodities or commodity futures contracts included in such Relevant Asset(s) on behalf or for the benefit of the Noteholders.

Commodities may reference physical Commodities or Commodity contracts, and certain Commodity contracts may be traded on unregulated or "under-regulated" exchanges.

Commodities comprise both (i) "physical" Commodities, which need to be stored and transported, and which are generally traded at a "spot" price, and (ii) Commodity contracts, which are agreements either to (a) buy or sell a set amount of an underlying physical Commodity at a predetermined price and delivery period (which may be referred to as a delivery month), or to (b) make and receive a cash payment based on changes in the price of the underlying physical Commodity.

Commodity contracts may be traded on regulated specialized futures exchanges (such as futures contracts). Commodity contracts may also be traded directly between market participants "over-the-counter" on trading facilities

that are subject to lesser degrees of regulation or, in some cases, no substantive regulation. Accordingly, trading in such "over-the-counter" contracts may not be subject to the same provisions as, and the protections afforded to, contracts traded on regulated specialized futures exchanges, and there may therefore be additional risks related to the liquidity and price histories of the relevant contracts and any Notes which reference any such Commodity contracts may have reduced liquidity or greater price volatility or be subject to more extensive market disruptions.

Commodity Linked Notes which are linked to Commodity futures contracts may provide a different return from Commodity Linked Notes linked to the relevant physical Commodity and will have certain other risks.

The price of a futures contract on a Commodity will generally be at a premium or at a discount to the spot price of the physical Commodity. This discrepancy is due to such factors as (i) the need to adjust the spot price due to related expenses (e.g., warehousing, transport and insurance costs) and (ii) different methods being used to evaluate general factors affecting the spot and the futures markets. In addition, and depending on the Commodity, there can be significant differences in the liquidity of the spot and the futures markets. Accordingly, Commodity Linked Notes which are linked to Commodity futures contracts may provide a different return from Commodity Linked Notes linked to the relevant physical Commodity.

Investments in futures contracts involve certain other risks, including potential illiquidity. A holder of a futures position may find that such position becomes illiquid because certain Commodity exchanges limit fluctuations in such futures contract prices pursuant to "daily limits". Once the price of a particular futures contract has increased or decreased by an amount equal to the daily limit, positions in the contract can neither be taken nor liquidated unless holders are willing to effect trades at or within the limit. This could prevent a holder from promptly liquidating unfavourable positions and subject it to substantial losses. Futures contract prices in various Commodities occasionally have exceeded the daily limit for several consecutive days with little or no trading. Any such losses in such circumstances could have a negative adverse effect on the return of any Notes the Relevant Asset of which is the affected futures contract. There can be no assurance that any such disruption or any other force majeure (such as an act of God, fire, flood, severe weather conditions, act of governmental authority, or a labour dispute or shortage) will not have an adverse affect on the value of or trading in the Underlying Asset(s), or the manner in which it is calculated, and therefore, the value of the Notes.

In the case of a direct investment in commodity futures contracts, the invested capital may be applied in whole or in part by way of collateral in respect of the future claims of the respective counterparties under the commodity futures contracts. Such capital will generally bear interest, and the interest yield will increase the return of the investor making such direct investment. However, holders of Notes linked to the price of commodity futures contracts do not participate in such interest yields from the hypothetical fully collateralized investment in commodity futures contracts.

Additional risks in relation to the "rolling" of commodity futures contracts

Commodity contracts have a predetermined expiration date, which is the date on which trading of the commodity contract ceases. Holding a commodity contract until expiration will result in delivery of the underlying physical commodity or the requirement to make or receive a cash settlement. Alternatively, "rolling" the commodity contracts means that the commodity contracts that are nearing expiration (the "**Near-dated Commodity Contracts**") are sold before they expire and commodity contracts that have an expiration date further in the future (the "**Longer-dated Commodity Contracts**") are purchased. Investments in commodities apply "rolling" of the component commodity contracts in order to maintain an ongoing exposure to such commodities.

"Rolling" can affect the value of an investment in commodities in a number of ways, including:

- (i) The investment in commodity contracts may be increased or decreased through "rolling": Where the price of a Near-dated Commodity Contract is greater than the price of the Longer-dated Commodity Contract (the commodity is said to be in "**backwardation**"), then "rolling" from the former to the latter will result in exposure to a greater number of the Longer-dated Commodity Contracts being taken. Therefore, any loss or gain on the new positions for a given movement in the prices of the commodity contract will be greater than if one had synthetically held the same number of commodity contracts as before the "roll". Conversely, where the price of the Near-dated Commodity Contract is lower than the price of the Longer-dated Commodity

Contract (the commodity is said to be in “contango”), then “rolling” will result in exposure to a smaller number of the Longer-Dated Commodity Contract being taken. Therefore, any gain or loss on the new positions for a given movement in the prices of the commodity contract will be less than if one had synthetically held the same number of commodity contracts as before the “roll”; and

- (ii) Where a commodity contract is in contango (or, alternatively, backwardation) this may be expected to (though it may not) have a negative (or, alternatively, positive) effect over time: Where a commodity contract is in “contango”, then the price of the Longer-dated Commodity Contract will generally be expected to (but may not) decrease over time as it nears expiry. In such event, rolling is generally expected to have a negative effect on an investment in the commodity contract. Where a commodity contract is in “backwardation”, then the price of the Longer-dated Commodity Contract will generally be expected to (but may not) increase over time as it nears expiry. In such event, the investment in the relevant commodity contract can generally be expected to be positively affected.

Effects of “Rolling” of component commodity futures contracts on commodity indices

Commodity indices are indices which track the performance of a basket of commodity contracts on certain commodities, depending on the particular index. The weighting of the respective commodities included in a commodity index will depend on the particular index, and is generally described in the relevant index rules of the index. Commodity indices apply “rolling” of the component commodity contracts in order to maintain an ongoing exposure to such commodities. Specifically, as a commodity contract is required to be rolled pursuant to the relevant index rules, the commodity index is calculated as if exposure to the commodity contract was liquidated and exposure was taken to another commodity contract (generally a Longer-dated Commodity Contract) for an equivalent exposure. Accordingly, the same effects as described above with regard to “rolling” on the value of a commodity reference item also apply with regard to the index level of a commodity index.

Commodity Linked Notes which are linked to a commodity pool

Unlike an investment in the Notes, an investment in a collective investment vehicle that invests in futures contracts on behalf of its participants may be regulated as a commodity pool and its operator may be required to be registered with and regulated by the United States Commodity Futures Trading Commission (“CFTC”) as a commodity pool operator. Because any Commodity Linked Notes issued will not be regulated by the CFTC as a commodity pool, the Issuer will not be registered with the CFTC as a commodity pool operator, and the Noteholders will not benefit from the CFTC’s or any non-U.S. regulatory authority’s regulatory protections afforded to persons who trade in futures contracts or who invest in regulated commodity pools.

Commodity indices to which Commodity Linked Notes may be indexed may include over-the-counter contracts (such as swaps and forward contracts) traded on trading facilities that are subject to lesser degrees of regulation or, in some cases, no substantive regulation. As a result, trading in such contracts, and the manner in which prices and volumes are reported by the relevant trading facilities, may not be subject to the same provisions of, and the protections afforded by, the United States Commodity Exchange Act, as amended, or other applicable United States or foreign statutes and related regulations, that govern trading on regulated futures exchanges. In addition, many electronic trading facilities have only recently initiated trading and do not have significant trading histories. As a result, the trading of contracts on such facilities and the inclusion of such contracts in the relevant Commodity Index (as specified in the applicable Final Terms) may be subject to certain risks not presented by most exchange-related futures contracts, including risks related to the liquidity and price histories of the relevant contracts.

Legal and regulatory changes relating to the Commodities may lead to an early redemption.

Commodities are subject to legal and regulatory regimes that may change in ways that could affect the ability of the Issuer and/or any entities acting on behalf of the Issuer engaged in any underlying or hedging transactions in respect of the Issuer’s obligations in relation to the Notes to hedge the Issuer’s obligations under the Notes, and/or could lead to the early redemption of the Notes.

Commodities are subject to legal and regulatory regimes in the United States and, in some cases, in other countries that may change in ways that could negatively affect the value of the Notes. For example, in July 2010, the U.S. Congress passed legislation intended to decrease speculation and increase transparency in the commodities markets. Such legislation, among other things, requires the CFTC or exchanges to adopt rules establishing position limits on positions in commodity futures contracts. Such legislation could have an unpredictable impact on the value of any Commodity Linked Notes. In addition, if the commodities are traded on a non-U.S. exchange, those foreign markets may be more susceptible to disruption than U.S. exchanges due to the lack of a government-regulated clearing house system and may be subject to exchange controls, expropriation, burdensome or confiscatory taxation, or moratoriums and political or diplomatic events.

In addition, if the Calculation Agent determines that an Additional Disruption Event (as defined in the Commodity Linked Conditions) has occurred, the Issuer may either (a) redeem the Notes prior to maturity by payment of an Early Redemption Amount which may be less than the purchase price of the Notes or (b) amend the terms of the Notes instead as it determines appropriate to account for such event. If the payment on the Notes is accelerated, a holder's investment may result in a loss and a holder may not be able to reinvest the proceeds in a comparable investment. An Additional Disruption Event includes any legal or regulatory changes that the Calculation Agent determines have interfered with the ability of the Issuer and/or any entities acting on behalf of the Issuer engaged in any underlying or hedging transactions in respect of the Issuer's obligations in relation to the Notes to hedge the Issuer's obligations under the Notes, or if for any other reason the Issuer and/or any entities acting on behalf of the Issuer engaged in any underlying or hedging transactions in respect of the Issuer's obligations in relation to the Notes is/are unable to enter into or maintain hedge positions to hedge the Issuer's obligations under the Notes.

Risks relating to Fund Linked Notes

The Issuer may issue Fund Linked Notes where the amount of principal and/or interest payable are dependent upon the price or changes in the price of units or shares in a fund or funds or where, depending on the price or changes in the price of units or shares in such fund or funds, on redemption the Issuer's obligation is to deliver specified assets. Funds may include certain exchange traded funds ("ETFs").

Fund Linked Notes may be subject to certain disruption provisions or extraordinary event provisions. Relevant events may relate to market disruptions, or other extraordinary events in relation to the relevant fund or funds and/or, in the case of the ETFs, the corresponding underlying Index. If the Calculation Agent determines that any such event has occurred this may delay valuations under and/or settlements in respect of the Notes and consequently adversely affect the value of the Notes. In addition certain extraordinary or disruption events may lead to early redemption of the Notes. Prospective investors should review the Fund Linked Conditions and the applicable Final Terms to ascertain whether and how such provisions apply to the Note.

Potential investors in Fund Linked Notes should be aware that, depending on the terms of the Fund Linked Notes, (i) they may receive no interest or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified assets may occur at a different time than expected, and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the price of units or shares in the fund or funds may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices, and the timing of changes in the relevant price of the units or shares in the fund or funds may affect the actual yield to investors, even if the average level is consistent with their expectations. In addition, the fund interests may be illiquid and this may adversely affect returns (if any) on the Notes.

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the units or shares of the fund or funds on principal or interest payable will be magnified.

The market price of Fund Linked Notes may be volatile and may depend on the time remaining to the maturity date and the volatility of the price of units or shares in the fund or funds. The price of units or shares in a fund may be affected by the economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) (if any) on which any units in the fund or funds may be traded.

Fund units, and investments in hedge funds generally, are speculative and involve a high degree of risk. Neither the Issuer nor the Guarantor gives any assurance as to the performance of fund units. Hedge funds generally do not make information about their operations and holdings public. Even if the Issuer or any of its affiliates may have arrangements with a fund manager to obtain information required to calculate the value of the fund, it may not have access to the activities of the fund on a continuous basis or at all. There may be no regulatory requirements compelling funds to release information of the kind that would allow the Issuer, or any affiliate to value a fund or to accurately determine the value of the fund units and, consequently, the amount of principal and/or interest payable on the relevant Notes.

The Issuer and certain of its Affiliates from time to time obtain information regarding specific hedge funds that may not be available to the general public. Any such information is obtained by the Issuer and certain of its affiliates in the ordinary course of their businesses, and not in connection with the offering of the Notes (including in respect of funds that are managed by managers affiliated with the Issuer). In connection with the ordinary course of their businesses, the Issuer and certain of its affiliates may recommend, or determine not to recommend, specific hedge funds to their clients. Hedge funds as to which the Issuer and certain of its affiliates have formed investment recommendations may now or may in the future be among the underlying funds used in the redemption formula of Notes. Any views that may be held by the Issuer and certain of its affiliates with respect to the expected future performance of one or more of the funds (including in respect of funds that are managed by managers affiliated with the Issuer) would not be an indication of the future expected performance of the fund, and neither the Issuer nor any of its affiliates has formed a view with respect to the expected future performance of a fund. The offering of the Notes does not constitute a recommendation by the Issuer or any of its affiliates with respect to an investment linked to an underlying fund (including in respect of funds that are managed by managers affiliated with the Issuer).

Funds may trade and invest in a broad range of investments such as debt and equity securities, commodities and foreign exchange and may enter into derivative transactions, including, without limitation, futures and options. Funds may often be illiquid and may only be traded on a monthly, quarterly or even less frequent basis. The trading strategies of Funds are often opaque. Funds, as well as the markets and instruments in which they invest, are often not subject to review by governmental authorities, self-regulatory organisations or other supervisory authorities.

Investments made by the underlying funds can involve substantial risks. The nature of these investments means that the value of the fund units may fluctuate significantly during a day or over longer periods. Consequently, the performance of the fund units over a given period will not necessarily be indicative of future performance. A fund and any fund components in which it may invest may utilise, *inter alia*, strategies such as short-selling, leverage, securities lending and borrowing, investment in sub-investment grade or non-readily realisable investments, uncovered options transactions, options and futures transactions and foreign exchange transactions and the use of concentrated portfolios, each of which could, in certain circumstances, magnify adverse market developments and losses. Funds, and any fund components in which it may invest, may make investments in markets that are volatile and/or illiquid and it may be difficult or costly for positions therein to be opened or liquidated. No assurance can be given relating to the present or future performance of any fund and any fund component in which it may invest. The performance of each fund and any fund component in which it may invest is dependent on the performance of the fund managers in selecting fund components and the management of the relevant component in respect of the fund components. No assurance can be given that these persons will succeed in meeting the investment objectives of the relevant fund, that any analytical model used thereby will prove to be correct or that any assessments of the short-term or long-term prospects, volatility and correlation of the types of investment in which a fund has or may invest will prove accurate.

The underlying funds may have recourse to leverage, i.e., borrow amounts that represent more than 100.00 per cent. of the value of their assets to invest further in assets that involve further risks. Accordingly, a small downward movement in the value of a fund's assets may result in a significantly larger loss of the fund.

Fund managers may be eligible to earn incentive compensation. The potential for a fund manager to earn performance based compensation may encourage such fund manager to trade in a more speculative manner than it otherwise would.

Fund managers' investments are not verified. Neither the Issuer nor any of its affiliates is or will be responsible for verifying or ensuring that the fund's managers comply with its stated trading strategy.

Fund managers (including a manager that is affiliated with the Issuer) do not have any obligations to the Noteholders, or other role in connection with, the Notes, including any obligation to take the needs of the Noteholders into consideration for any reason. Fund managers are not responsible for, and have not endorsed or participated in, the offering, placement, sale, purchase or transfer of the Notes. The fund's managers are not responsible for, and will not participate in, the determination or calculation of the amounts receivable by Noteholders.

Hedge funds, including the underlying funds, are not subject to the same regulatory regime, or regulated to the same extent as, mutual funds or registered securities or securities offerings. Changes to the current regulatory environment could affect the investment, operations and structure of the underlying funds and could adversely affect the performance of the underlying funds. The underlying funds may invest in assets that involve further risks.

Fees, deductions and charges may reduce the amount of principal and/or interest payable under the Notes. Fund fees will be deducted from the net asset value of the fund, reducing the value of the fund units. Accordingly, to the extent that the amount of principal and/or interest payable under the Notes is linked to the net asset value of a fund, the relevant amount(s) payable to Noteholders will be less than it would have been absent these fees, deductions and charges, but the Issuer or one of its affiliates may be the beneficiary of such fees or obtain rebate on such fees from third parties.

Additional investments in, or withdrawals of amounts previously invested in, the fund may adversely affect the value of the fund units. The Issuer or one of its affiliates, in order to hedge its obligations under the Notes, may enter into a hedging transaction which may directly or indirectly involve investing in units of the underlying funds. Prospective investors should be aware that, as a result of hedging decisions by the hedging counterparty, transfers into or out of the fund by the hedging counterparty may affect the value of the fund units and, in turn, the Final Redemption Amount of the Notes.

The valuation of a fund is generally controlled by the relevant fund manager or the investment adviser (as the case may be) of the fund. Valuations are performed in accordance with the terms and conditions governing the fund. Such valuations may be based upon the unaudited financial records of the fund and any accounts pertaining thereto. Such valuations may be preliminary calculations of the net asset values of the fund and accounts. The fund may hold a significant number of investments which are illiquid or otherwise not actively traded and in respect of which reliable prices may be difficult to obtain. In consequence, the relevant fund manager or the investment adviser may vary certain quotations for such investments held by the fund in order to reflect its judgement as to the fair value thereof. Therefore, valuations may be subject to subsequent adjustments upward or downward. Uncertainties as to the valuation of the fund assets and/or accounts may have an adverse effect on the net asset value of the relevant fund where such judgements regarding valuations prove to be incorrect.

There are numerous additional risks relating to Notes linked to hedge funds and other types of fund, and the applicable Final Terms in respect of such Notes may include additional risk factors. For all of the above reasons, investing directly or indirectly in funds is generally considered to be risky. If the underlying fund does not perform sufficiently well, the value of the Notes will fall and may in certain circumstances be zero.

Prospective investors should review carefully the prospectus, information memorandum and/or offering circular (if any) issued by the relevant fund prior to purchasing any Notes. None of the Issuer, the Guarantor, any Dealer or the Calculation Agent provides any assurance as to the creditworthiness of any relevant fund or any such fund's administrator, custodian, investment manager or adviser or in respect of any prospectus, information memorandum and/or offering circular (if any) issued by any relevant fund.

Risks relating to Credit Linked Notes

(a) General risks relating to Credit Linked Notes

The Issuer may issue Credit Linked Notes where the amount of principal and/or interest payable are dependent upon whether certain events (each a "**Credit Event**") have occurred in respect of one or more specified entities (a "**Reference Entity**") and, if so, on the value of certain specified assets ("**Reference Obligations**") of the Reference Entity or where, if such events have occurred, on redemption the Issuer's obligation is to deliver certain specified assets

("Deliverable Obligations"). In certain circumstances the Calculation Agent may determine Valuation Obligations in a similar manner to Deliverable Obligations. In such case, the Valuation Obligations, as determined by the Calculation Agent, would be used to determine the Final Price. All references in this section to Reference Obligations shall be deemed to include Valuation Obligations, as applicable.

Potential investors in Credit Linked Notes should be aware that, depending on the terms of the Credit Linked Notes, (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified assets may occur at a different time than expected, and (iii) they may lose all or a substantial portion of their investment.

There may exist at times only small or no markets for the Notes and for the obligations of the Reference Entity to which the Notes are linked, resulting in low or non-existent volumes of trading in the Notes and such obligations, and therefore a lack of liquidity and price volatility of the Notes and such obligations.

In selecting any Reference Obligations hereunder, the Calculation Agent is under no obligation to the Noteholders or any other person and, provided that the obligation selected meets the applicable criteria (if any), is entitled, and indeed will endeavour, to select obligations with the lowest or highest price (depending on who is the buyer) of any obligations which meet such criteria. In making any selection, the Calculation Agent will not be liable to account to the Noteholders or any other person for any profit or other benefit to it or any of its affiliates which may result directly or indirectly from any such selection.

In selecting any substitute Reference Entity, any Valuation Date, any Quotation Amount or any Quotation Time or in making any other selection in accordance with the terms of the Notes, the Calculation Agent is under no obligation to the Noteholders or any other person and provided that the relevant selection meets the criteria specified, the Calculation Agent will not be liable to account to the Noteholders or any other person for any profit or other benefit to it or any of its affiliates which may result directly or indirectly from any such selection.

In addition, the Issuer, the Guarantor and their affiliates may, for their own account and for the account of customers, engage in any kind of transactions and other business directly or indirectly involving a Reference Entity and may act with respect to such business in the same manner as it would if the Notes had not been issued, regardless of whether any such action might have an adverse effect directly or indirectly on a Reference Entity. The Issuer and its affiliates may on the Issue Date of the Notes or at any time thereafter be in possession of information in relation to a Reference Entity that is or may be material in the context of the issue of Notes and that may not be publicly available or known to the purchasers. There is no obligation on the part of the Issuer, the Guarantor or their affiliates to disclose to the Noteholders any such relationship or information.

Upon the occurrence of a Credit Event, there is a risk of the loss of a substantial portion, or all, of the principal amount of the Notes. If a Credit Event Notice is served in connection with a Credit Event of a Reference Entity, the Notes may be subject to redemption at a price which may be at a considerable discount to par and could be zero. Prospective investors therefore risk losing all principal and interest on the Notes. Noteholders will have no right to vote or exercise any other right or remedy with respect to the Reference Entity(ies) or any of its obligations.

Not all of the Credit Events require an actual default with respect to the Reference Entity's(ies') obligations. Thus, Noteholders could bear losses based on deterioration in the credit of the Reference Entity(ies) short of a default, subject to the provisions set out in the applicable Final Terms. Also, not all of the Credit Events are triggered by events which are easily ascertainable and disputes can and have arisen as to whether a specific event with respect to a Credit Event did or did not constitute a Credit Event. The Calculation Agent's good faith, reasonable determination that a Credit Event has or has not occurred will be binding on the Noteholders. The Calculation Agent's view of whether a Credit Event has occurred may be different from the view of the Noteholders or other financial institutions, rating agencies or commentators.

In the event of a Credit Event, Noteholders may receive Deliverable Obligations which may be in default. In this case, under the terms of the applicable Final Terms, the Issuer will be free to deliver any obligations of the Reference Entity in respect of which such Credit Event has occurred (whether as principal, guarantor or otherwise) which satisfy the requirements for a Deliverable Obligation. Such obligations are likely to be in default at the time of

delivery. Further, in selecting such obligations the Issuer will not be required to consider the interests of the Noteholders or mitigate the Noteholders' losses. The Issuer may have complete discretion to select the cheapest obligations of the Reference Entity so long as such obligations satisfy the requirements for a Deliverable Obligation.

The market price of Credit Linked Notes may be volatile and will be affected by, amongst other things, the time remaining to the maturity date and the creditworthiness of the Reference Entity which in turn may be affected by the economic, financial and political events in one or more jurisdictions.

Where the Notes provide for physical delivery or where Auction Settlement is the applicable Settlement Method and physical delivery is the applicable Fallback Settlement Method (each as specified in the applicable Final Terms), the Issuer may determine that the Deliverable Obligations are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the Settlement Date, or (b) assets which the Issuer and/or any affiliate has not received under the terms of any transaction entered into by the Issuer and/or such affiliate to hedge the Issuer's obligations in respect of the Notes. Any such determination may delay settlement in respect of the Notes and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Notes and, in the case of payment of a cash amount, will affect the timing of the valuation of such Notes and, as a result, the amount of the relevant amount payable on redemption. Prospective purchasers should review the Conditions of the Notes and the applicable Final Terms to ascertain whether and how such provisions should apply to the Notes.

Upon the occurrence of a Credit Event, the Issuer may, at its option, redeem the relevant Credit Linked Notes in which case the Issuer's obligation to pay principal may be replaced by an obligation to pay other amounts calculated by reference to the value of the Reference Obligation(s) and/or to deliver the Deliverable Obligation(s) and, upon the payment of such amounts or the delivery of such Deliverable Obligation(s), any claims or rights of the Noteholders relating to payment shall be extinguished. The Issuer's obligations in respect of Credit Linked Notes are not dependent on the existence of credit exposure of the Issuer to a Reference Entity and the Issuer need not itself suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

If so specified in the applicable Final Terms the Issuer may issue certain Portfolio Credit Linked Notes, Portfolio Maturity Settled Credit Linked Notes or first to default Credit Linked Notes. For each such type of Note more than one Reference Entity will be specified and a Noteholder takes credit risk in relation to each such Reference Entity. In the case of Portfolio Credit Linked Notes and Portfolio Maturity Settled Credit Linked Notes a relevant portion of each such Note will be affected by the occurrence of a Credit Event in relation to a relevant Reference Entity and interest, if any, in respect of the Notes will reduce as a result. In the case of Portfolio Credit Linked Notes a partial redemption in cash or by delivery of relevant deliverable obligations may be made as each relevant Credit Event occurs, while in the case of Portfolio Maturity Settled Credit Linked Notes amounts in respect of each Credit Event, if any, will be payable at maturity. In the case of first to default Credit Linked Notes, the first Reference Entity in respect of which a Credit Event occurs will lead to redemption of the Notes on the basis described above as though such Notes were Credit Linked Notes relating to a single Reference Entity.

The Issuer's obligations in respect of Credit Linked Notes are irrespective of the existence or amount of the Issuer's and/or any affiliates' credit exposure to a Reference Entity and the Issuer and/or any affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

The Issuer may vary the manner in which a particular series of Notes are redeemed, as specified in the applicable Final Terms. At its sole and absolute discretion, it may elect not to pay the relevant Noteholders the Credit Event Redemption Amount or to deliver or procure delivery of the relevant Deliverable Obligations to the relevant Noteholders, as the case may be, and, in lieu thereof, deliver or procure the delivery of the relevant Deliverable Obligations or make payment of the Credit Event Redemption Amount on the Credit Event Redemption Date to the relevant Noteholders. See General Condition 7 (Redemption and Purchase) below and Credit Linked Condition 23 (Variation of Settlement).

In certain circumstances, in the event that the Calculation Agent is unable to identify a Substitute Reference Obligation prior to the Extension Date, the Issuer shall have the right on or after the Extension Date to early redeem the Notes at the Early Redemption Amount (determined by the Calculation Agent taking into account the creditworthiness of the Reference Entity at the time of early redemption) by notice to Noteholders.

The Calculation Agent may from time to time amend any provision of the Credit Linked Conditions to incorporate and/or reflect further or alternative documents from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees which the Calculation Agent and the Issuer determine in a commercially reasonable manner are necessary or desirable to reflect or govern market practice for credit derivative transactions.

Whilst there are many similarities between the terms used in this Prospectus (in particular, in the Credit Linked Conditions) and the terms used in the 2003 ISDA Credit Derivative Definitions (as supplemented from time to time) there are many substantial differences and a prospective investor should understand that the complete terms and conditions of the Notes are as set out in this Prospectus and the applicable Final Terms and that the 2003 ISDA Credit Derivative Definitions are not incorporated by reference herein.

(b) Risks relating to Auction Settlement of Credit Linked Notes

Auction Settlement

Where the Settlement Method specified in the applicable Final Terms in respect of a Series of Notes is Auction Settlement and an Auction Final Price Determination Date occurs, the Auction Final Price will be determined according to an auction procedure set out in the applicable Transaction Auction Settlement Terms, a form of which will be published by ISDA on its website at www.isda.org (or any successor website thereto) from time to time and may be amended from time to time. The Auction Final Price determined pursuant to an auction may be less than the market value that would otherwise have been determined in respect of the relevant Reference Obligation. The Issuer and the Noteholders may have little or no influence in the outcome of any such auction.

Auction Final Price and the Issuer's ability to influence the Auction Final Price

If the Notes are redeemed following the occurrence of a Credit Event, the amount payable in respect of the Notes may be determined by reference to the Auction Final Price determined according to an auction procedure set out in the applicable Transaction Auction Settlement Terms. There is a possibility that the Issuer, the Calculation Agent or one of their affiliates would act as a participating bidder in any such auction. In such capacity, it may take certain actions which may influence the Auction Final Price including (without limitation): (a) providing rates of conversion to determine the applicable currency conversion rates to be used to convert any obligations which are not denominated in the auction currency into such currency for the purposes of the auction; and (b) submitting bids, offers and physical settlement requests with respect to the relevant Deliverable Obligations or Valuation Obligations, as applicable. In deciding whether to take any such action (or whether to act as a participating bidder in any auction), neither the Calculation Agent nor any of its affiliates shall be under an obligation to consider the interests of any Noteholder.

Role of the Credit Derivatives Determinations Committee

In respect of a Credit Event relating to a Credit Linked Note, prospective purchasers should note that the Credit Derivatives Determinations Committee has the power to make binding decisions on critical issues such as whether a Credit Event has occurred, which obligations are to be valued and whether an auction should take place in accordance with and as more fully described in the Credit Derivatives Determinations Committees Rules, as published by ISDA on its website at www.isda.org (or any successor website thereto) from time to time and as amended from time to time in accordance with the terms thereof. Consequently, the payments on the Notes and the timing of any such payments may be affected by any such relevant decisions if Auction Settlement is specified as the applicable Settlement Method for a Series of Notes in the relevant Final Terms.

Any "Eligible Market Participant" is permitted to deliver a notice to ISDA pursuant to the Credit Derivatives Determinations Committees Rules

The Credit Derivatives Determinations Committees Rules provide that any "Eligible Market Participant", is permitted to deliver a notice to ISDA requesting that the Credit Derivatives Determinations Committee resolves certain matters in respect of a relevant credit derivatives transaction, including those as set out in the definitions of "Credit Event Resolution Request Date", "Repudiation/Moratorium Extension Condition" and "Succession Event Resolution Request Date" in Credit Linked Condition 14 (Definitions Applicable to Credit Linked Notes) below. An Eligible Market Participant is any party that is a party to a credit derivatives transaction that has, or is deemed to have, incorporated the "2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions" or the "2009 ISDA Credit Derivatives Determinations Committees, Auction Settlement and Restructuring Supplement to the 2003 ISDA Credit Derivatives Definitions" in a confirmation (which may include, where applicable, the Issuer, the Calculation Agent or one of their affiliates). The delivery of any such notice and any subsequent resolution made by the Credit Derivatives Determinations Committee may affect the rights of Noteholders to receive payments of interests and principal under the relevant Notes, including a reduction in those payments and/or such payments being made on a date which is earlier or later than would otherwise be the case. Subject to regulatory obligations, none of the Issuer or the Calculation Agent or any of its affiliates will take into account interests of Noteholders if acting as an Eligible Market Participant.

Credit Event and Succession Event Backstop Dates

In respect of a Credit Event relating to a Series of Credit Linked Notes, a Credit Event will not be determined by the Credit Derivatives Determinations Committee unless a request is submitted to ISDA for the relevant Credit Derivatives Determinations Committee to consider whether the relevant event constitutes a Credit Event within sixty (60) calendar days of the occurrence of such potential Credit Event unless a Credit Event Determination Date has already occurred with respect to such event. For Succession Events the look-back period is ninety (90) calendar days and functions similarly. These provisions mean that there is a time limit on the ability to act on a Credit Event or Succession Event and that it is possible that the Notes could be affected by a Credit Event or Succession Event that took place prior to the Trade Date if Auction Settlement is specified as the applicable Settlement Method for a Series of Notes in the relevant Final Terms.

Settlement Suspension, Adjustments and Interest Provisions

The Credit Linked Conditions provide that, if, following the determination of a Credit Event Determination Date in accordance with sub-paragraph (a) of the definition of Credit Event Determination Date but prior to the Physical Settlement Date or, to the extent applicable, a Valuation Date, ISDA publicly announces that the conditions to convening a Credit Derivatives Determinations Committee to determine the occurrence of a Credit Event have been met, the Calculation Agent may at its option determine that the applicable timing requirements of the Credit Linked Conditions and the definitions of Credit Event Redemption Date, Valuation Date, Physical Settlement Period, and any other Credit Linked Condition as determined by the Calculation Agent in its sole discretion, shall toll and be suspended and remain suspended (such period of suspension, a "**Suspension Period**") until such time as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has resolved (a) that a Credit Event has or has not occurred or (b) not to determine such matters. Once ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has made such resolution, the relevant timing requirements of the Credit Linked Conditions that have previously tolled or been suspended shall resume on the Business Day following such public announcement by ISDA.

In the event of any such Suspension Period, the Calculation Agent may make (i) such consequential or other adjustment(s) or determination(s) to or in relation to the Credit Linked Conditions as may be desirable or required either during or following any relevant Suspension Period to account for or reflect such suspension and (ii) determine the effective date of such adjustment(s) or determination(s).

In the case of interest bearing Notes, the Issuer shall be obliged to pay interest calculated in accordance with General Condition 5 (Interest) and the Credit Linked Conditions provided that:

- (i) if a Suspension Period falls in any one or more Interest Period(s), then no interest shall accrue during each portion of an Interest Period during which a Suspension Period exists; and
- (ii) if an Interest Payment Date falls in a Suspension Period, such Interest Payment Date will be deferred until after the end of the Suspension Period.

Amendment of Credit Linked Conditions in accordance with the terms of the Notes

In addition to any amendments the Calculation Agent may make from time to time to the provisions of the Credit Linked Conditions in accordance with market convention (described above), the Credit Linked Conditions themselves contain certain provisions which permit the Calculation Agent in certain circumstances to make certain adjustments to such Credit Linked Conditions. Such adjustments may affect both payments made to Noteholders under the Notes and the timing of any such payments.

Failure to deliver an Asset Transfer Notice in respect of physically settled Credit Linked Notes

Where, in respect of any Credit Linked Notes, Physical Settlement is specified as the relevant Settlement Method or applies as the relevant Fallback Settlement Method, and a Noteholder does not deliver a valid Asset Transfer Notice as contemplated under the Credit Linked Conditions, the Issuer may, but is not required to, elect to deliver to the relevant Clearance System(s) the aggregate Asset Amount in respect of such Notes, to be divided between and delivered to the relevant Noteholders by the relevant Clearance System(s) in accordance with the rules of the relevant Clearance System(s) but no assurance is given as to the effect of such rules or other Clearance System practices for any such Noteholders.

Risks relating to Inflation Linked Notes

The Issuer may issue Inflation Linked Notes where the amount of principal and/or interest payable are dependent upon the level of an inflation/consumer price index or indices.

Potential investors in any such Notes should be aware that depending on the terms of the Inflation Linked Notes (i) they may receive no interest or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the level of the inflation/consumer price index or indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant level of the index or indices may affect the actual yield to investors, even if the average level is consistent with their expectations.

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the level of the inflation/consumer price index or the indices on principal or interest payable will be magnified.

A relevant consumer price index or other formula linked to a measure of inflation to which the Notes are linked may be subject to significant fluctuations that may not correlate with other indices. Any movement in the level of the index may result in a reduction of the interest payable on the Notes (if applicable) or, in the case of Notes with a redemption amount linked to inflation, in a reduction of the amount payable on redemption which in some cases could be less than the amount originally invested.

The timing of changes in the relevant consumer price index or other formula linked to the measure of inflation comprising the relevant index or indices may affect the actual yield to investors on the Notes, even if the average level is consistent with their expectations.

An index to which interest payments and/or the redemption amount of Inflation Linked Notes are linked is only one measure of inflation for the relevant jurisdiction, and such Index may not correlate perfectly with the rate of inflation experienced by Noteholders in such jurisdiction.

Inflation Linked Notes may be subject to certain disruption provisions or extraordinary event provisions. Relevant events may relate to market disruptions, or other extraordinary events in relation to the relevant level of inflation/consumer price index or indices. If the Calculation Agent determines that any such event has occurred this may delay valuations under and/or settlements in respect of the Notes and consequently adversely affect the value of the Notes. In addition certain extraordinary or disruption events may lead to early redemption of the Notes. Prospective investors should review the Inflation Linked Conditions and the applicable Final Terms to ascertain whether and how such provisions apply to the Note.

The market price of Inflation Linked Notes may be volatile and may depend on the time remaining to the maturity date and the volatility of the level of the index or indices. The level of the inflation/consumer price index or indices may be affected by the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which any securities comprising the inflation/consumer price index or indices may be traded.

Risks relating to Property Linked Notes

The Issuer may issue Property Linked Notes where the amount of principal and/or interest payable are dependent upon the level of a property index or indices.

Potential investors in any such Notes should be aware that depending on the terms of the Property Linked Notes (i) they may receive no interest or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the level of the property index or indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant level of the index or indices may affect the actual yield to investors, even if the average level is consistent with their expectations.

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the level of the property index or the indices on principal or interest payable will be magnified.

Property Linked Notes may be subject to certain disruption provisions or extraordinary event provisions. Relevant events may relate to market disruptions, or other extraordinary events in relation to the relevant property index or indices. If the Calculation Agent determines that any such event has occurred this may delay valuations under and/or settlements in respect of the Notes and consequently adversely affect the value of the Notes. In addition certain extraordinary or disruption events may lead to early redemption of the Notes. Prospective investors should review the Property Linked Conditions and the applicable Final Terms to ascertain whether and how such provisions apply to the Note.

The market price of Property Linked Notes may be volatile and may depend on the time remaining to the maturity date and the volatility of the level of the index or indices. The level of the property index or indices may be affected by the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which any securities comprising the property index or indices may be traded.

Risks relating to Dual Currency Notes

Investment in Dual Currency Notes may be negatively affected by changes in exchange rates and exchange controls

With respect to an investment in Dual Currency Notes that are denominated and/or payable in a Specified Currency, there will be significant risks associated with such an investment, including the possibility of material changes in the exchange controls by the applicable governments. The Issuer and the Guarantor have no control over the factors that generally affect these risks, such as economic, financial and political events and the supply and demand for the applicable currencies. Moreover, if payments on Dual Currency Notes are determined by reference to a formula containing a multiplier or leverage factor, the effect of any change in the exchange rates between the applicable currencies will be magnified. In recent years, exchange rates between certain currencies have been highly volatile and volatility between such currencies or with other currencies may be expected in the future. Fluctuations between

currencies in the past are not necessarily indicative, however, of fluctuations that may occur in the future. Depreciation of the payment currency would result in a decrease in the equivalent yield of the Dual Currency Notes, in the equivalent value of the principal generally, and in the equivalent market value of the Dual Currency Notes. Governmental exchange controls could affect exchange rates and the availability of the payment currency on a required payment date. Even if there are no exchange controls, it is possible that the payment currency will not be available on a required payment date due to circumstances beyond the Issuer's or the Guarantor's control.

6. Other risks related to Notes generally

Set out below is a brief description of certain risks relating to the Notes generally:

Modification, waivers and substitution

The General Terms and Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally including, without limitation, modifications of certain provisions of the relevant Notes, Receipts or Coupons or the Agency Agreement. The meetings provisions permit defined majorities (as set out in General Condition 16 (Meetings of Noteholders and Modifications)) to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The General Terms and Conditions of the Notes also provide that the Issuer may, without the consent of Noteholders, agree to:

- (i) certain modifications of the Notes, including:
 - (A) any modification of the provisions of the Notes, the Receipts, the Coupons or the Agency Agreement which is not prejudicial to the interests of the Noteholders; or
 - (B) any modification of any of the provisions of the Conditions, the Notes, the Receipts, the Coupons or the Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest or proven error or is made to correct an error, ambiguity or omission such that, in the absence of such correction, the terms of the Notes would not otherwise represent the intended terms of the Notes on which the Notes were sold and have since traded or is to comply with mandatory provisions of applicable law; or
- (ii) the substitution of another company as principal debtor under any Notes in place of the Issuer, in certain circumstances.

EU Savings Directive

Under the EU Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

The European Commission has proposed certain amendments to the Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

If a payment were to be made or collected through a Member State which has opted for a withholding system, and an amount of, or in respect of tax, were to be withheld from that payment, neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition

of such withholding tax. The Issuer is required to maintain a Paying Agent in a Member State that is not obliged to withhold or deduct tax pursuant to the Directive.

7. Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, and credit risk:

The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes and the Guarantor will make any payments under the Guarantee in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes, and (3) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Effect of credit ratings of the Issuer and/or the Guarantor

The value of the Notes is expected to be affected, in part, by investors' general appraisal of the Issuer's and the Guarantor's creditworthiness. Such perceptions are generally influenced by the ratings accorded to the Issuer's outstanding securities by standard statistical rating services, such as Moody's Investors Service Limited, Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc., and Fitch Ratings Ltd. A reduction in the rating, if any, accorded to outstanding debt securities of the Issuer by one of these rating agencies could result in a reduction in the trading value of the Notes.

Ratings of the Notes

One or more independent credit rating agencies may also assign credit ratings to a particular Series of Notes. In general, European regulated investors are restricted under Regulation (EC) No. 1060/2009 (the "**CRA Regulation**") from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). Certain information with respect to the credit rating agencies and ratings is set out in the Summary section of this Prospectus and will be disclosed in the Final Terms.

Credit ratings may not reflect all risks

Any credit rating assigned to a Series of Notes may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of those Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing, and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

There may be potential conflicts of interests if intermediaries are appointed in connection with the offer or placement of the Notes

Given that the intermediaries appointed from time to time as distributors and the other entities acting in connection with the offer or placement of the Notes act in their institutional capacity pursuant to a mandate granted by the Issuer and receive fees on the basis of the placement activity carried out and its outcome, such intermediaries generally act in a situation that may give rise to a potential conflict of interest.

Notes where denominations involve integral multiples: Definitive Notes

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time, may not receive Notes in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination.

If definitive Notes are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

FORM OF THE NOTES

The Notes of each Series will be in bearer form or registered (or inscribed) form. Bearer Notes will be issued outside the United States in reliance on Regulation S under the Securities Act ("**Regulation S**") and Registered Notes will be issued both outside the United States in reliance on the exemption from registration provided by Regulation S and within the United States in reliance on Rule 144A under the Securities Act.

Bearer Notes

Each Tranche of Bearer Notes will be initially represented by either a temporary bearer global note (a "**Temporary Bearer Global Note**") or a permanent bearer global note (a "**Permanent Bearer Global Note**" and, together with the Temporary Bearer Global Note, the "**Bearer Global Notes**") as indicated in the applicable Final Terms of the Notes, which, in either case, will:

- (i) if the Bearer Global Notes are intended to be issued in new global note ("**NGN**") form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper for Euroclear Bank S.A./N.V. ("**Euroclear**") and Clearstream Banking, société anonyme ("**Clearstream, Luxembourg**"); and
- (ii) if the Bearer Global Notes are not intended to be issued in NGN form, be delivered on or prior to the original issue date of the Tranche to a common depository for Euroclear and Clearstream, Luxembourg.

Whilst any Bearer Note is represented by a Temporary Bearer Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made against presentation of the Temporary Bearer Global Note (if the Temporary Bearer Global Note is not intended to be issued in NGN form) only to the extent that certification to the effect that the beneficial owners of interests in such Bearer Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.

In respect of each Tranche of Notes in respect of which a Temporary Bearer Global Note is issued, on and after the date (the "**Exchange Date**") which is 40 days after the Temporary Bearer Global Note is issued, interests in such Temporary Bearer Global Note will be exchangeable (free of charge) upon a request as described therein for either:

- (i) interests in a Permanent Bearer Global Note of the same Series; or
- (ii) Definitive Bearer Notes (as defined in the General Terms and Conditions of the Notes) of the same Series (as defined in the General Terms and Conditions of the Notes) with, where applicable, receipts, interest coupons and talons attached (as indicated in the applicable Final Terms and subject, in the case of Definitive Bearer Notes, to such notice period as is specified in the applicable Final Terms).

In each case such exchange shall be made against certification of beneficial ownership as described above, unless such certification has already been given. Purchasers in the United States and certain U.S. persons will not be able to receive Definitive Bearer Notes or interests in a Permanent Bearer Global Note. The holder of a Temporary Bearer Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due presentation and certification, exchange of the Temporary Bearer Global Note for an interest in a Permanent Bearer Global Note or for Definitive Bearer Notes is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Bearer Global Note will be made through Euroclear and/or Clearstream, Luxembourg against presentation or surrender (as the case may be) of the Permanent Bearer Global Note (if the Permanent Bearer Global Note is not intended to be issued in NGN form) without any requirement for certification.

The applicable Final Terms will specify that a Permanent Bearer Global Note will be exchangeable (free of charge), in whole but not in part, for Definitive Bearer Notes with, where applicable, receipts, interest coupons and talons attached upon either:

- (1) not less than 60 days' written notice from Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Note) to the Principal Paying Agent, or
- (2) only upon the occurrence of an Exchange Event (as defined below).

No Definitive Bearer Notes will be sent by post or otherwise delivered to any location in the United States or its possessions in connection with such exchange.

For these purposes, "**Exchange Event**" means that:

- (1) an Event of Default (as defined in General Condition 10 (Events of Default)) has occurred and is continuing;
- (2) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no alternative clearing system satisfactory to the Issuer and the Principal Paying Agent is available; or
- (3) the Issuer or the Guarantor has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Permanent Bearer Global Note in definitive form.

The Issuer will promptly give notice to the Noteholders in accordance with General Condition 14 (Notices) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Note) may give notice to the Principal Paying Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (3) above, the Issuer or the Guarantor may also give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

The following legend will appear on all Bearer Notes which have an original maturity of more than 365 days and on all receipts, talons and interest coupons relating to such Notes:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE."

The sections referred to provide that United States persons, with certain exceptions, will not be entitled to deduct any loss on Bearer Notes, receipts, talons or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect, talons of such Notes, receipts or interest coupons. The term "United States person", as used in this paragraph and in the preceding paragraph, has the meaning set forth in the Internal Revenue Code and the U.S. Treasury regulations thereunder.

Notes which are represented by a Bearer Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

In relation to any Tranche of Notes under the Programme, the Issuer may issue Notes of a minimum authorised denomination of (a) €100,000 or (b) €50,000 and integral multiples of €1,000 (or such other amount as is specified in the applicable Final Terms) in excess thereof up to and including (i) in the case of Notes with a minimum authorised denomination of €100,000, €199,000 and (ii) in the case of Notes with a minimum authorised denomination of €50,000, €99,000 (or such other amount as is specified in the applicable Final Terms). In such case, no Notes in definitive form will be issued with a denomination above €199,000 or €99,000 respectively (or such other amount as is specified in the

applicable Final Terms). So long as such Notes are represented by a Temporary Bearer Global Note or Permanent Bearer Global Note and the relevant clearing systems so permit, the Notes will be tradeable only in the relevant minimum authorised denomination and higher integral multiples of €1,000 (or such other amount as is specified in the applicable Final Terms), notwithstanding that no Definitive Bearer Notes will be issued with a denomination above €199,000 or €99,000 as applicable (or such other amount as is specified in the applicable Final Terms).

If a Global Bearer Note is exchangeable for a Definitive Bearer Note at the option of the Noteholders, the Notes shall be tradeable only in principal amounts of at least the Specified Denomination (as defined in the General Terms and Conditions of the Notes) (or if more than one Specified Denomination, the lowest Specified Denomination).

Registered Notes

Registered Notes may be offered and sold in reliance on Regulation S or in reliance on Rule 144A.

Registered Notes offered and sold in reliance on Regulation S may only be offered and sold to non-U.S. persons outside the United States and will initially be represented by a global note in registered form, without receipts, interest coupons or talons (a "**Regulation S Global Note**") which will be deposited with a common depository for, and registered in the name of a common nominee or nominee of, Euroclear and Clearstream, Luxembourg or such other clearance system as may be agreed between the Issuer and the relevant Dealer and specified in the Final Terms. Prior to expiry of the Distribution Compliance Period (as defined in General Terms and Conditions of the Notes) applicable to each Tranche of Notes, beneficial interests in a Regulation S Global Note may not be offered or sold to, or for the account or benefit of, a U.S. person save as otherwise provided in General Condition 2 (Transfers of Registered Notes) and may not be held otherwise than through Euroclear or Clearstream, Luxembourg (or such other clearance system as may be agreed between the Issuer and the relevant Dealer and specified in the Final Terms) and such Regulation S Global Note will bear a legend regarding such restrictions on transfer.

Registered Notes offered and sold in reliance on Rule 144A may only be offered and sold in the United States or to U.S. persons in private transactions to "qualified institutional buyers" within the meaning of Rule 144A under the Securities Act ("**QIBs**") and will be represented by a global note in registered form, without receipts, interest coupons or talons (a "**Rule 144A Global Note**" and, together with a Regulation S Global Note, the "**Registered Global Notes**") which will be deposited with a custodian for, and registered in the name of a nominee of, The Depository Trust Company ("**DTC**").

Persons holding beneficial interests in Registered Global Notes will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of Definitive Registered Notes (as defined in the General Terms and Conditions of the Notes).

The Rule 144A Global Note will be subject to certain restrictions on transfer set forth therein and will bear a legend regarding such restrictions.

Payments of principal, interest and any other amount in respect of the Registered Global Notes will, in the absence of provision to the contrary, be made to the person(s) shown on the Register on the relevant Record Date (each as defined in General Condition 6.4 (Payments in respect of Registered Notes)) as the registered holder(s) of the Registered Global Notes. None of the Issuer, the Guarantor, any Paying Agent and the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of the Registered Notes in definitive form will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in General Condition 6.4 (Payments in respect of Registered Notes)) immediately preceding the due date for payment in the manner provided in that General Condition.

Interests in a Registered Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Registered Notes without receipts, interest coupons or talons attached only upon the occurrence of an Exchange Event. For these purposes, "**Exchange Event**" means that:

- (1) an Event of Default (as defined in General Condition 10 (Events of Default)) has occurred and is continuing;
- (2) in the case of Notes represented by a Rule 144A Global Note only, DTC has notified the Issuer that it is unwilling or unable to continue to act as depository for the Notes and no alternative clearing system satisfactory to the Issuer, the Principal Paying Agent and the Registrar is available;
- (3) in the case of Notes represented by a Rule 144A Global Note only, DTC has ceased to constitute a clearing agency registered under the Exchange Act or in the case of Notes represented by a Regulation S Global Note only, the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no alternative clearing system satisfactory to the Issuer, the Principal Paying Agent and the Registrar is available;
or
- (4) the Issuer or the Guarantor has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Registered Global Note in definitive form.

The Issuer will promptly give notice to the Noteholders in accordance with General Condition 14 (Notices) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, DTC, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Registered Global Note) and, in the event of the occurrence of an Exchange Event as described in (4) above, the Issuer or the Guarantor may also give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Registrar.

Transfer of Interests

Interests in a Registered Global Note may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such interest in another Registered Global Note. No beneficial owner of an interest in a Registered Global Note will be able to transfer such interest, except in accordance with the applicable procedures of DTC, Euroclear and Clearstream, Luxembourg, in each case to the extent applicable. **Registered Notes are also subject to the restrictions on transfer set forth therein and will bear a legend regarding such restrictions, see "*Subscription and Sale and Transfer and Selling Restrictions*".**

General

Pursuant to the Agency Agreement (as defined under the General Terms and Conditions of the Notes), the Principal Paying Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes, the Notes of such further Tranche shall be assigned a common code and ISIN and, where applicable, a CUSIP and CINS number which are different from the common code, ISIN, CUSIP and CINS assigned to Notes of any other Tranche of the same Series until at least the expiry of the Distribution Compliance Period (as defined in the General Terms and Conditions of the Notes) applicable to the Notes of such Tranche.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms or as may otherwise be approved by the Issuer and the Principal Paying Agent.

For so long as any of the Notes is represented by a Bearer Global Note or a Regulation S Global Note held on behalf of or, as the case may be, registered in the name of a common nominee for, Euroclear and/or Clearstream, Luxembourg (or, as the case may be, a nominee for the common safekeeper), each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount or number of units of such Notes (in which regard any certificate or other

document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount or number of units of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Guarantor, the Principal Payment Agent, the Paying Agents, the Transfer Agents and the Registrar as the holder of such nominal amount or number of units of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount or number of units of such Notes, for which purpose the bearer of the relevant Bearer Global Note or the registered holder of the relevant Regulation S Global Note shall be treated by the Issuer, the Guarantor, the Principal Paying Agent, the Paying Agents, the Transfer Agents and the Registrar as the holder of such nominal amount or number of units of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions "**Noteholder**" and "**holder of Notes**" and related expressions shall be construed accordingly.

In the case of paragraph (A) above, such transferee may take delivery through a Rule 144A Global Note (or such Note issued in registered form in exchange or substitution therefor, together, a "**Restricted Note**") in global or definitive form. After expiry of the applicable Distribution Compliance Period (i) beneficial interests in Regulation S Global Notes may be held through DTC directly, by a participant in DTC, or indirectly through a participant in DTC and (ii) such certification requirements will no longer apply to such transfers.

- (B) to a transferee who takes delivery of such interest through a Restricted Note where the transferee is a person whom the transferor reasonably believes is a QIB in a transaction meeting the requirements of Rule 144A, without certification; or
- (C) otherwise pursuant to the Securities Act or an exemption therefrom, subject to receipt by the Issuer of such satisfactory evidence as the Issuer may reasonably require, which may include an opinion of U.S. counsel, that such transfer is in compliance with any applicable securities laws of any State of the United States,

and, in each case, in accordance with any applicable securities laws of any State of the United States or any other jurisdiction.

Upon the transfer, exchange or replacement of Restricted Notes, or upon specific request for removal of any United States securities law legend enfacé on Restricted Notes, the Registrar shall deliver only Restricted Notes or refuse to remove such legend, as the case may be, unless there is delivered to the Issuer such satisfactory evidence as may reasonably be required by the Issuer, which may include an opinion of U.S. counsel, that neither such legend nor the restrictions on transfer set forth therein are required to ensure compliance with the provisions of the Securities Act.

As more fully set forth in the Guarantee, the Guarantor shall at all times have the right, in its sole and unfettered discretion, to elect not to deliver or procure delivery of the Asset Amount (as specified in the applicable Final Terms) to the holders of Physical Delivery Notes when the same shall become due and deliverable, but in lieu thereof to pay an amount in cash in respect of each Note equal to the guaranteed cash settlement amount calculated pursuant to the terms of, or as specified in, the relevant Final Terms (the "**Guaranteed Cash Settlement Amount**"). - (a) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (b) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (c) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

If the Notes are in definitive form, except as provided in the applicable Final Terms, the amount of interest payable on each Interest Payment Date in respect of the Fixed Rate Note Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (a) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note or, if they are Partly Paid Notes, the aggregate amount paid up; or
- (b) in the case of a Fixed Rate Note in definitive form, the Calculation Amount,

General Conditions

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure in accordance with the Rounding Convention (as specified in General Condition 6 (Payments) below). Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

5.3 Interest on Floating Rate Notes and Variable Interest Rate Notes

(A) Interest Payment Dates

Each Floating Rate Note and Variable Interest Rate Note will bear interest from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (i) the Specified Interest Payment Date(s) in each year, as specified in the applicable Final Terms; or
- (ii) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Specified Interest Payment Date, an "**Interest Payment Date**") which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each "**Interest Period**" (which expression shall, in these Conditions, mean the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date).

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day (as defined in General Condition 5.7 below), then, if the Business Day Convention specified is:

- (a) in any case where Specified Periods are specified in accordance with General Condition 5.3(A)(ii) above, the Floating Rate Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply *mutatis mutandis* or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (B) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (b) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (c) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (d) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

(B) Rate of Interest

General Conditions

The Rate of Interest payable from time to time in respect of Floating Rate Notes and Variable Interest Rate Notes will be determined in the manner specified in the applicable Final Terms.

(i) *ISDA Determination for Floating Rate Notes*

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this sub paragraph (i), "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Principal Paying Agent or other person specified in the applicable Final Terms, under an interest rate swap transaction if the Principal Paying Agent or that other person were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (a) the Floating Rate Option is as specified in the applicable Final Terms;
- (b) the Designated Maturity is that period specified in the applicable Final Terms; and
- (c) the relevant Reset Date is either (1) if the applicable Floating Rate Option is based on the London inter bank offered rate ("**LIBOR**") or on the Euro-zone inter-bank offered rate ("**EURIBOR**"), the first day of that Interest Period or (2) in any other case, as specified in the applicable Final Terms.

For the purposes of this sub-paragraph (i), (x) "**Euro-zone**" means the region comprised of member states of the European Union ("**Member States**") that adopt the single currency in accordance with the Treaty establishing the European Community, as amended by the Treaty on European Union and the Treaty of Amsterdam and (y) "**Floating Rate**", "**Calculation Agent**", "**Floating Rate Option**", "**Designated Maturity**" and "**Reset Date**" have the meanings given to those terms in the ISDA Definitions.

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, unless otherwise stated in the applicable Final Terms, the Minimum Rate of Interest shall be deemed to be zero.

(ii) *Screen Rate Determination for Floating Rate Notes*

- (a) Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:
 - (i) the offered quotation; or
 - (ii) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate (as specified in the applicable Final Terms) which appears or appear, as the case may be, on the Relevant Screen Page as at 11:00 a.m. (London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR) on the Interest Determination Date (as defined below) in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Principal Paying Agent or other person as specified in the applicable Final Terms. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the

General Conditions

lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Principal Paying Agent (or other person as specified in the applicable Final Terms) for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Agency Agreement contains provisions for determining the Rate of Interest in the event that the Relevant Screen Page is not available or if, in the case of (a) above, no such offered quotation appears or, in the case of (b) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph.

- (iii) If the Reference Rate from time to time in respect of Floating Rate Notes or Variable Interest Rate Notes is specified in the applicable Final Terms as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the applicable Final Terms.

(C) Minimum Rate of Interest and/or Maximum Rate of Interest

If the applicable Final Terms specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (B) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest. If no other Minimum Rate of Interest for any Interest Period is specified in the applicable Final Terms, then the Minimum Rate of Interest in respect of such Interest Period shall be deemed to be zero and in no event shall the Rate of Interest for such calculation period in accordance with General Condition 5.3(B) above be less than zero.

If the applicable Final Terms specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (B) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(D) Determination of Rate of Interest and calculation of Interest Amounts

The Principal Paying Agent (or other person as specified in the applicable Final Terms), in the case of Floating Rate Notes, and the Calculation Agent, in the case of Variable Interest Rate Notes will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period. In the case of Variable Interest Rate Notes, the Calculation Agent will notify the Principal Paying Agent of the Interest Rate for the relevant Interest Period as soon as practicable after calculating the same.

The Principal Paying Agent (or other person as specified in the applicable Final Terms), in the case of Floating Rate Notes, and the Calculation Agent, in the case of Variable Interest Rate Notes, will calculate the amount of interest (the "**Interest Amount**") payable on the Notes for the relevant Interest Period by applying the Rate of Interest to:

- (a) in the case of Floating Rate Notes and Variable Interest Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the applicable Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up);
- (b) in the case of Floating Rate Notes and Variable Interest Rate Notes which are in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure in accordance with the Rounding Convention (as specified in General Condition 6

General Conditions

(Payments) below). Where the Specified Denomination of a Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding. In such case, the Calculation Agent will notify the Principal Paying Agent of the Interest Amount for the relevant Interest Period as soon as practicable after calculating the same.

(E) *Notification of Rate of Interest and Interest Amounts*

The Principal Paying Agent (or other person as specified in the applicable Final Terms) will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange and/or market on which the relevant Notes are for the time being listed and/or admitted to trading and notice thereof to be published in accordance with General Condition 14 (Notices) as soon as possible after their determination but in no event later than the fourth (4th) London Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange and/or market on which the relevant Notes are for the time being listed and/or admitted to trading and to the Noteholders in accordance with General Condition 14 (Notices). For the purposes of this paragraph, the expression "**London Business Day**" means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business (including dealings in foreign exchange and foreign currency deposits) in London.

(F) *Certificates to be final*

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this General Condition 5.3 (Interest on Floating Rate Notes and Variable Interest Rate Notes), whether by the Principal Paying Agent or, if applicable, the Calculation Agent, shall (in the absence of wilful default, bad faith, manifest error or proven error) be binding on the Issuer, the Guarantor, the Principal Paying Agent, the Calculation Agent (if applicable), the other Paying Agents and all Noteholders, Receiptholders and Couponholders and (in the absence of wilful default or bad faith) no liability to the Issuer, the Guarantor, the Noteholders, the Receiptholders or the Couponholders shall attach to the Principal Paying Agent or the Calculation Agent (if applicable) in connection with the exercise or non exercise by it of its powers, duties and discretions pursuant to such provisions.

5.4 Interest on Dual Currency Interest Notes

The rate or amount of interest payable in respect of Dual Currency Interest Notes shall be determined in the manner specified in the applicable Final Terms.

5.5 Interest on Partly Paid Notes

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid up nominal amount of such Notes and otherwise as specified in the applicable Final Terms.

5.6 Accrual of interest

Subject as provided in any Technical Annex, each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless, upon due presentation thereof, payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

General Conditions

- (A) the date on which all amounts due in respect of such Note have been paid and/or all assets deliverable in respect of such Note have been delivered; and
- (B) five (5) days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Principal Paying Agent or the Registrar, as the case may be, and/or all assets in respect of such Note have been delivered and notice to that effect has been given to the Noteholders in accordance with General Condition 14 (Notices).

5.7 Business Day

In these Conditions, "**Business Day**" means a day which is both:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and each Additional Business Centre specified in the applicable Final Terms; and
- (b) either (x) in relation to any sum payable in a currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively) or (y) in relation to any sum payable in euro, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System (or any successor thereto) (the "**TARGET2 System**") is open. Unless otherwise provided in the applicable Final Terms, or as above, the principal financial centre of any currency for the purpose of these Conditions shall be as provided in the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Associations, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes (the "**ISDA Definitions**").

6. PAYMENTS

6.1 Method of payment

Subject as provided below:

- (A) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency;
- (B) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque; and
- (C) payments in U.S. Dollars will be made by transfer to a U.S. Dollar account maintained by the payee with a bank outside of the United States (which expression, as used in this General Condition 6, means the United States of America, including the States and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction), or by cheque drawn on a United States bank. In no event will payment in respect of Bearer Note be made by a cheque mailed to an address in the United States. All payments of interest in respect of Bearer Notes will be made to accounts located outside the United States except as may be permitted by United States tax law in effect at the time of such payment without detriment to the Issuer.

Payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of General Condition 8 (Taxation).

General Conditions

6.2 Presentation of Definitive Bearer Notes, Receipts and Coupons

Payments of principal in respect of Definitive Bearer Notes will (subject as provided below) be made in the manner provided in General Condition 6.1 (Method of payment) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Definitive Bearer Notes, and payments of interest in respect of Definitive Bearer Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)).

Payments of instalments of principal (if any) in respect of Definitive Bearer Notes, other than the final instalment, will (subject as provided below) be made in the manner provided in General Condition 6.1 (Method of payment) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in General Condition 6.1 (Method of payment) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Definitive Bearer Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the Definitive Bearer Note to which it appertains. Receipts presented without the Definitive Bearer Note to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any Definitive Bearer Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes in definitive bearer form (other than Dual Currency Notes, Variable Interest Rate Notes or Long Maturity Notes) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of ten (10) years after the Relevant Date (as defined in General Condition 9 (Prescription)) in respect of such principal (whether or not such Coupon would otherwise have become void under General Condition 9 (Prescription)) or, if later, five (5) years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive bearer form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Note in definitive bearer form (other than a Fixed Rate Note which is not a Long Maturity Note) becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A "Long Maturity Note" is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note. If the due date for redemption of any Definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against presentation and surrender of the relevant Definitive Bearer Note.

General Conditions

6.3 Payments in respect of Bearer Global Notes

Payments of principal and interest (if any) in respect of Notes represented by any Bearer Global Note will (subject as provided below) be made in the manner specified above in relation to Definitive Bearer Notes and otherwise in the manner specified in the relevant Bearer Global Note against presentation or surrender, as the case may be, of such Bearer Global Note at the specified office of any Paying Agent outside the United States. A record of each payment made against presentation or surrender of any Bearer Global Note, distinguishing between any payment of principal and any payment of interest, will be made on such Bearer Global Note by the Paying Agent to which it was presented and such record shall be *prima facie* evidence that the payment in question has been made.

No payments of principal, interest or other amounts due in respect of a Bearer Global Note will be made by mail to an address in the United States or by transfer to an account maintained in the United States.

6.4 Payments in respect of Registered Notes

Payments of principal (other than instalments of principal prior to the final instalment) in respect of each Registered Note (whether or not in global form) will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Registered Note at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account of the holder (or the first named of joint holders) of the Registered Note appearing in the register of holders of the Registered Notes maintained by the Registrar (the "**Register**") at (a) in the case of Definitive Registered Notes, the close of business on the fifteenth (15th) calendar day before the relevant due date, and (b) in the case of Registered Global Notes, the close of business on the Business Day immediately prior to the relevant due date (in each case, the relevant "**Record Date**"). Notwithstanding the previous sentence, if (i) a holder does not have a Designated Account or (ii) the nominal amount of the Notes held by a holder is less than U.S.\$100,000 (or its approximate equivalent in any other Specified Currency), payment will instead be made by a cheque in the Specified Currency drawn on a Designated Bank. For these purposes, "**Designated Account**" means the account maintained by a holder with a designated bank and identified as such in the Register and "**Designated Bank**" means (in the case of payment in a Specified Currency other than euro) a bank in the principal financial centre of the country of such Specified Currency and (in the case of a payment in euro) any bank which processes payments in euro.

Payments of interest and payments of instalments of principal (other than the final instalment) in respect of each Registered Note (whether or not in global form) will be made by a cheque in the Specified Currency drawn on a Designated Bank and mailed by uninsured mail on the business day in the city where the specified office of the Registrar is located immediately preceding the relevant due date to the holder (or the first named of joint holders) of the Registered Note appearing in the Register at the close of business on the Record Date at his address shown in the Register on the Record Date and at his risk. Upon application of the holder to the specified office of the Registrar not less than three (3) business days in the city where the specified office of the Registrar is located before the due date for any payment of interest in respect of a Registered Note, the payment may be made by transfer on the due date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of interest (other than interest due on redemption) and instalments of principal (other than the final instalment) in respect of the Registered Notes which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Registered Note on redemption and the final instalment of principal will be made in the same manner as payment of the principal amount of such Registered Note.

Holders of Registered Notes will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Note as a result of a cheque posted in accordance with this General Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of principal or interest in respect of the Registered Notes.

General Conditions

All amounts payable to DTC or its nominee as registered holder of a Rule 144A Global Note in respect of Notes denominated in a Specified Currency other than U.S. dollars shall be paid by transfer by the Registrar to an account in the relevant Specified Currency of the Exchange Agent on behalf of DTC or its nominee for payment in such Specified Currency for conversion into U.S. dollars in accordance with the provisions of the Agency Agreement.

None of the Issuer, the Guarantor or the Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

6.5 General provisions applicable to payments

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer or, as the case may be, the Guarantor will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of DTC, Euroclear or Clearstream, Luxembourg or the relevant clearance system specified in the applicable Final Terms, as the beneficial holder of a particular nominal amount or number of units of Notes represented by such Global Note must look solely to DTC, Euroclear or Clearstream, Luxembourg or the relevant clearance system specified in the applicable Final Terms, as the case may be, for his share of each payment so made by the Issuer or, as the case may be, the Guarantor to, or to the order of, the holder of such Global Note.

Notwithstanding the foregoing provisions of this General Condition 6.5, if any amount of principal and/or interest in respect of Bearer Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:

- (A) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Bearer Notes in the manner provided above when due;
- (B) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (C) such payment is then permitted under United States law without involving, in the opinion of the Issuer and the Guarantor, adverse tax consequences to the Issuer or the Guarantor.

Any amount payable in respect of a Note which exceeds the sum subscribed represents an amount payable by the Issuer (i) as consideration for the use of the sum subscribed by the Issuer and (ii) as compensation for and in recognition that in certain circumstances the amount repayable on maturity may be less than the sum subscribed or that the amount paid in excess of the sum subscribed may have been less than the prevailing rate of interest (generally payable by the Issuer) at the time when the Notes were issued.

6.6 Payment Days

Subject to General Condition 5.3(A) (*Interest Payment Dates*), if the date for payment (the "**Relevant Payment Date**") of any amount in respect of any Note, Receipt or Coupon is not a Payment Day, the holder thereof will instead be entitled to payment on the relevant day determined in accordance with the relevant Payment Day Convention as set out below and will not be entitled to any further interest or other payment in respect of any delay.

Where:

General Conditions

- (a) the Payment Day Convention is specified as “following” in the applicable Final Terms, or where no Payment Day Convention is specified in the applicable Final Terms, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place;
- (b) the Payment Day Convention is specified as "Modified Following" in the applicable Final Terms, the holder thereof shall not be entitled to payment until the next day which is a Payment Day unless such day falls in the next calendar month, in which event such holder shall be entitled to payment on the Payment Day immediately preceding the Relevant Payment Date (the "**Adjusted Date for Payment**"); and
- (c) the Payment Day Convention is specified as "Preceding" in the applicable Final Terms, the holder thereof shall be entitled to payment on the Payment Day immediately preceding the Relevant Payment Date (the "**Adjusted Date for Payment**"),

Provided That, in the event that any day upon which a valuation or determination is required to be made for the purposes of determining the amount of the payment to be made in respect of the Relevant Payment Date (each such date a "**Relevant Valuation Date**") would, as a result of the adjustment anticipated in paragraph (b) or (c) above, fall after the second Business Day preceding the Adjusted Date for Payment, Noteholders will not be entitled to the relevant payment due in respect of the Relevant Payment Date until the day falling [two (2)] Business Days following the last occurring Relevant Valuation Date.

"**Payment Day**" means any day which (subject to General Condition 9 (Prescription)):

- (A) (i) is a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (a) in the case of Notes in definitive form only, the relevant place of presentation; and
 - (b) each Additional Financial Centre specified in the applicable Final Terms; and
- (ii) either (A) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively) or (B) in relation to any sum payable in euro, a day on which the TARGET2 System is open; and
- (B) in the case of any payment in respect of a Registered Global Note denominated in a Specified Currency other than U.S. dollars and registered in the name of DTC or its nominee and in respect of which an accountholder of DTC (with an interest in such Registered Global Note) has elected to receive any part of such payment in U.S. dollars, a day on which commercial banks are not authorised or required by law or regulation to be closed in New York City.

6.7 Interpretation of principal and interest

Any reference in the Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (A) the Final Redemption Amount of the Notes;
- (B) the Early Redemption Amount of the Notes;
- (C) the Optional Redemption Amount(s) (if any) of the Notes;

General Conditions

- (D) in relation to Notes redeemable in instalments, the Instalment Amounts;
- (E) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in General Condition 7.6 (Early Redemption Amounts)); and
- (F) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

6.8 Rounding Convention

For the purposes of calculations made pursuant to General Condition 5.2 (Interest on Fixed Rate Notes) and General Condition 5.3 (Interest on Floating Rate Notes and Variable Interest Rate Notes) any figure to be rounded will, if other than a sub-unit in the relevant Specified Currency:

- (A) if "Rounded Up" is specified in the applicable Final Terms, be rounded upwards to the next sub-unit of the relevant Specified Currency,
- (B) if "Rounded Down" is specified in the applicable Final Terms, be rounded downwards to the next sub-unit of the relevant Specified Currency; or
- (C) in the event that no Rounding Convention is specified in the applicable Final Terms be rounded down as if "Rounded Down" had been specified,

provided that, in each case, the Calculation Amount in respect of Notes which are (i) held by the same Noteholder, (ii) of the same Series and (iii) in definitive form, shall be aggregated for the purpose of determining the aggregate amount of interest due in respect of any Interest Payment Date.

For the purposes of calculating any other cash amounts which may be payable by the Issuer under or in respect of the Notes and which are other than a sub-unit in the relevant Specified Currency (including for the avoidance of doubt the Final Redemption Amount), unless otherwise specified in the applicable Final Terms.

7. REDEMPTION AND PURCHASE

7.1 Redemption at maturity

Unless previously redeemed or purchased and cancelled as specified below, each Note (unless otherwise specified in the applicable Final Terms or Technical Annex(es)) will be redeemed by the Issuer at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms in the relevant Specified Currency on the Maturity Date or if the Notes are Physical Delivery Notes, by delivery of the Asset Amount, subject to fulfilment of the provisions of the applicable Technical Annex.

7.2 Redemption at the option of Noteholders (Investor Put)

- (b) save to the extent that an Exchange Notice has been given in accordance with General Condition 17.2(d) below, the amount of interest due in respect of the Notes will be calculated by reference to the aggregate nominal amount of Notes presented (or, as the case may be, in respect of which Coupons are presented) for payment by the relevant holder and the amount of such payment shall be rounded down to the nearest euro 0.01;
- (c) if definitive Notes are required to be issued after the Redenomination Date, they shall be issued at the expense of the Issuer (i) in the case of Relevant Notes, in the denomination of euro 100,000 and/or such higher amounts as the Agent may determine and notify to the Noteholders and any remaining amounts less than euro 100,000 shall be redeemed by the Issuer and paid to the Noteholders in euro in accordance with General Condition 6 (Payments); and (ii) in the denominations of euro 1,000, euro 10,000, euro 50,000 and (but only to the extent of any remaining amounts less than euro 1,000 or such smaller denominations as the Principal Paying Agent may approve) euro 0.01 and such other denominations as the Principal Paying Agent shall determine and notify to the Noteholders;

The payment obligations contained in any Notes and Receipts so issued will also become void on that date although those Notes and Receipts will continue to constitute valid exchange obligations of the Issuer. Payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque;
- (f) if the Notes are Fixed Rate Notes and interest for any period ending on or after the Redenomination Date is required to be calculated for a period ending other than on an Interest Payment Date, it will be calculated:

Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding;

Following the declaration by the Basket Company or Share Company, as the case may be, of the terms of any Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Shares and, if so, will (i) make the corresponding adjustment, if any, to any one or more of any Relevant Asset and/or the Asset Amount (in each case with respect to Physical Delivery Notes) and/or any of the other terms of the Conditions and/or the applicable Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) and (ii) determine the effective date of that adjustment. In its determinations of the existence and extent of any dilutive or concentrative effect on the theoretical value of the Shares relating to any Potential Adjustment Event, and any related adjustments to the terms of the Notes, the Calculation Agent may take into account any amounts of Local Taxes that would, in the determination of the Calculation Agent, be withheld from or paid or otherwise incurred by an Offshore Investor in connection with such Potential Adjustment Event. The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Shares traded on that options exchange.

Upon the making of any such adjustment by the Calculation Agent, the Calculation Agent shall give notice as soon as reasonably practicable under the circumstances to (i) the Issuer and the Principal Paying Agent and (ii) the Noteholders in accordance with General Condition 14 (Notices), stating the adjustment to any Relevant Asset and/or the Asset Amount (in each case with respect to Physical Delivery Notes) and/or any of the other terms of the Conditions and/or the applicable Final Terms and giving brief details of the Potential Adjustment Event, *provided that* any failure to give, or non-receipt of, such notice will not affect the validity of the Potential Adjustment Event.

(b) **Consequences of an Extraordinary Event**

If any Extraordinary Event occurs in relation to a Share, the Issuer in its sole and absolute discretion may take the action described in (i), (ii), or (iii) below:

- (i) require the Calculation Agent to determine, in its sole and absolute discretion, the appropriate adjustment, if any, to be made to any one or more of any Relevant Asset and/or the Asset Amount (in each case with respect to Physical Delivery Notes) and/or any of the other terms of the Conditions and/or the applicable Final Terms to account for such Extraordinary Event, as the case may be, and determine the effective date of that adjustment. The relevant adjustments may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or to the Notes, or selecting a replacement share and making any relevant adjustments in relation thereto. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Extraordinary Event made by any options exchange to options on the Shares traded on that options exchange and the Calculation Agent may take into account any amounts of Local Taxes that would, in the determination of the Calculation Agent, be withheld from or paid or otherwise incurred by an Offshore Investor in connection with such Extraordinary Event; or
- (ii) where the Notes relate to a basket of Shares, on giving notice to Noteholders in accordance with General Condition 14 (Notices), redeem or cancel, as the case may be, each Note in part. If a Note is so redeemed or cancelled in part the portion (the **"Partial Amount"**) of each such Note representing the affected Share(s) shall be redeemed or cancelled, as the case may be, and the Issuer will (x) pay to each Noteholder in respect of each Note held by him an amount equal to the fair market value of the

Equity Technical Annex

Partial Amount, taking into account the relevant Extraordinary Event less the cost to the Issuer and/or its affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion; and (y) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the terms of the Conditions and/or the applicable Final Terms to account for such redemption or cancellation in part. For the avoidance of doubt the remaining part of each such Note after redemption or cancellation and adjustment shall remain outstanding with full force and effect (if applicable, as so adjusted). Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (Notices); or

- (iii) on giving notice to Noteholders in accordance with General Condition 14 (Notices), redeem all but not some only of the Notes, each Note being redeemed at the Early Redemption Amount which shall be determined by taking into account the relevant Extraordinary Event all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (Notices); or
- (iv) following such adjustment to the settlement terms of options on the Shares traded on such exchange(s) or quotation system(s) as the Issuer in its sole discretion shall select (the "**Options Exchange**"), require the Calculation Agent to make a corresponding adjustment to any one or more of any Relevant Asset and/or the Asset Amount (in each case with respect to Physical Delivery Notes) and/or any of the other terms of the Conditions and/or the applicable Final Terms, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Options Exchange. If options on the Shares are not traded on the Options Exchange, the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Asset Amount (in each case with respect to Physical Delivery Notes) and/or any of the other terms of the Conditions and/or the applicable Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for such Extraordinary Event, as the case may be, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded; or
- (v) if the applicable Final Terms provide that "Share Substitution" is applicable, then on or after the relevant Merger Date, Tender Offer Date, or such other appropriate date (taking into account the Extraordinary Event) as the Calculation Agent may select, the Calculation Agent may adjust the terms of the Conditions and/or the applicable Final Terms to include a share selected by it in accordance with the criteria for share selection set out below (the "**Substitute Shares**") in place of the Share(s) (the "**Affected Share(s)**") which are affected by the relevant Extraordinary Event and the Substitute Shares will be deemed to be "**Shares**" and the relevant issuer of such shares, a "**Share Company**" or a "**Basket Company**" for the purposes of the Notes, and the Calculation Agent will make such adjustment, if any, to the Relevant Asset, the Asset Amount, any weighting applied to the Substitute Shares, any of the terms of the Conditions and/or the applicable Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate and shall determine the effective date (the "**Substitution Date**") for such substitution, provided that in the event that any amount payable under the Notes was to be determined by reference to an initial price or value of the Affected Share (the "**Initial Price**"), and unless the Calculation Agent determines this would be inappropriate (in which case, the Calculation Agent may select such other methodology as it determines appropriate), the Initial Price of each Substitute Share will be determined by the Calculation Agent in accordance with the following formula;

$$\text{Initial Price} = A \times (B / C)$$

Where:

"A" is the official closing price of the relevant Substitute Share on the relevant Exchange on the Substitution Date;

Equity Technical Annex

"B" is the Initial Price of the relevant Affected Share; and

"C" is the official closing price of the relevant Affected Share on the relevant Exchange on the Substitution Date.

Such substitution and the relevant adjustment to the basket of Shares will be deemed to be effective as of the date selected by the Calculation Agent (the "**Substitution Date**") in its sole and absolute discretion and specified in the notice referred to in the final paragraph of this Equity Linked Condition 5 which may, but need not, be the Merger Date or Tender Offer Date or the date of such Extraordinary Event, as applicable.

Unless the Calculation Agent determines this would be inappropriate (in which case, the Calculation Agent may select such other methodology as it determines appropriate), the weighting of each Substitute Share will be equal to the weighting of the relevant Affected Share.

In order to be selected as a Substitute Share, the relevant share must be a share which, in the sole and absolute discretion of the Calculation Agent:

1. is not already comprised in the basket of Shares;
2. the relevant issuer in respect of which belongs to a similar economic sector as the Share Company or Basket Company in respect of the Affected Share; and
3. the relevant issuer in respect of which is of comparable market capitalisation, international standing and exposure as the Share Company or Basket Company in respect of the Affected Share ignoring for this purpose the occurrence of the relevant Merger Event, Tender Offer or Extraordinary Event.

Upon the occurrence of an Extraordinary Event, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (Notices) stating the occurrence of the Extraordinary Event giving details thereof and the action proposed to be taken in relation thereto, *provided that* any failure to give, or non-receipt of, such notice will not affect the validity of the Extraordinary Event or the proposed action.

6. CORRECTION OF SHARE PRICE

With the exception of any corrections published after the day which is three (3) Exchange Business Days prior to the Maturity Date, if the price of the relevant Share published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes, is subsequently corrected and the correction published by the relevant Exchange within one Settlement Cycle after the original publication, the Calculation Agent may make any adjustments to the Conditions and/or adjust any subsequent payments under the Notes, as it may determine appropriate to take into account such correction(s). The price to be used shall be the price of the relevant Share as so corrected. Corrections published after the day which is three (3) Exchange Business Days prior to a due date for payment under the Notes calculated by reference to the price of a Share, will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

Equity Technical Annex

- (a) If an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may take the action described in (i), or (ii) below:
- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of any Relevant Asset and/or the Asset Amount (in each case with respect to Physical Delivery Notes) and/or any of the other terms of the Conditions and/or the applicable Final Terms to account for the Additional Disruption Event and determine the effective date of that adjustment. Without limitation, the Calculation Agent may take into account any amounts of Local Taxes that would, in the determination of the Calculation Agent, be withheld from or paid or otherwise incurred by an Offshore Investor in connection with such Additional Disruption Event; or
 - (ii) redeem the Notes by giving notice to the Noteholders in accordance with General Condition 14 (Notices). If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Note held by him which amount shall be the Early Redemption Amount, determined by taking into account the Additional Disruption Event. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (Notices).
- (b) Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (Notices) stating the occurrence of the Additional Disruption Event giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Extraordinary Event or the proposed action.

Subject as set out below, any Asset Transfer Notice so determined to be incomplete or not in proper form, or which is not copied to the Principal Paying Agent immediately after being delivered or sent as provided in paragraph (1) above, shall be null and void.

If such Asset Transfer Notice is subsequently corrected to the satisfaction of, in the case of Notes represented by a Global Note, Euroclear or Clearstream, Luxembourg as the case may be, or, in the case of Notes in definitive form, by the relevant Paying Agent or the Registrar, as the case may be, in each case in consultation with the Principal Paying Agent, it shall be deemed to be a new Asset Transfer Notice submitted at the time such correction was delivered as provided above.

No Asset Transfer Notice may be withdrawn after receipt thereof by the relevant Clearance System, the Registrar or a Paying Agent, as the case may be, as provided above. After

Equity Technical Annex

delivery of an Asset Transfer Notice, the relevant Noteholder may not transfer the Notes which are the subject of such notice.

All costs, taxes, duties and/or expenses including stamp duty, stamp duty reserve tax and/or other costs, duties or taxes ("**Expenses**") arising from the delivery of the Asset Amount in respect of such Notes shall be for the account of the relevant Noteholder and no Asset Amount will be deliverable until the relevant Expenses have been met or otherwise accounted for to the satisfaction of the Issuer.

- (4) Delivery
 - (a) Subject to:
 - (i) an Asset Transfer Notice having been duly delivered as provided above on or prior to the Cut-Off Date; and
 - (ii) all Expenses having been paid or otherwise accounted for to the satisfaction of the Issuer by the relevant Noteholder,

the Issuer shall, at the risk of the relevant Noteholder, deliver or procure the delivery of the Asset Amount for each Note, pursuant to the details specified in the Asset Transfer Notice or in such commercially reasonable manner as the Calculation Agent shall in its sole discretion determine and notify to the person designated by the Noteholder in the relevant Asset Transfer Notice, on the date fixed for redemption (such date, subject to adjustment in accordance with this Equity Linked Condition, the "**Delivery Date**"). Where the Asset Transfer Notice stipulates that the Asset Amount should be delivered to a specified clearing system, the Issuer's or the Guarantor's obligation to deliver such Asset Amount will be discharged by delivery to, or to the order of, the relevant clearing system and each of the persons shown in the records of the relevant clearing system as the account holder must look solely to the relevant clearing system for his share of any Asset Amount so delivered.

- (b) If a Noteholder fails to give an Asset Transfer Notice as provided herein with a copy to the Principal Paying Agent, on or prior to the Cut-Off Date, then:
 - (i) the Issuer may elect, in its sole discretion to deliver or procure the delivery of the aggregate Asset Amounts for all such affected Notes, at the risk of the relevant Noteholder, to, or to the order of, the relevant Clearance System(s) in which the Notes are held (and this may be after the date fixed for redemption) and its obligation to deliver any such Asset Amount so delivered shall be discharged thereby. Each of the persons shown in the records of the relevant Clearance System as the holder of a particular amount of the Notes must look solely to the relevant Clearance System for his share of each such Asset Amount so delivered to, or to the order of, such Clearance System. For the purposes of paragraph (5) below, each Clearance System will be deemed to be a single Noteholder and each Clearance System will be requested to divide and deliver such Asset Amounts in accordance with its rules; or
 - (ii) the Asset Amount will be delivered as soon as practicable after the date fixed for redemption (in which case, such date of delivery shall be the Delivery Date) at the risk of such Noteholder in the manner provided in paragraph (a) above. For the avoidance of doubt, in such circumstances such Noteholder shall not be entitled to any payment, whether of interest or otherwise, as a result of such Delivery Date falling after the date fixed for redemption and no liability in respect thereof shall attach to the Issuer.

Equity Technical Annex

- (c) To the extent that the Issuer is not satisfied that the Expenses have been or will be paid in full by the relevant Noteholder on or prior to the relevant Delivery Date, the Issuer may, in its sole discretion, elect to reduce the Asset Amount(s) to be delivered by an amount(s) which by market value (determined at the time of reduction by reference to such valuation sources as the Issuer determines appropriate) in aggregate is at least equal to the aggregate Expenses that it determines, in its sole discretion, have not been paid or otherwise accounted for (the Asset Amount as so reduced, the "**Reduced Asset Amount**"). Where the Issuer elects to make such a reduction, in accordance with this Equity Linked Condition 11(A)(4)(c), the Issuer's obligation to deliver the Asset Amount(s) shall be discharged in full by delivery of the Reduced Asset Amount in accordance with the provisions of this Equity Linked Condition 11(A)(4). The provisions of paragraphs (5) and (6) of this Equity Linked Condition 11(A) and the provisions of Equity Linked Condition 11(B) shall apply *mutatis mutandis* to any such delivery of the Reduced Asset Amount.

(5) General

For the purpose of determining the Asset Amounts in respect of the Notes, Notes held by the same Noteholder will be aggregated. The aggregate Asset Amount(s) to be delivered in respect of each such aggregated holding will be rounded down to the nearest whole unit of the Relevant Asset (or, where there is more than one type of Relevant Asset, each of the Relevant Assets), as the case may be, in such manner as the Calculation Agent shall determine. Therefore, fractions of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be delivered but in lieu thereof the Issuer shall pay to the Noteholders in respect of their respective holding an additional amount in the Specified Currency equal to the fair market value of such fraction(s) in such manner as shall be determined by the Calculation Agent in its sole and absolute discretion and notified to Noteholders in accordance with General Condition 14 (Notices).

Following the Delivery Date of a Share all dividends on the relevant Shares to be delivered will be payable to the party that would receive such dividend according to market practice for a sale of the Shares executed on the Delivery Date and to be delivered in the same manner as such relevant Shares. Any such dividends to be paid to a Noteholder will be paid to the account specified by the Noteholder in the relevant Asset Transfer Notice as referred to in Equity Linked Condition 11(A)(1) or otherwise paid to the relevant Clearance System for the account of Noteholders.

For such period of time after delivery of the Asset Amount as the Issuer or any person acting on behalf of the Issuer shall continue to be the legal owner of the securities comprising the Asset Amount (the "**Intervening Period**"), none of the Issuer, the Paying Agents, the Registrar or any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Noteholder any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of such securities or obligations, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such securities or obligations or (iii) be under any liability to a Noteholder in respect of any loss or damage which such Noteholder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such securities or obligations comprised in such Asset Amount or otherwise as specified in the applicable Final Terms.

(6) Settlement Disruption

If, in the opinion of the Calculation Agent, delivery of the Asset Amount using the method of delivery specified in the applicable Final Terms or such commercially reasonable manner as the Calculation Agent has determined is not practicable by reason of a Settlement

Equity Technical Annex

Disruption Event (as defined below) having occurred and continuing on the Delivery Date, then the Delivery Date shall be postponed to the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event unless there is a Settlement Disruption Event on each of the ten (10) Settlement Business Days immediately following the original date that, but for such Settlement Disruption Event, would have been a valid Delivery Date. In that case, (a) if the Asset Amount can be delivered in any other commercially reasonable manner, as determined by the Calculation Agent, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by delivering the Asset Amount using such other commercially reasonable manner as it may select and in such event the Delivery Date shall be the first day on which settlement of a sale of Relevant Assets comprising the Asset Amount executed on that tenth (10) Clearance System Business Day would customarily take place using such other commercially reasonable manner, and (b) if the Relevant Assets comprising the Asset Amount cannot be delivered in any other commercially reasonable manner, then the Delivery Date will be postponed until delivery can be effected in the manner contemplated in the Asset Transfer Notice or in any other commercially reasonable manner, as determined by the Calculation Agent. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Asset Amount, the Delivery Date for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Delivery Date. For so long as delivery of the Asset Amount is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by payment to the relevant Noteholder of the Disruption Cash Redemption Amount (as defined below) on the fifth (5th) Business Day following the date that notice of such election is given to the Noteholders in accordance with General Condition 14 (Notices). Payment of the Disruption Cash Redemption Amount will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (Notices). The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (Notices) that a Settlement Disruption Event has occurred. No Noteholder shall be entitled to any payment in respect of the relevant Note in the event of any delay in the delivery of the Asset Amount due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.

- (7) If any Note represented by a Rule 144A Global Note is to be redeemed by delivery of an Asset Amount, the relevant provisions relating to such delivery shall be set out in the applicable Final Terms.

(B) Definitions specific to Physical Delivery

"**Agency Agreement**" has the meaning given in the General Conditions.

"**Asset Amount**" has the meaning specified in the applicable Final Terms.

"**Asset Transfer Notice**" shall mean the notice in the form set out in the Agency Agreement.

"**Cut-Off Date**" has the meaning specified in the applicable Final Terms.

"**Disruption Cash Redemption Amount**", in respect of any relevant Note, shall be the Market Value of such Note expressed in the Specified Currency (taking into account any relevant currency exchange rate and, where the Settlement Disruption Event affected some but not all of the Shares comprising the Asset Amount and such non affected Shares have been duly delivered as provided above, the value of such Shares), all as determined by the Calculation Agent in its sole and absolute discretion.

"**Settlement Business Day**" has the meaning specified in the applicable Final Terms.

Equity Technical Annex

"**Settlement Disruption Event**" means, in the opinion of the Calculation Agent, an event beyond the control of the Issuer as a result of which the Issuer cannot make delivery of the Asset Amount(s) using the method specified in the applicable Final Terms.

12. VARIATION OF SETTLEMENT

If the applicable Final Terms indicate that the Issuer has the option to vary settlement in respect of the Notes, the Issuer may at its sole and absolute discretion in respect of each such Note give notice pursuant to General Condition 14 (Notices) no later than the second (2) Business Day prior to the Maturity Date that the Notes shall be (x) Cash Settled Notes instead of Physical Delivery Notes or (y) Physical Delivery Notes instead of Cash Settled Notes and in this case the provisions of Equity Linked Condition 1(b)(A) or (B) (*Equity Linked Redemption Notes*) respectively shall apply.

EQUITY INDEX TECHNICAL ANNEX

ADDITIONAL TERMS AND CONDITIONS FOR EQUITY INDEX LINKED NOTES

*The terms and conditions applicable to Equity Index Linked Notes shall comprise the General Terms and Conditions of the Notes (the "**General Conditions**"), the additional Terms and Conditions set out below (the "**Equity Index Linked Conditions**") and the Terms and Conditions as set out in each other Technical Annex which is specified as applicable in the applicable Final Terms (together with the General Conditions and the Equity Index Linked Conditions, the "**Conditions**"), in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the General Conditions and the Equity Index Linked Conditions, the Equity Index Linked Conditions set out below shall prevail. In the event of any inconsistency between (i) the General Conditions and/or the Index Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

References below to a numbered General Condition are to such numbered section of the General Conditions and references to a numbered Equity Index Linked Condition are to such numbered section as set out in this Equity Index Technical Annex.

Defined terms used in this Technical Annex where the same term may be used in another Technical Annex (e.g. Valuation Date) shall have the meanings given in this Technical Annex or in the section of the Final Terms relating to Equity Index Linked Notes.

1. EQUITY INDEX LINKED NOTES

(a) Equity Index Linked Interest Notes

Unless previously redeemed or purchased and cancelled in accordance with the General Conditions or as specified in the applicable Final Terms and subject to these Equity Index Linked Conditions, each Equity Index Linked Interest Note will bear interest in, or determined in the manner specified in, the applicable Final Terms and the General Conditions.

(b) Equity Index Linked Redemption Notes

Unless previously redeemed or purchased and cancelled in accordance with the General Conditions or as specified in the applicable Final Terms and subject to these Equity Index Linked Conditions, each Note will be redeemed by the Issuer at the Final Redemption Amount specified in, or determined in the manner specified in the applicable Final Terms on the Maturity Date.

2. MARKET DISRUPTION

"Market Disruption Event" means, in relation to Notes relating to a single Index or basket of Indices:

(a) in respect of a Composite Index:

(i) (x) the occurrence or existence, in respect of any Component Security, of:

(A) a Trading Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded;

(B) an Exchange Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded; or

Equity Index Technical Annex

- (C) an Early Closure in respect of such Component Security; and
- (y) the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists comprises 20.00 per cent. or more of the level of such Index; or
- (ii) the occurrence or existence, in each case, in respect of futures or options contracts relating to such Index, of: (a) a Trading Disruption; (b) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the Valuation Time in respect of the Related Exchange; or (c) an Early Closure.

For the purposes of determining whether a Market Disruption Event exists in respect of a Component Security at any time, if a Market Disruption Event occurs in respect of such Component Security at that time, then the relevant percentage contribution of that Component Security to the level of such Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that Component Security to (y) the overall level of such Index, in each case using the official opening weightings as published by the Index Sponsor as part of the market "opening data"; and

- (b) in the case of Indices other than Composite Indices, the occurrence or existence of (1) at any time during the one hour period that ends at the relevant Valuation Time (i) a Trading Disruption or (ii) an Exchange Disruption, which in either case the Calculation Agent determines is material, or (2) an Early Closure.

For the purposes of determining whether a Market Disruption Event exists at any time, if a Market Disruption Event occurs in respect of a Component Security included in such Index at any time, then the relevant percentage contribution of that Component Security to the level of such Index shall be based on a comparison of (x) the portion of the level of such Index attributable to that Component Security and (y) the overall level of the Index, in each case immediately before the occurrence of such Market Disruption Event. For the purposes of determining whether a Market Disruption Event in respect of such Index exists at any time, if a Market Disruption Event occurs in respect of a Component Security included in such Index at any time, then the relevant percentage contribution of that Component Security to the level of such Index shall be based on a comparison of (i) the portion of the level of such Index attributable to that Component Security and (ii) the overall level of the Index, in each case immediately before the occurrence of such Market Disruption Event. The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (Notices) of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day would have been an Averaging Date or a Valuation Date.

3. ADJUSTMENTS TO AN INDEX

- (a) Successor Index Sponsor Calculates and Reports an Index

If a relevant Index is:

- (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent; or
- (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index,

then in each case that Index (the "**Successor Index**") will be deemed to be the Index.

- (b) **Modification and Cessation of Calculation of an Index**

If, in the determination of the Calculation Agent,

Equity Index Technical Annex

- (i) on or prior to the last Valuation Date or the last Averaging Date, the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation, contracts or commodities and other routine events) (an "**Index Modification**"); or
- (ii) the relevant Index Sponsor permanently cancels a relevant Index and no Successor Index exists (an "**Index Cancellation**"); or
- (iii) on any Valuation Date or any Averaging Date, the Index Sponsor or (if applicable) the successor sponsor fails to calculate and announce a relevant Index (an "**Index Disruption**" and, together with an Index Modification and an Index Cancellation, and any other events specified as such in the applicable Final Terms, each an "**Index Adjustment Event**");

then the Calculation Agent shall:

- (A) determine if such Index Adjustment Event has a material effect on the Notes and, if so, shall calculate the relevant Index Level using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on that Valuation Date or Averaging Date, as the case may be, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those Component Securities that comprised that Index immediately prior to that Index Adjustment Event;
 - (B) replace the Index by a new Index provided that such index is (a) representative of the same economic or geographic sector (as the case may be), and (b) to the extent possible, representative of securities/components listed on one or more exchanges of one or more OECD countries and make relevant adjustments to the Conditions to account for such replacement; or
 - (C) on giving notice to Noteholders in accordance with General Condition 14 (Notices), the Issuer shall redeem all but not some only of the Notes, each Note being redeemed by payment of the relevant Early Redemption Amount.
- (c) **Notice**

The Calculation Agent shall, as soon as practicable, notify the relevant Agent of any determination made by it pursuant to paragraph (b) above and the action proposed to be taken in relation thereto and such Agent shall make available for inspection by Noteholders copies of any such determinations.

4. CORRECTION OF INDEX

With the exception of any corrections published after the day which is three (3) Exchange Business Days prior to the Maturity Date, if the level of the Index published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes, is subsequently corrected and the correction published by the relevant Index Sponsor within one Settlement Cycle after the original publication, the level to be used for calculation of any relevant value in relation to the Notes shall be the level of the Index as so corrected and the Calculation Agent may make any relevant adjustment to the Conditions or any subsequent amount payable under the Notes to account therefor, as the Calculation Agent determines appropriate in its sole and absolute discretion.

Equity Index Technical Annex

5. ADDITIONAL DISRUPTION EVENTS

"**Additional Disruption Event**" means any of Change in Law, Hedging Disruption, Increased Cost of Hedging, Increased Cost of Stock Borrow, Loss of Stock Borrow and/or any other event specified in the applicable Final Terms.

- (a) If an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may either:
 - (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the terms of the Notes to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (ii) redeem the Notes by giving notice to the Noteholders in accordance with General Condition 14 (Notices). If the Notes are so redeemed the Issuer will pay each Noteholder the Early Redemption Amount in respect of each Note held by him. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (Notices).
- (b) Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (Notices) stating the occurrence of the Additional Disruption Event giving details thereof and the action proposed to be taken in relation thereto.

6. INDEX DISCLAIMER

The Notes are not sponsored, endorsed, sold or promoted by any Index or any Index Sponsor and no Index Sponsor makes any representation whatsoever, whether express or implied, either as to the results to be obtained from the use of the Index and/or the levels at which the Index stands at any particular time on any particular date or otherwise. No Index or Index Sponsor shall be liable (whether in negligence or otherwise) to any person for any error in the Index and the Index Sponsor is under no obligation to advise any person of any error therein. No Index Sponsor is making any representation whatsoever, whether express or implied, as to the advisability of purchasing or assuming any risk in connection with the Notes. The Issuer (or, if applicable, the Guarantor) shall have no liability to the Noteholders for any act or failure to act by the Index Sponsor in connection with the calculation, adjustment or maintenance of the Index. Except as disclosed prior to the Issue Date specified in the applicable Final Terms, neither the Issuer (or, if applicable, the Guarantor) nor its Affiliates has any affiliation with or control over the Index or Index Sponsor or any control over the computation, composition or dissemination of the Index. Although the Calculation Agent will obtain information concerning the Indices from publicly available sources it believes reliable, it will not independently verify this information. Accordingly, no representation, warranty or undertaking (express or implied) is made and no responsibility is accepted by the Issuer (or, if applicable, the Guarantor), its Affiliates or the Calculation Agent as to the accuracy, completeness and timeliness of information concerning the Index.

7. DEFINITIONS

Unless otherwise specified in the applicable Final Terms:

"**Affiliate**" means in relation to any entity (the "**First Entity**"), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. For these purposes "**control**" means ownership of a majority of the voting power of an entity.

"**Averaging Date**" means each date specified as an Averaging Date in the applicable Final Terms or, if any such date is not a Scheduled Trading Day, the immediately following Scheduled Trading Day unless, in the opinion of the Calculation Agent any such day is a Disrupted Day. If any such day is a Disrupted Day, then:

Equity Index Technical Annex

- (a) if "**Omission**" is specified as applying in the applicable Final Terms, then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant Index Level provided that, if through the operation of this provision no Averaging Date would occur, then the provisions of the definition of "Valuation Date" will apply for purposes of determining the relevant level, price or amount on the final Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day; or
- (b) if "**Postponement**" is specified as applying in the applicable Final Terms, then the provisions of the definition of "Valuation Date" will apply for the purposes of determining the relevant level, price or amount on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or
- (c) if "**Modified Postponement**" is specified as applying in the applicable Final Terms then:
 - (i) where the Notes relate to a single Index, the Averaging Date shall be the first succeeding Valid Date (as defined below). If the first succeeding Valid Date has not occurred for a number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date, then (A) that last such consecutive Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether such Scheduled Trading Day is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant level or price for that Averaging Date in accordance with sub-paragraph (a)(ii) of the definition of "Valuation Date" below;
 - (ii) where the Notes relate to a basket of Indices, the Averaging Date for each Index not affected by the occurrence of a Disrupted Day shall be the originally designated Averaging Date (the "**Scheduled Averaging Date**") and the Averaging Date for each Index affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date (as defined below) in relation to such Index. If the first succeeding Valid Date in relation to such Index has not occurred for a number of consecutive Scheduled Trading days equal to the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date, then (A) that last such consecutive Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether such Scheduled Trading Day is already an Averaging Date) in respect of such Index, and (B) the Calculation Agent shall determine the relevant level, price or amount for that Averaging Date in accordance with sub-paragraph (b)(ii) of the definition of "Valuation Date" below; and
 - (iii) for the purposes of these Terms and Conditions "**Valid Date**" means a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date does not or is not deemed to occur.

"**Bloomberg Screen**" shall mean, when used in connection with any designated page, specified in the applicable Final Terms, the display page so designated on the Bloomberg service (or such other page as may replace that page on that service, or such other service as may be nominated as the information vendor, in all cases for the purpose of displaying comparable rates in succession thereto).

"**Change in Law**" means that, on or after the Trade Date (as specified in the applicable Final Terms) (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines in its sole and absolute discretion that (i) it has become illegal for it or any of its Affiliates or Hedging Party to hold, acquire or dispose of any Component Security or the relevant hedge positions relating to an Index, or (ii) the Hedging Party will incur a materially increased cost in

Equity Index Technical Annex

performing its obligations in relation to the Notes (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Issuer and/or any of its Affiliates or Hedging Party), or (iii) the performance of the Guarantor under the Guarantee has become unlawful.

"Early Closure" means:

- (a) in the case of a Composite Index, the closure on any Exchange Business Day of the Exchange in respect of any Component Security or the Related Exchange prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of: (i) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day; and (ii) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day; and
- (b) in the case of any Index which is not a Composite Index, the closure on any Exchange Business Day with respect to such Index of any relevant Exchange(s) relating to Component Securities that comprise 20.00 per cent. or more of the level of such Index or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange(s) or Related Exchange(s) at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange(s) or Related Exchange(s) on such Exchange Business Day and (ii) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the Valuation Time on such Exchange Business Day.

Equity Index Technical Annex

- (b) in the case of any Index which is not a Composite Index, the relevant exchange or quotation system specified for such Index in the applicable Final Terms or if no such exchange or quotation system is specified for such Index in the Final Terms, the exchange or quotation system on which all or substantially all relevant Component Securities are listed (being for the avoidance of doubt, where any Component Security has more than one listing, the exchange or quotation system used by the relevant Index Sponsor for the purposes of valuing the relevant price of such Component Security) or, in each case, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the Component Securities comprising such Index has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity in relation to the Component Securities comprising such Index on such temporary substitute exchange or quotation system as on the original Exchange).

"Exchange Business Day" means either (a) in the case of a single Index, Exchange Business Day (Single Index Basis) or (b) in the case of a basket of Indices, (i) Exchange Business Day (All Indices Basis) or (ii) Exchange Business Day (Per Index Basis), in each case as specified in the applicable Final Terms, provided that, in the case of (b), if no such specification is made in the applicable Final Terms, Exchange Business Day (All Indices Basis) shall apply.

In the event of any inconsistency between the General Conditions and the Fund Linked Conditions, the Fund Linked Conditions shall prevail. In the event of any inconsistency between (i) the General Conditions and/or the Fund Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

References below to a numbered General Condition are to such numbered section of the General Conditions and references to a numbered Fund Linked Condition are to such numbered section as set out in this Technical Annex.

Defined terms used in this Technical Annex where the same term may be used in another Technical Annex (e.g. Valuation Date or Averaging Date) shall have the same meanings given in this Technical Annex or in the section of the Final Terms relating to Fund Linked Notes.

1. FUND LINKED NOTES

(a) Fund Linked Interest Notes

Unless previously redeemed or purchased and cancelled in accordance with the General Conditions or as specified in the applicable Final Terms and subject to this Funds Technical Annex, each Fund Linked Interest Note will bear interest in the manner specified in the applicable Final Terms and the General Conditions.

(b) Fund Linked Redemption Notes

Unless previously redeemed or purchased and cancelled, each Note will be redeemed by the Issuer by payment of the Final Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms, on the Maturity Date.

If Maturity Date Extension is specified as applying in the applicable Final Terms then, if the Redemption Payment Date in relation to the Valuation Date or last occurring Averaging Date has not occurred on or prior to the second (2nd) Currency Business Day preceding the Scheduled Maturity Date, the Maturity Date shall be postponed and shall occur on the seventh (7th) Currency Business Day following (i) the Redemption Payment Date in relation to the Valuation Date or last occurring Averaging Date or (ii) if earlier, the last day of the Cut-off Period.

2. POTENTIAL ADJUSTMENT EVENTS

If any Potential Adjustment Event exists or occurs at any time, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Interest Units or amount of the Fund Interest and, if so, the Issuer may require the Calculation Agent to (i) make the corresponding adjustment(s), if any, to any one or more of the Final Redemption Amount and/or the relevant number of units of the Reference Fund and/or any of the other terms of these Fund Linked Conditions, the General Conditions and/or the applicable Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate to account for that diluting or concentrative effect and (ii) determine the effective date(s) of the adjustment(s).

Funds Technical Annex

Upon making any such adjustment pursuant to this Fund Linked Condition 2, the Calculation Agent shall give notice as soon as practicable to Noteholders in accordance with General Condition 14 (Notices), stating the adjustment to be taken and giving details of the Potential Adjustment Event.

3. CONSEQUENCES OF AN EXTRAORDINARY FUND EVENT AND/OR AN ADDITIONAL EXTRAORDINARY FUND EVENT

If, in the determination of the Calculation Agent, an Extraordinary Fund Event(s) and/or Additional Extraordinary Fund Event(s) has occurred or exists, the Issuer may either:

- (i) require the Calculation Agent to (1) make the corresponding adjustment(s) (each an "**Adjustment**"), if any, to any one or more of any Interest Amount, Final Redemption Amount and/or the relevant number of units of the Reference Fund and/or any of the other terms of these Fund Linked Conditions, the General Conditions and/or the applicable Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate to account for the relevant Extraordinary Fund Event or Additional Extraordinary Fund Event and (2) determine the effective date(s) of the adjustment(s) and such Adjustments may include, without limitation:
 - (A) partially cancelling the Notes and determining any partial cancellation amount (if any) in relation thereto;
 - (B) adjusting any method for calculating a Settlement Price or any other relevant level or value;
 - (C) delaying any determination or payment until the Calculation Agent determines that no Extraordinary Fund Event and/or Additional Extraordinary Fund Event exists;
 - (D) replacing an affected Fund Interest (the "**Affected Fund Interest**") with a replacement fund interest (the "**Replacement Fund Interest**") with a value as determined by the Calculation Agent equal to the Removal Value for the Affected Fund Interest and in a fund which in the determination of the Calculation Agent has similar characteristics, investment objectives and policies to those applicable to the Reference Fund in respect of the Affected Fund Interest immediately prior to the occurrence of the Extraordinary Fund Event and/or Additional Extraordinary Fund Event; and/or
 - (E) redeeming all, but not some only, of the Notes on an amortised basis by making a series of partial redemption payments, in respect of each Note, each such payment reflecting a Note's *pro rata* share of any partial realisation amount in cash or in kind (a "**Partial Realisation Amount**") which the Calculation Agent determines would be received by a Hypothetical Investor holding the relevant Fund Interest in circumstances where a Fund Insolvency Event has occurred or exists or a Reference Fund has otherwise determined to make partial payments or deliveries in respect of any Fund Interest which may, without limitation, be made by or on behalf of a Reference Fund to reflect the realisation or liquidation of the Reference Fund's assets or positions.

Each such payment in respect of the Notes shall be made on such date and on such terms following each corresponding receipt of a Partial Realisation Amount by a Hypothetical Investor as the Calculation Agent shall notify to Noteholders. However, where any Partial Realisation Amount is a non-cash amount, the relevant Notes payment shall only be made following such time (if any) as the Calculation Agent determines a Hypothetical Investor could reasonably realise the relevant Partial Realisation Amount for cash proceeds. It should be noted that any such partial redemption payments on the Notes may be significantly delayed (in some cases for a number of years) and may be zero, including in the event the Calculation Agent determines any such realisation could not be reasonably made. Each such partial redemption payment shall be net of a Note's *pro rata* share of any relevant fees, costs or taxes which the Calculation Agent determines a Hypothetical Investor would suffer or

Funds Technical Annex

would be required to pay in respect of any such realisation of the Fund Interest or a Partial Realisation Amount; or

- (ii) redeem all, but not some only, of the Notes, each nominal amount of Notes equal to the Calculation Amount or unit of Notes, as the case may be, being redeemed at the Early Redemption Amount on the seventh (7) Currency Business Day following an applicable Redemption Payment Date or, if later following the date as of which the Calculation Agent determines a Hypothetical Investor could reasonably realise the relevant Fund Interest in full, as determined by the Calculation Agent.

If the Calculation Agent replaces an Affected Fund Interest with a Replacement Fund Interest, such replacement shall take effect on the first reasonably practicable date following the Removal Date for such Affected Fund Interest on which the Calculation Agent determines that a Hypothetical Investor could acquire the Replacement Fund Interest in full and the Calculation Agent shall determine all related Adjustments to the Notes to account for such replacement.

Upon making an Adjustment or following any determination by the Issuer to redeem the Notes pursuant to this Fund Linked Condition 3, the Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (Notices) stating the adjustment or other action to be taken and giving brief details of the Extraordinary Fund Event and/or Additional Extraordinary Fund Event (as applicable).

4. CORRECTION OF FUND INTEREST PRICES

With the exception of any corrections published after the day which is three (3) Currency Business Days prior to the Maturity Date (the "**Correction Cut-off Date**"), if (i) any price published by or on behalf of a Reference Fund with respect to any Fund Interest on a given day and used or to be used by the Calculation Agent to make any determination under the Notes, is subsequently corrected and the correction is published by or on behalf of the Reference Fund after the original publication, or (ii) a Reference Fund with respect to any Fund Interest adjusts the Redemption Proceeds that would have been paid to a Hypothetical Investor redeeming the number of Fund Interest Units or amount of Fund Interest that is subject to valuation, and such adjustment would be reflected in either an additional payment to such Hypothetical Investor, or a claim for repayment of excess Redemption Proceeds made against such Hypothetical Investor, the Calculation Agent may in its sole and absolute discretion make any relevant Adjustment (as defined in Fund Linked Condition 3 above) to the Conditions or any subsequent amount payable under the Notes to account therefor. Corrections published on or after the Correction Cut-off Date will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

- (b) in respect of Notes which are Portfolio Maturity Settled Credit Linked Notes, redeem the aggregate of all Credit Event Portions (determined to and including the Maturity Date) of all but not some only of the Notes and pay in respect of each unit or nominal amount of Notes equal to the Calculation Amount, an amount equal to the aggregate of all Credit Event Redemption Amounts (determined to and including the Maturity Date) specified in, or determined in the manner specified in the applicable Final Terms on the Maturity Date.

For the avoidance of doubt settlement in accordance with this Credit Linked Condition 2 (as provided above) shall occur upon satisfaction of the Conditions to Settlement notwithstanding that the related Cash Settlement Notice may be given later, and in some cases significantly later, than the Credit Event Determination Date.

Unless (i) otherwise stated in the applicable Final Terms or (ii) the Notes are Portfolio Credit Linked Notes or Portfolio Maturity Settled Credit Linked Notes, subject as provided in these Credit Linked Conditions if (a) First to Default is specified as applicable in the applicable Final Terms and (b) more than one Reference Entity is specified in the applicable Final Terms, a Credit Event Determination Date may only occur and a Cash Settlement Notice may only be delivered on one occasion. If Conditions to Settlement are satisfied in respect of more than one Reference Entity on the same date other than in the case of Portfolio Credit Linked Notes or Portfolio Maturity Settled Credit Linked Notes, the Calculation Agent shall determine which Reference Entity is the Reference Entity in respect of which a Credit Event Determination Date shall occur.

If the Notes are partially redeemed, each relevant Note or, if the Notes are represented by a Global Note, such Global Note, shall be endorsed to reflect such part redemption. If the Calculation Agent, at any time, determines that the aggregate nominal amount of the Notes is thereby reduced to zero, the Issuer's obligations in respect of such Notes shall immediately be discharged and the Issuer shall have no further liability in respect thereof.

If Conditions to Settlement are satisfied and the Notes become redeemable in whole or in part in accordance with this Credit Linked Condition 2, upon payment of the Credit Event Redemption Amount(s) in respect of the Notes, the Issuer shall have discharged its obligations in respect of the relevant Credit Event Portion of

the Notes and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the Calculation Amount of a Note. Any shortfall shall be borne by the Noteholders and no liability shall attach to the Issuer or the Guarantor.

3. PHYSICAL SETTLEMENT

Subject as provided in these Credit Linked Conditions if Conditions to Settlement are satisfied and (i) Physical Delivery is specified as the applicable Settlement Method in the applicable Final Terms or (ii) Credit Linked Condition 4(B) below applies, the Issuer shall, following receipt of a Calculation Agent Physical Settlement Notice, give notice (such notice a "**Notice of Physical Settlement**") to the Noteholders, in accordance with General Condition 14 (Notices), such notice to include the details of the relevant Reference Entity, and redeem the Credit Event Portion of all but not some only of the Notes and Deliver in respect of each unit or nominal amount of Notes equal to the Calculation Amount, the Deliverable Obligations comprising the Asset Amount on the Physical Settlement Date, subject to and in accordance with Credit Linked Conditions 9 (Maturity Date Extension) and 10 (Physical Delivery).

If the Notes are partially redeemed, each relevant Note or, if the Notes are represented by a Global Note, such Global Note, shall be endorsed to reflect such part redemption. If the Calculation Agent, at any time, determines that the aggregate nominal amount of the Notes is thereby reduced to zero, the Issuer's obligations in respect of such Notes shall immediately be discharged and the Issuer shall have no further liability in respect thereof.

For the avoidance of doubt settlement in accordance with this Credit Linked Condition 3 (as provided above) shall occur upon satisfaction of the Conditions to Settlement notwithstanding that the related Notice of Physical Settlement may be given later, and in some cases significantly later, than the Credit Event Determination Date.

In the Notice of Physical Settlement, the Issuer shall specify the Deliverable Obligations comprising the Asset Amount that it reasonably expects to Deliver. For the avoidance of doubt, the Issuer shall be entitled to select any of the Deliverable Obligations to constitute the Asset Amount, irrespective of their market value.

The Issuer may, from time to time, amend a Notice of Physical Settlement by delivering a notice to Noteholders in accordance with General Condition 14 (Notices) (each such notification, a "**Physical Settlement Amendment Notice**") that the Issuer is replacing, in whole or in part, one or more Deliverable Obligations specified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, (to the extent the relevant Deliverable Obligation has not been Delivered as of the date of such Physical Settlement Amendment Notice). A Physical Settlement Amendment Notice shall specify each replacement Deliverable Obligation that the Issuer will, subject to Credit Linked Condition 10 (Physical Delivery), Deliver (each, a "**Replacement Deliverable Obligation**") and shall also specify the Outstanding Principal Balance or Due and Payable Amount (determined on the same basis as in the definition of Asset Amount) of each Deliverable Obligation identified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, that is being replaced or the equivalent Currency Amount of any such amount (with respect to each such Deliverable Obligation, the "**Replaced Deliverable Obligation Outstanding Amount**"). The Replacement Deliverable Obligation(s), taken together, shall have an aggregate Replaced Deliverable Obligation Outstanding Amount at least equal to the Outstanding Principal Balance(s) and/or Due and Payable Amount(s) (or the equivalent Currency Amount(s) of any such amount(s)) of the Deliverable Obligations being replaced. Each such Physical Settlement Amendment Notice must be delivered on or prior to the Physical Settlement Date (determined without reference to any change resulting from such Physical Settlement Amendment Notice). Notwithstanding the foregoing, the Issuer may correct any errors or inconsistencies contained in the Notice of Physical Settlement or any Physical Settlement Amendment Notice, as applicable, by notice to Noteholders (in accordance with General Condition 14 (Notices) prior to the relevant Delivery Date; it being understood that such notice of correction shall not constitute a Physical Settlement Amendment Notice.

(i) Subject to:

- (A) an Asset Transfer Notice having been duly delivered as provided above on or prior to the Cut-Off Date; and
- (B) all Delivery Expenses having been paid or otherwise accounted for to the satisfaction of the Issuer by the relevant Noteholder,

the Issuer shall, at the risk of the relevant Noteholder, Deliver or procure the Delivery of the Asset Amount for the Credit Event Portion of each Note, pursuant to the details specified in the Asset Transfer Notice or in such commercially reasonable manner as the Calculation Agent shall in its sole discretion determine and notify to the person designated by the Noteholder in the relevant Asset Transfer Notice on the Physical Settlement Date. Where the Asset Transfer Notice stipulates that the Asset Amount should be Delivered to a specified clearing system, the Issuer's or the Guarantor's obligation to Deliver such Asset Amount will be discharged by Delivery to, or to the order of, the relevant clearing system and each of the persons shown in the records of the relevant clearing system as the account holder must look solely to the relevant clearing system for his share of any Asset Amount so Delivered.

(ii) If a Noteholder fails to give an Asset Transfer Notice as provided herein with a copy to the Principal Paying Agent, on or prior to the Cut-Off Date, then:

Credit Technical Annex

- (iii) To the extent that the Issuer is not satisfied that the Delivery Expenses have been or will be paid in full by the relevant Noteholder on or prior to the relevant Physical Settlement Date, the Issuer may, in its sole discretion, elect to reduce the Asset Amount(s) to be Delivered to that Noteholder by an amount(s) which by market value (determined at the time of reduction by reference to such valuation sources as the Issuer determines appropriate) in aggregate is at least equal to the aggregate Delivery Expenses that it determines, in its sole discretion, have not been paid or otherwise accounted for (the Asset Amount as so reduced, the "**Reduced Asset Amount**"). Where the Issuer elects to make such a reduction, in accordance with this Credit Linked Condition 10(e)(iii) the Issuer's obligation to Deliver the Asset Amount(s) shall be discharged in full by Delivery of the Reduced Asset Amount(s) in accordance with the provisions of this Credit Linked Condition 10(e). The provisions of these Credit Linked Conditions shall apply *mutatis mutandis* to any such Delivery of the Reduced Asset Amount.
- (iv) For the purpose of determining the Asset Amounts in respect of the Notes, Notes held by the same Noteholder will be aggregated. The aggregate Asset Amount(s) to be delivered in respect of each such aggregated holding will be rounded down to the nearest whole unit of the relevant Deliverable Obligation (or, where there is more than one type of Deliverable Obligation, each of the Deliverable Obligations), as the case may be, in such manner as the Calculation Agent shall determine. Therefore, fractions of the Deliverable Obligation or of each of the Deliverable Obligations, as the case may be, will not be delivered but in lieu thereof the Issuer shall pay to the Noteholders in respect of their respective holding an additional amount in the Specified Currency equal to the fair market value of such fraction(s) in such manner as shall be determined by the Calculation Agent in its sole and absolute discretion and notified to Noteholders in accordance with General Condition 14 (Notices).

(f) General

After Delivery of an Asset Amount in respect of a Note and for the Intervening Period, none of the Issuer, the Guarantor, the Calculation Agent and any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Noteholder any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of the securities or obligations included in such Asset Amount, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such securities or obligations included in such Asset Amount or (iii) be under any liability to a Noteholder in respect of any loss or damage which such Noteholder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such securities or obligations included in such Asset Amount.

- (h) If any Note represented by a Rule 144A Global Note is to be redeemed (in whole or in part) by Delivery of an Asset Amount, the relevant provisions relating to such Delivery shall be set out in the applicable Final Terms.

11. **PARTIAL CASH SETTLEMENT**

If all or a portion of the obligations comprising the Asset Amount are Undeliverable Obligations and/or Hedge Disruption Obligations, the Issuer shall give notice (a "**Partial Cash Settlement Notice**") to the Noteholders in accordance with General Condition 14 (Notices) and the Issuer shall pay in respect of each Undeliverable Obligation and/or Hedge Disruption Obligation, as the case may be, the Partial Cash Settlement Amount on the Partial Cash Settlement Date.

Credit Technical Annex

In calculating the percentages used to determine whether the relevant thresholds set forth above have been met, or which entity qualifies under (a)(vi) above, as applicable, the Calculation Agent shall use, in respect of each applicable Relevant Obligation included in such calculation, the amount of the liability in respect of such Relevant Obligation listed in the Best Available Information and shall, as soon as practicable after such calculation, make such calculation available for inspection by Noteholder(s) at the specified office of the Principal Paying Agent.

Where pursuant to paragraph (a)(iii) or (a)(iv) above, more than one Successor has been identified, the Calculation Agent shall adjust such of these Credit Linked Conditions and/or the applicable Final Terms as it shall determine to be appropriate to reflect that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if it adjusts such of these Credit Linked Conditions and/or the applicable Final Terms in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Notes under the provisions of the 2003 ISDA Credit Derivatives Definitions and any relevant publication published by ISDA.

Upon the Calculation Agent making such adjustment, the Issuer shall give notice as soon as practicable to Noteholders in accordance with General Condition 14 (Notices), stating the adjustment to these Credit Linked Conditions and/or the applicable Final Terms and giving brief details of the relevant Succession Event.

The determinations required pursuant to paragraph (a) of this definition of "Successor" shall be made, in the case of an exchange offer, on the basis of the Outstanding Principal Balance of Relevant Obligations tendered and accepted in the exchange and not on the basis of the Outstanding Principal Balance of Bonds for which Relevant Obligations have been exchanged.

The following terms shall have the following meanings:

If a Reference Obligation is a Convertible Obligation or an Exchangeable Obligation, then such Reference Obligation may be included as a Valuation Obligation only if the rights referred to in clauses (A) and (B) of the preceding paragraph have not been exercised (or such exercise has been effectively rescinded) on or before the date of selection of the relevant Valuation Obligation;

- (b) For the avoidance of doubt (i) the Outstanding Redemption Amount of each such Note not so redeemed in part shall remain outstanding and interest shall accrue on the Outstanding Redemption Amount of such Note as provided in Credit Linked Condition 4 (Auction Settlement) (adjusted in such manner as the Calculation Agent determines to be appropriate), (ii) the provisions of Credit Linked Condition 1 (Redemption of Credit Linked Notes) and related provisions shall apply to the Outstanding Redemption Amount of such Note in the event that subsequent Credit Event Notices are delivered in respect of the Reference Entity that was the subject of the Restructuring Credit Event and (iii) if, following a Restructuring Credit Event, different Credit Event Determination Dates have been determined with respect to different portions of amounts payable or deliverable to Noteholders under the relevant Series, the Calculation Agent will (x) determine such adjustment(s) to these Credit Linked Conditions as may be required to achieve as far as practicable the same economic effect as if each such portion was a separate series or otherwise reflect or account for the effect of the above provisions of this Credit Linked Condition 15 and (y) the effective date of such adjustment(s).

Notwithstanding anything to the contrary in the definition of Restructuring and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraphs (i) to (v) of the definition of "Restructuring" shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation.

- (4) a change in the ranking in priority of payment of (A) any Obligation under a Qualifying Policy in respect of Instrument Payments, causing the Subordination of such Obligation to any other Obligation or (B) any Instrument Payments, causing the Subordination of such Insured Instrument to any other instrument in the form of a pass-through certificate or similar funded beneficial interest issued by the Insured Obligor, it being understood that, for this purpose, Subordination will be deemed to include any such change that results in a lower ranking under a priority of payments provision applicable to the relevant Instrument Payments; or
 - (5) any change in the currency or composition of any payment of Instrument Payments that are guaranteed or insured by the Qualifying Policy to any currency which is not a Permitted Currency.
- (B) Paragraph (c) of the definition of "Restructuring" in Credit Linked Condition 14 (Definitions Applicable to Credit Linked Notes) is hereby amended by adding "or, in the case of a Qualifying Policy and an Insured Instrument, where (A) the Qualifying Policy continues to guarantee or insure, as applicable, that the same Instrument Payments will be made on the same dates on which the Qualifying Policy guaranteed or insured that such Instrument Payments would be made prior to such event and (B) such event is not a change in the ranking in the priority of payment of the Qualifying Policy" after "Reference Entity".
- (C) The definitions of "Restructuring in Credit Linked Condition 14 (Definitions Applicable to Credit Linked Notes) is hereby amended by the insertion of the following paragraph after the final paragraph thereof:

"For purposes of the definition of "Restructuring" in Credit Linked Condition 14 (Definitions Applicable to Credit Linked Notes) and if Credit Linked Condition 16 (Provisions relating to Multiple Holder Obligation) is specified as applying in the applicable Final Terms for the purposes of this Technical Annex the term Obligation shall be deemed to include Insured Instruments for which the Reference Entity is acting as provider of a Qualifying Policy. In the case of a Qualifying Policy and an Insured Instrument, references to the Reference Entity in the definition of "Restructuring" shall be deemed to refer to the Insured Obligor and the references to the Reference Entity in paragraphs (a) to (c) inclusive in the definition of "Restructuring" shall continue to refer to the Reference Entity."
- (i) Fully Transferable Obligation and Conditionally Transferable Obligation. In the event that a Fully Transferable Obligation and/or Conditionally Transferable Obligation is specified as applying in the applicable Final Terms and a Fully Transferable Obligation or Conditionally Transferable Obligation is a Qualifying Policy, the Insured Instrument must meet the requirements of the relevant definition and, if the benefit of the Qualifying Policy is not transferred as part of any transfer of the Insured Instrument, the Qualifying Policy must be transferable at least to the same extent as the Insured Instrument. References in the definition of Conditionally Transferable Obligation to the guarantor and guaranteeing shall be deemed to include the insurer and insuring, respectively. With respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term "final maturity date", as such term is used in Credit Linked Condition 3 (Physical Settlement) and the definition of "Restructuring Maturity Limitation Date", shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur.
- (j) Other Provisions. For purposes of paragraph (a)(ii) of the definition of "Deliverable Obligation" or "Valuation Obligation", as the case may be, and the definition of "Credit Event" and "Deliver" in Credit Linked Condition 14 (Definitions Applicable to Credit Linked Notes), references to the "Underlying Obligation" and the "Underlying Obligor" shall be deemed to include "Insured Instruments" and the "Insured Obligor", respectively.

Credit Technical Annex

(k) Additional Definitions.

"Qualifying Policy" means a financial guaranty insurance policy or similar financial guarantee pursuant to which a Reference Entity irrevocably guarantees or insures all Instrument Payments of an instrument that constitutes Borrowed Money (modified as set forth in this Credit Linked Condition) (the **"Insured Instrument"**) for which another party (including a special purpose entity or trust) is the obligor (the **"Insured Obligor"**). Qualifying Policies shall exclude any arrangement (i) structured as a surety bond, letter of credit or equivalent legal arrangement or (ii) pursuant to the express contractual terms of which the payment obligations of the Reference Entity can be discharged or reduced as a result of the occurrence or non-occurrence of an event or circumstance (other than the payment of Instrument Payments). The benefit of a Qualifying Policy must be capable of being Delivered together with the Delivery of the Insured Instrument.

"Instrument Payments" means (A) in the case of any Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest, (x) the specified periodic distributions in respect of interest or other return on the Certificate Balance on or prior to the ultimate distribution of the Certificate Balance and (y) the ultimate distribution of the Certificate Balance on or prior to a specified date and (B) in the case of any other Insured Instrument, the scheduled payment of principal and interest, in the case of both (A) and (B) (1) determined without regard to limited recourse or reduction provisions of the type described in sub-paragraph (d) above and (2) excluding sums in respect of default interest, indemnities, tax gross-ups, make-whole amounts, early redemption premiums and other similar amounts (whether or not guaranteed or insured by the Qualifying Policy).

"Certificate Balance" means, in the case of an Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest, the unit principal balance, certificate balance or similar measures of unreimbursed principal investment.

19. SUPPLEMENT TO PROVISIONS RELATING TO QUALIFYING GUARANTEE AND UNDERLYING OBLIGATION

(a) If this Credit Linked Condition 19 is specified as applicable in the applicable Final Terms, Credit Linked Condition 14 (Definitions Applicable to Credit Linked Notes) shall be amended by:

(A) the deletion of the definition of **"Downstream Affiliate"** and the substitution of the following therefor:

"Downstream Affiliate" means an entity whose outstanding Voting Shares were, at the date of issuance of the Qualifying Guarantee, more than 50 per cent. (50%) owned, directly or indirectly, by the Reference Entity;

(B) the deletion of paragraphs (B)(4)(ii) and (B)(4)(iii) of the definition of **"Deliverable Obligation"** or **"Valuation Obligation"**, as the case may be, the substitution of the following therefor and the re-numbering of the remaining paragraphs accordingly:

"(ii) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics or the Valuation Obligation Characteristics, both the Qualifying Guarantee and the Underlying Obligation must satisfy on the relevant date each of the applicable Obligation Characteristics or Deliverable Obligation Characteristics or Valuation Obligation Characteristics, if any, specified in the applicable Final Terms from the following list: Not Subordinated, Credit Linked Specified Currency, Not Sovereign Lender, Not Domestic Currency and Not Domestic Law. For these purposes, unless otherwise specified in the applicable Final Terms, (A) the lawful currency of any of Canada, Japan, Switzerland, the United Kingdom or the United States of America or the euro shall not be a Domestic Currency and (B) the laws of England and the laws of the State of New York shall not be a Domestic Law."; and

Credit Technical Annex

- (C) the deletion of the definition of "Qualifying Guarantee" and the substitution of the following therefor:

"Qualifying Guarantee" means an arrangement evidenced by a written instrument pursuant to which a Reference Entity irrevocably agrees (by guarantee of payment or equivalent legal arrangement) to pay all amounts due under an obligation (the **"Underlying Obligation"**) for which another party is the obligor (the **"Underlying Obligor"**). Qualifying Guarantees shall exclude any arrangement (i) structured as a surety bond, financial guarantee, insurance policy, letter of credit or equivalent legal arrangement or (ii) pursuant to the terms of which the payment obligations of the Reference Entity can be discharged, reduced or otherwise altered or assigned (other than by operation of law) as a result of the occurrence or non-occurrence of an event or circumstance (other than payment). The benefit of a Qualifying Guarantee must be capable of being Delivered together with the Delivery of the Underlying Obligation"; and

- (b) Credit Linked Condition 16 (Provisions relating to Multiple Holder Obligation) shall be amended by the insertion of the following at the end of the first paragraph thereof:

"provided that any Obligation that is a Bond shall be deemed to satisfy the requirement in (ii) of the definition of "Multiple Holder Obligation" below".

20. ADDITIONAL PROVISIONS FOR LPN REFERENCE ENTITIES

If Credit Linked Condition 20 is specified as applicable in the applicable Final Terms, notwithstanding anything to the contrary in the Credit Linked Conditions, the following provisions will apply:

- (a) provisions relating to Multiple Holder Obligation will be deemed to be Not Applicable with respect to any Reference Obligation (and any Underlying Loan);
- (b) each Reference Obligation will be an Obligation, notwithstanding anything to the contrary in the Credit Linked Conditions including, but not limited to the definition of "Obligation" in Credit Linked Condition 14, and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity;
- (c) each Reference Obligation will be a Deliverable Obligation or Valuation Obligation, as the case may be, notwithstanding anything to the contrary in the Credit Linked Conditions including, but not limited to, the definition of "Deliverable Obligation" or "Valuation Obligation" in Credit Linked Condition 14 and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity.

For the avoidance of doubt with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Finance Instrument, the outstanding principal balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation.

The Not Subordinated Obligation Characteristic and Deliverable Obligation Characteristic and Valuation Obligation Characteristic shall be construed as if no Reference Obligation was specified in respect of the Reference Entity;

- (d) the definition of Reference Obligation shall be deleted and the following substituted therefor:

"Reference Obligation" means, as of the Trade Date, each of the obligations listed as a Reference Obligation of the Reference Entity in the applicable Final Terms or set forth on the relevant LPN Reference Obligations List (each a **"Markit Published LPN Reference Obligation"**), as published by Markit Group Limited, or any successor thereto, which list is as of the Trade Date available at <http://www.markit.com/marketing/services.php>, any Additional LPN and each Additional Obligation."; and

Credit Technical Annex

(e) the following additional definitions shall apply:

"**Additional LPN**" means any bond issued in the form of a loan participation note (an "LPN") by an entity (the "**LPN Issuer**") for the sole purpose of providing funds for the LPN Issuer to (a) finance a loan to the Reference Entity (the "**Underlying Loan**") or (b) provide finance to the Reference Entity by way of a deposit, loan or other Borrowed Money instrument (the "**Underlying Finance Instrument**"), provided that (i) either (x) in the event that there is an Underlying Loan with respect to such LPN the Underlying Loan satisfies the Obligation Characteristics specified in respect of the Reference Entity or (y) in the event that there is an Underlying Finance Instrument with respect to such LPN the Underlying Finance Instrument satisfies the Not Subordinated, Not Domestic Law and Not Domestic Currency Obligation Characteristics; (ii) the LPN satisfies the following Deliverable Obligation Characteristics or Valuation Obligation Characteristics, as applicable: Transferable, Not Bearer, Credit Linked Specified Currency – Standard Specified Currencies, Not Domestic Law, Not Domestic Issuance; and (iii) the LPN Issuer has, as of the issue date of such obligation, granted a First Ranking Interest over or in respect of certain of its rights in relation to the relevant Underlying Loan or Underlying Finance Instrument (as applicable) for the benefit of the holders of the LPNs.

"**Additional Obligation**" means each of the obligations listed as an Additional Obligation of the Reference Entity in the applicable Final Terms or set forth on the relevant LPN Reference Obligations List, as published by Markit Group Limited, or any successor thereto, which list is, as of the Trade Date, available at <http://www.markit.com/marketing/services.php>.

"**First Ranking Interest**" means a charge, security interest (or other type of interest having similar effect) (an "**Interest**"), which is expressed as being "first ranking", "first priority", or similar ("**First Ranking**") in the document creating such Interest (notwithstanding that such Interest may not be First Ranking under any insolvency laws of any related insolvency jurisdiction of the LPN Issuer).

"**LPN Reference Obligation**" means each Reference Obligation other than any Additional Obligation.

For the avoidance of doubt, any change to the issuer of an LPN Reference Obligation in accordance with its terms shall not prevent such LPN Reference Obligation constituting a Reference Obligation.

Each LPN Reference Obligation is issued for the sole purpose of providing funds for the Issuer to finance a loan to the Reference Entity. For the purposes of the Credit Linked Conditions each such loan shall be an Underlying Loan.

21. CALCULATION AGENT AND CALCULATION AGENT NOTICES

Whenever the Calculation Agent is required to act or exercise judgment in relation to these Credit Linked Conditions, it will do so in good faith and in a commercially reasonable manner. The Calculation Agent shall, as soon as practicable after making any determination pursuant to these Credit Linked Conditions, notify the Issuer, the Guarantor and the Noteholders of such determination. The Calculation Agent is not acting as a fiduciary for or as an adviser to the Noteholders in respect of its duties as Calculation Agent in connection with any Notes.

The determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent pursuant to these Credit Linked Conditions shall (in the absence of manifest error) be final and binding on the Issuer, the Guarantor and the Noteholders. Whenever the Calculation Agent is required to make any determination it may, *inter alia*, decide issues of construction and legal interpretation. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Notes including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion, and none of the Calculation Agent, the Issuer and the Guarantor shall,

Credit Technical Annex

in the absence of wilful misconduct and gross negligence, bear any liability in respect of, or consequent upon, any such delay, deferral or forbearance.

Any notice to be delivered by the Calculation Agent to the Issuer or the Guarantor, as applicable, pursuant to these Credit Linked Conditions, may be given in writing (including by facsimile and/or email) and/or by telephone. Any such notice delivered on or prior to 4:00 p.m. (Calculation Agent City time) on a Calculation Agent City Business Day will be effective on such Calculation Agent City Business Day. A notice delivered after 4:00 p.m. (Calculation Agent City time) on a Calculation Agent City Business Day or on a day which is not a Calculation Agent City Business Day will be deemed effective on the next following Calculation Agent City Business Day, regardless of the form in which it is delivered. For purposes of the two preceding sentences, a notice given by telephone will be deemed to have been delivered at the time the telephone conversation takes place. If the notice is delivered by telephone, a written confirmation will be executed and delivered confirming the substance of that notice within one Calculation Agent City Business Day of that notice. Failure to provide that written confirmation will not affect the effectiveness of that telephonic notice.

22. AMENDMENT OF CREDIT LINKED CONDITIONS IN ACCORDANCE WITH MARKET CONVENTION

The Calculation Agent may from time to time amend any provision of these Credit Linked Conditions to incorporate and/or reflect further or alternative documents from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees which the Calculation Agent and the Issuer determine in a commercially reasonable manner are necessary or desirable to reflect or govern market practice for credit derivative transactions. Any amendment made in accordance with this Credit Linked Condition 22 shall be notified to the Noteholders in accordance with General Condition 14 (Notices).

23. VARIATION OF SETTLEMENT

If the applicable Final Terms indicate that the Issuer has the option to vary settlement in respect of the Notes, the Issuer may at its sole and absolute discretion in respect of each such Note give notice pursuant to General Condition 14 (Notices) no later than the tenth (10th) Business Day following the relevant Credit Event Determination Date, that the Settlement Method or Fallback Settlement Method (as applicable) specified in the applicable Final Terms shall be varied either:

- (i) where Cash Settlement is specified, from Cash Settlement to Physical Settlement; or
- (ii) where Physical Settlement is specified, from Physical Settlement to Cash Settlement.

24. STANDARD TERMS

INFLATION LINKED TECHNICAL ANNEX

ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED NOTES

The terms and conditions applicable to Inflation Linked Notes shall comprise the General Terms and Conditions of the Notes (the "General Conditions"), the additional Terms and Conditions set out below (the "Inflation Linked Conditions") and the Terms and Conditions as set out in each other Technical Annex which is specified as applicable in the applicable Final Terms (together with the General Conditions and the Inflation Linked Conditions, the "Conditions"), in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the General Conditions and the Inflation Linked Conditions, the Inflation Linked Conditions set out below shall prevail. In the event of any inconsistency between (i) the General Conditions and/or the Inflation Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail.

References below to a numbered General Condition are to such numbered section of the General Conditions and references to a numbered Inflation Linked Condition are to such numbered section as set out in this Technical Annex. Defined terms used in this Technical Annex where the same term may be used in another Technical Annex (e.g. Determination Date or Hedging Party) shall have the meanings given in this Technical Annex or in the section of the Final Terms relating to Inflation Linked Notes notwithstanding the same terms being used in another Technical Annex.

1. INFLATION LINKED NOTES

(a) Inflation Linked Interest Notes

Unless previously redeemed or purchased and cancelled in accordance with the General Conditions or as specified in the applicable Final Terms and subject to this Inflation Linked Technical Annex, each Inflation Linked Interest Note will bear interest in the manner specified in the applicable Final Terms and the General Conditions.

(b) Inflation Linked Redemption Notes

Unless previously redeemed or purchased and cancelled, each Note will be redeemed by the Issuer by payment of the Final Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms on the Maturity.

2. INFLATION INDEX DELAY AND DISRUPTION PROVISIONS

(a) Delay in Publication

If the Calculation Agent determines that a Delayed Index Level Event in respect of an Inflation Index has occurred with respect to any Determination Date, then the Relevant Level for such Inflation Index with respect to the relevant Reference Month subject to such Delayed Index Level Event (the "**Substitute Index Level**") shall be determined by the Calculation Agent as follows:

- (i) if "Related Bond" is specified as applicable for such Inflation Index in the relevant Final Terms, the Calculation Agent shall determine the Substitute Index Level by reference to the corresponding index level determined under the terms and conditions of the relevant Related Bond;
- (ii) if (I) "Related Bond" is not specified as applicable for such Inflation Index in the relevant Final Terms, or (II) the Calculation Agent is not able to determine a Substitute Index Level under (i) above, the Calculation Agent shall determine the Substitute Index Level by reference to the following formula:

Inflation Technical Annex

$$\text{Substitute Index Level} = \text{Base Level} \times \left(\frac{\text{Latest Level}}{\text{Reference Level}} \right); \text{ or}$$

(iii) otherwise in accordance with any formula specified in the relevant Final Terms,

in each case as of such Determination Date,

where:

"Base Level" means, in respect of an Inflation Index, the level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Index Level is being determined.

"Latest Level" means, in respect of an Inflation Index, the latest level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor prior to the month in respect of which the Substitute Index Level is being determined.

"Reference Level" means, in respect of an Inflation Index, the level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month that is 12 calendar months prior to the month in respect of the Latest Level.

The Issuer shall give notice to Noteholders, in accordance with General Condition 14 (Notices), of any Substitute Index Level calculated pursuant to this Inflation Linked Condition 1.

If the Relevant Level (as defined below) is published or announced at any time on or after the relevant Cut-off Date, such Relevant Level will not be used in any calculations. The Substitute Index Level so determined pursuant to this Inflation Linked Condition 1 will be the definitive level for that Reference Month.

(b) Cessation of Publication

If the Calculation Agent determines that the level for the Inflation Index has not been published or announced for two (2) consecutive months, the Inflation Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index or the Inflation Index Sponsor otherwise cancels the Inflation Index, then the Calculation Agent shall determine a successor inflation index (the **"Successor Inflation Index"**) (in lieu of any previously applicable Inflation Index) for the purposes of the Inflation Linked Notes by using the following methodology:

- (i) if at any time (other than after an early cancellation event has been designated by the Calculation Agent pursuant to Inflation Linked Condition 1(b)(v) below), a successor inflation index has been designated by the calculation agent (or equivalent) pursuant to the terms and conditions of the Related Bond, such successor inflation index shall be designated a "Successor Inflation Index" notwithstanding that any other Successor Inflation Index may previously have been determined under Inflation Linked Conditions 1(b)(ii), 1(b)(iii) or 1(b)(iv) below;
- (ii) if a Successor Inflation Index has not been determined pursuant to Inflation Linked Condition 1(b)(i) above, and a notice has been given or an announcement has been made by the Inflation Index Sponsor, specifying that the Inflation Index will be superseded by a replacement Inflation Index specified by the Inflation Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the Inflation Index for purposes

Inflation Technical Annex

of the Inflation Linked Notes from the date that such replacement Inflation Index comes into effect;

- (iii) if a Successor Inflation Index has not been determined pursuant to Inflation Linked Conditions 1(b)(i) or 1(b)(ii) above, the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If four or five responses are received and, of those four or five responses, three or more leading independent dealers state the same index, this index will be deemed the "Successor Inflation Index". If three responses are received and two or more leading independent dealers state the same index, this index will be deemed the "Successor Inflation Index". If fewer than three responses are received or no Successor Inflation Index is determined pursuant to this Inflation Linked Condition 1(b)(iii), the Calculation Agent will proceed to Inflation Linked Condition 1(b)(iv) below;
- (iv) if no replacement index or Successor Inflation Index has been determined under Inflation Linked Conditions 1(b)(i), 1(b)(ii) or 1(b)(iii) above by the next occurring Cut-Off Date, the Calculation Agent, subject as provided below, will determine an appropriate alternative index from such Cut-Off Date, and such index will be deemed a "Successor Inflation Index"; or
- (v) if the Calculation Agent determines that there is no appropriate alternative index in relation to Inflation Linked Notes, on giving notice to Noteholders in accordance with General Condition 14 (Notices), the Issuer shall redeem all but not some only of the Inflation Linked Notes, each Inflation Linked Note being redeemed by payment of the relevant Early Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (Notices).

(c) Rebasing of the Inflation Index

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the "**Rebased Index**") will be used for purposes of determining the level of the Inflation Index from the date of such rebasing; provided, however, that the Calculation Agent shall make adjustments as are made by the calculation agent (or equivalent) pursuant to the terms and conditions of the Related Bond, if "Related Bond" is specified as applicable in the applicable Final Terms, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased, or, if "Related Bond" is not specified as applicable in the applicable Final Terms, the Calculation Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased.

(d) Material Modification Prior to Last Occurring Cut-Off

If, on or prior to the last occurring Cut-Off Date, the Inflation Index Sponsor announces that it will make a material change to the Inflation Index then the Calculation Agent shall make any such adjustments, if "Related Bond" is specified as applicable in the applicable Final Terms, consistent with adjustments made to the Related Bond, or, if "Related Bond" is not specified as applicable in the applicable Final Terms, only those adjustments to the Inflation Index necessary for the modified Inflation Index to continue as the Inflation Index.

(e) Manifest Error in Publication

With the exception of any corrections published after the day which is three (3) Business Days prior to the relevant Maturity Date, if, within thirty (30) calendar days of publication, the Calculation Agent determines that the Inflation Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Calculation Agent may, in its discretion, make such

Inflation Technical Annex

adjustments to the terms of the Inflation Linked Notes as it determines appropriate to account for the correction and will notify the Noteholders of any such adjustments in accordance with General Condition 14 (Notices).

(f) Consequences of an Additional Disruption Event

If the Calculation Agent determines that an Additional Disruption Event has occurred, the Issuer may redeem all but not some of the Inflation Linked Notes on the date notified by the Calculation Agent to Noteholders in accordance with General Condition 14 (Notices) by payment of the relevant Early Redemption Amount as at the date of redemption, taking into account the relevant Additional Disruption Event.

3. INFLATION INDEX DISCLAIMER

Inflation Technical Annex

"Determination Date" means each date specified as such in the applicable Final Terms.

"End Date" means each date specified as such in the applicable Final Terms.

If the relevant Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems, the Calculation Agent will select a new Fallback Bond on the same basis, but notwithstanding the immediately prior sentence, selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

Inflation Technical Annex

"Related Bond" means, in respect of an Inflation Index, the bond specified as such in the applicable Final Terms. If the Related Bond specified in the applicable Final Terms is "Fallback Bond", then, for any Related Bond determination, the Calculation Agent shall use the Fallback Bond. If no bond is specified in the applicable Final Terms as the Related Bond and "Fallback Bond: Not Applicable" is specified in the applicable Final Terms, there will be no Related Bond. If a bond is specified as the Related Bond in the applicable Final Terms and that bond redeems or matures before the End Date (i) unless "Fallback Bond: Not Applicable" is specified in the applicable Final Terms, the Calculation Agent shall use the Fallback Bond for any Related Bond determination and (ii) if "Fallback Bond: Not Applicable" is specified in the applicable Final Terms, there will be no Related Bond.

"Relevant Level" has the meaning set out in the definition of "Delayed Index Level Event" above.

In the event of any inconsistency between (i) the General Conditions and/or the Commodity Linked Conditions and (ii) the applicable Final Terms, the applicable Final Terms shall prevail.*

References below to a numbered General Condition are to such numbered section of the General Conditions and references to a numbered Commodity Linked Condition are to such numbered section as set out in this Technical Annex. Defined terms used in this Technical Annex where the same term may be used in another Technical Annex (e.g. Exchange or Delivery Date) shall have the meanings given in this Technical Annex or in the section of the Final Terms relating to Commodity Linked Notes notwithstanding the same terms being used in another Technical Annex.

1. COMMODITY LINKED NOTES

(a) Commodity Linked Interest Notes

Unless previously redeemed or purchased and cancelled in accordance with the General Conditions or as specified in the applicable Final Terms and subject to these Commodity Linked Conditions, each Commodity Linked Interest Note will bear interest in the manner specified in the applicable Final Terms and the General Conditions.

Unless previously redeemed or purchased and cancelled, each Commodity Linked Redemption Note will be redeemed by the Issuer by payment of the Final Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms, on the Maturity Date.

2. MARKET DISRUPTION AND DISRUPTION FALLBACK

If, in the opinion of the Calculation Agent, a Market Disruption Event (as defined below) has occurred and is continuing on any Pricing Date (or, if different, the day on which the price for that Pricing Date would, in the ordinary course, be published by the Price Source), the Relevant Price for that Pricing Date will be determined by the Calculation Agent, in accordance with the first applicable Disruption Fallback (as set out below) that provides a Relevant Price. Subject as provided in Commodity Linked Condition 4(a), the provision of this Commodity Linked Condition 2 and each Business Day or Trading Day Convention set out in Commodity Linked Condition 8 will be applied separately in relation to each Commodity or Commodity Index.

(a) Market Disruption Event

"Market Disruption Event" means an event that in the determination of the Calculation Agent would give rise to or require an alternative basis for determining a Relevant Price were the event to occur or exist on any Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the Price Source). Without limitation this shall include the occurrence of any of the following events:

- (i) with respect to all Commodities:

Commodity Technical Annex

- (A) Price Source Disruption;
 - (B) Commodity Trading Disruption;
 - (C) Disappearance of Commodity Reference Price;
 - (D) Commodity Tax Disruption;
 - (E) any additional Market Disruption Events as specified in the applicable Final Terms;
and
- (ii) with respect to all Commodities other than Bullion:
- (A) Material Change in Formula;
 - (B) Material Change in Content; and
- (iii) with respect to a Commodity Index:
- (A) a temporary or permanent failure by the applicable exchange or other price source to announce or publish (x) the Commodity Reference Price or (y) closing price for any futures contract included in the Commodity Index;
 - (B) a material limitation, suspension or disruption of trading in one or more of the futures contracts included in the Commodity Index which results in a failure by the exchange on which each applicable futures contract is traded to report a closing price for such contract on the day on which such event occurs or any succeeding day on which it continues; or
 - (C) the closing price for any futures contract included in the Commodity Index is a "limit price", which means that the closing price for such contract for a day has increased or decreased from the previous day's closing price by the maximum amount permitted under applicable exchange rules.

(b) Disruption Fallback

"Disruption Fallback" means a source or method that may give rise to an alternative basis for determining the Relevant Price in respect of a specified Commodity Reference Price when a Market Disruption Event occurs or exists on a day that is a Pricing Date in respect of the relevant Notes. A Disruption Fallback is applicable if it is specified in the applicable Final Terms or, if no Disruption Fallback is specified in the applicable Final Terms, the following Disruption Fallbacks will be deemed to have been specified and be applicable and shall mean subject as provided in the final paragraph of this Commodity Linked Condition 2:

- (i) with respect to a relevant Commodity, (in the following order):
- (A) Fallback Reference Price (if applicable);
 - (B) Delayed Publication or Announcement and Postponement (each to operate concurrently with the other and each subject to a period of consecutive Commodity Business Days (or Bullion Business Days in respect of Bullion) specified as the applicable Specified Maximum Days of Disruption provided, however, that the price determined by Postponement shall be the Relevant Price only if Delayed Publication or Announcement does not yield a Relevant Price within the Specified Maximum Days of Disruption); and

Commodity Technical Annex

- (C) Calculation Agent Determination;
- (ii) with respect to a Commodity Index the Calculation Agent shall determine the Relevant Price subject as provided below by:
 - (A) using:
 - I. with respect to each futures contract included in the Commodity Index which is not affected by the Market Disruption Event on such Pricing Date, the closing prices of each such futures contract on the applicable exchange on such Pricing Date; and
 - II. with respect to each futures contract included in the Commodity Index which is affected by the Market Disruption Event on such Pricing Date, the closing prices of each such futures contract on the first Futures Trading Day following such Pricing Date on which no Market Disruption Event is occurring with respect to such futures contract,

in each case as of the Fallback Pricing Date.

- (B) If a Fallback Pricing Date is specified in the applicable Final Terms to be applicable to any Pricing Date for a Commodity Index, and if:
 - I. following adjustment of such Pricing Date on account of the Scheduled Pricing Date not being a Trading Day, the Pricing Date would otherwise fall after the specified Fallback Pricing Date, then such Fallback Pricing Date shall be deemed to be such Pricing Date for such Commodity Index. If such Fallback Pricing Date is not a Trading Day for the Commodity Index, then the Calculation Agent will determine the Commodity Reference Price for the applicable Commodity Index, taking into consideration the latest available level of the Commodity Index and any other information that in good faith it deems relevant of such Commodity Index on such Fallback Pricing Date, and such determination by the Calculation Agent pursuant to this Commodity Linked Condition 2 shall be deemed to be the Commodity Reference Price for such Commodity Index in respect of the relevant Pricing Date; and/or
 - II. the closing price of a futures contract comprised in the Commodity Index would otherwise be used for the purposes of determining the Commodity Reference Price above would fall after the specified Fallback Pricing Date following the adjustment set out in (A)(II) above, then the closing price of such futures contract will instead be taken on such Fallback Pricing Date, and such closing price for the Fallback Pricing Date will be determined by the Calculation Agent, taking into consideration the latest available closing price for such futures contract, and any other information that in good faith it deems relevant.

Subject as provided below, the Calculation Agent shall determine the Relevant Price by reference to the closing prices determined in (A)I and (A)II above or as provided in (B) above using the then current method for calculating the Commodity Reference Price.

Where a Market Disruption Event with respect to one or more futures contracts included in the Commodity Index has occurred on the Scheduled Pricing Date and continues to exist for a number of Trading Days equal to the Specified Maximum Days of Disruption, the Calculation Agent shall determine the Relevant Price on the final such Trading Day. In calculating the Relevant Price as set

Commodity Technical Annex

out herein, the Calculation Agent shall use the formula for calculating the Commodity Reference Price last in effect prior to the Market Disruption Event.

If any Disruption Fallbacks are specified in the applicable Final Terms, unless otherwise provided in the Final Terms, then only that or those (as the case may be) Disruption Fallbacks shall apply and if two or more Disruption Fallbacks are specified, those Disruption Fallbacks shall apply in the order as specified in the relevant Final Terms, such that if the Calculation Agent determines that the Commodity Reference Price cannot be determined by applying a Disruption Fallback, then the next Disruption Fallback specified shall apply, provided in all cases that, if the Commodity Reference Price cannot be determined using any Disruption Fallback so specified, then Calculation Agent Determination shall be deemed to apply.

3. FALLBACK PRICING DATES

In respect of a Commodity, and notwithstanding any other terms of the Commodity Linked Conditions applicable to a Commodity, if a Fallback Pricing Date is specified in the relevant Final Terms to be applicable to any Pricing Date and if, following adjustment of the original date on which the Pricing Date was scheduled to fall pursuant to the applicable Commodity Business Day Convention (or Bullion Business Day Convention) or, following the application of a Disruption Fallback pursuant to Commodity Linked Condition 2 (Market Disruption and Disruption Fallback) or adjustment of the Pricing Date pursuant to Commodity Linked Condition 4(a) (**Common Pricing**), the determination of a Commodity Reference Price, or the Pricing Date in respect of a Commodity, as applicable, would otherwise fall after the specified Fallback Pricing Date in respect of the Commodity, then the Fallback Pricing Date shall be deemed to be the Pricing Date for the Commodity.

If the Fallback Pricing Date is not a Commodity Business Day (or a Bullion Business Day), the Commodity Reference Price of such Commodity shall be subject to Calculation Agent Determination on such Fallback Pricing Date, and such determination by the Calculation Agent pursuant to this Commodity Linked Condition 3 shall be deemed to be the Commodity Reference Price in respect of the relevant Pricing Date.

4. TERMS RELATING TO CALCULATION OF PRICES

(a) Common Pricing

With respect to Commodity Linked Notes relating to a Basket of Commodities, if "Common Pricing" is specified in the applicable Final Terms as:

- (i) "Applicable", then no date will be a Pricing Date unless such date is a day on which all referenced Commodity Reference Prices (for which such date would otherwise be a Pricing Date) are scheduled to be published or announced, as determined on the Trade Date of the Notes;
- (ii) "Not Applicable", then if the Calculation Agent determines that a Market Disruption Event (as defined above) has occurred or exists on the Pricing Date in respect of any relevant Commodity and/or Commodity Index (each an "**Affected Commodity**"), the Relevant Price of each Commodity and/or Commodity Index within the basket which is not affected by the occurrence of a Market Disruption Event shall be determined on its Scheduled Pricing Date and the Relevant Price for each Affected Commodity shall be determined in accordance with the first applicable Disruption Fallback that provides a Relevant Price.

All determinations made by the Calculation Agent pursuant to this Commodity Linked Condition will be conclusive and binding on the Noteholders and the Issuer except in the case of manifest error.

Commodity Technical Annex

(b) Correction to Published Prices

For purposes of determining or calculating the Relevant Price for any day, if the price published or announced on a given day and used or to be used by the Calculation Agent to determine a Relevant Price is subsequently corrected and the correction is published or announced by the person responsible for that publication or announcement within 30 calendar days (or 90 calendar days, in connection with a weather index) after the original publication or announcement (or, if earlier the day falling two (2) Commodity Business Days (in the case of a Commodity), Bullion Business Days (in the case of Bullion) or Trading Days (in the case of a Commodity Index) preceding the date on which payment or delivery of any amount to be calculated by reference to such Relevant Price is due), the Calculation Agent may, in its sole discretion, use such corrected price in such calculation.

5. ADJUSTMENTS TO A COMMODITY INDEX

(a) Successor Index Sponsor Calculates and Reports a Commodity Index

If a relevant Commodity Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the "**Successor Index Sponsor**") acceptable to the Issuer, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Commodity Index, then in each case that index (the "**Successor Index**") will be deemed to be the Commodity Index.

(b) Modification and Cessation of Calculation of a Commodity Index

If (in the determination of the Calculation Agent) on or prior to a Pricing Date (i) the relevant Index Sponsor makes a material change in the formula for or the method of calculating a relevant Commodity Index or in any other way materially modifies that Commodity Index (other than a modification prescribed in that formula or method to maintain that Commodity Index in the event of changes in constituent commodities and weightings and other routine events), or (ii) the Index Sponsor permanently cancels a relevant Commodity Index or (iii) the Index Sponsor fails to calculate and announce a relevant Commodity Index and there is no Successor Index Sponsor or Successor Index then the Calculation Agent may at its option (in the case of (i)) and shall (in the case of (ii) and (iii)) (such events (i) (ii) and (iii) to be collectively referred to as "**Index Adjustment Events**") calculate the Relevant Price using in lieu of the published level for that Commodity Index, the level for that Commodity Index as at the relevant determination date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Commodity Index last in effect prior to the relevant Index Adjustment Event, but using only those futures contracts that comprised that Commodity Index immediately prior to the relevant Index Adjustment Event (other than those futures contracts that have ceased to be listed on any relevant exchange).

(c) Commodity Index Substitution

If the Calculation Agent determines, in its sole discretion, that it is not reasonably practicable or commercially reasonable (taking into account the costs involved) to calculate or continue to calculate the Commodity Index pursuant to the preceding paragraph, the Calculation Agent may rebase the Notes against another index or basket of indices, as applicable, determined by the Calculation Agent to be comparable to the relevant Commodity Index, and, following such rebasing, the Calculation Agent will make such adjustment(s) that it determines to be appropriate, if any, to any variable, calculation methodology, valuation, settlement, payment terms or any other terms of the Notes to account for such rebasing.

Commodity Technical Annex

(d) Early Redemption

If the Calculation Agent determines, in its sole discretion, that there is no such index or basket of indices comparable to the relevant Commodity Index, and/or that application of the preceding paragraphs would not achieve a commercially reasonable result, the Calculation Agent may determine that the Notes shall be redeemed, in which event the Issuer will cause to be paid to each holder in respect of each Note held by it an amount equal to the Early Redemption Amount (as defined in General Condition 7.6 (Early Redemption Amounts) and specified in the applicable Final Terms).

(e) Notices

On making any such adjustment or determination, the Calculation Agent shall give notice as soon as practicable to the Holders stating the adjustment to any amount payable under the Notes, the determination and/or any of the other relevant terms and giving brief details of the Index Adjustment Event, provided that any failure to give such notice shall not affect the validity of the Index Adjustment Event or any action taken.

6. COMMODITY INDEX DISCLAIMER

The Notes are not sponsored, endorsed, sold, or promoted by the Commodity Index or the Index Sponsor and no Index Sponsor makes any representation whatsoever, whether express or implied, either as to the results to be obtained from the use of the Commodity Index and/or the levels at which the Commodity Index stands at any particular time on any particular date or otherwise. No Commodity Index or Index Sponsor shall be liable (whether in negligence or otherwise) to any person for any error in the Commodity Index and the Index Sponsor is under no obligation to advise any person of any error therein. No Index Sponsor is making any representation whatsoever, whether express or implied, as to the advisability of purchasing or assuming any risk in connection with the Notes. Except as may be disclosed prior to the Issue Date and specified in the relevant Final Terms, none of the Issuer, the Guarantor, the Calculation Agent or any of their respective affiliates has any affiliation with or control over the Commodity Index or Index Sponsor or any control over the computation, composition, or dissemination of the Commodity Index. Although the Calculation Agent will obtain information concerning the Index from publicly available sources it believes reliable, it will not independently verify this information. Accordingly, no representation, warranty, or undertaking (express or implied) is made and no responsibility is accepted by the Issuer, the Guarantor, their affiliates, or the Calculation Agent as to the accuracy, completeness, and timeliness of information concerning the Commodity Index.

7. CONSEQUENCES OF AN ADDITIONAL DISRUPTION EVENT

Following the determination by the Calculation Agent that an Additional Disruption Event has occurred, the Calculation Agent may, in its sole and absolute discretion:

- (a) determine to make such adjustment to the interest, redemption, settlement, payment or any other terms of the Notes as the Calculation Agent determines appropriate to account for such Additional Disruption Event; and/or

Capital injection – Santander UK

On 3 August 2010, Banco Santander, through a wholly-owned Spanish based subsidiary Santusa Holding, S.L., provided £4,456 million of equity capital into Santander UK. The capital was used to support the reorganisation of certain Group companies in the United Kingdom and will be used to support organic and inorganic growth.

Developments

In September 2008, following the announcement by H.M. Treasury to take Bradford & Bingley plc into public ownership, the retail deposits, branch network and related employees transferred, under the provisions of the Banking (Special Provisions) Act 2008, to Santander UK. All of Bradford & Bingley plc's customer loans and treasury assets, including all its mortgage assets, were taken into public ownership. The transfer to Santander UK consisted of the £20bn retail deposit base with 2.7 million customers, as well as Bradford & Bingley plc's direct channels including 197 retail branches, 141 agencies (distribution outlets in third party premises) and related employees. The acquisition price was £612m, including the transfer of £208m of capital relating to offshore entities. The transfer of Bradford & Bingley plc's customers and their retail deposits further strengthened the Santander UK Group's retail customer deposit base and franchise.

On 10 October 2008, Banco Santander completed the acquisition of the entire issued ordinary share capital of A&L, implemented by means of a Scheme of Arrangement under Section 425 of the Companies Act 1985.

In December, 2008, following the acquisition by Banco Santander of A&L, Santander UK injected £950m of capital into A&L through a subscription for new A&L ordinary shares and undated subordinated notes. Previously, in October, 2008, Santander UK subscribed for US\$100m undated floating rate subordinated notes issued by A&L. As a result of the subscription for ordinary shares, Santander UK held 35.6% of the issued ordinary share capital of A&L at 31 December, 2008.

On 9 January 2009, in order to optimise the capital, liquidity funding and overall financial efficiency of the enlarged Santander UK Group, Banco Santander transferred all of its A&L shares to Santander UK in exchange for newly issued ordinary shares of Santander UK. Accordingly, Santander UK is now the immediate parent company of A&L. Santander UK accounted for the transfer of A&L with effect from 10 October 2008, the date on which A&L was acquired by Banco Santander.

On 28 May 2010, A&L transferred its business and certain associated liabilities to Santander UK pursuant to a court-approved business transfer scheme under Part VII of the Financial Services and Markets Act 2000.

These business combinations allow the Group to deliver increased critical mass in the United Kingdom through greater market share. In January 2010, Santander UK, which includes the Bradford & Bingley savings business, was rebranded as Santander. In December 2010, the rebranding of A&L branches was completed, as information technology changes ensured any Santander customer in the U.K. could transact in all its U.K. branches. The move delivered a significant advantage for customers as they can now use more than 1,400 branches (including agencies). The change also reflected Santander's policy to operate under a single brand.

Acquisition – RBS and Natwest branches

On 4 August 2010, Santander UK announced its agreement to acquire (subject to certain conditions) 318 branches and associated assets and liabilities from the Royal Bank of Scotland Group for a premium of £350m to net assets at closing. The consideration will be paid in cash and is subject to certain closing adjustments. The transaction includes 311 Royal Bank of Scotland branches in England and Wales; seven NatWest branches in Scotland; the retail and SME customer accounts attached to these branches; the Direct SME business; and certain mid-corporate businesses. EC/UK merger control clearance was received on 15 October 2010 and HMRC clearance was also received during the fourth quarter. The separation and transfer process is underway. The long stop contractual date is 31 March 2012.

In October and November 2010, the Group acquired for total consideration of £1,451m:

- Santander Cards Limited and Santander Cards (UK) Limited (and its subsidiaries), which conduct Santander's provision of credit cards and related financial products, store cards and other unsecured consumer finance products in the UK, and Santander Cards Ireland Limited, which conducts Santander's provision of credit finance by way of store cards and credit cards in the Republic of Ireland;

- Santander Consumer (UK) plc (of which the Group already held 49.9%), which carries on Santander's provision of finance facilities and the contract purchase of motor vehicles and equipment in the UK and also provides wholesale funding which is a facility that offers preferential dealers funding in the UK; and
- Santander PB UK (Holdings) Limited (and its subsidiaries) (of which the Group already held 51% of its subsidiary, Santander Private Banking UK Limited), which carries on Santander's provision of private banking services in the UK. The principal purpose of the acquisitions was to bring these interests of Banco Santander in the UK under the corporate structure of the Group in furtherance of the Group's objective to become a full-service commercial bank.

BOOK-ENTRY CLEARANCE SYSTEMS

*The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of DTC, Euroclear or Clearstream, Luxembourg (together, the "**Clearing Systems**") currently in effect. The information in this section concerning the Clearing Systems has been obtained from sources that the Issuer and the Guarantor believe to be reliable. The Issuer and the Guarantor accept responsibility for the information contained in this section. Each of the Issuer and the Guarantor confirms that the information contained in this section has been accurately reproduced as far as each of the Issuer and the Guarantor is aware and is able to ascertain from information published by the above sources, and that no facts have been omitted which would render the reproduced information inaccurate or misleading. Investors wishing to use the facilities of any of the Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. None of the Issuer, the Guarantor, the Dealers and the Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Notes held through the facilities of any Clearing System or for maintaining, supervising or reviewing any records or payments relating to such beneficial ownership interests.*

Book-entry Systems

DTC

DTC has advised the Issuer and the Guarantor that it is a limited purpose trust company organised under the New York Banking Law, a "banking organisation" within the meaning of the New York Banking Law, a member of the Federal Reserve System a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to Section 17A of the Exchange Act. DTC holds and provides asset servicing for securities that its participants ("**Participants**") deposit with DTC. DTC also facilitates the post trade settlement among Participants of sales and other securities transactions in deposited securities through electronic computerised book-entry changes between Participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations ("**Direct Participants**"). DTC is a wholly-owned subsidiary of the Depository Trust & Clearing Corporation ("**DTCC**"). DTC, in turn, is owned by a number of Direct Participants and Members of the National Securities Clearing Corporation, Government Securities Clearing Corporation, MBS Clearing Corporation and Emerging Markets Clearing Corporation ("**NSCC**", "**GSCC**", "**MBSCC**" and "**EMCC**", also subsidiaries of DTCC), as well as by the New York Stock Exchange, Inc., the American Stock Exchange, Inc. and the National Association of Securities Dealers, Inc. Access to the DTC System is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("**Indirect Participants**"). DTC has Standard & Poor's highest rating: AAA. The DTC Rules applicable to its Direct or Indirect Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Under the rules, regulations and procedures creating and affecting DTC and its operations (the "**Rules**"), DTC makes book-entry transfers of Registered Notes among Direct Participants on whose behalf it acts with respect to Notes accepted into DTC's book-entry settlement system ("**DTC Notes**") as described below and receives and transmits distributions of principal and interest on DTC Notes. The Rules are on file with the United States Securities and Exchange Commission. Direct Participants and Indirect Participants with which beneficial owners of DTC Notes ("**Owners**") have accounts with respect to the DTC Notes are required to make book-entry transfers and receive and transmit such payments on behalf of their respective Owners. Accordingly, although Owners who hold DTC Notes through Direct Participants or Indirect Participants will not possess Registered Notes, the Rules, by virtue of the requirements described above, provide a mechanism by which Direct Participants can receive payments and transfer their interest with respect to the DTC Notes.

Purchases of DTC Notes under the DTC System must be made by or through Direct Participants, which will receive a credit for the DTC Notes on DTC's records. The ownership interest of each actual purchaser of each DTC Note ("**Beneficial Owner**") is in turn to be recorded on the Direct and Indirect Participant's records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written

confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the DTC Notes are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in DTC Notes, except in the event that use of the book-entry system for the DTC Notes is discontinued.

To facilitate subsequent transfers, all DTC Notes deposited by Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other nominee as may be requested by an authorised representative of DTC. The deposit of DTC Notes with DTC and their registration in the name of Cede & Co. or such other nominee effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the DTC Notes; DTC's records reflect only the identity of the Direct Participants to whose accounts such DTC Notes are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping an account of their holdings of DTC Notes on behalf of their customers.

Delivery of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to DTC. If less than all of the DTC Notes of a Series are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such Series to be redeemed.

Neither DTC nor Cede & Co. nor such other nominee will consent or vote with respect to DTC Notes. Under its usual procedures, DTC will mail an omnibus proxy to the Issuer as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the DTC Notes are credited on the record date (identified in a listing attached to the omnibus proxy).

Principal and interest payments on the DTC Notes will be made to Cede & Co., or such other nominee as may be requested by an authorised representative of DTC. DTC's practice is to credit Direct Participants' accounts on the due date for payment in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payment on the due date. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Direct or Indirect Participant and not of DTC or its nominee or the Issuer or the Guarantor, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to Cede & Co., or such other nominee as may be requested by an authorised representative of DTC is the responsibility of the Issuer or the Guarantor, disbursement of such payments to Direct Participants is the responsibility of DTC, and disbursement of such payments to the Beneficial Owners is the responsibility of Direct and Indirect Participants. Neither the Issuer nor the Guarantor accept any responsibility or liability for any such payments to be made by DTC or by Direct or Indirect Participants.

Euroclear and Clearstream, Luxembourg

Euroclear and Clearstream, Luxembourg each hold securities for their customers and facilitate the clearance and settlement of securities transactions by electronic book-entry transfer between their respective account holders. Euroclear and Clearstream, Luxembourg provide various services including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg also deal with domestic securities markets in several countries through established depositary and custodial relationships. Euroclear and Clearstream, Luxembourg have established an electronic bridge between their two systems across which their respective participants may settle trades with each other.

Euroclear and Clearstream, Luxembourg customers are world-wide financial institutions, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to Euroclear and Clearstream, Luxembourg is available to other institutions that clear through or maintain a custodial relationship with an account holder of either system.

Book-entry Ownership of and Payments in respect of DTC Notes

The Issuer will apply to DTC in order to have each Tranche of Notes represented by Rule 144A Global Notes accepted in its book-entry settlement system. Upon the issue of any Rule 144A Global Notes, DTC or its custodian will credit, on its internal book-entry system, the respective nominal amounts or number of the individual beneficial interests represented by such Rule 144A Global Notes to the accounts of DTC Participants. Such accounts initially will be designated by or on behalf of the relevant Dealer. Ownership of beneficial interests in a Rule 144A Global Note will be held through Direct Participants or Indirect Participants of DTC, including the respective depositories of Euroclear and Clearstream, Luxembourg. Ownership of beneficial interests in a Rule 144A Global Note will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or its nominee (with respect to the interests of Direct Participants) and the records of Direct Participants (with respect to interests of Indirect Participants).

Payments in U.S. dollars of principal and interest in respect of a Rule 144A Global Note registered in the name of DTC's nominee will be made to the order of such nominee as the registered holder of such Note. In the case of any payment in a currency other than U.S. dollars, payment will be made by the Issuer to the Exchange Agent on behalf of DTC's nominee and the Exchange Agent will (in accordance with instructions received by it) remit all or a portion of such payment for credit directly to the beneficial holders of interests in the Rule 144A Notes in the currency in which such payment was made and/or cause all or a portion of such payment to be converted into U.S. dollars and credited to the applicable Participants' account.

Transfers of Notes Represented by Registered Global Notes

Transfers of any interests in Notes represented by a Registered Global Note within DTC, Euroclear and Clearstream, Luxembourg will be effected in accordance with the customary rules and operating procedures of the relevant Clearing System. The laws in some States within the United States require that certain persons take physical delivery of securities in definitive form. Similarly, because DTC can only act on behalf of Direct Participants in the DTC system who in turn act on behalf of Indirect Participants, the ability of a person having an interest in Notes represented by a Registered Global Note to pledge such Notes to persons or entities that do not participate in the DTC system or to otherwise take action in respect of such Notes may depend upon the ability to exchange such Notes for Notes in definitive form. The ability of any holder of Notes represented by a Registered Global Note to resell, pledge or otherwise transfer such Notes may be impaired if the proposed transferee of such Notes is not eligible to hold such Notes through a Direct or Indirect Participant in the DTC system.

Subject to compliance with the transfer restrictions applicable to the Registered Notes described under "*Subscription and Sale and Transfer and Selling Restrictions*", cross-market transfers between DTC, on the one hand, and directly or indirectly through Euroclear or Clearstream, Luxembourg accountholders, on the other, will be effected by the relevant Clearing System in accordance with its rules and through action taken by the Registrar, the Principal Paying Agent and any custodian ("**Custodian**") with whom the relevant Registered Global Notes have been deposited.

On or after the Issue Date for any Series, transfers of Notes of such Series between accountholders in Euroclear and Clearstream, Luxembourg and transfers of Notes of such Series between participants in DTC will generally have a settlement date three business days after the trade date. The customary arrangements for delivery versus payment will apply to such transfers.

Cross-market transfers between accountholders in Euroclear or Clearstream, Luxembourg and DTC Participants will need to have an agreed settlement date between the parties to such transfer. Because there is no direct link between DTC, on the one hand, and Euroclear and Clearstream, Luxembourg, on the other, transfers of interests in the relevant Registered Global Notes will be effected through the Registrar, the Principal Paying Agent and the Custodian receiving instructions (and where appropriate certification) from the transferor and arranging for delivery of the interests being transferred to the credit of the designated account for the transferee. In the case of crossmarket transfers, settlement between Euroclear or Clearstream, Luxembourg accountholders and DTC participants cannot be made on a delivery versus payment basis. The securities will be delivered on a delivery free of payment basis and arrangements for payment must be made separately.

DTC, Euroclear and Clearstream, Luxembourg have each published rules and operating procedures designed to facilitate transfers of beneficial interests in Registered Global Notes among participants and accountholders of DTC, Euroclear and Clearstream, Luxembourg. However, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Issuer, the Guarantor, the Agents or any Dealer will be responsible for any performance by DTC, Euroclear or Clearstream, Luxembourg or their respective Direct or Indirect Participants or accountholders of their respective obligations under the rules and procedures governing their operations and none of them will have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the Notes represented by Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial interests.

The Issuer will not be responsible for the operation of the clearing arrangements which is a matter for the clearing institutions, their nominees, their participants and the investors.

TAXATION

1. United Kingdom Taxation

The following applies only to persons who are the beneficial owners of Notes and is a summary of the Issuer's understanding of current law and practice in the United Kingdom relating only to United Kingdom withholding tax treatment of payments of principal and interest in respect of the Notes. It does not deal with any other United Kingdom taxation implications of acquiring, holding or disposing of the Notes. Some aspects do not apply to certain classes of person (such as dealers and persons connected with the Issuer) to whom special rules may apply. The UK tax treatment of prospective Noteholders depends on their individual circumstances and may be subject to change in the future. Prospective Noteholders who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

Payment of Interest on the Notes

The Issuer, provided that it continues to be a bank for the purposes of section 991 of the Income Tax Act 2007 ("ITA 2007") and provided that the interest on the Notes is paid in the ordinary course of its business within the meaning of section 878 of ITA 2007, will be entitled to make payments of interest without withholding or deduction for or on account of United Kingdom income tax.

Payments of interest on the Notes may be made without deduction of or withholding on account of United Kingdom income tax provided that the Notes continue to be listed on a "recognised stock exchange" within the meaning of section 1005 of ITA 2007. The London Stock Exchange is a recognised stock exchange. Securities will be treated as listed on the London Stock Exchange if they are included in the Official List (within the meaning of and in accordance with the provisions of Part 6 of the Financial Services and Markets Act 2000) and admitted to trading on the London Stock Exchange. Provided, therefore, that the Notes remain so listed, interest on the Notes will be payable without withholding or deduction on account of United Kingdom tax whether or not the Issuer carries on a banking business in the United Kingdom and whether or not the interest is paid in the ordinary course of its business.

Interest on the Notes may also be paid without withholding or deduction on account of United Kingdom tax where interest on the Notes is paid by a company and, at the time the payment is made, the Issuer reasonably believes (and any person by or through whom interest on the Notes is paid reasonably believes) that the beneficial owner is within the charge to United Kingdom corporation tax as regards the payment of interest; provided that HM Revenue and Customs ("HMRC") has not given a direction (in circumstances where it has reasonable grounds to believe that the above exemption is not available in respect of such payment of interest at the time the payment is made) that the interest should be paid under deduction of tax.

Interest on the Notes may also be paid without withholding or deduction on account of United Kingdom tax where the maturity of the Notes is less than 365 days and these Notes do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount must generally be withheld from payments of interest on the Notes on account of United Kingdom income tax at the basic rate (currently 20.00 per cent.). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Noteholder, HMRC can issue a notice to the Issuer to pay interest to the Noteholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Noteholders may wish to note that, in certain circumstances, HMRC has power to obtain information (including the name and address of the beneficial owner of the interest) from any person in the United Kingdom who either pays or credits interest to or receives interest for the benefit of a Noteholder. HMRC also has power, in certain circumstances, to obtain information from any person in the United Kingdom who pays amounts payable on the redemption of Notes which are deeply discounted securities for the purposes of the Income Tax (Trading and Other Income) Act 2005 to or receives such amounts for the benefit of another person, although HMRC's published practice indicates that HMRC will not exercise the power referred to above to require this information in respect of amounts

payable on the redemption of deeply discounted securities where such amounts are paid on or before 5 April 2012. Such information may include the name and address of the beneficial owner of the amount payable on redemption. Any information obtained may, in certain circumstances, be exchanged by HMRC with the tax authorities of the jurisdiction in which the Noteholder is resident for tax purposes.

EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income (which has been implemented into UK law) Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during such period they elect otherwise) to impose a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

The European Commission has proposed certain amendments to the Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

2. U.S. Taxation

The applicable Final Terms relating to any Tranche of Notes, all or a portion of which are to be offered or sold to, or for the account or benefit of, a U.S. person will set forth information regarding the U.S. federal income tax treatment of any such Notes. Investors considering the purchase of Notes should consult their own tax advisers concerning the application of U.S. federal income tax laws to their particular situations as well as any consequences of the purchase, ownership and disposition of Notes arising under the laws of any other taxing jurisdictions.

3. Italian Taxation

The following summary is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Italy, though it is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Italian tax law, to which they may be subject.

Tax treatment of the Notes

Legislative Decree No. 239 of 1 April 1996, as subsequently amended, (the "*Decree No. 239*") provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from notes falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) issued, *inter alia*, by non-Italian resident issuers.

Where the Notes have an original maturity of at least 18 months and an Italian resident Noteholder is (i) an individual not engaged in an entrepreneurial activity to which the Notes are connected (unless he has opted for the application of the *risparmio gestito* regime – see "Capital Gains Tax" below), (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation, interest, premium and other income relating to the Notes, accrued during the relevant holding period, are subject to a withholding tax, referred to as "*imposta sostitutiva*", levied at the rate of 12.50 per cent. In the event that the Noteholders described under (i) and (iii) above are engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional tax.

Where an Italian resident Noteholder is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which the Notes are effectively connected and the Notes are deposited with an authorised intermediary, interest, premium and other income from the Notes will not be subject to *imposta sostitutiva*, but must be included in the relevant Noteholder's income tax return and are therefore subject to general Italian corporate

taxation (and, in certain circumstances, depending on the "status" of the Noteholder, also to IRAP - the regional tax on productive activities).

Under the current regime provided by Law Decree No. 351 of 25 September 2001 converted into law with amendments by Law No. 410 of 23 November 2001, as clarified by the Italian Ministry of Economics and Finance through Circular No. 47/E of 8 August 2003, payments of Interest in respect of the Notes made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994 are subject neither to substitute tax nor to any other income tax in the hands of a real estate investment fund.

If the investor is resident in Italy and is an open-ended or closed-ended investment fund (the "**Fund**") or a SICAV, and the Notes are held by an authorised intermediary, interest, premium and other income accrued during the holding period on the Notes will not be subject to *imposta sostitutiva*, but must be included in the management results of the Fund accrued at the end of each tax period, subject to an ad hoc substitute tax applicable at a 12.50 per cent rate (the "**Collective Investment Fund Tax**"). As of 1 July 2011, the Collective Investment Fund Tax will be repealed and substituted by a substitute tax of 12.5% levied on proceeds distributed by the Fund or the SICAV or received by certain categories of unit holders upon redemption or disposal of the units.

Where an Italian resident Noteholder is a pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) and the Notes are deposited with an authorised intermediary, interest, premium and other income relating to the Notes and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 11 per cent. substitute tax.

Pursuant to Decree No. 239, *imposta sostitutiva* is applied by banks, SIMs, fiduciary companies, SGRs, stockbrokers and other entities identified by a decree of the Ministry of Economics and Finance (each an "**Intermediary**").

An intermediary must (i) be resident in Italy or be a permanent establishment in Italy of a non-Italian resident financial intermediary and (ii) intervene, in any way, in the collection of interest or in the transfer of the Notes. For the purpose of the application of the *imposta sostitutiva*, a transfer of Notes includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Notes or in a change of the Intermediary with which the Notes are deposited.

Where the Notes are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a Noteholder.

If the Notes are issued for an original maturity of less than 18 months, the *imposta sostitutiva* applies at the rate of 27.00 per cent. The 27.00 per cent. *imposta sostitutiva* is also applied to any payment of interest or premium relating to the Notes made to (i) Italian pension funds, (ii) Italian Funds and (iii) Italian SICAVs.

Early Redemption

Without prejudice to the above provisions, in the event that Notes having an original maturity of at least 18 months are redeemed, in full or in part, prior to 18 months from their issue date, or, at certain conditions, if repurchased by the Issuer within this period (Resolution No. 11 of 31 January 2011 of the Italian Revenue Agency (Agenzia delle Entrate)), Italian resident Noteholders will be required to pay, by way of a withholding to be applied by the Italian intermediary responsible for payment of interest or the redemption of the Notes, an amount equal to 20 per cent. of the interest and other amounts accrued up to the time of the early redemption.

Atypical securities

Interest payments relating to Notes that do not fall within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) may be subject to a withholding tax, levied at the rate of 27.00 per

cent. For this purpose, debentures similar to bonds are securities that incorporate an unconditional obligation to pay, at redemption, an amount not lower than their nominal value.

The 27.00 per cent. withholding tax mentioned above does not apply to interest payments made to a non-Italian resident Noteholder and to an Italian resident Noteholder which is (i) a company or similar commercial entity (including the Italian permanent establishment of foreign entities), (ii) a commercial partnership, or (iii) a commercial private or public institution.

Non-Italian Resident Noteholders

No Italian *imposta sostitutiva* is applied on payments to a non-Italian resident Noteholder of interest or premium relating to the Notes provided that, if the Notes are held in Italy, the non-Italian resident Noteholder declares itself to be a non-Italian resident according to Italian tax regulations.

Payments made by a non-resident Guarantor

With respect to payments made to Italian resident Noteholders by a non-Italian resident guarantor, in accordance with a certain interpretation of Italian tax law, any such payment made by the Italian non-resident guarantor could be treated, in certain circumstances, as a payment made by the Issuer and would thus be subject to the tax regime described in the previous paragraphs of this section.

Capital Gains Tax

Any gain obtained from the sale or redemption of the Notes would be treated as part of the taxable income (and, in certain circumstances, depending on the "status" of the Noteholder, also as part of the net value of production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Notes are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Notes are connected.

Where an Italian resident Noteholder is an individual not holding the Notes in connection with an entrepreneurial activity and certain other persons, any capital gain realised by such Noteholder from the sale or redemption of the Notes would be subject to an *imposta sostitutiva*, levied at the current rate of 12.50 per cent. Noteholders may set off losses with gains.

In respect of the application of the *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below.

Under the "tax declaration" regime (*regime della dichiarazione*), which is the default regime for Italian resident individuals not engaged in entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident individual Noteholder holding Notes not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Notes carried out during any given tax year. Italian resident individuals holding Notes not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance of income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident individual Noteholders holding the Notes not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Notes (the "*risparmio amministrato*" regime). Such separate taxation of capital gains is allowed subject to (i) the Notes being deposited with Italian banks, SIMs or certain authorised financial intermediaries; and (ii) an express election for the *risparmio amministrato* regime being punctually made in writing by the relevant Noteholder. The depositary is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Notes (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on

behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Noteholder or using funds provided by the Noteholder for this purpose. Under the *risparmio amministrato* regime, where a sale or redemption of the Notes results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the Noteholder is not required to declare the capital gains in its annual tax return.

Any capital gains realised by Italian resident individuals holding the Notes not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Notes, to an authorised intermediary and have opted for the so-called "*risparmio gestito*" regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 12.50 per cent. substitute tax, to be paid by the managing authorised intermediary. Under the *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the Noteholder is not required to declare the capital gains realised in its annual tax return.

Any capital gains realised by a Noteholder which is an Italian open ended or a closed-ended investment fund or a SICAV will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 12.50 per cent Collective Investment Fund Tax. As of 1 July 2011, the Collective Investment Fund Tax will be repealed and substituted by a substitute tax of 12.5% levied on proceeds distributed by the Fund or the SICAV or received by certain categories of unit holders upon redemption or disposal of the units.

Any capital gains realised by a Noteholder which is an Italian pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 11 per cent. substitute tax.

Capital gains realised by non-Italian resident Noteholders from the sale or redemption of the Notes are not subject to Italian taxation, provided that the Notes (i) are traded on regulated markets, or (ii) if not traded on regulated markets, are held outside Italy.

Capital gains realised by Italian resident real estate funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998 or pursuant to Article 14-*bis* of Italian Law No. 86 of 25 January 1995, on the Notes are not taxable at the level of the real estate funds.

Inheritance and gift taxes

Pursuant to Law Decree No. 262 of 3 October 2006, (Decree No. 262), converted into Law No. 286 of 24 November 2006, the transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation are taxed as follows:

- (i) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4.00 per cent. on the value of the inheritance or the gift exceeding EUR 1,000,000;
- (ii) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree, are subject to an inheritance and gift tax applied at a rate of 6.00 per cent. on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6.00 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding €100,000; and
- (iii) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8.00 per cent. on the entire value of the inheritance or the gift.

Transfer Tax

Article 37 of Law Decree No. 248 of 31 December 2007 (Decree No. 248), converted into Law No. 31 of 28 February 2008, published on the Italian Official Gazette No. 51 of 29 February 2008, has abolished the Italian transfer

tax provided for by Royal Decree No. 3278 of 30 December 1923, as amended and supplemented by the Legislative Decree No. 435 of 21 November 1997.

Following the repeal of the Italian transfer tax, as from 31 December 2007, contracts relating to the transfer of securities are subject to the registrations tax as follows: (i) public deeds and notarised deeds are subject to fixed registration tax at rate of €168; (ii) private deeds are subject to registration tax only in case of use or voluntary registration.

Implementation in Italy of the EU Savings Directive

Italy has implemented the EU Savings Directive through Legislative Decree No. 84 of 18 April 2005 (the Decree No. 84). Under Decree No. 84, subject to a number of important conditions being met, in the case of interest paid to individuals which qualify as beneficial owners of the interest payment and are resident for tax purposes in another Member State, Italian qualified paying agents shall report to the Italian Tax Authorities details of the relevant payments and personal information on the individual beneficial owner and shall not apply the withholding tax. Such information is transmitted by the Italian Tax Authorities to the competent foreign tax authorities of the State of residence of the beneficial owner.

4. Spanish Taxation

The following summary is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Spain, though it is not intended to be, nor should it be construed to be, legal or tax advice. This section does not constitute a complete description of all the tax issues that may be relevant in making the decision to invest in the Notes or of all the tax consequences that may derive from the subscription, acquisition, holding, transfer, redemption or reimbursement of the Notes and does not purport to describe the tax consequences applicable to categories of investors subject to special tax rules. Prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Spanish tax law, to which they may be subject.

Individuals with Tax Residence in Spain

Personal Income Tax

Personal Income Tax is levied on an annual basis on the worldwide income obtained by Spanish resident individuals, whatever the source is and wherever the relevant payer is established. Therefore any income that Spanish holders of the Notes may receive under the Notes will be subject to Spanish taxation.

Both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes obtained by individuals who are tax resident in Spain will be regarded as financial income for tax purposes (i.e. a return on investment derived from the transfer of own capital to third parties).

Both types of income will be included in the savings part of the taxable income subject to Personal Income Tax at two tax rates. Financial income up to EUR 6,000 will be taxed at a rate of 19 per cent and the excess over such threshold will be subject to a tax rate of 21 per cent.

Spanish holders of the Notes shall compute the gross interest obtained in the savings part of the taxable base of the tax period in which it is due, including amounts withheld, if any.

Income arising on the disposal, redemption or reimbursement of the Notes will be calculated as the difference between: (a) their disposal, redemption or reimbursement value; and (b) their acquisition or subscription value. Costs and expenses effectively borne on the acquisition and transfer of the Notes may be taken into account for calculating the relevant taxable income, provided that they can be duly justified.

Likewise, expenses relating to the management and deposit of the Notes, if any, will be tax-deductible, excluding those pertaining to discretionary or individual portfolio management.

Losses that may derive from the transfer of the Notes cannot be offset if the investor acquires homogeneous securities within the two-month period prior or subsequent to the transfer of the Notes, until he/she transfers such homogeneous securities.

Additionally, tax credits for the avoidance of international double taxation may apply in respect of taxes paid outside Spain on income deriving from the Notes, if any.

Wealth Tax

Individuals who are Spanish tax residents are subject to an annual Wealth Tax on 31 December on their total net wealth, regardless of the location of their assets (such as the Notes) or of where their rights may be exercised. However, according to Law 4/2008 of 23 December, taxpayers benefit from a 100 per cent. tax credit on their Wealth Tax liability as from 2008. This tax credit in practical terms means that taxpayers are effectively tax exempt from Wealth Tax. Taxpayers do not have the obligation to file the annual tax return as a result of this change.

Inheritance and Gift Tax

Inheritance and Gift Tax is levied on individuals' heirs and donees resident in Spain for tax purposes. It is calculated taking into account several circumstances, such as the age and previous net worth of the heir or donee and the kinship with the deceased person or donor. The applicable tax rate currently ranges between 7.65 and 34 per cent. depending on the particular circumstances, although the final tax payable may increase up to 81.6 per cent. This is nevertheless subject to the specific rules passed by the relevant Spanish regions with respect to this tax.

Legal Entities with Tax Residence in Spain

Corporate Income Tax

Both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes obtained by entities which are resident for tax purposes in Spain shall be computed as taxable income of the tax period in which they accrue.

The general tax rate for limited liability companies is currently 30 per cent. However, small sized companies (those companies whose net business income is lower than EUR 10,000,000) can benefit from the reduced tax rate of 25 per cent. on the first EUR 300,000 of their taxable profits. In addition to this, and for the tax period starting in 2011, companies with a net business income lower than EUR 5,000,000 and an average staff lower than 25 employees could benefit from the reduced rate of 20 per cent on the first EUR 300,000 of their taxable profits, being the rest of the taxable profits subject to a tax rate of 25 per cent. Special rates apply in respect of certain types of entities (such as qualifying collective investment institutions).

Tax credits for the avoidance of international double taxation may apply in respect of taxes paid outside Spain on income deriving from the Notes, if any.

Individuals and legal entities with no Tax Residence in Spain

A non-resident holder of Notes, who has a permanent establishment in Spain to which such Notes are attributable, is subject to Spanish Non-Residents' Income Tax on any income under the Notes, including both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes. In general terms, the tax rules applicable to individuals and legal entities with no tax residence in Spain but acting through a permanent establishment in Spain are the same as those applicable to Corporate Income taxpayers.

Spanish withholding tax

Where a financial institution (either resident in Spain or acting through a permanent establishment in Spain) acts as depositary of the Notes or intervenes as manager in the collection of any income under the Notes, such financial

institution will be responsible for making the relevant withholding on account of Spanish tax on any income deriving from the Notes. The current withholding tax rate in Spain is 19 per cent.

Amounts withheld in Spain, if any, can be credited against the final Spanish Personal Income Tax liability, in the case of Spanish tax resident individuals, or against final Spanish Corporate Income Tax liability, in the case of Spanish corporate, or against final Non-Residents' Income Tax, in the case of a Spanish permanent establishment of a non-resident holder of the Notes. However, holders of the Notes who are Corporate Income Taxpayers or Non-Residents' Income Taxpayers acting through a permanent establishment in Spain to which the Notes are attributable can benefit from a withholding tax exemption when the Notes are listed in an OECD official stock exchange. This will be the case as the Notes are expected to trade on the London Stock Exchange's regulated market.

Furthermore, such financial institution may become obliged to comply with the formalities set out in the Regulations on Spanish Personal Income Tax (Royal Decree 439/2007, of 30 March) and Corporate Income Tax (Royal Decree 1777/2004, of 30 July) when intervening in the transfer or reimbursement of the Notes.

Indirect taxation

The acquisition, transfer, redemption, reimbursement and exchange of the Notes will be exempt from Transfer Tax and Stamp Duty as well as Value Added Tax.

5. Portuguese Taxation

The following is a general summary of certain income and capital gains tax consequences which may arise to Portuguese resident Noteholders. It is included herein solely for information purposes. It is based on the laws presently in force in Portugal, though it is not intended to be, nor should it be considered to be, legal or tax advice. Furthermore, the tax treatment applicable in Portugal to the income and capital gains derived by Portuguese resident Noteholders may vary depending on the final terms and conditions of the relevant Notes. Therefore, prospective Portuguese resident Noteholders should consult their own professional advisers as to the tax implications arising from the acquisition, holding or disposal of the Notes.

Noteholder's Income Tax

Income generated by the holding (distributions) and disposal of the Notes is generally subject to the Portuguese tax regime for debt representative securities (*obrigações*).

Economic benefits derived from interest, amortisation, reimbursement premiums and other types of remuneration arising from the Notes are designated as investment income for Portuguese tax purposes.

(A) Withholding tax arising from the Notes

Payments of principal on the Notes to corporate entities or to individuals are not subject to Portuguese withholding tax. For these purposes, principal shall mean all payments carried out without any remuneration component.

Individuals

As regards to investment income on the Notes made to Portuguese tax resident individuals, they are subject to personal income tax which shall be withheld at the current final withholding rate of 20 per cent. if there is a Portuguese resident paying agent, unless the individual elects to include it in his taxable income, subject to tax at progressive rates of up to 46,5 per cent. In this case, the tax withheld is deemed to be a payment on account of the final tax due. Investment income (including interest) paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 30 per cent, unless the relevant beneficial owner(s) of the income is/are identified and as a consequence the tax rates applicable to such beneficial owner(s) will apply.

Investments income payments (including interest) on the Notes due by non resident entities to Portuguese tax resident individuals are subject to an autonomous taxation at a rate of 21.5 per cent whenever those payments are not subject to Portuguese withholding tax.

Corporate entities

Under current Portuguese law, investment income payments in respect of the Notes made to Portuguese tax resident companies are included in their taxable income and are subject to progressive corporate tax rate according to which a 12.5 per cent tax rate will be applicable on the first € 12,500 of taxable income and a 25 per cent tax rate will be applicable on taxable income exceeding €12,500, which may be subject to a municipal surcharge (“*derrama municipal*”) of up to 1.5 per cent, over the Noteholders taxable profits. Corporate taxpayers with a taxable income of more than € 2,000,000 are also subject to State surcharge (“*derrama estadual*”) of 2.5 per cent. on the part of its taxable profits that exceeds € 2,000,000.

(B) Capital gains arising from the transfer of Notes

Individuals

Capital gains obtained by Portuguese tax resident individuals with the transfer of the Notes are subject to Portuguese capital gains taxation. A 20 per cent. tax rate is levied on the positive difference between the capital gains and capital losses of each year. In this regard, an exemption applies on the annual positive difference of up to € 500 between gains and losses arising from the sale of shares, bonds and other debt securities. Accrued interest does not qualify as capital gains for tax purposes.

Corporate entities

Capital gains obtained with the transfer of the Notes by legal persons resident for tax purposes in Portugal and by non resident legal persons with a permanent establishment in Portugal to which the capital gains are attributable are included in their taxable income and are subject to progressive corporate tax rate according to which a 12.5 per cent tax rate will be applicable on the first €12,500 of taxable income and a 25 per cent tax rate will be applicable on taxable income exceeding €12,500, which may be subject to a municipal surcharge (“*derrama municipal*”) of up to 1.5 per cent, over the Noteholders taxable profits. Corporate taxpayers with a taxable income of more than € 2,000,000 are also subject to State surcharge (“*derrama estadual*”) of 2.5 per cent. on the part of its taxable profits that exceeds € 2,000,000.

Stamp tax

Individuals

No stamp tax applies to the acquisition of the Notes by individuals resident in Portugal by way of gift or inheritance, for tax purposes.

Corporate entities

Acquisition by way of gift or inheritance of the Notes by companies resident in Portugal for tax purposes, or non resident companies acting through a permanent establishment in Portugal although not subject to stamp tax in Portugal is subject to progressive corporate tax rate according to which a 12.5 per cent tax rate will be applicable on the first €12,500 of taxable income and a 25 per cent tax rate will be applicable on taxable income exceeding €12,500, which may be subject to a municipal surcharge (“*derrama municipal*”) of up to 1.5 per cent, over the Noteholders taxable profits. Corporate taxpayers with a taxable income of more than € 2,000,000 are also subject to State surcharge (“*derrama estadual*”) of 2.5 per cent. on the part of its taxable profits that exceeds € 2,000,000.

Under the current provisions of the Portuguese Stamp Tax Code, as a general rule, guarantees of any nature, when granted in Portugal or to Portuguese resident entities or when presented in Portugal for any legal purpose are subject to Stamp Tax in Portugal at a rate of 0.04 per cent., per month or fraction, for guarantees with a term of up to

one year, 0.5 per cent. on guarantees of between one year and up to five years, and 0.6 per cent. on guarantees with a term of five or more years.

Guarantees granted between two credit institutions having a nature of banks or financial institutions provided for in the European Union legislation, except if they are domiciled in a country, territory or region subject to a clearly more favourable tax regime included in the blacklist approved by Order 150 of 13 February, 2004 issued by the Portuguese Minister of Finance, are exempt from Stamp Tax in Portugal.

Implementation of EU Savings Directive in Portugal

Portugal has implemented the EC Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income into the Portuguese law through Decree-Law no 62/2005, of 11 March, 2005, as amended by Law no 39-A/2005, of 29 July.

6. Belgian Taxation

The following description is only a summary of current Belgian tax law which is liable to change over time. The summary does not purport to constitute a comprehensive description of all tax considerations which may be relevant to a prospective investor in the Notes, including tax considerations that arise from rules of general application or that are generally assumed to be known to prospective investors. In particular, it does not cover the situation of non-residents nor the tax treatment of securities which may be received upon repurchase or redemption of the Notes. This summary is not intended to constitute, nor should it be construed as, legal or tax advice. Prospective investors in the Notes who are in any doubt as to their tax position or who may be subject to tax in a jurisdiction other than Belgium should seek their own professional advice.

For the purpose of the Belgian tax consequences described herein, it is assumed that the Notes will qualify as claim rights for Belgian tax law purposes.

Any payment of interest (as defined by Belgian tax law) on the Notes made through a paying agent in Belgium will in principle be subject to Belgian withholding tax on the gross amount of the interest, currently at the rate of 15 per cent.

A gain arising on the repurchase or redemption of the Notes by the Issuer is taxable as interest. If the repurchase or redemption by the Issuer is in full or in part settled by means of a delivery of securities or other assets, interest includes any positive difference between the market value of those assets on the date of their payment or attribution and the initial issue price of the Notes. In the event interest is paid in the form of delivery of securities, the market value of those securities will be deemed at least equal to their value (prior to the date of the payment or attribution) as determined in the most recent publication by the Belgian Government of the value of securities listed on a Belgian stock exchange (such publication is issued monthly, on the 20th of each month) or on a similar foreign stock exchange.

In addition, if the Notes qualify as fixed income securities within the meaning of article 2, §1, 8° Belgian Income Tax Code ("ITC"), in case of a realisation of the Notes between two interest payment dates, an income equal to the pro rata of accrued interest corresponding to the detention period is taxable as interest.

For the purposes of the following paragraphs, such gains and pro rata of accrued interest are therefore referred to as interest.

Withholding tax

Belgian resident individuals

For Belgian resident individuals (i.e. residents of Belgium who are subject to Belgian personal income tax) who hold the Notes as a private investment, all interest payments will be subject to a 15 per cent. Belgian withholding

tax if the payment is made through a financial institution or other intermediary established in Belgium. In that case, the investors need not report the interest income in their annual tax return.

Belgian resident companies

Interest paid to Belgian resident companies (i.e. residents of Belgium who are subject to Belgian corporate income tax), and to Belgian branches of foreign companies, through a financial intermediary established in Belgium will generally be subject to Belgian withholding tax. However, an exemption may apply provided that the investor delivers to its financial intermediary an appropriate certificate. For zero or capitalisation bonds, the above exemption will not apply, unless the Belgian resident company and the Issuer are affiliate companies within the meaning of article 105, 6° RD/ITC. The current applicable withholding tax rate is 15 per cent.

Belgian non-profit legal entities

For Belgian resident non-profit legal entities (i.e. residents of Belgium who are subject to the Belgian legal entities tax, *impôt des personnes morales / rechtspersonenbelasting*), all interest payments will be subject to a 15 per cent. Belgian withholding tax if the payment is made through a financial institution or other intermediary established in Belgium. If the payment is not made through a Belgian intermediary and withholding tax is not applied, the withholding tax must be declared and paid by the non-profit legal entity itself.

Income tax

Belgian resident individuals

For Belgian resident individuals who hold the Notes as a private investment, if withholding tax is levied in Belgium on the interest it will constitute the final tax burden in respect of such income. In that case the investors need not report the interest income in their annual tax return.

If the payment is not made through a financial intermediary established in Belgium and withholding tax is not applied, the investors must report the interest income in their annual tax return and pay tax thereon at the rate of 15 per cent.

Belgian resident individuals are not liable to income tax on capital gains realised upon disposal of the Notes (other than the accrued interest portion, if any), provided that the Notes have not been used for their professional activity and that the capital gain is realised within the framework of the normal management of their private estate. Capital losses realised upon disposal of the Notes held as a non-professional investment are in principle not tax deductible.

Belgian resident companies

Belgian resident companies, and Belgian branches of foreign companies, are liable to corporate income tax on the interest under the Notes and the capital gains realised upon disposal of the Notes. The current standard corporate income tax rate in Belgium is 33.99 per cent. Belgian withholding tax can in principle be set off against the corporate income tax liability provided certain conditions are fulfilled.

Capital losses realised upon disposal of the Notes are in principle tax deductible.

Belgian resident non-profit legal entities

For Belgian resident non-profit legal entities, the 15 per cent. withholding tax levied on the interest will constitute the final tax burden in respect of such income.

Belgian non-profit legal entities are not liable to income tax on capital gains realised upon disposal of the Notes (other than the accrued interest portion, if any).

Capital losses realised upon disposal of the Notes are in principle not tax deductible.

Tax on stock exchange transactions

The issuance of the Notes (primary market) is not subject to the tax on stock exchange transactions.

The sale of the Notes (secondary market) executed in Belgium through a financial intermediary will trigger the tax on stock exchange transactions. The same will apply for any transfer and acquisition of existing securities upon repurchase or redemption of the Notes. The tax is due at a rate of 0.07 per cent. for bonds and 0.17 per cent. for other securities (on each sale and acquisition separately) with a maximum of €500 per party and per transaction (except for capitalisation shares of investment companies, for which a different rate and cap apply). An exemption is available for non-residents and certain Belgian institutional investors acting for their own account, subject to certain formalities.

7. French Taxation

The following is a summary addressing only the French compulsory withholding tax treatment of income paid by the Issuer under the Notes. This summary is (i) based on the laws and regulations in full force and effect in France as at the date of this Prospectus, which may be subject to change in the future, potentially with retroactive effect, and (ii) prepared on the assumption that the Issuer of the Notes is not a French resident for French tax purposes and is not acting from a French branch, permanent establishment or other fixed place of business in France in connection with the Notes (or any transaction connected to the Notes). Investors should be aware that the comments below are of a general nature and do not constitute legal or tax advice and should not be understood as such. Prospective investors are therefore advised to consult their own qualified advisors so as to determine, in the light of their individual situation, the tax consequences of the purchase, holding, redemption or sale of the Notes.

All payments by the Issuer in respect of the Notes will be made free of any compulsory withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by France or any political subdivision or taxing authority thereof or therein.

The EC Council Directive 2003/48/CF on the taxation of savings income has been implemented into French law under article 242 ter of the French tax code (Code général des impôts), which imposes on paying agents based in France an obligation to report to the French tax authorities certain information with respect to interest payments made to beneficial owners resident in another Member State, including, the identity and address of the beneficial owner and a detailed list of different categories of interest paid to the beneficial owner.

8. German Taxation

The following is a general discussion of certain German tax consequences of the acquisition, holding and disposal of Notes. It does not purport to be a comprehensive description of all German tax considerations that may be relevant to a decision to purchase Notes, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the tax laws of Germany currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive or retrospective effect.

As each Series or Tranche of Notes may be subject to a different tax treatment due to the specific terms of such Series or Tranche of Notes as set out in the respective Final Terms, the following section only provides some general information on the possible tax treatment.

Prospective purchasers of Notes are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposal of Notes, including the effect of any state, local or church taxes, under the tax laws of Germany and any country of which they are resident or whose tax laws apply to them for other reasons.

Tax Residents

The section “Tax Residents” refers to persons who are tax residents of Germany (i.e. persons whose residence, habitual abode, statutory seat, or place of effective management and control is located in Germany).

Withholding tax on ongoing payments and capital gains

Ongoing payments received by an individual holder of the Notes will be subject to German withholding tax if the Notes are kept in a custodial account with a German branch of a German or non-German bank or financial services institution, a German securities trading company or a German securities trading bank (each, a "**Disbursing Agent**", *auszahlende Stelle*). The tax rate is 25 per cent. (plus solidarity surcharge at a rate of 5.5 per cent. thereon, the total withholding being 26.375 per cent.). If the individual holder is subject to church tax, upon application a church tax surcharge will also be withheld.

The same treatment applies to capital gains (i.e. the difference between the proceeds from the disposal, redemption, repayment or assignment after deduction of expenses directly related to the disposal, redemption, repayment or assignment and the cost of acquisition) derived by an individual holder provided the Notes have been held in a custodial account with the same Disbursing Agent since the time of their acquisition. Where Notes are issued in a currency other than Euro any currency gains or losses are part of the capital gains. If interest coupons or interest claims are disposed of separately (i.e. without the Notes), the proceeds from the disposition are subject to withholding tax. The same applies to proceeds from the redemption of interest coupons or interest claims if the Notes have been disposed of separately.

In case of a physical settlement of certain Notes which grant the Issuer or the holder the right to opt for a physical delivery of a predetermined number of underlying securities instead of a (re)payment of the nominal amount, the acquisition costs of the Notes may be regarded as proceeds from the disposal, redemption, repayment or assignment of the Notes and hence as acquisition costs of the underlying securities received by the individual holder upon physical settlement. To the extent the provision mentioned above is applicable, generally no withholding tax has to be withheld by the Disbursing Agent upon physical settlement as such exchange of the Notes into the underlying securities does not result in a taxable gain for the individual holder. However, withholding tax may then apply to any gain resulting from the disposal, redemption, repayment or assignment of the securities received in exchange for the Notes. In this case, the gain will be the difference between the proceeds from the disposal, redemption, repayment or assignment of the underlying securities and the acquisition costs of the Notes (after deduction of expenses related directly to the disposal, if any).

To the extent the Notes have not been kept in a custodial account with the same Disbursing Agent since the time of their acquisition or if the Notes have been transferred into the custodial account of the Disbursing Agent only after their acquisition, upon the disposal, redemption, repayment or assignment withholding tax applies at a rate of 26.375 per cent. (including solidarity surcharge) on 30 per cent. of the disposal proceeds (plus interest accrued on the Notes ("**Accrued Interest**", *Stückzinsen*), if any), unless the current Disbursing Agent has been notified of the actual acquisition costs of the Notes by the previous Disbursing Agent or by a statement of a bank or financial services institution within the European Economic Area or certain other countries in accordance with art. 17 para. 2 of the EU Savings Directive (e.g. Switzerland or Andorra).

In computing any German tax to be withheld, the Disbursing Agent may generally deduct from the basis of the withholding tax negative investment income realised by the individual holder of the Notes via the Disbursing Agent (e.g. losses from sale of other securities with the exception of shares). The Disbursing Agent may also deduct Accrued Interest on the Notes or other securities paid separately upon the acquisition of the respective security via the Disbursing Agent. In addition, subject to certain requirements and restrictions the Disbursing Agent may credit foreign withholding taxes levied on investment income in a given year regarding securities held by the individual holder in the custodial account with the Disbursing Agent.

Individual holders may be entitled to an annual allowance (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 for married couples filing jointly) for all investment income received in a given year. Upon the individual holder filing an exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent, the Disbursing Agent will take the allowance into account when computing the amount of tax to be withheld. No withholding tax will be deducted if the holder of the Notes has submitted to the Disbursing Agent a certificate of non-assessment (*Nichtveranlagungsbescheinigung*) issued by the competent local tax office.

German withholding tax will not apply to gains from the disposal, redemption, repayment or assignment of Notes held by a corporation as holder while ongoing payments, such as interest payments, are subject to withholding tax (irrespective of any deductions of foreign tax and capital losses incurred). The same may apply where the Notes form part of a trade or business, subject to further requirements being met.

Taxation of current income and capital gains

The personal income tax liability of an individual holder deriving income from capital investments under the Notes is, in principle, settled by the tax withheld. To the extent withholding tax has not been levied, such as in the case of Notes kept in custody abroad or if no Disbursing Agent is involved in the payment process or if the withholding tax on disposal, redemption, repayment or assignment has been calculated from 30 per cent. of the disposal proceeds (rather than from the actual gain), the individual holder must report his or her income and capital gains derived from the Notes on his or her tax return and then will also be taxed at a rate of 25 per cent. on the investment income (plus solidarity surcharge and church tax thereon, where applicable). Further, an individual holder may request that all investment income of a given year is taxed at his or her lower individual tax rate based upon an assessment to tax with any amounts over withheld being refunded. In each case, the deduction of expenses (other than transaction costs) on an itemized basis is not permitted.

Losses incurred with respect to the Notes can only be off-set with investment income of the individual holder realised in the same or the following years. Any losses realised upon the disposal of shares in stock corporations received in exchange for the Notes can only be offset against capital gains deriving from the disposal of shares.

Where Notes form part of a trade or business or the income from the Notes qualifies as income from the letting and leasing of property, the withholding tax, if any, will not settle the personal or corporate income tax liability. Where Notes form part of a trade or business, interest (accrued) must be taken into account as income. Where Notes qualify as Zero Coupon Notes and form part of a trade or business, each year the part of the difference between the issue or purchase price and the redemption amount attributable to such year must be taken into account. The respective holder will have to report income and related (business) expenses on the tax return and the balance will be taxed at the holder's applicable tax rate. Withholding tax levied, if any, will be credited against the personal or corporate income tax of the holder. Where Notes form part of a German trade or business the current income and gains from the disposal, redemption, repayment or assignment of the Notes may also be subject to German trade tax.

German Investment Tax Act

German tax consequences different from those discussed above would arise if the respective Notes or the underlying securities delivered upon physical delivery were to be regarded as investment fund units within the meaning of the German Investment Tax Act. In such case, the withholding tax requirements for the Disbursing Agent as well as the taxation of the holder would depend on whether the disclosure and reporting requirements of the German Investment Tax Act were fulfilled. The holder of the Notes may be subject to tax on unrealised income or, in case the reporting and disclosure requirements are not fulfilled, on income deemed received on a lump-sum basis (so-called penalty taxation). Such income may be offset against any capital gains realised upon disposal of the Notes, or the underlying securities received, respectively, subject to certain requirements.

Non-residents

Interest, including Accrued Interest, and capital gains are not subject to German taxation, unless (i) the Notes form part of the business property of a permanent establishment, including a permanent representative, or a fixed base maintained in Germany by the holder or (ii) the income otherwise constitutes German-source income. In cases (i) and (ii) a tax regime similar to that explained above under "*Tax Residents*" applies.

Non-residents of Germany are, in general, exempt from German withholding tax on interest and the solidarity surcharge thereon. However, where the interest is subject to German taxation as set forth in the preceding paragraph and the Notes are held in a custodial account with a Disbursing Agent, withholding tax may be levied under certain circumstances. Where Notes are not kept in a custodial account with a Disbursing Agent and interest or proceeds from the disposal, assignment or redemption of a Note or an interest coupon are paid by a Disbursing Agent to a non-

resident, withholding tax generally will also apply. The withholding tax may be refunded based on an assessment to tax or under an applicable tax treaty.

Inheritance and Gift Tax

No inheritance or gift taxes with respect to any Notes will arise under the laws of Germany, if, in the case of inheritance tax, neither the deceased nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of Germany and such Note is not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German expatriates.

Other Taxes

No stamp, issue or registration taxes or such duties will be payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax is not levied in Germany.

EU Savings Directive

By legislative regulations dated 26 January 2004 the German Federal Government enacted provisions implementing the EU Savings Directive into German law. These provisions apply from 1 July 2005.

9. Luxembourg Taxation

The following summary is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Withholding Tax

(i) Non-resident holders of Notes

Under Luxembourg general tax laws currently in force and subject to the laws of 21 June 2005 (the "**Laws**") mentioned below, there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident holders of Notes.

Under the Laws implementing the Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU Member States (the "**Territories**"), payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner or a residual entity, as defined by the Laws, which are resident of, or established in, an EU Member State (other than Luxembourg) or one of the Territories will be subject to a withholding tax unless the relevant recipient has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the fiscal authorities of his/her/its country of residence or establishment, or, in the case of an individual beneficial owner, has provided a tax certificate issued by the fiscal authorities of his/her country of residence in the required format to the relevant paying agent. Where withholding tax is applied, it is currently levied at a rate of 20% and will be levied at a rate of 35% as of 1 July 2011. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Notes coming within the scope of the Laws would at present be subject to withholding tax of 20%.

(ii) Resident holders of Notes

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the "**Law**") mentioned below, there is no withholding tax on payments of principal, premium or interest made

to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Notes held by Luxembourg resident holders of Notes.

Under the Law payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the benefit of an individual beneficial owner who is resident of Luxembourg will be subject to a withholding tax of 10%. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Notes coming within the scope of the Law would be subject to withholding tax of 10%.]

10. The Netherlands Taxation

General

The following summary outlines the principal Netherlands tax consequences of the acquisition, holding, settlement, redemption and disposal of the Notes, but does not purport to be a comprehensive description of all Netherlands tax considerations in relation thereto. This summary is intended as general information only for holders of Notes who are residents or deemed residents of the Netherlands for Netherlands tax purposes. Each prospective investor should consult a professional tax adviser with respect to the tax consequences of an investment in the Notes.

This summary is based on tax legislation, published case law, treaties, regulations and published policy, in each case as in force as of the date of this Prospectus, and does not take into account any developments or amendments thereof after that date whether or not such developments or amendments have retroactive effect.

This summary does not address the Netherlands tax consequences for:

- (i) holders of Notes holding a substantial interest (aanmerkelijk belang) or deemed substantial interest (fictief aanmerkelijk belang) in the Issuer and holders of Notes of whom a certain related person holds a substantial interest in the Issuer. Generally speaking, a substantial interest in the Issuer arises if a person, alone or, where such person is an individual, together with his or her partner (statutory defined term), directly or indirectly, holds or is deemed to hold (i) an interest of 5 per cent. or more of the total issued capital of the Issuer or of 5 per cent. or more of the issued capital of a certain class of shares of the Issuer, (ii) rights to acquire, directly or indirectly, such interest or (iii) certain profit sharing rights in the Issuer;*
- (ii) investment institutions (fiscale beleggingsinstellingen);*
- (iii) pension funds, exempt investment institutions (vrijgestelde fiscale beleggingsinstellingen) or other entities that are exempt from Netherlands corporate income tax; and*
- (iv) holders of Notes for whom the benefits from the Notes qualify for the participation exemption within the meaning of article 13 of the Netherlands corporate income tax act 1969 (Wet op de vennootschapsbelasting 1969).*

This summary does not describe the consequences of the exchange or the conversion of the Notes.

Where this summary refers to a holder of Notes, such reference is restricted to a holder holding legal title to as well as an economic interest in such Notes.

For the purpose of the Netherlands tax consequences described herein, it is assumed that the Issuer is neither a resident nor deemed to be a resident of the Netherlands for Netherlands tax purposes.

Netherlands Withholding Tax

All payments made by the Issuer under the Notes may be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein.

Netherlands Corporate and Individual Income Tax

If a holder is a resident or deemed to be a resident of the Netherlands for Netherlands tax purposes and is fully subject to Netherlands corporate income tax or is only subject to Netherlands corporate income tax in respect of an enterprise to which the Notes are attributable, income derived from the Notes and gains realised upon the redemption, settlement or disposal of the Notes are generally taxable in the Netherlands (at up to a maximum rate of 25 per cent.).

If an individual holder is a resident or deemed to be a resident of the Netherlands for Netherlands tax purposes (including an individual holder who has opted to be taxed as a resident of the Netherlands), income derived from the Notes and gains realised upon the redemption, settlement or disposal of the Notes are taxable at the progressive rates (at up to a maximum rate of 52 per cent.) under the Netherlands income tax act 2001 (*Wet inkomstenbelasting 2001*), if:

- (i) the holder is an entrepreneur (*ondernemer*) and has an enterprise to which the Notes are attributable or the holder has, other than as a shareholder, a co-entitlement to the net worth of an enterprise (*medegerechtigde*), to which enterprise the Notes are attributable; or
- (ii) such income or gains qualify as income from miscellaneous activities (*resultaat uit overige werkzaamheden*), which include the performance of activities with respect to the Notes that exceed regular, active portfolio management (*normaal, actief vermogensbeheer*).

If neither condition (i) nor condition (ii) applies to the holder of the Notes, taxable income with regard to the Notes must be determined on the basis of a deemed return on income from savings and investments (*sparen en beleggen*), rather than on the basis of income actually received or gains actually realised. This deemed return on income from savings and investments has been fixed at a rate of 4 per cent of the individual's yield basis (*rendementsgrondslag*) at the beginning of the calendar year, insofar as the individual's yield basis exceeds a certain threshold. The individual's yield basis is determined as the fair market value of certain qualifying assets held by the holder of the Notes less the fair market value of certain qualifying liabilities on 1 January. The fair market value of the Notes will be included as an asset in the individual's yield basis. The 4 per cent. deemed return on income from savings and investments will be taxed at a rate of 30 per cent.

Netherlands Gift and Inheritance Tax

Dutch gift or inheritance taxes will not be levied on the occasion of the transfer of a Note by way of gift by, or on the death of, a holder of a Note, unless:

- (i) the holder of a Note is, or is deemed to be, resident in The Netherlands for the purpose of the relevant provisions; or
- (ii) the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in The Netherlands for the purpose of the relevant provisions.

Netherlands Value Added Tax

In general, no value added tax will arise in respect of payments in consideration for the issue of the Notes or in respect of a cash payment made under the Notes, or in respect of a transfer of Notes.

Other Netherlands Taxes and Duties

No registration tax, customs duty, transfer tax, stamp duty or any other similar documentary tax or duty will be payable in the Netherlands by a holder in respect of or in connection with the subscription, issue, placement, allotment, delivery or transfer of the Notes.

EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

The European Commission has proposed certain amendments to the Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

11. Austrian Taxation

This section on taxation contains a brief summary of the Issuer's understanding with regard to certain important principles which are of significance in Austria in connection with the purchase, holding or sale of the Notes in the Republic of Austria. This summary does not purport to exhaustively describe all possible tax aspects and does not deal with specific situations which may be of relevance for certain potential investors. The following comments are rather of a general nature and included herein solely for information purposes. These comments are not intended to be, nor should they be construed to be, legal or tax advice. This summary furthermore only refers to investors which are subject to unlimited (corporate) income tax liability in Austria. It is based on the currently valid tax legislation, case law and regulations of the tax authorities, as well as their respective interpretation, all of which may be amended from time to time. Such amendments may possibly also be effected with retroactive effect and may negatively impact on the tax consequences described. It is recommended that potential purchasers of the Notes consult with their legal and tax advisors as to the tax consequences of the purchase, holding or sale of the Notes. Tax risks resulting from the Notes (in particular from a potential qualification as a foreign investment fund within the meaning of sec. 42 of the Austrian Investment Funds Act (Investmentfondsgesetz)) shall in any case be borne by the purchaser. In general, it has to be noted that the Austrian tax authorities have a rather critical attitude towards structured products which may also give rise to tax benefits.

General remarks

Individuals having a permanent domicile (*Wohnsitz*) and/or their habitual abode (*gewöhnlicher Aufenthalt*) in Austria are subject to income tax (*Einkommensteuer*) in Austria on their worldwide income (unlimited income tax liability; *unbeschränkte Einkommensteuerpflicht*). Individuals having neither a permanent domicile nor their habitual abode in Austria are subject to income tax only on income from certain Austrian sources (limited income tax liability; *beschränkte Einkommensteuerpflicht*).

Corporations having their place of effective management (*Ort der Geschäftsleitung*) and/or their legal seat (*Sitz*) in Austria are subject to corporate income tax (*Körperschaftsteuer*) in Austria on their worldwide income (unlimited corporate income tax liability; *unbeschränkte Körperschaftsteuerpflicht*). Corporations having neither their place of effective management nor their legal seat in Austria are subject to corporate income tax only on income from certain Austrian sources (limited corporate income tax liability; *beschränkte Körperschaftsteuerpflicht*).

Both in case of unlimited and limited (corporate) income tax liability Austria's right to tax may be restricted by double taxation treaties.

On 1 January 2011 the Budget Accompanying Act of 2011 (*Budgetbegleitgesetz 2011*), which leads to significant changes in the taxation of financial instruments, entered into force. The tax disclosure below already incorporates the changes contained therein.

Income taxation of Notes purchased before 1 October 2011

In general, the Notes qualify as bonds (*Forderungswertpapiere*) in the sense of sec. 93(3) of the Austrian Income Tax Act (*Einkommensteuergesetz*).

Individuals subject to unlimited income tax liability in Austria holding bonds in the sense of sec. 93(3) of the Austrian Income Tax Act as a non-business asset (*Privatvermögen*) are subject to income tax on all resulting interest payments (which term also encompasses the difference between the redemption price and the issue price) pursuant to sec. 27(1)(4) and sec. 27(2)(2) of the Austrian Income Tax Act. If such interest is paid out by an Austrian paying agent (*kuponauszahlende Stelle*) then the payments are subject to a withholding tax of 25%. No additional income tax is levied over and above the amount of tax withheld (final taxation; *Endbesteuerung*) in case the bonds are legally and factually offered to an indefinite number of persons. If interest payments are not effected through an Austrian paying agent, a flat income tax rate of 25% applies in case the bonds are in addition legally and factually offered to an indefinite number of persons. Since in this case no withholding tax is levied, interest payments must be included in the income tax return of the investor. If the bonds are not legally and factually offered to an indefinite number of persons then the interest payments must also be included in the investor's income tax return and are subject to income tax at a marginal rate of up to 50%, any withholding tax being creditable against the income tax liability.

Individuals subject to unlimited income tax liability in Austria holding bonds as a business asset (*Betriebsvermögen*) are subject to income tax on all resulting interest payments (which term also encompasses the difference between the redemption price and the issue price). Such interest payments are subject to a withholding tax of 25% in case they are paid out by an Austrian paying agent. No additional income tax is levied over and above the amount of tax withheld (final taxation) in case the bonds are legally and factually offered to an indefinite number of persons. If interest payments are not effected through an Austrian paying agent, a flat income tax rate of 25% applies in case the bonds are in addition legally and factually offered to an indefinite number of persons. Since in this case no withholding tax is levied, interest payments must be included in the income tax return of the investor. If the bonds are not legally and factually offered to an indefinite number of persons, then the interest payments must also be included in the investor's income tax return and are subject to income tax at a marginal rate of up to 50%, any withholding tax being creditable against the income tax liability.

Corporations subject to unlimited corporate income tax liability in Austria are subject to corporate income tax on all interest payments (which term also encompasses the difference between the redemption price and the issue price) resulting from bonds at a rate of 25%. Under the conditions set forth in sec. 94(5) of the Austrian Income Tax Act no withholding tax is levied.

Private foundations (*Privatstiftung*) pursuant to the Austrian Private Foundations Act (*Privatstiftungsgesetz*) fulfilling the prerequisites contained in sec. 13(6) of the Austrian Corporate Income Tax Act (*Körperschaftsteuergesetz*) and holding bonds as a non-business asset are subject to interim taxation (*Zwischenbesteuerung*) on all resulting interest payments received (which term also encompasses the difference between the redemption price and the issue price) at a rate of 25% in case the bonds are in addition legally and factually offered to an indefinite number of persons. If the bonds are not legally and factually offered to an indefinite number of persons, then the interest payments are subject to corporate income tax at a rate of 25%. Under the conditions set forth in sec. 94(11) of the Austrian Income Tax Act no withholding tax is levied.

The Austrian Federal Ministry of Finance has commented upon the tax treatment of so-called turbo certificates in the Income Tax Regulations (*Einkommensteuerrichtlinien*). These are certificates, which allow for a disproportionately high participation in the development in value of an underlying. The leverage is realised through the fact that in the case of a turbo certificate the capital invested is lower than the fair market value of the underlying (e.g. half of the quotation of a share). Pursuant to the Austrian Federal Ministry of Finance, a distinction has to be made whether the amount paid by the investor for the instrument exceeds 20% of the fair market value of the respective underlying at the beginning of the certificate's term, or not. If this is the case then the instrument gives rise to

investment income (*Einkünfte aus Kapitalvermögen*), in which case the comments made above apply mutatis mutandis. Otherwise (i.e. if the amount paid by the investor for the instrument amounts to 20% or less of the fair market value of the respective underlying at the beginning of the certificate's term), an entirely different tax regime would apply.

The Austrian Federal Ministry of Finance has furthermore commented upon the tax treatment of cash or share bonds (*Aktienanleihen*) in the Income Tax Regulations. Cash or share bonds are characterised by the Issuer's choice to redeem the bond either by handing out cash or a particular share. Pursuant to the Austrian Federal Ministry of Finance, interest earned on cash or share bonds is in its entirety subject to Austrian withholding tax. If such interest paid out on cash or share bonds substantially exceeds the prevailing market interest rate, such factor could be seen as an indication for an equivalent offsetting of risks. As these high interest payments are further directly linked to the losses potentially incurred on the redemption of the bond through receipt of shares, an offsetting of the interest payments against these losses is permissible. As far as the interest payments cover a loss incurred on the bond's redemption through receipt of shares instead of cash, these amounts of interest are not subject to the 25% Austrian withholding tax. If these interest payments have been subjected in the past to withholding tax, the investor is entitled to claim a withholding tax credit in respect of the interest payments.

Pursuant to sec. 42 of the Austrian Investment Funds Act, a foreign investment fund is defined as any assets subject to a foreign jurisdiction which, irrespective of the legal form they are organized in, are invested according to the principle of risk-spreading on the basis either of a statute, of the entity's articles or of customary exercise. Certain collective investment vehicles investing in real estate are exempted. It should be noted that the Austrian tax authorities have commented upon the distinction between index certificates of foreign issuers on the one hand and foreign investment funds on the other hand in the Investment Fund Regulations (*Investmentfondsrichtlinien*). Pursuant to these, no foreign investment fund may be assumed if for the purposes of the issuance no predominant actual purchase of the underlying assets by the issuer or a trustee of the issuer, if any, is made and no actively managed assets exist. Directly held bonds shall not be considered as foreign investment funds if the performance of the bonds depends on an index, notwithstanding the fact of whether the index is a well-known one, an individually constructed "fixed" index or an index which is changeable at any time.

Income taxation of Notes purchased after 30 September 2011

With the passing of the Budget Accompanying Act of 2011, the Austrian legislator intends to comprehensively realign the taxation of financial instruments, in particular with regard to capital gains. Pursuant to the newly worded sec. 27(1) of the Austrian Income Tax Act, the term investment income (*Einkünfte aus Kapitalvermögen*) comprises:

- (i) income from the letting of capital (*Einkünfte aus der Überlassung von Kapital*) pursuant to sec. 27(2) of the Austrian Income Tax Act, including dividends and interest on bonds (as well as the balance between the redemption price and the issue price in case of zero coupon bonds);
- (ii) income from realised increases in value (*Einkünfte aus realisierten Wertsteigerungen*) pursuant to sec. 27(3) of the Austrian Income Tax Act, including gains from the sale, redemption and other realisation of assets that lead to income from the letting of capital, and also broken-period interest; and
- (iii) income from derivatives (*Einkünfte aus Derivat*) pursuant to sec. 27(4) of the Austrian Income Tax Act, including cash settlements, option premiums received and income from the sale or other realisation of forward contracts like options, futures and swaps and other derivatives such as index certificates.

Basically, also the withdrawal of Notes from bank deposits (*Depotentnahme*) is considered as a realisation of assets; however, no taxation is triggered if certain disclosures are made.

Individuals subject to unlimited income tax liability in Austria holding Notes as a non-business asset are subject to income tax on all resulting investment income pursuant to sec. 27(1) of the Austrian Income Tax Act. In case of investment income with an Austrian nexus (*inländische Einkünfte aus Kapitalvermögen*), basically meaning income that is paid by an Austrian paying agent (*auszahlende Stelle*) or an Austrian custodian agent (*depotführende Stelle*), the income is subject to a withholding tax of 25%; no additional income tax is levied over and above the amount of tax withheld (final taxation pursuant to sec. 97(1) of the Austrian Income Tax Act). In case of investment income without

an Austrian nexus, the income must be included in the income tax return; in this case it is subject to a flat income tax rate of 25%. Special rules apply for bonds that have not been legally and factually offered to an indefinite number of persons. Here, the investment income will in no case be subject to a withholding tax, but will always have to be included in the income tax return (marginal rate of up to 50%). Certain restrictions apply regarding the offsetting of losses.

Individuals subject to unlimited income tax liability in Austria holding Notes as a business asset are subject to income tax on all resulting investment income pursuant to sec. 27(1) of the Austrian Income Tax Act. In case of investment income with an Austrian nexus (as described above) the income is subject to a withholding tax of 25%. While this withholding tax has the effect of final taxation for income from the letting of capital, income from realised increases in value and income from derivatives must on the other hand be included in the income tax return (nevertheless flat income tax rate of 25%). In case of investment income without an Austrian nexus, the income must always be included in the income tax return (flat income tax rate of 25%). Special rules apply for bonds that have not been legally and factually offered to an indefinite number of persons. Here, the investment income will in no case be subject to a withholding tax, but will always have to be included in the income tax return (marginal rate of up to 50%). Certain restrictions apply regarding the offsetting of losses.

Corporations subject to unlimited corporate income tax liability in Austria are subject to corporate income tax on all investment income resulting from Notes at a rate of 25%. In case of investment income with an Austrian nexus (as described above) the income is subject to a withholding tax of 25%, which can be credited against the corporate income tax liability. However, under the conditions set forth in sec. 94(5) of the Austrian Income Tax Act no withholding tax is levied in the first place.

Private foundations pursuant to the Austrian Private Foundations Act fulfilling the prerequisites contained in sec. 13(6) of the Austrian Corporate Income Tax Act and holding Notes as a non-business asset are subject to interim taxation at a rate of 25% on interest income, income from realised increases in value and income from derivatives. According to the wording of the statute, interest income from bonds that have not been legally and factually offered to an indefinite number of persons is not subject to interim taxation but rather to corporate income tax at a rate of 25%. In case of investment income with an Austrian nexus (as described above) the income is subject to a withholding tax of 25%, which can be credited against the tax falling due. Under the conditions set forth in sec. 94(12) of the Austrian Income Tax Act no withholding tax is levied.

Regarding the possible application of sec. 42 of the Austrian Investment Funds Act, reference is made to the comments above.

EU withholding tax

Sec. 1 of the Austrian EU Withholding Tax Act (*EU-Quellensteuergesetz*) – which transforms into national law the provisions of Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments – provides that interest payments paid or credited by an Austrian paying agent to a beneficial owner who is an individual resident in another Member State (or in certain dependant or associated territories) is subject to a withholding tax if no exception from such withholding applies. Sec. 10 of the Austrian EU Withholding Tax Act provides for an exemption from withholding tax where the beneficial owner presents to the paying agent a certificate drawn up in his/her name by the competent authority of his/her Member State of residence for tax purposes, indicating the name, address and tax or other identification number or, failing such, the date and place of birth of the beneficial owner, the name and address of the paying agent, and the account number of the beneficial owner or, where there is none, the identification of the security; such certificate shall be valid for a period not exceeding three years. Currently, the withholding rate amounts to 20%. As of 1 July 2011 it will be increased to 35%.

Regarding the issue of whether also index certificates are subject to the EU withholding tax, the Austrian tax authorities distinguish between index certificates with and without a capital guarantee, a capital guarantee being the promise of repayment of a minimum amount of the capital invested or the promise of the payment of interest. The exact tax treatment of index certificates furthermore depends on their underlying.

Austrian inheritance and gift tax

Austria does not levy an inheritance and gift tax anymore.

However, it should be noted that certain gratuitous transfers of assets to (Austrian or foreign) private law foundations and comparable legal estates (*privatrechtliche Stiftungen und damit vergleichbare Vermögensmassen*) are subject to foundation tax (*Stiftungseingangssteuer*) pursuant to the Austrian Foundation Tax Act (*Stiftungseingangssteuergesetz*). Such tax is triggered if the transferor and/or the transferee at the time of transfer have a domicile, their habitual abode, their legal seat or their place of effective management in Austria. Certain exemptions apply in case of a transfer mortis causa, in particular for bank deposits, publicly placed bonds and portfolio shares (i.e., less than 1%). The tax basis is the fair market value of the assets transferred minus any debts, calculated at the time of transfer. The tax rate is in general 2.5%, with a higher rate of 25% applying in special cases.

In addition, a special notification obligation exists for gifts of money, receivables, shares in corporations, participations in partnerships, businesses, movable tangible assets and intangibles. The notification obligation applies if the donor and/or the donee have a domicile, their habitual abode, their legal seat or their place of effective management in Austria. Not all gifts are covered by the notification obligation: In case of gifts to certain related parties, a threshold of EUR 50,000 per year applies; in all other cases, a notification is obligatory if the value of gifts made exceeds an amount of EUR 15,000 during a period of five years. Furthermore, gratuitous transfers to foundations falling under the Austrian Foundation Tax Act described above are also exempt from the notification obligation. Intentional violation of the notification obligation may lead to the levying of fines of up to 10% of the fair market value of the assets transferred.

PROSPECTIVE NOTEHOLDERS WHO ARE IN ANY DOUBT AS TO THEIR TAX POSITION OR WHO MAY BE SUBJECT TO TAX IN ANY RELEVANT JURISDICTION SHOULD SEEK INDEPENDENT PROFESSIONAL ADVICE.

SUBSCRIPTION AND SALE AND TRANSFER AND SELLING RESTRICTIONS

The Dealers have in a programme agreement (the "**Programme Agreement**") dated on or about the date of this Prospectus agreed with the Issuer and the Guarantor a basis upon which the Issuer may from time to time agree to issue Notes. Any such agreement will extend to those matters stated under "*Form of the Notes*" and "*General Terms and Conditions of the Notes*". In the Programme Agreement, the Issuer (failing which, the Guarantor) has agreed to reimburse the Dealers for certain of their expenses in connection with the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith. The price and amount of Notes to be issued under the Programme will be determined by the Issuer and the relevant Dealer(s) at the time of issue in accordance with prevailing market conditions. The Notes may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the relevant Dealer. The Programme Agreement also provides for Notes to be issued in syndicated Tranches that are jointly and severally underwritten by two or more Dealers. If a Tranche of Notes is syndicated, the details of such syndication will be specified in the applicable Final Terms.

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in the applicable Final Terms may over-allot (provided that, in the case of any Tranche of Notes to be admitted to trading on a regulated market in the European Economic Area, the aggregate principal amount of Notes allotted does not exceed 105.00 per cent. of the aggregate principal amount of the relevant Tranche) or effect transactions with a view to supporting the market price of the Notes of the Series (as defined below) of which such Tranche forms part at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilising Manager(s) (or persons acting on behalf of a Stabilising Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes.

SELLING RESTRICTIONS

1. The Americas

United States of America

Each Dealer has acknowledged, and each further Dealer appointed under the Programme Agreement will be required to acknowledge, that the Notes have not been and will not be registered under the Securities Act, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in accordance with Regulation S under the United States Securities Act of 1933, as amended (the "Securities Act") or pursuant to an exemption from or in a transaction not subject to, the registration requirements of the Securities Act. Terms used in the preceding sentence have the meanings given to them by Regulation S under the Securities Act.

Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to U.S. persons, except in certain transactions permitted by U.S. tax regulations. Each Dealer has agreed that it will not offer, sell or deliver a Note in bearer form within the United States or to United States persons except as permitted by the Programme Agreement. Terms used in the preceding sentence have the meanings given to them by the United States Internal Revenue Code of 1986 and regulations thereunder.

Each Dealer has agreed, and each further Dealer appointed under the Programme Agreement will be required to agree, that except as permitted by the Programme Agreement, it has not offered, sold or delivered Notes and it will not offer, sell or deliver Notes (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of all Notes of the relevant Tranche, within the United States or to, or for the account or benefit of U.S. persons and only in accordance with Rule 903 of Regulation S or, if applicable, Rule 144A under the Securities Act and it will have sent to each distributor, dealer or person

receiving a selling concession, fee or other remuneration that purchases Notes from it or through it during the distribution compliance period a confirmation or notice setting forth the restrictions on offers and sales of the Notes within the United States or to or for the account or benefit of U.S. persons.

The Notes are being offered and sold only (a) outside the United States to persons other than U.S. persons ("foreign purchasers", which term includes dealers or other professional fiduciaries in the United States acting on a discretionary basis for foreign beneficial owners, other than an estate or trust) in reliance upon Regulation S and (b) to a limited number of "qualified institutional buyers" ("QIBs") in compliance with Rule 144A.

Except as otherwise provided, terms used in this United States sub-section of "*Selling Restrictions*" have the meanings given to them by Regulation S.

In addition, until 40 days after the completion of the distribution of all Notes comprising any Tranche, an offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Each issuance of Notes shall be subject to such additional U.S. selling restrictions as the relevant Dealer may agree as a term of the issuance of such Notes, which additional selling restrictions shall be set out in the applicable Final Terms.

Each purchaser of Notes will be deemed to have represented and agreed as follows:
