

**PROHIBITION OF SALES TO EEA RETAIL INVESTORS** – Other than with respect to offers of the N&C Securities in the United Kingdom during the Offer Period specified below, the N&C Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II"); or (ii) a customer within the meaning of Directive 2002/92/EC (as amended or superseded, the "Insurance Mediation Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended or superseded). Consequently, save as provided above, no key information document required by Regulation (EU) No 1286/2014 (as amended, the "PRIIPs Regulation") for offering or selling the N&C Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the N&C Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

**SECTION B– ISSUER**

<b>Element</b>	
<b>B.1</b>	<p><b>Legal and commercial name of the Issuer</b> Santander UK plc</p>
<b>B.2</b>	<p><b>Domicile / legal form / legislation / country of incorporation</b> The Issuer is a public limited company incorporated and domiciled in England and Wales, registered under the Companies Act 1985.</p>
<b>B.4b</b>	<p><b>Trend information</b></p> <p>The Group's financial performance is intrinsically linked to the UK economy and the economic confidence of consumers and businesses. The sustainability of the UK economic recovery, along with its concomitant impacts on the Group's profitability, remains a risk. Conversely, a strengthened UK economic performance may increase the possibility of a higher interest rate environment and the Group notes that the Bank of England has commented that it expects to continue to raise interest rates at a steady pace if the economy performs in line with expectations. In such a scenario, other market participants might offer more competitive product pricing resulting in increased customer attrition.</p> <p>The Group faces substantial competition in all parts of its business. The market for U.K. financial services is highly competitive and the recent financial crisis continues to reshape the banking landscape in the U.K..</p> <p>Financial services providers face increasingly stringent and costly regulatory and supervisory requirements, particularly in the areas of regulatory capital and liquidity management, the conduct of business, the structure of operations and the integrity of financial services delivery. Although the Group works closely with the Group's regulators and continually monitors the situation, future changes in law, regulation, fiscal or other policies can be unpredictable and are beyond the Group's control. No assurance can be given generally that laws or regulations will be adopted, enforced or interpreted in a manner that will not have an adverse effect on the Group's business.</p> <p>On 23 June 2016, the UK held a referendum (the "<b>UK EU Referendum</b>") on its membership of the EU, in which a majority voted for the UK to leave the EU. Immediately following the result, the UK and global stock and foreign exchange markets commenced a period of significant volatility, including a steep devaluation of the pound sterling. There remains significant uncertainty relating to the process, timing and negotiation of the UK's exit from, and future relationship with, the EU and the basis of the UK's future trading relationship with the rest of the world. While the longer term effects of the UK EU Referendum are difficult to predict, there is short-term political and economic uncertainty. The Governor of the Bank of England warned that the UK exiting without a deal could lead to considerable financial instability, a very significant fall in property prices, rising unemployment, depressed economic growth, higher inflation and interest rates. The Governor also warned that the Bank would not be able to apply interest rate reductions. This could inevitably affect the UK's attractiveness as a global investment centre, and would likely have a detrimental impact on UK economic growth. If a no-deal Brexit did occur it would be likely that the UK's economic growth would slow significantly, and it would be possible that there would be severely adverse economic effects. Continued ambiguity relating to the UK's withdrawal from the EU, along with any further changes in governmental structure and policies, may lead to further market volatility and changes to the fiscal, monetary and regulatory landscape in which the Group operates and could have a material adverse effect on the Group, including its ability to access capital and liquidity on financial terms acceptable to the Group and, more generally, on its operations, financial conditions and prospects.</p>

This approach aligns the balance sheet line items to the IFRS 9 accounting classifications and provides a clearer understanding of our financial position.

## SECTION D – RISKS

Element	
D.2	<p><b>Key risks regarding the Issuer</b></p> <p>In purchasing N&amp;C Securities, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the N&amp;C Securities. There are a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the N&amp;C Securities. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. However, the Issuer has identified in the Base Prospectus a number of factors which could materially adversely affect its business and ability to make payments due under the N&amp;C Securities, and it considers that the risks identified in the Base Prospectus include all the principal risks of an investment in the N&amp;C Securities. These include:</p> <ul style="list-style-type: none"> <li>• the Group's operations, financial condition and prospects may be materially impacted by economic conditions in the UK;</li> <li>• the Group's operations, financial condition and prospects may be negatively affected by conditions in global financial markets;</li> <li>• the Group is subject to liquidity requirements that could limit its operations, and changes to these requirements may further limit and adversely affect the Group's operations, financial condition and prospects;</li> <li>• the Group's financial results are constantly exposed to market risk. The Group is subject to fluctuations in interest rates and other markets risks, which may materially adversely affect the Group and its profitability;</li> <li>• any reduction in the credit rating assigned to the Group, any member of the Group or to any Group debt securities would be likely to increase the Group's cost of funding, require additional collateral to be placed and adversely affect its interest margins and liquidity position;</li> <li>• the Group operates in a highly regulated environment that imposes costs and significant compliance requirements. Changes in regulations may increase the cost and complexity of doing business, or may disadvantage the Group relative to its competitors. The failure to comply with regulations could subject the Group to sanctions, force it to cease providing certain services, or oblige it to change the scope or nature of its operations;</li> <li>• customers and counterparties that owe the Group money, securities or other assets may default on their obligations to the Group due to bankruptcy, lack of liquidity, operational failure or other reasons; and</li> <li>• the Group's continued success depends in part on the continued service of key members of the Group's senior executive team and other key employees, its ability to recruit, train, retain and motivate personnel, and to ensure that employment contract terms are appropriate.</li> </ul>
D.6	<p><b>Key risks regarding the N&amp;C Securities</b></p> <ul style="list-style-type: none"> <li>• There are also risks associated with specified types of N&amp;C Securities and with the N&amp;C Securities and the markets generally, including that, unlike a bank deposit, the N&amp;C Securities are not protected by the Financial Services Compensation Scheme ("FSCS") or other government protection scheme. As a result, neither the FSCS nor any other government will pay compensation to an investor in the N&amp;C Securities upon the failure of the Issuer. If the Issuer goes out of business or become insolvent, holders of the N&amp;C Securities may lose all or part of their investment in the N&amp;C Securities;</li> <li>• investors in N&amp;C Securities may lose up to the entire value of their investment in the N&amp;C Securities as a result</li> </ul>

of the occurrence of any of (a) the insolvency of the Issuer, (b) investors seeking to sell the N&C Securities prior to their scheduled redemption, (c) a decrease in the value of the Preference Shares to which the N&C Security is linked, and (d) amounts payable being subject to deductions for taxes and/or expenses;

- the N&C Securities represent direct, unconditional, unsecured and unsubordinated obligations of the Issuer and rank equally without any preference among themselves with all other present and future direct, unconditional, unsecured and unsubordinated obligations of the Issuer;
- the market value and the amount payable on redemption of the N&C Securities may be adversely affected by a number of factors, and the price at which a holder of N&C Securities may be able to sell N&C Securities prior to redemption may be at a substantial discount to the market value of such N&C Securities on the Issue Date. A holder of such N&C Securities may suffer a loss of some or up to all of the entire amount invested on redemption;
- the N&C Securities will have no established trading market when issued, and one may never develop, or the N&C Securities may be illiquid. In such case, investors may not be able to sell their N&C Securities easily or at favourable prices; and
- the N&C Securities will be settled by the Issuer through one or more clearing systems and agents. In addition investors may hold N&C Securities through one or more intermediaries. As a result it may be necessary to enforce rights under the N&C Securities through such indirect holding structure and delays and settlement risk may exist as a result.

Additionally, the risks relating to investment in the N&C Securities depend on their features and may include, *inter alia*, risks relating to (but not limited to) operational/business risk, credit risk, liquidity risk, interest rate risk, regulatory risk, reputational risk, competition risk, unsecured obligations, market risk, emerging market risk, hedging and potential conflicts of interest, tax liabilities, expenses and taxation, third party risk, structural risks relating to particular N&C Securities, including with respect to the preference shares or other reference item(s) (in the case of interest), no claim against the preference shares or other reference item(s) (in the case of interest) to which the N&C Securities relate, exchange rate risks, optional redemption risk, early redemption risk, settlement disruption, settlement risk, possible illiquidity of N&C Securities, equity risk, currency risk, underlying volatility risk, fund risk, failure to deliver due to illiquidity, inflation risk, modification, meetings, market disruption, a requirement to hold a minimum amount of N&C Securities, transfer restrictions, exchange, listing and legal regulation risk, risk arising from Calculation Agent discretion, over-allotment risk, risk relating to the discontinuation or withdrawal of the offer period, risk relating to inventory securities issues prior to their date of purchase and eurosystem eligibility risk.

#### **Risk Warning**

#### **See D3 above. In addition:**

- investors in N&C Securities may lose up to the entire value of their investment in the N&C Securities as a result of the terms of the relevant N&C Securities as invested amounts are subject to the performance of Preference Shares; and
- the Issue Price of the N&C Securities may be more than the market value of such N&C Securities as at the Issue Date, and the price of the N&C Securities in secondary market transactions.
