

Understanding why your branch is switching to counter free

Santander, 72-78 High Street, Camberley, Surrey, GU15 3RS

From 11 August 2025, the counter in our Camberley branch will no longer be available. However, all other services will stay the same.

We've informed LINK, an independent industry body, about our plans to switch to counter free. LINK carry out Access to Cash assessments when a bank changes its services, and they publish the outcome of their assessment and any recommendations they make for new cash access services.

For more information, please visit www.link.co.uk/our-assessments

We'd like to explain why and help you understand how you can continue banking with us.

Background to our approach

We last did a major review of our branches in 2021. Since then, our customers are choosing to use Mobile, Online and Telephone Banking more, and branches less.

We've now done a more recent review of our branches, looking at where they're located, how they're used and the other local banking options available.

When deciding to switch this branch to a counter free service, we looked at how the branch is being used and how customers are banking in other ways.

93% of our branch customers already use a variety of ways to do their banking.

76% of our branch customers use our Online, Mobile or Telephone Banking services.

32% of our branch customers also use another Santander branch.

We're aware of the impact of this decision and will be here for you in person to offer support and answer any questions.

We hope this leaflet helps to provide more information about our decision, the ways you can continue to bank with us and other available local banking and cash services.

Branch assessment

Before reaching the decision to close the counter in our Camberley branch, we looked at:

- the way our Camberley branch customers are choosing to bank with us
- the availability of other ways to bank in the local area, such as the Post Office, ATMs and Banking Hubs
- the proximity of other Santander branches in the surrounding area
- the impact it would have on our staff.
