

Mortgages

Let your adventure start here

Let us help you take the next step

If you're thinking about buying your first home, you'll probably need a mortgage. This is a loan that uses a property as security for the lender. You may be thinking about moving home. Or, staying where you are and remortgaging to us from another lender. Each lender will offer different rates and types of mortgages, but all mortgages have a few things in common.

- You're charged interest on the money you borrow.
- The higher the mortgage rate, the more money you pay in interest.
- The quicker you pay off your mortgage, the less interest you pay.

Types of mortgage

Fixed rate mortgage	Tracker rate mortgage
<p>This means the interest rate you pay stays the same for a set length of time. When the deal ends, you pay a variable interest rate.</p> <p>You can overpay 10% of your mortgage amount each calendar year. If you overpay more than this, you'll pay an early repayment charge.</p>	<p>This means the interest rate you pay tracks a fixed percentage above the Bank of England base rate. It may be for a set length of time or until the mortgage term ends.</p> <p>If the base rate goes up or down, your interest rate will go up or down by the same percentage. So, your monthly payments can change. You can overpay as much as you like without paying an early repayment charge.</p>

You can save money on upfront costs.

- No product fee on selected mortgages.
- A free standard valuation.
- We'll pay your standard legal fees or give you £250 cashback if you're remortgaging to us from another lender. If you pay off your mortgage within the first 2 years, you'll need to pay this back.

Ways to repay your mortgage

Repayment	Interest only
<p>This is the most common way to repay your mortgage. Your monthly payments will pay back the money you borrow and the interest by the end of the mortgage term.</p>	<p>Your monthly payments only pay off the interest. You pay back the money you borrow at the end of the mortgage term. This amount is called the capital.</p> <p>So, you must have a plan in place to pay back the capital. It's important to check this plan often. This is so you know you'll be able to pay it back when your mortgage ends. Or, your home may be at risk.</p>

Steps you need to take

1 Pre application

To apply for a mortgage with us you need to:

- be at least 18 years of age and a UK resident
- want a mortgage for a home in the UK
- be intending to live in that home
- have never had a home repossessed
- have never been declared bankrupt or subject to an Individual Voluntary Arrangement (IVA).

Visit **santander.co.uk**. Our mortgage calculator shows you how much you could borrow and what your monthly payments could be. You can then get a **decision in principle**. It tells you instantly if we could lend you the amount you want to borrow. If you're buying a home, you now need to **make an offer**.

UP REPAYMENTS ON YOUR MORTGAGE**

3 Post application

Once your valuation has been done, we'll issue a **formal offer**. This means your mortgage has been approved. Your solicitor will carry out all the required checks, like Land Registry searches.

If you're buying a home, your solicitor will need you to sign a contract. A completion date will be agreed and when you're ready you'll **exchange contracts** (called conclusion of missives in Scotland). This is then legally binding.

If you're buying a home, at **completion** your solicitor will make sure all money changes hands. They'll also let you know when you can pick up your keys and move in. If you're remortgaging, we'll arrange for the solicitor to complete the transfer from your existing lender to us.
