<sup>(25)</sup> Seasoning is the age of the loan at the report date in months based on the main mortgage completion date. Main mortgage completion date means the date the borrower first took out a loan on the secured property. The initial loan may have been repaid and replaced by subsequent lending under the same mortgage.

| Arrears                        | For the purposes of the Asset Coverage Test, arrears are calculated in accordance with standard market practice in the UK. A mortgage is identified as being in arrears when, on any due date, the overdue amounts which were due on previous due dates equal, in the aggregate, one or more full monthly payments. In making an arrears determination, the servicer calculates as of the date of determination the difference between the sum of all monthly payments that were due and payable by a borrower up to brat date of determination of all authorised underpayments made by such borrower up to such date of determination and the sum of all payments actually made by that borrower up to that date of determination of all authorised underpayments made by such borrower up to such date of determinations of exceeding 2 monthly payments by dwingh that difference (fany) by the amount of the sum of all authorised underpayments made by such borrower up to such date of determinations of exceeding 2 monthly payments that have been missed.
