¹⁰ On 23rd June 2015 the Master Definitions and Construction Agreement definitions of 'Calculation Date' and 'Calculation Period' were amended.

The 'Calculation Date' was amended from the third London Business Day prior to each LLP Payment Date to the first London Business Day.

The 'Calculation Period' was amended to the period from (and including) the first calendar day of each calendar month to (but excluding) the first calendar day of the next following calendar month.

The rear en o minimum rating requirements on the issuer, although its ratings are linked to certain programme triggers - see the Programme Triggers section.

The interest rate swap notional is the sum of all interest rate swap notionals as at the start of the Calculation Period. Note that under an Amendment Agreement dated 24 December 2012, the interest rate swaps may be consolidated into one 'cover pool wap' at a future date, at the LLP's election.

"ULP receive/pay margins are an average across all interest rate swaps

To triggers relating to the swap providers on the cover pool the rating trigger disclosed is the next trigger point - there may be subsequent triggers and these are detailed in the relevant swap agreement. For triggers relating to the overeth bond swaps see table "Programme Triggers"

The triggers relating to the swap providers on the cover pool the rating trigger disclosed is the next trigger point - there may be subsequent triggers and these are detailed in the relevant swap agreement. For triggers relating to the covered bond swaps, see table "Programme Triggers"

Levi As part of the ring-fence planning, we have commenced the realignment of the wholesale funding structure of our operating companies, Santander UK plc and Abbey National Treasury Services plc (ANTS).

As a consequence, as of 1st June 16, Santander UK plc will become the issuer in respect of the outstanding notes which were issued by ANTS under its wholesale funding programmes and some standalone securities. Please see additional information published in Santander UK Investor Update Q1 2016 Results

and the RNS published on the 27th of April 2016 http://www.londonstockexchange.com/exchange/news/market-news-detail/84LC/12793766.html

Livi As of 30th of March 2016, Abbey National Treasury Services will still act as Covered Bond Swap Provider to the LLP to hedge certain interest rate, currency and/other risks in respects of amounts received by the LLP under the loans in the portfolio and any relevant Interest Rate Swaps. Currently Abbey National Treasury acts as a Covered Bond Swap provider for the whole programme (except for Series 3, 59, 60 and 61 which are all, or partially, externally hedged)

⁽¹¹⁾ This discount is set to zero while ever the issuer is rated at least BBB+/A-2 by S&P, A2 by Moody's and A/F1 by Fitch and thereafter equals 100% of cleared credit balances with respect to Flexible Plus offset accounts

(12) This discount is set to zero for so long as the issuer is rated at least BBB+/A-2 by S&P, A2 by Moody's and A/F1 by Fitch and thereafter equals 0.85% of the

aggregate outstanding principal balance of the loans in the cover pool

(13) A(a) is calculated as the lower of (i) the current balance of the loan, and (ii) the indexed valuation of the loan multiplied by 0.75 for non-defaulted loans,

0.4 for defaulted loans with iLTV<=75%, 0.25 for defaulted loans with iLTV>75%.

A(b) is calculated as the Asset Percentage multiplied by the lower of (i) the current balance of the loan, and (ii) the indexed valuation of the loan multiplied by 1 for non-defaulted loans, 0.4 for defaulted loans with iLTV<=75%, 0.25 for defaulted loans with iLTV>75%.

⁽⁷⁾ Waterfall Item will debit Revenue/Principal Ledger and credit Payment Ledger on the LLP Payment Date and paid to the relevant counterparty on the relevant Covered Bond, Covered Bond Swap or Loan Purchase Payment Date

⁽⁸⁹⁾ Balance reported as at the Calculation Date pre Revenue and Principal waterfalls. Currently, as per the definition of the Reserve Fund Required Amount, Santander UK plc has directed

the LLP to hold a higher amount by adding a Convexity Adjustment of 25bps to the calculation to reflect the possibility of a rate rise in the future (88) Balance reported as at the Calculation Date pre Revenue and Principal waterfalls.

Programme-Level Characteristics - as at 31-08-23

(17) As of the Feb 2014 the calculation for CPR quarterly average (%) and PPR quarterly average (%) has been amended to the average of the three most recent monthly CPR / PPR. This change aligns reporting between all Santander UK secured funding structures

monthly CPR / PPR. This change aligns reporting between all Santander UK secured funding structures
31 March CPR/PPR excludes a one off repurchase during the Calculation Period

(19) The Constant Default Rate is not applicable to revolving programmes

(19) Following the implementation of it's new Covered Bond Rating Criteria, the "Discontinuity Cap" (or D-cap) is no longer a concept. At the time of this report, the replacement Payment Continuity Uplift on the programme is 9

(20) Source: Moody's performance report dated Sep 2023

(21) Loans bought back by seller: The amount reported is as at the date the loan was bought back

(22) Data is presented on an account level basis

(23) Margins are reported based on the index rate, therefore fixed are reported at the fixed rate, trackers are reported over BBR (5.25%) and variable over SVR (7.50%)

⁽²⁵⁾ Seasoning is the age of the loan at the report date in months based on the main mortgage completion date. Main mortgage completion date means the date the borrower first took out a loan on the secured property. The initial loan may have been repaid and replaced by subsequent lending under the same mortgage.

n-Rating	Trinner	٠

Non-Rating Triggers		
Event	Description of Trigger	Consequence if Trigger Breached
Issuer Event of Default		Covered Bonds will become immediately due and payable against the Issuer and a Notice to Pay will be served on the LLP. Subsequent recoveries from the Issuer are held by the LLP as security and the LLP will then be require to make payments of Guaranteed Amounts in accordance with the original payment schedule.
Interest Rate Shortfall test	The amount of income that the LLP expects to receive in the next LLP Payment Period is insufficient to cover the would be amounts due under the Intercompany Loan and to the Covered Bond Swap Provider(s) and other senior expenses ranking in priority thereto.	Standard variable rate and other discretionary rates and/or margins will be increased.
Asset Coverage Test	On a Calculation Date, the Adjusted Aggregate Loan Amount is less than the Principal Amount Outstanding of Covered Bonds	Breach of Asset Coverage Test not remedied on the next Calculation Date will result in the issuance of a Asset Coverage breach notice and if not rectified by the 3rd calculation date after the issuance of the breach notice an Issuer Event of Default will occur.
LLP Event of Default	Any of the conditions, events or acts provided in Condition 9.2 of the Prospectus—LLP Events of default.	Covered Bonds will become immediately due and payable against the LLP. Security becomes enforceable.
Yield Shortfall Test	Following an Issuer Event of Default, the Loans must yield SONIA plus 0.30%.	Standard variable rate and other discretionary rates and/or margins will be increased.
Amortisation Test	Following a Notice to Pay, the Amortisation Test Aggregate Loan Amount will be in an amount at least equal to the Sterling Equivalent of the aggregate Principal Amount Outstanding of the Covered Bonds.	LLP Event of Default will occur.

Classon

Arrears	For the purposes of the Asset Coverage Test, arrears are calculated in accordance with standard market practice in the UK. A mortgage is identified as being in arrears when, on any due date, the overdue amounts which were due on previous due dates equal, in the aggregate, one or more full monthly payments. In making an arrears determination, the servicer calculates as of the date of determination the difference between the sum of all monthly payments that were due and payable by a borrower on any due date up to that date of determination (less the aggregate amount of all authorised underpayments made by such borrower up to such date of determination) and the sum of all payments actually made by that borrower up to that date of determination. If the result arrived at by dividing that difference (if any) by the amount of the required current monthly payment equals or exceeds 1 the account is deemed to be in arrears. Arrears classification is determined based on the number of equivalent full current monthly payments that have been missed. A borrower that has missed payments that in the aggregate equal or exceeding 2 monthly payments (but for which the aggregate of missed payments) would be classified as being 2 to <3 months in arrears, and so on. An account is treated as being in default if it is 3 or more months in arrears. For the purposes of Investor Reporting, if unpaid at the end of the reporting period, the due amounts which were due on the latest due date are included in the aggregate
Amount / Current Balance (GBP)	In relation to any Loan at any date (the current balance determination date), the aggregate at such date (but avoiding double counting) of: (i) Further Advances; (ii) Capitalised Expenses; (iv) Capitalised Interest; and (v) all expenses, charges, fees, premium or payment due and owing by the Borrower which have not yet been capitalised, in each case relating to such Loan less all prepayments, repayments or payments of any of the foregoing made on or prior to the amount balance determination date; and in relation to any Mortgage Account at the amount balance determination date, the aggregate at such date of the Amount balance in respect of each Loan comprised in the relevant Mortgage Account
Default	Default is defined as a property having been taken into possession.
