A mortgage is identified as being in arrears when, on any due date, the overdue amounts which were due on previous due on previous due dates equal, in the aggregate, one or more full monthly payments. In making an arrears determination, the servicer calculates as of the date of determination (less the aggregate amount of all authorised underpayments made by your borrower up to such date of determination) and the sum of all payments actually made by that borrower up to that date of determination) and the sum of all payments actually made by that borrower up to that date of determination) and the sum of all payments actually made by that borrower up to that date of determination.
