(1) On 23rd June 2015 the Master Definitions and Construction Agreement definitions of 'Calculation Date' and 'Calculation Period' were amended.

The 'Calculation Date' was amended from the third London Business Day prior to each LLP Payment Date to the first London Business Day. The 'Calculation Period' was amended to the period from (and including) the first calendar day of each calendar month to (but excluding) the first calendar day of the next following calendar month.

¹⁹ There are no minimum rating requirements on the issuer, although its ratings are linked to certain programme triggers - see the Programme Triggers section.
¹⁹ The interest rate swap notional is the sum of all interest rate swap notionals as at the start of the Calculation Period. Note that under an Amendment Agreement dated 24 December 2012, the interest rate swap.

may be consolidated into one "cover pool swap" at a future date, at the LLP's election. (4) LLP receive/pay margins are an average across all interest rate swaps

(6) For triggers relating to the swap providers on the cover pool the rating trigger disclosed is the next trigger point - there may be subsequent triggers and these are detailed in the relevant swap agreement. For triggers

** For tragers relating to the swap provides on the cover poor the rating trager disclosed is the next trager point - there may be subsequent tragers and these are detailed in the relevant swap agreement. For tragers relating to the covered bod swapes, see table "Proceeding to the covered bod swapes, see table" Proceeding to the covered bod swapes, see table "Proceeding to the cover do not swapes" and the ring-fence planning, we have commenced the realignment of the wholesale funding structure of our operating companies, Santander UK pic and Abbey National Treasury Services pic (ANTS). As a consequence, as of 1st Lune 16, Santander UK pic wells some the issuer in respect of the outstanding notes which were issued by ANTS under the swhotesale funding programmes and some standardone securities. Please see additional information published in Santander UK Investor Update Q1 2016 Results <a href="http://www.santander.co.uk/uk/about-santander-uk/investor-relations/santander-uk/i

and the RNS published on the 27th of April 2016 http://www.londonstockexchange.com/exchange/news/market-news-detail/84LC/12793766.html

Abbey National Treasury Services will still act as Covered Bond Swap Provider to the LLP to hedge certain interest rate, currency and/other risks in respects of amounts received by the LLP under the loans in the portfolio and any relevant Interest Rate Swaps. Currently Abbey National Treasury acts as a Covered Bond Swap provider for the whole programme (except for Series 3, 59, 60 and 61 which are all, or partially, externally hedged)

⁽²⁹⁾ Seasoning is the age of the loan at the report date in months based on the main mortgage completion date. Main mortgage completion date means the date the borrower first took out a loan on the secured property. The initial loan may have been repaid and replaced by subsequent lending under the same mortgage.
