COLLATERAL

Note Collateral Postings Counterparty

There were no collateral posted during the Reporting Period 01-January-13 to 31-January-13

TRIGGER EVENTS			
Asset Amount debited to AAA principal deficiency sub ledger (Funding programme notes outstanding).	None		
Non Asset Insolvency event occurs in relation to Seller. Seller's role as servicer terminated & new servicer appointed within 60 days. The then current Seller Share is less than the minimum sellers share.	None None None		
An arrears trigger event will occur if:			
(i) the outstanding principal balance of the loans in arrears for more than 90 days divided by the outstanding principal balance of all of the loans in the mortgages trust (expressed as a percentage) exceeds 2 per cent. Or	Triggered		
(ii) the issuer does not exercise its option to redeem the issuing entity notes on the relevant step-up date pursuant to the terms and conditions of the issuing entity notes (but only where such right of redemption arises on or after a particular specified date and not as a result of the occurrence of any event specified in the terms and conditions of the relevant issuing entity notes)	None		
Full details of all trigger events can be found within the Holmes Master Issuer plc offering circular			

#### Notes

### 1 Weighted Average Indexed LTV (Halifax HPI)

These figures have been calculated on a new and improved valuation basis as per the Special Schedule issued along with the February, 2009 report. The latest AVM update was run in Q4 2013

2 Arrears

This arrears multiplier is calculated as the arrears amount ( which is the difference between the expected monthly repayments and the amount that has actually been paid, i.e. a total of under and/or over payments ) divided by the monthly amount repayable. It is recalculated every time the arrears amount changes, i.e. on the date when a payment is due.

3 Defaults

For the purpose of the Bank of England Market Notice dated 30 November 2010 "defaults" is defined as properties having been taken into possession. 4 CPR

The splits between scheduled and unscheduled principal receipts for a given month are derived from a forecast of scheduled principal receipts from the earlier month and therefore may not necessarily equal the actual amount of scheduled principal receipts during the period. For a period in which a trust replenishment occurs, a straight-lining method is used to estimate the scheduled principal receipts received on the replenished pool for the remainder of the month.

Breach of Mortgage Sale Agreement

### 9 AA

Reward Loans Cashbacks

10 Excess Spread calculation

Excess spread is calculated by dividing (excess cash available for payment below the reserve fund in the reserve waterfall) by (the funding share.)
