Understanding your balance

In Online Banking, and in the Mobile Banking app you may see up to three balances – a Current Balance, Balance Including Pending and Overdraft Remaining and these may be different.

Balance including pending – This is your current balance including any payments due to come out of your account. This does not include your arranged overdraft limit.

Overdraft remaining – This is the amount of arranged overdraft you have available to use. If you don't have an arranged overdraft limit in place, you won't see this.

Debit card purchases

Your Balance Including Pending takes into account your recent debit card payments before the money is taken from your account. We reduce the available funds in your bank account by the amount of the transaction to prevent you from spending the money twice. When the seller then requests the payment, normally within a few days, it'll be reflected on your Current Balance once the money leaves your account.

On occasions where the request for payment takes longer, charges may be applied to your account if your balance no longer has sufficient funds to cover the transaction at the time the seller decides to withdraw the money.

Paying in cash

If you pay in cash over the counter at a Santander branch or at a cash machine, it will show in all of your balances straightaway.

Paying in cheques in branch

Your Current Balance will be adjusted immediately, but your Balance Including Pending and Overdraft Remaining will only be adjusted when the money is available to spend.

Cheques you've written

When the recipient bank has processed the cheque, all of your balances will be adjusted simultaneously.

Payments to and from your current account

Some transactions and payments don't always happen instantly and may not clear for a number of days. The table below shows the timescales you can expect for different types of transactions to be fully processed and show on all balances:

Transaction	Timescales
Cheques in	Up to 2 working days*
Cheques out	This depends on when the recipient bank processes the cheque
Card payments	Up to 4 working days
Direct Debit	Straightaway on the day the transaction is scheduled
Standing order	Straightaway on the day the transaction is scheduled
Faster payment	Usually in a matter of hours

* Cheques may be returned unpaid. Please see your Terms and Conditions for more details.

Tips for managing your finances

Make sure you keep track of your balance regularly to see when transactions have cleared. See page 4 for tools to help you do this.

Personal overdrafts explained

An overdraft can give you a bit of extra money for unexpected times. However, it's important to remember that we charge you to use it.

Here's an example of how it works for a customer with a £1,000 Arranged Overdraft (your specific fees/interest may vary)

(your specific fees/interest may vary)

Overdraft interest and charges			
	In credit	This is when your balance is over zero and you have money in your account that is available to spend.	→ You won't incur any overdraft interest.
	Arranged overdraft	This is when your balance is below zero but within your arranged limit. You must agree the limit with us before it is available to use. (If you don't have an Arranged Overdraft you will go straight into your Unarranged Overdraft.)	→ We'll charge Arranged Overdraft interest on our current accounts.
	Unarranged overdraft	This is when a transaction that you've made, or fees/interest have debited your account, that have taken you beyond your Arranged Overdraft limit or below zero without an Arranged Overdraft in place.	→ We won't charge you any Unarranged Overdraft interest for going into an unarranged position.

Did you know?

Avoiding fees: You can avoid overdraft charges by paying in funds to your account on the day you went overdrawn, as long as the payment is received before the cut-off time on that day.

Free Account Alerts: We will automatically send you an Account Alert to warn you when you don't have enough money in your account to cover a payment. This will give you a chance to put money in your account before the cut-off time and avoid the charges. For more information, see page 5.

Free text alerts to keep you informed

Set up free text message and email alerts to help keep track of your money. Visit **santander.co.uk/alerts** for more information.

1 News and information: You'll find important information about your current account here and you should make sure you read this every month.

2 Balance brought forward: This is your balance at the start of the monthly statement period.

3 Balance at close of business: This is your balance at the end of the monthly statement period. It includes all your cleared transactions from the month, as well as any overdraft charges you were notified of in the previous monthly statement period.

4 Interest and charges: At the end of the monthly statement period we calculate all the interest and charges you've incurred. If you are charged overdraft interest, we won't take this from your account for 22 days from the end date of the statement period in which we told you about the charges. In the example above, the amount shown for Arranged Overdraft interest is the total for all days the customer used their Arranged Overdraft.

- Your credit limit** is the maximum amount you can currently borrow on your credit card.
- Available to spend:** This is the amount of credit you have left when your payments are taken from your credit limit. Payments can take a couple of days to show on your account so your available to spend may be lower than we show you.
- Payment due date:** This is the date your payment is due.
- Minimum payment:** This is the minimum amount you must repay before the date shown. It's important to pay this before the date to avoid any fees for late payments.

An example of your Transaction Details when you incur default charges:

Please note, this is an example statement and does not contain real customer information.

- Late payment fee:** If you don't pay us by the payment due date on your statement, or don't pay at all, we'll charge you a late payment fee.
- Over limit fee:** A fee charged when you've spent more than your credit limit.
- Payment returned fee:** We'll charge you this fee if your payment to pay off your outstanding balance doesn't go through, for example if your cheque bounces or the Direct Debit doesn't get paid.

Please note: When you are charged a Default Fee, you will also receive a 'Notice of Default Sum' statement. This is in compliance with the Consumer Credit Act 1974.

Managing your payments on your credit card

The best way to stay in control of your credit card payments is to set up a Direct Debit. You can choose to set up your Direct Debit through Online Banking, visiting a Santander branch or by contacting our customer services team on **0800 9 123 123**.

You have a choice of options in terms of how much you pay each month. You can pay:

- The full balance;
- The minimum monthly payment or fixed amount of your choice.

Regularly making only the minimum payment increases the overall cost of borrowing and means it will take you longer to pay off your balance.

You'll pay your balance off more quickly if you set up a monthly fixed payment that is the same as your **current** minimum payment because your payments will remain fixed while your minimum payment will reduce. If you can afford it, you'll clear your balance even quicker if you set up a fixed payment that is **higher** than your current minimum payment.

The above diagram is for illustrative purposes only and assumes no further spend on the credit card.

You'll be able to find more information online with our guide explaining 'important ways in which a credit card works'. This can help you understand how to use the features and benefits of your credit card and how payments are applied to your account.
