Santander UK and Santander caution that this presentation may contain forward-looking statements. Words such as 'believes', 'anticipates', 'expects', 'intends', 'aims', 'plans', 'targets' and similar expressions are intended to identify forward-looking statements, but are not the exclusive means of identifying such statements. By their very nature, forward-looking statements are not statements of historical or current facts; they cannot be objectively verified, are speculative and involve inherent risks and uncertainties, both general and specific, and risks exist that the predictions, forecasts, projections and other forward-looking statements will not be achieved. Forward-looking statements speak only as of the date on which they are made and are based on the knowledge, information available and views taken on the date on which they are made; such knowledge, information and views may change at any time. Santander UK and Santander also caution recipients of this Presentation that a number of important factors could cause actual results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements. Some of these factors are identified on page 259 of the Santander UK Group Holdings plc 2017 Annual Report. Investors and recipients of this Presentation should carefully consider such risk factors and other uncertainties and events. Undue reliance should not be placed on forward-looking statements when making decisions with respect to Santander UK, Santander UK plc and/or their securities. Nothing in this presentation should be construed as a profit forecast.

Statements as to historical performance, historical share price or financial accretion are not intended to indicate or mean that future performance, future share price or future earnings (including earnings per share) for any period will necessarily match or exceed those of any prior year or period. This presentation reflects prevailing conditions as at the indicated date, all of which are subject to change or amendment without notice. The future delivery of any amended information neither implies that the information (whether amended or not) contained in this presentation is correct as of any time subsequent to its date nor that Santander UK or Santander are under an obligation to provide such amended information.

No representation or warranty of any kind is made with respect to the accuracy, reliability or completeness of any information, opinion or forward-looking statement, any assumptions underlying them, the description of future operations or the amount of any future income or loss contained in this presentation or in any other written or oral information made or to be made available to any interested party or its advisers by Santander UK or Santander's advisers, officers, employees or agents. It does not purport to be comprehensive and has not been independently verified. Any prospective investor should conduct their own due diligence on the accuracy of the information contained in this presentation.

Santander UK is a frequent issuer in the debt capital markets and regularly meets with investors via formal roadshows and other ad hoc meetings. Lending to UK companies⁴ (£bn)

1. Excludes structured finance, product and international relationship managers | 2. Santander UK analysis, as at Q118. Commercial lending refers to loans to small and mid sized corporate clients by UK retail and commercial banks and building societies | 3. Market source: CACI's CSDB, Stock, Volume data as at December 2013 and December 2017 | 4. Market source: Bank of England Bankstats (February 2018), Private Non-Financial Companies (PNFCs). Data as at December 2013 and December 2017

On track to implement 'wide' ring-fence structure

- Majority of customer assets and liabilities will remain within the ring-fenced bank
- No impact on retail customers in the UK
- Credit ratings remaining unchanged from implementation

Outlook and UK economy

Expect the UK economy to grow in 2018, at a similar pace to 2017

2018 outlook

- Banking NIM is expected to be lower than in 2017
- Our gross mortgage lending is expected to be in line with the market
- We expect our lending to UK companies to be broadly consistent with overall corporate borrowing growth
- We will continue to invest in strategic projects, which will improve our customer experience and deliver operational efficiencies. We expect costs for 2018 to be higher than in 2017 but with targeted actions and cost discipline, we will look to partially offset rising regulatory, risk and control costs and inflationary pressures
- We will continue to purposefully control growth in line with our proactive risk management policies and medium-low risk profile

Consistently profitable, sustainable business

Consistently profitable with a strong balance sheet

Profit before tax (£m)

RoTE

- A track record of 10 years profitability
- 50% annual dividend payout
- Good credit quality with a predictable medium-low risk profile
- Q118 RoTE and profit before tax were impacted by lower operating income, higher operating expenses and impairment charges in Global Corporate Banking
- With ongoing investment in business transformation and growth initiatives and our relentless focus on cost management, we expect to deliver on the majority of our 2016-18 commitments, as previously guided

Competitive pressure impacting operating income

Total operating income (£m)

Banking NIM¹

- Net interest income in Q118 was down 4%, driven by pressure on new mortgage margins and SVR attrition, partially offset by strong lending volumes
- The Banking NIM of 1.83% was unchanged from Q417 with Retail Banking liability margin improvement offset by SVR attrition
- Non-interest income was down 8%, with lower security financing income in GCB and mark-to-market movements on economic hedges and hedge inefficiencies offsetting increases in Retail Banking and Commercial Banking

Market average 2 year fixed mortgage price in 2017 was c.25bps lower than what was seen in 2016²

Cost discipline is an ongoing area of focus

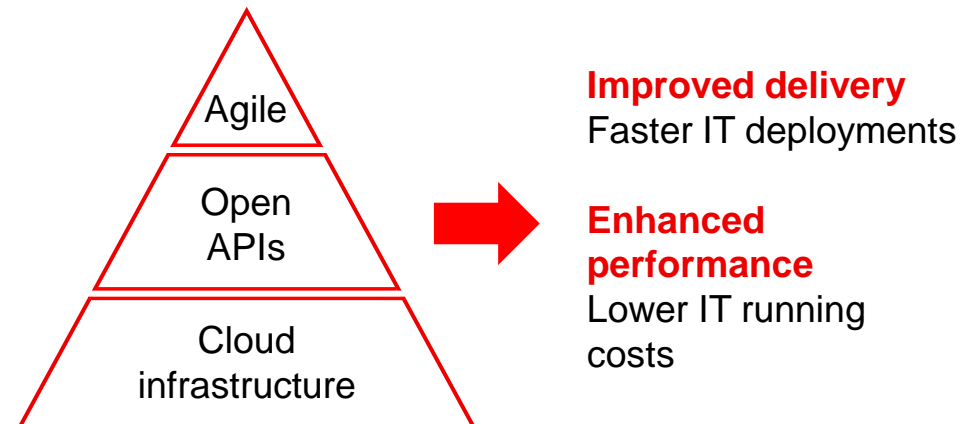

Operating expenses (£m)

Cost-to-income ratio

- We are making progress with our strategic and digital investments to further improve customer experience and operational efficiency
- Regulatory, risk and control costs have increased with a number of major projects due for implementation in 2018
- CIR increased to 56% in Q118, as income pressure and increased regulatory costs continued to offset embedded cost savings

Includes issuances from Santander Consumer Finance UK and associated joint ventures | 3. Mortgage encumbrance includes all mortgages assigned to Fosse, Holmes, Langton and covered bond programmes

Ongoing capital build-out and resilience

CET1 (%) and Risk-weighted assets (£bn)

UK leverage ratio

Total Capital Ratio

AT1 distributions relative to profit (£m)

- Significant profits to cover AT1 distributions

1. Dec16, Dec17 and Mar18 leverage ratios were calculated applying the amended definition, as per Jul16 PRA statement

Meeting evolving capital requirements

Significant buffer to thresholds

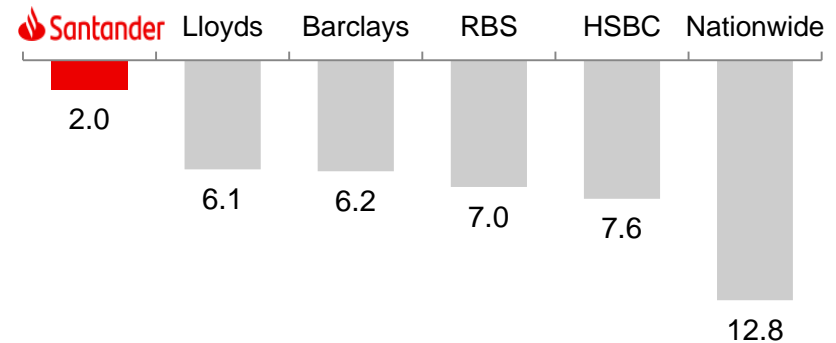

Evolving CET1 requirements

- It is our current intention to target a CET1 management buffer that is of sufficient size to absorb changes in the regulatory minimum requirement (e.g. application of any dynamic CCyB buffer) and market volatility

2017 PRA Stress Test – CET1 drawdown

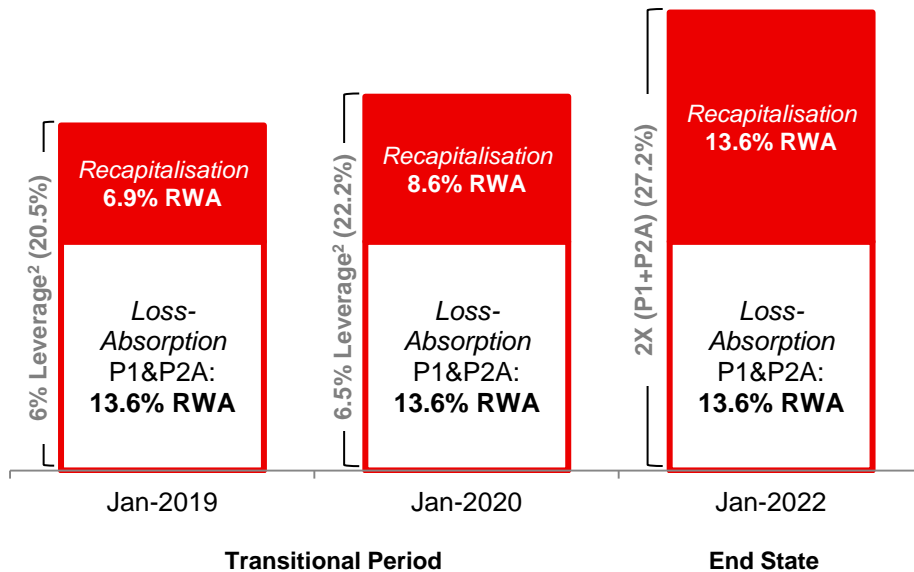

- Most resilient of UK banks, underlines the quality and strength of our UK-based balance sheet as well as our strong risk management practices

1. The current applicable UK CCyB rate is 0%, this is scheduled to increase to 0.5% from June 2018 and 1.0% from November. Santander UK's current geographical allocation of the CCyB is 90%. | 2. Santander UK's Pillar 2 CET1 requirement was 3.1% as at 31 March 2018, Pillar 2A guidance is a point in time assessment | 3. Distribution restrictions would be expected to apply if Santander UK's CET1 ratio would fall between current Regulatory Minimum Capital level, equal to CRD IV 4.5% minimum plus Pillar 2A 3.1% and the Capital Conservation Buffer of 1.875% | 4. Permanent write down

Major progress to meet recapitalisation MREL requirements

HoldCo MREL requirement¹

MREL recapitalisation^{2,3}

- Santander UK indicative MREL excluding CRD IV buffer is currently expected to be 27.2% of RWAs from 1 January 2022

- MREL requirements are driven by leverage in 2019, the driver changes to the RWA measure from 2020
- It is our intention to have an MREL recapitalisation management buffer in excess of the value of HoldCo senior unsecured paper that is due to become MREL ineligible over the following 6 months

1. In March 2017 the Bank of England (BOE) confirmed Santander UK's non-binding indicative MREL requirements. The requirements over and above regulatory capital start in 2019, step up in 2020 and became fully implemented in 2022 | 2. Assumes Pillar 2A requirement remains at 5.6% | 3. Calculated using RWA and UK leverage exposure as at 31 March 2018 | 4. Meeting MREL eligibility criteria and exchange rates as of 31 March 2018
